GENERAL REGULATIONS OF THE INVITATION TO TENDER

A-GENERALITIES

Article 01: SCOPE OF THE INVITATION TO TENDER

- (a) **CONTRACTING AUTHORITY** as defined in the Special Regulations of the invitation to tender ("RPAO") is the Mayor of the Benakuma council who shall be in charge of launching of the tender files. The name, the reference number and the number of lots contained in the invitation to tenders are found in the Special Regulations of the invitation to tender.
- (b) **SUCCESSFUL BIDDER** shall be the company to which the contract shall be awarded. This company shall have to execute and finish the tasks defined in the Special Regulations of the invitation to tender within the deadline spelled out in the service order notifying when to start execution, except modified by the Special Administrative conditions ("CCAP") of the invitation to tender.
- (c) **DAY** in this tender file shall mean a **calendar day**.

Article 02: FINANCING

The source of funding for the project shall be contained in the financial documents and shall bear specifications of funding as shall be spelled out in the Special Tender Regulations.

Article 03: FRAUD AND CORRUPTION

The Contracting Authority requires of bidders and contractors the strict respect of rules of professional ethics during the award and execution of the contract to be established. By virtue of this principle:

a) The following definitions shall be admitted:

- i) Shall be guilty of "**corruption**" whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;
- ii) Is involved in "**fraudulent manoeuvres**" whoever deforms or distorts facts in order to influence the award or execution of a contract;
- iii) "**Collusive practices**" shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition;
- iv) "**Coercive practices**" shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.

b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.

Remark: The Minister Delegate at the Presidency in charge of Public Contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him.

Article 04: CONDITIONS FOR CANDIDATES TO BE ADMITTED TO COMPETE

Participation in this invitation to tender is open to all registered and qualified enterprises, group of enterprises and Sub-Contractors of the Republic of Cameroon, with the required technical and professional expertise in construction accompanied by the necessary legal and financial autonomy and must not have been excluded from bidding for public contracts as well as managed according to commercial laws and not under the direct supervisory authority of the Contracting Authority or Project

Owner. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must not be in a situation of conflict of interest, subject to disqualification. A potential bidder shall be judged to be in a situation of conflict of interest and considered not eligible if he:-

- (a) is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts awarded for this Invitation To Tender.
- (b) presents more than one bid within the context of Invitation To Tender, except authorised variants, where need be; meanwhile, this does not prevent the participation of sub-contractors in more than one bid.
- (c) and the Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts

Article 05: ORIGINS OF MATERIAL, SUPPLIES, EQUIPMENT AND AUTHORIZED SERVICES

The origin for these resources must be in countries fulfilling the criteria defined in the Special Regulations of the invitation to tender. Origin in this invitation to tender means the place from where the resource is extracted, cultivated, produced or fabricated and from where comes the services.

Article 06: QUALIFICATION OF BIDDERS

- (a) As an integral part of their bid, bidders must:
 - (i) Submit a power of attorney making the signatory of the bid bound by the bid; and
 - (ii) Provide all information (complete or update information included in their request for pre-qualification which may have changed in the case where the candidates took part in pre-qualification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- The production of certified balance sheets and recent turnovers
 - Access to a line of credit or availability of other financial resources
 - Orders acquired and contracts awarded
 - Pending litigations
 - Availability of indispensable equipment
- (b) Bids presented by two or more-associated undertakings (joint-contracting) must satisfy the following conditions:-
 - The bid must include all the information listed in paragraph 1 above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group
 - The bid and the contract must be signed in a way that is binding on all members of the group
 - The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form
 - The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the contract
 - In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting
 - (c) Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender

Article 07: SITE VISIT

It is advisable to potential bidders to visit the project site and its environ and rate the availability of resources and get all the information about the site before preparation of their offers. The Project Owner shall authorise the bidder and his employees or agents to enter the premises and the land for the said visit

but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from the visit. The Project Owner may organise a visit of the project site during the preparatory meeting for the building of offers.

B-TENDERS FILE

Article 08: CONTENT OF THE TENDER FILE

The Tenders File describes the tasks to be accomplished in the contract, fixes the procedures of consultation of entrepreneurs and precise the conditions of the contract and conditions surrounding any modification of the Tenders File. The principal documents that must be in the Tenders File include:-

- (a) Document N° 1- Tender Notice ("*AAO*")

Article 09: CLARIFICATIONS ON THE TENDER FILE

Request for clarifications may be addressed by letter, electronic mail (telecopier or email) or fax to the Contracting Authority at the following address:

THE MAYOR OF BENAKUMA COUNCIL

NB: -A copy of this request must be given to the Project Owner and the Contracting Authority is bound to respond to the request at least fourteen (14) days for National Invitations and at least twenty one (21) days for International Invitations before the day of opening, copying all the companies that purchased the tenders file.

-Any potential bidder whose find himself cheated in the award procedure can petition to the Minister of Public Contracts

-Any other preoccupation can be addressed to the Contracting Authority copying the Regulatory Organ for Public Contracts and the President of the Tenders Board. The Contracting Authority has five (05) days to react with copy of the reaction sent to the Minister in charge of Public Contracts and the Regulatory Organ of Public Contracts.

Article 10: AMENDMENT OF THE TENDERS FILE (ADDENDUM TO THE TENDER FILE)

The Contracting Authority may at any moment, prior to the deadline for the submission of bids and for any reason, be it at his initiative or in reply to a request for clarification formulated by a bidder, amend the Tender File by publishing an addendum while publishing the amendment which now constitutes the integral part of the tenders file and must be communicated to all the companies that purchased the tenders file. Hence to give room for bidders to prepare their offers the Contracting Authority may postpone the deadline of submission as long as he deems necessary

C-PREPARATION OF BIDS

Article 11: TENDER FEES

Each bidder shall be responsible for all charges related to the preparation and presentation of offers. The Contracting Authority and the Project Owner shall in no way be responsible for these charges or try to regularise a situation involved in the preparation of offers by a bidder.

Article 12: LANGUAGE OF THE BIDS

Offers and all correspondences exchanged between the Bidder and Contracting Authority shall be written in English and French. However complementary documents may be in any other language provided they are accompanied by précised translation into English or French, in which case at the end of the interpretation the translation is valid.

Article 13: PRESENTATION AND CONTENT OF BIDS

Each bid shall include three envelopes, A, B and C labelled as follows:-

ENVELOPE«..... DOCUMENTS»
NAME AND ADDRESS OF THE BIDDER
OPEN NATIONAL INVITATION TO TENDER BY NORMAL PROCEDURE
N^o 002 / ONIT/MINDDEVEL/BC/BCITB/MAYOR/DD/MCH/ 2019 OF 3 APR 2019

THE CONSTRUCTION OF A BRIDGE OF 12M OVER RIVER MUFE GHE, MENCHUM VALLEY SUB-DIVISION, MENCHUMEN DIVISION IN THE NORTH-WEST REGION

"To be opened only during the bid opening session of the Tenders Board"

Hence, bid presented by the bidder shall include the documents detailed in the Special Regulations of the invitation to tender, duly filled and put together in three envelopes:-

a. Envelop A: Administrative file shall include:-

- i) all documents attesting that the bidder:
 - has subscribed to all declarations provided for by the laws and regulations in force;
 - paid all taxes, duties, contributions, fees or deductions of whatever nature;
 - is not winding up or bankrupt;
 - is not the subject of an exclusion order or forfeiture provided for by the law in force;
- ii) the bid bond established in accordance with the provisions of the General Regulations of the invitation to tender;
- iii) the written confirmation empowering the signatory of the bid to commit the bidder, in accordance with the provisions of the General Regulations of invitation to tender.

b. Envelop B: Technical bid shall include:-

- (i) *Information on qualification-* The Special Regulations list the documents to be furnished by bidders to justify the qualification criteria mentioned in the Special Regulations of the invitation to tender
- (ii) *Methodology-* The Special Conditions of the invitation to tender specify the constituent elements of the technical bid of the bidders especially: a methodological statement on an analysis of the works and specifying the organisation and programme which the bidder intends to put in place or use to execute the works (installations, schedule, Quality Assurance Plan (QAP), sub-contracting, attestation of visit of the site, where necessary, etc
- (iii) *Proof of acceptance of conditions of the contract-* The bidder shall submit duly initialled copies of the Special Administrative Conditions (SAC) and Special Technical Conditions (STC) relating to the contract..
- (iv) *Commentaries (optional)-* commentary on the technical choices of the project and possible proposals

c. Envelop C: Financial bid:

The Special Regulations specify the elements that will help in justifying the cost of the works, namely:

- (i) The signed and dated original bid prepared according to the attached model, stamped at the prevailing rate.

- (ii) The duly filled Unit Price schedule
- (iii) The duly filled detailed estimates
- (iv) The sub-details of prices and/or breakdown of all-in prices
- (v) The projected schedule of payments, where need be

In this regard, the bidders will use the documents and models provided in the Tender File, subject to the provisions of the General Regulations of the invitation to tender concerning the other possible forms of guarantees.

Remark: If in accordance with the provisions of the Special Regulations of the invitation to tender, the bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot.

The three envelopes (A, B & C) shall be sealed in a large anonymous external envelope addressed to the Contracting Authority as follows:

**THE CONTRACTING AUTHORITY
THE MAYOR OF BENAKUMA COUNCIL**

**OPEN NATIONAL INVITATION TO TENDER BY NORMAL PROCEDURE
N^o 002/ONIT/MINDDEVEL/BC/BCITB/MAYOR/DD/MCH/ 2019 OF 3 APR 2019**

**THE CONSTRUCTION OF A BRIDGE OF 9M OVER RIVER MUFEHGE, MENCHUM
VALLEY SUB-DIVISION, MENCHUM DIVISION IN THE NORTH-WEST REGION.**

"To be opened only during the bids opening session of the Tenders Board"

Note should be taken that:-

- (a) *Envelopes bearing any other inscriptions shall be simply rejected*
- (b) *The Contracting Authority bears no responsibility for any missing document and/or premature opening of offers if the external envelope is submitted not sealed by the bidder.*
- (c) *During calculation of prices:*
 - *The amount shall be calculated on the bases of variable prices. The bidder shall fill, in letters and in figures, the unit prices in the price enclosure slip and the unit prices are to be multiplied by the quantities given in order to obtain the amount of his offer for each item.*
 - *The bidder shall express the prices in the Price Elaboration Schedule (PES) and Bill of quantities and cost estimates (BQCE) in francs CFA excluding taxes before adding the taxes to the BQCE only. The prices on the PES shall have priority over those of the BQCE and PE. They shall serve as the bases of calculation of the bidding amount.*
 - *The eventual calculation errors shall be corrected by the Committee for Analysis and the amount altered if necessary without any complaints from the bidder.*
 - *A unit price which shall be the price of an element of a good or service, of a type or an item of work, the quantities of which are estimates in the contract shall be calculated in Francs CFA and furnished in figures and in words without taxes, while the total amount shall be calculated without taxes and then with taxes according to the BQCE. The currency that shall be used for payment shall be the FCFA*
 - *As this invitation to tender will consist of a contract whose duration of execution is not more than one (01) year, it shall not be subject to price revision.*
 - *It shall be forbidden to introduce a price revision clause by way of additional clause in the contract awarded on the basis of a firm price.*

Article 14: AMOUNT OF THE BID

Except otherwise stated in the Tender File, the amount of the contract shall cover all the tasks described in the General Regulations of the invitation to tender, on the basis of the price schedule and the detailed bill of quantities and estimates presented by the bidder. Hence:-

- (a) The bidder shall fill the unit prices and totals of all items on the schedule and bill of quantities and estimates.
- (b) Subject to contrary provisions provided for in the Special Regulations and in the Special Administrative Conditions, all dues, taxes and fees payable by the bidder on grounds of the contract or on any other ground, thirty (30) days prior to the submission of the bids, shall be included in the prices and in the total amount of the bid presented by the bidder.
- (c) If a price revision/updating clause is provided for in the contract, the date of establishment of the initial price, as well as the price revision/updating conditions for the said price must be specified. This is with the understanding that any contract of duration less than one (1) year shall not be subject to price revision.
- (d) All unit prices must be justified by sub-details established in accordance with the structure proposed in document 8 of the Tenders file.

Article 15: CURRENCY OF BID AND PAYMENT

Offers must be in the prevailing currency of the country where the Contracting Authority is based otherwise must be prove of conversion in an annex.

Article 16: VALIDITY OF BID

Offers shall be valid within the period specified in the Special Tender Regulation and shall be fixed by the Contracting Authority, counting from the date of submission of offers. Offers whose period of validity will be too short shall be considered not being in compliance (rejected) and prolongation of the validity period by a bidder without prior authorisation from the Contracting Authority on request from the bidder shall be rejected.

Remarks:

-Under exceptional circumstances, the Contracting Authority may seek the approval of bidders to extend the validity time-limit. The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.

-Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than sixty (60) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders.

The updating period shall run from the date of overrun of sixty (60) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

Article 17: BID BOND

The amount of the bid bond shall be as specified in these General Tender Regulations and must be of the model presented in the tender file or otherwise any other model must have been authorized by the Contracting Authority before use. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of these General Regulations. Hence:-

- (a) Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and mention each member of the associated grouping.
- (b) The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.
- (c) The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.

(d) The bid bond may be seized:

(i) if the bidder withdraws his bid during the period of validity;

(ii) if the retained bidder:

- fails in his obligation to register the contract in application of article 38 of the General Regulations;
- fails in his obligation to furnish the required final bond in application of the General Regulations
- refuses to receive notification of the Administrative Order to commence execution.

Article 18: VARYING PROPOSALS BY BIDDERS

Where the tasks can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.

Except in the case mentioned in the paragraph below, bidders wishing to offer technical variants must first assess the basic solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed construction methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the basic solution has been evaluated as the lowest bid.

When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the tasks, these parts of the tasks must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of the General Regulations.

Article 19: PREPARATORY MEETING TO THE ESTABLISHMENT

Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations. The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.

As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting. The Contracting Authority may not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in the paragraph below.

The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of the General Regulations and not through the minutes of the preparatory meeting.

The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: FORM AND SIGNATURE OF BIDS

Each offer shall be presented in eight (8) copies, that is, **one (01) original** clearly indicated "**ORIGINAL**", and **seven (07) photocopies** bearing "**COPY**". The original must be typed or written with indelible ink and in case of any ambiguities or differences only the original shall be considered authentic. In case of a correction or a page overloaded with information added after, it must be visaed by the signatory (ies) (person or persons mandated to signed for the bidder). The bid shall be bear no modification, suppression or alteration unless such corrections are initialled by the signatory(ies) of the bid.

D-SUBMISSION OF BIDS

Article 21: SEALING AND MARKING OF BIDS

Each bidder shall seal each original and the correspondent copies of the bid in separate envelopes (*called internal envelopes*) by marking on these documents “ORIGINAL” and “COPY”, as the case may be. The envelopes shall then be put in another envelope (*called external envelope*) which shall equally be sealed but which shall not give any indication regarding the identity of the bidder. The external and internal envelopes:

- a) should be addressed to the Contracting Authority at the address indicated in the Special Regulations;
- b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription “**TO BE OPENED ONLY DURING THE BIDS-OPENING SESSION**” as specified in the Special Regulations.

The internal envelopes on the other hand, should equally carry the name and address of the bidder to enable the Contracting Authority return the sealed bid if it is late in accordance with the General Regulations.

Remark: If the external envelope is not sealed and marked as indicated in Article 21 here above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: DATE AND TIME LIMIT FOR SUBMISSION OF BIDS

Bids bearing the specified address shall be submitted to the Contracting Authority or to the Service of contracts award at the Benakuma council against a duly signed receipt bearing the date and time specified in the Special Tender Regulations. Each bidder after submission shall before departure, ensure that the external envelope (*enclosing envelopes A, B and C*) is stamped and dated. After submission no bid (regularly submitted) shall be withdrawn, supplemented or modified. Hence, in the case where the envelope shall not be sealed or without the appropriate inscriptions on it, the administration shall decline all responsibilities for misdirection or premature opening. Any bid opened prematurely shall be rejected and returned to the bidder.

Hence all documents submitted by a bidder in any capacity, following this open national invitation to tender, must be established exclusively:

- In English or French language,
- Using the metric system for quantities,
- Expressing all costs (prices) in francs FCFA.

Article 23: OUT OF TIME-LIMIT BIDS

After the specified deadline, any bid shall be declared late and rejected.

Article 24: MODIFICATION, SUBSTITUTION AND WITHDRAWAL OF BIDS

The said notification must be signed by an authorised representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription “WITHDRAWAL”, and “REPLACEMENT BID” or “MODIFICATION”. Hence:-

- (a) Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.
- (b) In application of paragraph 1, bids being requested to be withdrawn by bidders shall be returned to them unopened.
- (c) No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The notification must be signed by the person mandated to sign for the bidder. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription **"WITHDRAWAL"** and **"REPLACEMENT OFFER"** or **"MODIFICATION"**. The notification of the modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids. Bids being requested to be withdrawn by bidders shall not be opened before returning to them.

NB: - Offers bearing "WITHDRAWAL" and "REPLACEMENT OFFER" or "MODIFICATION" and which shall not be handed back to the bidders shall be transmitted alongside the other offers on the day of opening.

- No bid shall be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond.

E- OPENING AND EVALUATION OF BIDS

Article 25: OPENING OF BIDS AND PETITIONS

Bids shall be opened by the Competent Tenders Board in one phase of two stages (*Stage I and Stage II*) on a date, time and at the venue specified in the Special Tenders Regulations, in the presence of Representatives of the bidders concerned and who wish to attend. Representatives present during the opening shall sign a register or a paper to attest their presence.

Firstly, envelopes marked **"WITHDRAWAL"** shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked **"REPLACEMENT BID"** are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked **"MODIFICATION"** shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. It is important to note that:-

- All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [*in case of opening of financial bids*] and any variant (*where necessary*), the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation. **Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.**
- Offers (and modifications received in accordance with the provisions of the article of the General Regulations) which were not opened and read to the hearing of everyone during the bid-opening session for whatever reason, shall not be submitted for evaluation.
- Bid-opening minutes are recorded on the spot mentioning the admissibility of offers, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the session.
- At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by ARMP an initialled copy of the offers presented by bidders.

→ In case of petition as provided for by the Public Contracts Code, it should be addressed to the Public Contracts Authority with copies being sent to the body in charge of the regulation of public contracts and the Contracting Authority.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

Article 26: CONFIDENTIAL NATURE OF THE PROCEDURE

No information relating to the examination, clarification, evaluation and comparison of offers and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders nor to any person concerned with the said procedure before the announcement of the results. Hence, any attempt by a bidder to influence the committee in charge of evaluation of bids or the Contracting Authority in his award decision may cause the rejection of his offer.

Article 27: CLARIFICATIONS ON THE BIDS AND CONTACT WITH THE CONTRACTING AUTHORITY

To ease the examination, evaluation and comparison of offers, the Chairperson of the Tenders Board may, if he desires, request any bidder to give clarifications on his offer. This request for clarification and the response given are formulated in writing but no change in the amount or content of the offer is allowed, offered or authorised, except it is necessary to confirm the correction of calculation errors discovered by the committee in charge of evaluation during the evaluation in accordance with the provisions of the General Regulations.

Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the committee in charge of evaluation for questions related to their offers, between the opening of envelopes and the award of the contract.

Article 28: DETERMINATION OF COMPLIANCE OF BIDS

An offer that conforms to the Tender File shall essentially be an offer that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:-

- i) which substantially limits the scope, quality or realisation of the works;
- ii) which substantially limits and is not in conformity with the Tender File, the rights of the Contracting Authority or the obligations of the bidder in relation to the contract; or
- iii) Whose correction would unjustly affect the competitiveness of the other bidders who presented offers that essentially conformed to the Tenders File.

If an offer is essentially not in conformity it shall be rejected by the competent Tenders Board and shall not eventually be rendered in conformity.

The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of offers

During evaluation, the committee concerned shall:-

→ Carry out a detailed examination of offers to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the offers are in proper order.

Hence, the committee in charge of evaluation shall:-

→ Determine if the offer is essentially in conformity with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.

→ Ensure that the successful bidder, because having an offer substantially in conformity with the provisions of the Tender File, fulfils the qualification criteria stipulated in Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

→ Verify offers considered essentially in conformity with the Tender File to correct the possible calculation errors.

Article 29: QUALIFICATION OF THE BIDDER

The committee in charge of evaluation shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: CORRECTION OF ERRORS

The committee in charge of evaluation shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. It shall correct the errors in the following manner:

- (a) Where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a **Gross Error** of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected.
- (b) If the total obtained by addition or subtraction of the totals is not exact, the sub totals shall be considered authentic and the total corrected.
- (c) Where there is a difference between the price indicated in letters and in figures, the amount in letters shall be considered authentic, unless the amount is linked to an arithmetical error confirmed by the sub-detail of the said price, in which case the amount in figures shall prevail subject to paragraphs (a) and (b) above.

The amount featuring in the offer shall be corrected by the committee in charge of evaluation, in accordance with the error correction procedure above and with confirmation by the bidder, the said amount shall be deemed to commit him.

If the bidder who presented the lowest bid refuses the correction thus carried out, his offer shall be rejected and the bid bond may be seized.

Article 31: CONVERSION INTO A SINGLE CURRENCY

In case of variation in currencies, the committee in charge of evaluation shall convert the prices of bids expressed in various currencies into those in which the bid is payable. The conversion shall be done using the selling rate fixed by the Bank of Central African States (BEAC) under the conditions defined by the Special Regulations.

Article 32: EVALUATION AND COMPARISON OF FINANCIAL BIDS

Only offers considered as being in conformity as per the provisions of the General Regulations, shall be evaluated and compared by the committee in charge of evaluation. During the evaluation of offers, the committee in charge of evaluation shall determine for each offer the evaluated amount of the offer by rectifying the amount as follows:

- a) By correcting any possible error in accordance with the provisions of the General Regulations;
- b) By excluding projected sums and where necessary provisions for the unforeseen occurrences featuring in the bill of quantities and estimates but by adding the amount of works done under State supervision where they are coated in a competitive manner as specified in the Special Regulations.
- c) By converting into a single currency the amount resulting from the rectifications (a) and (b) above, in accordance with the provisions of the General Regulations;
- d) By appropriately adjusting any other modification, divergence or quantifiable reservation on technical or financial basis.
- e) By taking into consideration the various execution time-limits proposed by the bidders, if they are authorised by the Special Regulations;
- f) If need be, in accordance with the provisions of the General Regulations (GAC) and the Special Regulations (SAC) by applying the rebates offered by the bidder for the award of more than one lot, if this invitation to tender is launched simultaneously for several lots.
- g) If need be, in accordance with the provisions of the Special Regulations and the Technical Specifications, the proposed technical variants, if they are permitted, shall be evaluated according to their own merit and independently of the fact that the bidder offered or not a price for the technical solution specified by the Contracting Authority in the Special Regulations.

If the offer judged the lowest bid is considered abnormally low or strongly unbalanced in relation to the estimates of the Contracting Authority, the Evaluation sub-committee may, from the sub-details of prices furnished by the bidder for any element or all the elements of the bill of quantities and estimates, verify if these prices are compatible with the tasks stipulated and proposed calendar. In the case where the justifications presented by the bidder are not satisfactory it may propose to the Contracting Authority to reject the offer.

As well, the estimated effect of price revision formulae featuring in the GAC and SAC applied during the period of execution of the contract shall not be considered during the evaluation of offers. Hence, the Contracting Authority reserves the right to accept or reject any modification, difference or reservation. The modifications, differences, variants or other factors which exceed the requirements of the tender file are not taken into account during the evaluation of offers.

Article 33: THE RIGHT BY THE CONTRACTING AUTHORITY TO DECLARE AN INVITATION TO TENDER UNSUCCESSFUL OR CANCEL A PROCEDURE

The Contracting Authority reserves the right to cancel a procedure of invitation to tender after the authorisation of the Minister Delegate at the Presidency in charge of Public Contracts when the bids have been opened or to declare an invitation to tender unsuccessful after the advice of the competent Tenders Board, without any claims being entertained.

Article 34: AWARD OF CONTRACT

Within three (3) days maximum as from the date of reception of the award proposal, the Contracting Authority shall decide either to publish the results or request for re-examination. **If the Contracting Authority decides to publish the results, he shall award the contract to the bidder whose bid was judged essentially in compliance with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest** by including, where necessary, proposed rebates, that is, in function of the provisions of the Special Regulations of the invitation to tender, if bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot. In this case, the lowest bid shall be determined by evaluating the offers with other lots to be awarded concurrently, by taking into account the rebates offered by the bidders in the case of more than one lot. Hence, any award of contract shall be made to the bidder fulfilling the technical and financial capacities required resulting from the evaluation criteria and presenting the bid evaluated as the lowest. This is carried out by careful study on the unit prices, the bill of quantities and cost estimates and the sub detail of prices presented to make sure the bidder did study the prices and has not made an arithmetic error to arrive at his final contract amount. As concern the procedure for the award, it shall consist of:-

- * The preparation, thorough verification and awarding of the contract according to the rules and procedures defined by the legislation in force for Public contracts to enable effective execution.
- * The winner shall be notified through his official address or public media. He/she shall in two (02) days fulfil the formalities related to the awards, especially to submit at least five (05) copies of the proposed contract to the office of the Contracting Authority for transmission to the tenders Board for study and observations in order for the final version to be established, into which the winner shall enter and be signed by the Contracting Authority after the finance visa.

NB:

- In the case where the company does not fulfil these conditions, he/she shall be reminded of his/her chance which shall later on be simply annulled without further notice and the next bidder in the ranking shall be called in for replacement.
- Once the Contracting Authority has signed the contract (Jobbing Order), the contractor shall be notified. The contractor shall ensure that he contacts the Project Engineer as soon as possible for the beginning of execution of works within three (03) days to following notification of the Service Order to start work by the Project Owner. Failure to respect the duration shall be considered withdrawal and eventual cancellation of contract. The contract may be cancelled outright in the cases provided for by Decree N^o.:2004/275 of 24th September 2004 to institute the Public Contracts Code.

Article 35: PUBLICATION OF RESULTS OF AWARD AND PETITIONS

The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.

As well, the Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

Remarks:

- (a) After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.
- (b) After publication of the results, the draft contract subscribed by the successful bidder is submitted to the Tenders Board for examination and where applicable, to the Minister in charge of Public Contracts for prior endorsement.
- (c) In case of petition, it should be addressed to the Contracting Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned. **It must take place within a maximum deadline of five (5) working days after the publication of the results.**

Article 36: NOTIFICATION OF AN AWARD OF CONTRACT

Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.

Article 37: SIGNING OF THE CONTRACT

The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception of the draft contract examined by the competent Tenders Board and subscribed by the successful bidder and where applicable, the endorsement as well, the Contracting Authority must be notified the successful bidder of the signed contract within five (5) days of its date of signature.

Article 38: FINAL BOND

Within twenty (20) days from the date of notification of signed contract by the Contracting Authority, the contractor shall furnish him with a final bond, to guarantee the complete execution of the works.

REMARK:

- (a) Bid bond to be released to the Contractor upon a written request addressed to the Contracting Authority can only take place after when the contractor must have proven with attestation for having furnished the Project Owner with a final bond and/or after the start-off advance is refunded.
- (b) The final bond whose rate varies between 2 and 5 percent of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.
- (c) Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first rate financial institution approved in accordance with the instruments in force.
- (d) Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

Article 39: ADDITIONAL INFORMATION

This includes the facts that:-

- Only works and services actually earmarked and executed under the contract shall be paid to the contractor without exceeding the prescribed quantities. Payment shall be done by application of unit prices to the quantities and/or volumes of the tasks executed
- Control and follow-up operations of the project site shall be carried out by the Project Engineer (Divisional Delegate of Public Works for Menchum) in collaboration with the Project Owner and the Service of control at the Council (*Staff of the Control Brigade and other staff as the case may be*). They shall be required to give reports on the tasks executed. The Project Engineer shall prepare payments that shall be VISAED by the Mayor and the final Bills by the divisional Delegate of Public contracts for Menchum and transmitted for payment into an account opened by the contractor to this effect.
- Tasks to be executed are placed under the supervision of the Menchum Project Follow-up Committee.
- Members of the Follow-up Committee may separately visit the site at any stage of the construction works and have access to the entire document pertaining to the follow-up for proper execution of works.

THE MAYOR BENAKUMA COUNCIL

(CONTRACTING AUTHORITY)

- One photocopy to the office of the Chief of Contracts Award (*copy to be given to the CA*)

Article 14: ROLE AND RESPONSIBILITY OF THE CONTRACTOR(ENTREPRENEUR)

The contractor shall provide to the Contracting Authority three (03) original of the registered contract and three (03) photocopies of the registered contract to be distributed as stipulated in Article 13 above and submit a copy each of an original copy to the Project Engineer and Project Owner. The contractor has as mission to assure the execution of tasks under the control of a Project Engineer and in accordance with the rules and norms in force. Hence, the contractor is responsible with regard to the administration, for the organization and the conduct of the site, the quality of the materials and supplies used by him, their perfect adaptation to the needs of the site and the good execution of tasks. Tasks will be executed in accordance with the plans and technical specifications, that is, according to the rules of the art. To this effect, the contractor shall take all measures to provide all necessary means to hire competent staff.

Hence:

*He shall within the thirty(30) days from date of notification of the service order to start work, submit to the Chief of Service of the Contract for approval an execution program otherwise he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness. These penalties shall equally be applied in case of delays after the deadline attributed for corrections to be made on the execution program. As well, these penalties shall be applied on any stakeholder who delays the process of approving the execution program submitted or who carries out abusive rejects of the execution program; In no circumstance shall the execution program be rejected more than two (02) times.

- *He shall fulfil his fiscal duties to the staff deployed for the execution of the tasks and shall put in place an installation and ensure the organization of the site, thereby guaranteeing the security of supplies and people on the site;
- * He shall be held responsible therefore for any damage that may occur on the material and people on the site because of his works until the end of the period of guarantee;
- *The contractor shall be held fully responsible for accidents and damages of all nature that may occur to his staff, third parties, agents of the Project engineer, his material for the realization of the contract arising from this present invitation to tender, during the execution of the tasks;
- *He has the obligation to put back to its original state the surrounding environment damaged during the execution of the project;

NB:

- The contractor remains responsible for the totality of the site including interventions of his accepted Sub-Contractors. It is his responsibility to assure the coordination of the activities of the suppliers, of the Sub-Contractors whose contribution is necessary to him for the different working groups on site.
- Regular site meetings shall be held at the initiative of the Project engineer. The participation of the site Foreman at site meetings shall be obligatory. To this effect, the contractor shall keep a site register that shall be available to the project engineer and contractor's representatives.
- The contractor shall put in place all human and material resources necessary for the execution of works within the prescribed time-limits.

Article 15: INSURANCE AND PROTECTION OF THE SITES

Civil liability

The contractor shall prove that he has taken out an insurance policy for damages of all sorts caused to third parties

- by his personnel,
- by the equipment used;
- Surrounding properties.

Comprehensive risks insurance

In addition, all the works under the project shall be covered by a comprehensive risks insurance issued to the contractor by a company approved by the competent authority.

Within fifteen (15) days as from the date of notification of the contract before the start of execution of works, the contractor shall present to the Chief of Service for the Contract for approval and reporting to the Contracting Authority an attestation from an insurance company attesting to the full payment of premiums and contributions relating to this invitation to tender otherwise all execution activities will be suspended without suspending the execution deadline. After two months from the date of notification of the contract the Contractor has not complied, the contract may be terminated.

Protection of the site

The contractor shall be bound to ensure protection and safe-guarding of his construction site. He shall make sure that the populations stay away from the site, notably by demarcating the site clearly. He shall be held responsible for any accident that may occur on the sites and affecting the populations.

Ten-year guarantee

It shall be managed by the Civil Code.

Article 16: PLANNING OF WORKS AND SUB-CONTRACTING

Within ten days from the date of notification of the service order to begin works, the contractor shall submit to the Project Engineer the program of works (planning) in five copies for approval. The contractor shall constantly update the planning of works, considering the advancement on site. Any

important modifications to this program will only be applied after having received the project engineer's prior agreement. It shall be established every month end at the contractor's diligence and at his expenses, the state of advancement of works to be sent to the administration in seven copies.

The contractor may assign execution of part of the contract to one or several sub-contractors provided he mentioned it clearly in his bids in terms of qualifications, references of the Sub Contractor envisaged and percentage of the initial contract amount and its additional clauses to be sub contracted. All subcontracting to a third party for the execution of a part of the works foreseen in the contract arising from this invitation to tender shall be subordinated to the prior authorization of the Contracting Authority at a maximum of 30% of the initial contract amount and its additional clauses. This authorization shall not free the contractor from any of his contractual obligations. The contractor shall see to it that the sub-contractor is in order with Cameroon's Administration. Sub-contractors shall fulfil the same conditions as the main contractor. Non-compliance with the above provisions shall give rise to termination of the contract. Sub-contractors shall fulfil the same technical and financial conditions with the contractor. They shall execute the works under the sole and full responsibility of the main contractor

Whatever the case, before the Contracting Authority, the contractor shall remain solely responsible for the discharge of the contract as per the contractual obligations.

Remark: Penalties of 1/5000th the initial contract amount shall be applied on any stakeholder who delays from seven (07) days and above the process required to validate the subcontracting.

Article 17: CONSTRUCTION DRAWINGS AND DOCUMENTS

Detailed drawings and other documents necessary for the execution of works shall be down up by the contractor based on the documents of the tender file.

These drawings shall be submitted to the Contracting Authority at least ten (10) days before the start of any work. Designs shall be checked and completed, if necessary, by the contractor who shall then give them to the Contracting Authority at least eight (08) days before the start of works. Within seven (07) days, the Contracting Authority shall make his remarks and observations known to the contractor. After this deadline, the Contracting Authority shall be considered as having given his approval.

The approval of the Contracting Authority shall in no way reduce the responsibility of the Project Engineer for designing and executing the works.

Before the provisional acceptance, the contractor shall furnish to the Project Engineer three (03) copies of the working plans for the works actually done including a clear original copy.

That is, plans of details and other necessary documents for the execution of works will be established by the contractor on the basis of the technical file. Before the final reception, the contractor will hand to the project engineer three (03) copies of the plans of works really executed ("plan de récolement") called as-built-plan with one clear original.

Article 18: EQUIPMENT AND PERSONNEL FOR THE PROJECT

The contractor shall undertake to mobilize the human and material resources necessary for satisfactory execution of works as required by the Special Administrative and Technical Conditions.

Any amendments to this invitation to tender shall be subject to the prior written approval of the Contracting Authority. In case of any replacement of personnel, the contractor shall replace personnel with personnel of at least equal competence (qualifications and experience) or in case of equipment, with of equal performance and in good working condition.

Whatever the case and except in case of force majeure, the contractor shall not replace more than fifty percent (50%) of his personnel without being liable to the procedure for termination of the contract.

If the Project Engineer requests for the replacement of a worker for serious misconduct duly recorded by both parties, the contractor shall immediately replace the said worker at his own expense.

Article 19: REPLACEMENT OF KEY PERSONNEL

The Chief of Service of the Contract shall in collaboration with the Project Engineer verify and be sure that the key personnel (supervisory staff) on the execution site are those mentioned in the bids of the contractor and in case of replacement, the qualities of the personnel proposed shall at least be equal to that of the staff replaced in terms of qualification, experience and competence otherwise such replacement shall attract penalties of 1/5000th the cost of the contract (ATT) independently of the procedure for validation of the new personnel. The unit price of the new personnel shall be more by 25% that of the initial price. However, in case of any accident or illness, the contractor shall immediately replace the personnel in question without delay and inform the Project Engineer, Project Owner and Contracting Authority through the Chief of Service of the contract. The charges emanating from such replacement shall be born by the contractor and shall not interrupt execution. Hence, the above penalties shall not apply for situations of force majeure such as incapacitation of personnel due to accident and death of personnel or in a situation duly recognized by the procedure spelled out in Article 50 of these Administrative Conditions.

Article 20: MODIFICATION TO STRUCTURES

During execution, the Contracting Authority shall reserve the right to bring any changes, suppressions and additions to the structure as well as possible suppressions of some works without financial incidence necessary for the proper execution and successful outcome of works. However, this shall be the subject of additional clauses and shall not entitle the contractor to claim compensations or indemnity whatsoever, apart from those provided for in the Special Administrative Conditions.

Article 21: MATERIALS

The contractor shall, at his own expense, look for extraction sites of materials necessary for the execution of works if it is incumbent on him to supply materials.

The materials shall comply with the Special Technical Conditions. They shall be subject to tests and trials that the Project Engineer may prescribe in accordance with the specifications of the contract.

The contractor's means of control, put in place by him at his own expense, shall enable him to carry out the extraction, preparation or production on site, as well as on the construction site, to ensure constant, regular and permanent control.

Article 22: DEMOLITION OF FAULTY STRUCTURES AND UNAPPROVED MATERIALS

The Project Engineer shall have the right to order in writing:

- 1) Removal from the site within forty-eight (48) hours of all materials considered non-compliant with the specifications of the contract and their replacement by the right materials approved following laboratory tests.
- 2) Proper demolition and reconstruction of any structure or part of structure considered non-compliance with the requirements of the contract, with regard to the mode of execution as well as the materials used.

In case of non-compliance, expenses shall be charged to the contractor.

Article 23: RIGHTS AND PATENTS

The contractor shall, if necessary, agree with owners or holders of patents whose processes he has applied or intend to apply. He shall pay the required royalties and protect the Contracting Authority against any legal proceedings in the matter.

Article 24: WORK PHASES

The contractor shall respect the breakdown of works into various phases as spelt out in his bid so as to make control easy and meet the duration stated in his work plan.

Article 25: ACCESS TO THE SITE

The Project Engineer and any other person authorized by him may, at any time, have access to works, on the site, to workshops and any work place, as well as any place where the materials, manufactured products and tools used for works come from.

Moreover, as part of the duty of checking the effectiveness of works, duly mandated representatives of bodies in charge of payment shall have access to the site and to any information necessary for the achievement of this mission.

Article 26: DUTIES OF THE PROJECT ENGINEER

The duty of the Project Engineer is to ensure that works are executed properly and in accordance with the terms and conditions of the contract. The Project Engineer shall not relieve the contractor of any of his obligations under the contract or order any task that may delay the execution of works or lead to additional payment by the Contracting Authority or order any significant modification to the structure to be constructed. The Project engineer shall have the power to prepare and sign orders for technical services.

At the request of the Contractor and Project Engineer, counter-records may be drawn up to fix quantities for some structures. Such records shall be needed in case a structure may not be measured again.

The Project Engineer shall have the following duties:

- Ensure in collaboration with the Chief of Service of the contract, the approbation of execution documents within seven (07) days otherwise Administrative Sanctions as per the regulations in force shall be applied on him;
- Controlling works on the site to ensure that they are advancing in accordance with the agreed schedule of execution;
- Controlling and approving execution plans, drawings and designs;
- Cross-checking and approving the implantation of works, as each implantation shall be subject to an approval report signed by the Contracting Authority and the contractor;
- Controlling and approving origin of materials and compliance with the terms and conditions of the contract;
- Making a daily statement on works and supplies presented by the contractor;
- Controlling the detailed accounts and provisional monthly statements on works submitted by the contractor;
- Proposing solutions or specifications about works underway to the foreman or contractor;
- Making proposals for preparation of provisional or final acceptance to the Contracting Authority at the request of the contractor;

Article 27: PROJECT SITE MEETINGS

Project site meetings shall hold on regular basis at the initiative of the Project Engineer. Since it shall be a works contract, project site meeting shall take place every week during which the report of each meeting shall be signed on the site by the participants who shall each have right to a copy. A copy of the report shall be forwarded to the Project Owner for appraisal and intervention on points not resolved, susceptible to perturbate the smooth running of the operations. The contractor shall be bound to attend these meetings. Refusal to transmit the report shall attract penalties of 1/5000th per report, the cost of the contract of the Project Engineer as the case may be.

Article 28: SITE RECORD

A project record shall be kept by the contractor and put at the disposal of the Project Engineer or contractor's representative.

On a daily basis, entering in this record it shall include the following details:

- Administrative procedures relating to the execution and settlement of the contract (notifications, trial results, daily statements);

- Weather conditions;
- Receipts of materials and authorizations of all sorts;
- Incidents or details of all sorts having some interest with regard to the future handling of the structures or the actual duration of works;
- Works done during the day, the personnel and material used;
- Works progress;
- Required prescriptions;
- Detailed quantities of works;
- Works done by sub-contractors;
- Non-compliances;
- Official visits.

The contractor may also record incidents or remarks that are likely to give rise to complaint on his part.

This record shall be countersigned by the Project Engineer and the foreman following each visit to the site, and visaed after each project meetings. For any claim that the contractor may make, only events or documents mentioned in due time in the project record shall be taken into consideration. Any refusal to present, or any attempt to destroy all or part of this journal or to forge it, shall give rise to sanctions. Whatever the case, the contractor shall not take advantage of the impossibility to consult the project record.

Article 29: PUTTING THE SITE AT THE DISPOSAL OF THE CONTRACTOR

All the provisional structures necessary for the execution of works such as offices, garage, workshops, and accommodations for personnel, quarries, borrow pits and paths shall be constructed only on premises approved by the Project Engineer in agreement with the administrative and traditional authorities of the locality.

Within the limits of their powers, the administrative or traditional authorities of the locality shall put at the disposal of the contractor, free of charge and for the duration of works, the State private or public property necessary for the project. State property put at the disposal of the contractor shall be cleaned at the end of works.

Article 30: SECURITY MEASURES

The contractor shall have the duty to supply and maintain, at his own expense, any lighting, security, fence and guarding device necessary for a proper execution of works as demanded by the project Engineer

Article 31: ENVIRONMENTAL PROTECTION

The contractor shall be bound to comply with instruments governing environmental protection in the Republic of Cameroon and notably Framework Law No. 096/12 of 05 August 1996 on Environmental Management.

He shall particularly comply with the Special Technical Conditions relating to environmental protection.

Article 32: CLEANING OF THE SITE

Cleaning of the site includes disposal of structures, equipment, materials and debris. It shall be performed within thirty (30) days as from the date of acceptance, that is, before signing the payment documents ("décompte") or latest before approval of the general and final statement of works.

Article 33: OPERATIONS REQUIRED BEFORE ACCEPTANCE

The Contractor shall request in writing to the Project Engineer, the organization of a technical visit (*pre-technical acceptance*) before technical acceptance. The visit shall include, among others, the following operations:

- Controlling the quality and quantity of the structures constructed;
- Carrying out trials provided for by the Special technical conditions;
- Recording the possible non-execution of works provided for under the contract;
- Recording the folding up of the installations and cleaning of the project site;
- Recording the completion of works;
- Recording the quantities of works actually executed.

During this pre-technical acceptance, the Project Engineer may identify reserves and recommend tasks to be accomplished before the date of technical acceptance. The Contractor shall request for technical acceptance by writing to the Project Engineer with copy to the Contracting Authority. The agreed date shall be communicated to the other technical committee members. The commission for technical acceptance shall be composed of:-

- The Authorising officer or Representative----- Chairperson
- The Contracting Authority (CA) or his Representative----- Member
- The Contract chief of service or his representative -----Member
- The (Contract) Engineer----- Secretary
- The Store Accounter of the Beneficiary Administration.....Member
- The DD of MINMAP MENCHUM.....Observer
- The Contractor ----- Member

Remark: *The technical acceptance report shall be prepared by the Project Engineer on the site and signed by all commission members on site as well. Technical acceptance shall mark the end of execution of works. Hence, if the Contractor was already within the penalty zone, counts of calendar days overrun shall stop on the day of technical acceptance. In case of delay of technical acceptance caused by one or more members of the commission, the date that was agreed upon and communicated to all members shall mark the end of counts of calendar days overrun.*

Article 34: ACCEPTANCE (Provisional acceptance)

After technical acceptance, the Contractor shall request for acceptance by writing to the Project Owner with copies to Project Engineer and Contracting Authority. It shall be recommended to the Project Owner by the Project Engineer and the date for it shall be agreed upon based on confirmation from the Contractor. The Project Owner shall then invite members of acceptance committee made up of:

- The Authorising officer or Representative----- Chairperson
- The Contracting Authority (CA) or his Representative----- Member
- The Contract chief of service or his representative -----Member
- The (Contract) Engineer----- Secretary
- The Store Accounter of the Beneficiary Administration.....Member
- The DD of MINMAP MENCHUM.....Observer
- The Contractor ----- Member

During acceptance, the committee shall examine the reports of the pre-technical and technical acceptances and carry on the acceptance if appropriate. The Secretary of the committee shall draw up a report which may declare either of the following:

- Refusal of acceptance of works;
- Acceptance of works with reserve;
- Acceptance of works without reserve.

Remark: *A reception report shall be prepared by the Project Engineer on the site and signed by all commission members on site as well.*

Article 35: PERIOD OF GUARANTEE

This period shall last for twelve (12) months as from the date of provisional acceptance.

Article 36: MAINTENANCE DURING THE PERIOD OF GUARANTEE

During the period of guarantee, the Contractor shall carry out periodic visits (*maximum every three months*) and carry out at his expense repairs in due time of any disorder that may occur as a result of defects in the structure. Hence, before the Contracting Authority, the contractor shall be responsible for any disorder that may occur to the structure, except those resulting from fair wear and tear, even those which have not been recorded by the Project Engineer. The contractor shall within twenty (20) days from date of information carry out the repairs identified by the Project Engineer and/or Project Owner. After this deadline, the Project Engineer shall have the right to have the repairs carried out at the contractor's expense.

Article 37: FINAL ACCEPTANCE

After visiting the site, the acceptance committee shall examine the report of provisional acceptance and carry on the final acceptance if appropriate. The final acceptance shall give rise to an acceptance report signed on the spot by all the parties.

The Acceptance Committee shall be made up the same personalities as in case for provisional acceptance

During final acceptance, the Secretary of the committee shall draw up a report which may declare either of the following:

- Refusal of acceptance of works because of reserves identified;
- Acceptance of works without reserve.
- In case of refusal, a time limit shall be given by the committee, during which the contractor shall accomplish the reserves and request the Project Engineer to off-lift of the reserves for a new acceptance to be carried out.

Remark: *An acceptance report shall be prepared by the Project engineer on the site and signed by all the members on site as well.*

Article 38: LAWS GOVERNING LABOUR

The contractor shall abide by the laws governing labour in the Republic of Cameroon and as well in its own organization in the implementation of the contract. As far as possible, he shall give pride of place to Cameroonians during recruitments. If in Cameroon, these laws, regulations, administrative and fiscal obligations in force are changed after the signature of the contract, the eventual costs will be borne by the contracting parties.

CHAPTER III- FINANCIAL CONDITIONS

Article 39: AMOUNT OF THE CONTRACT

The amount of the contract (.....*Francs CFA, ATI*) shall be stated in the detailed cost estimates, on the flyleaf and on the signature page. The detail cost estimate shall include total without taxes, Value Added Tax (VAT), Income tax (AIR), total taxes, total with taxes inclusive (ATI) and net payable.

Article 40: PRICE CONSISTENCY

The Contractor's prices stated on the unit price schedule shall be considered as having been set on the basis of the economic conditions prevailing in the Republic of Cameroon during the month preceding that of submission.

The contractor shall be considered as having perfect knowledge of all the constraints relating to the execution of works and all the conditions that may influence this execution, as he must have personally been to the site before submitting his bid, notably:

- the nature and quality of the land and soils;
- transport and access conditions to the site at any period of the year;
- constraints relating to the geographic situation of works;
- water regime and rainfall in the area and possible risk of flood ;
- presence or absence of a Development association in the village.

The amounts of the price list comprise all the expenses of the manpower participating directly or indirectly in the execution of works, including salaries and allowances, insurance charges, wage bill, travelling expenses.

They also comprise the following headings:

- Conveyance, assembling, maintenance, dismantling and folding up of all the structures including offices, laboratories, possible quarry material, workshops, accommodation etc;
- Conveyance, supply, storing and transport of all the materials, ingredient, fuel, lubricant, etc;
- Maintenance of existing structures used for the execution of the contract arising from this invitation to tender;
- Prospecting for sources of materials, extraction, storing , drainage of deposits;
- Measures aimed at reducing direct environmental impacts;
- Maintenance of structures during the period of guarantee;
- Insurance including civil liability;
- Insurance charges for the project;
- Financial charges and overheads for the project;
- Remuneration for profit and unknown factors.

Prices on the price list shall include all the execution charges whether or not they are provided for in the Special administrative conditions or the Special technical conditions. A modification of quantities may be brought in the volume of works, increasing or reducing it, irrespective of the volume of the works actually executed; unit prices of the unit price list shall be applied.

Article 41: SUB -DETAILED PRICES

The contractor shall have provided in his bid, the price sub-detail schedule drawn up in accordance with the rules in force and stating details on the amount of charges, allowances and manpower as well as the assembling, maintenance, dismantling, depreciation of the structures, tools and equipment as well as miscellaneous charges, overheads, incidental expenses and profits.

Article 42: ADDITIONAL WORKS - VARIATION IN THE VOLUME AND NATURE OF WORKS

In case of increase of the volume of works or structures not provided for in the contract, no extra bill shall be accepted on additional works executed by the contractor unless a Service Order issued.

Unit prices of the Price Schedule shall be applied if the additional works are accepted. The validation of these prices shall give rise to an additional clause. Shall be considered as new, any price not provided for in the unit price schedule or the detailed estimates of the contract.

Article 43: PAYMENT

Within the meaning of the security regime laid down by decree No. 2004/275 of 24 September 2004, the following definitions of duties shall apply:

- (a) The Contracting Authority shall make sure all taxes appear on the contract and are deducted in the payment documents ("decompte");
- (b) The Mayor of Benakuma council shall visa the payment documents before any payment can be effected;
- (c) The Municipal treasury shall be in charge of payments;
- (d) Security shall be subject to the rules governing public contracts and
- (e) Payments shall be done by bank transfer.
- (f) The contractor may obtain periodic payments on account. This periodic payments may be spread out during the term of the contract in several periodic installments
- (g) Each payment on account shall include a part corresponding to building materials bought for the execution of the works and are on site. The amount for these materials is obtained by taking into account the prices from the sub-details. Materials having been the subject of payment on account cannot be taken away from the site without a written authorization of the Project Owner or the Project Engineer.

In respect of the above:-

*** Mode of payment of works executed**

In view of the application of the law on collateral prescribed in the Decree N° 2004/275 of 24 September 2004, the contractor shall be paid through accounts drawn up by applying the prices on the unit price schedule for tasks actually accomplished. In order to realize this:-

- The Project Engineer and the Contractor shall periodically draw a joint statement summarizing and setting the quantities achieved and record for each heading. Works executed by the contractor and entered into the job cost sheet give entitlement to payment on account (bill) may give right to payment;
- Not later than the fifth (5th) of the month following the month when the work was carried out, the contractor shall furnish to the Project Engineer seven (07) copies of three draft (03) provisional monthly accounts;
- After completion of works and within fifteen (15) days following the date of acceptance, the contractor shall, from the joint records, draw the draft final account of works actually carried out which shall sum up the amounts that he can claim as payment for the works executed. The draft final account which shall be the summary of the periodic statements of account shall be submitted by the contractor for verification and approval by the Project Engineer and once approved by the Project Engineer the draft final account shall become the final account. It shall serve for making out the final payment to settle the contract drawn up under the same conditions as those defined below relating to drawing of monthly accounts;
- At the end of the period of guarantee, the Project Engineer shall draw up the general and final account which shall be countersigned by the contractor and the Contracting Authority. The guide on how this account shall be established shall be provided by the Contracting Authority who shall depend on how the Contractor respected his commitments during the guarantee period;
- The signing of the general and final account without reserve by the contractor shall definitely bind the parties and put an end to the contract, except for issues concerning default interests;
- Default interests shall be paid by statement of the amounts owed;
- The currency of the tender and payment shall be the CFA Franc.
- The bill of taxes will be paid into the state coffers. Only amount without taxes will be paid to the contractor in such a way that 98.9% shall be paid in the account of the contractor and 1.1% shall be paid in the public treasury.
- Upon presentation of an account drawn up by the contractor in seven (07) copies including the stamped original copy, the Project Engineer shall after verification, finalize and transmit to the Chief of Service for the Contract who shall liquidate. The Chief of Service for the Contract after liquidation shall transmit to the Mayor who shall visa and transmit to the Municipal treasurer.

Each request for payment shall include the following documents:

- Seven copies of the final account mentioned above;
- Seven copies of signed Statements of work done;
- Acceptance report signed by all the members of the acceptance committee;
- Report of execution of work (“attachement”) signed by the Project Engineer and bearing the visa of the authorising officer ;
- A copy of the following documents making up the tax file certified by the relevant Authorities and dated less than three (03) months:
 - An attestation of non-indebtedness;
 - A location plan
 - An attestation of localisation;
 - A Taxpayer’s card;
 - A Business licence;
 - A clearance attesting to the payment of taxes;
 - An attestation of solvency (non-bankruptcy), also called certificates of incorporation;
 - A Clearance Certificates issued by the National Social Insurance Fund (“CNPS”).
 - An attestation of Bank account;

REMARK: Payment on account may be spread over the duration of the execution of the CONTRACT according to technical execution phases as defined in the jobbing order. The amount of payment shall not exceed the value of the technical execution phases carried out. In such a case, for payment to be effected the contractor shall before the 5th of the every month following the works executed transmit seven (7) copies of the partial invoices to the Project Engineer who shall within a time-limit of seven (7) days approve and forward for processing by the services of Municipal treasurer for Benakuma council and MINFI.

*** Venue of payment of works executed**

It shall be authorised by the Minister of Economy, Planning and Regional Development at the central treasury.

Article 44: START-OFF ADVANCE

The Contractor may through a simple request without any justification addressed to the Project Owner with copy addressed to the Contracting Authority obtain a so-called “start-off” advance or advance “for purchase of building materials”. The Start-Off Advance or payment of the start-off advance shall be at most 20% the initial contract price (*i.e. all taxes inclusive*) but the advance must be guaranteed at 100% by a Bank recognized by Cameroon Ministry in charge of Finance or a First Rate financial institution. This advance may be released after the notification of the Service order to start the work. It’s reimbursed by deduction done at 50% on each payment on the account (“décompte”) made to the contract holder during execution as from when works must have been executed more than 40% of the contract and must be totally reimbursed not later than when the execution of the contract must have reached 80%, i.e. when the value of the basic price of the goods & services rendered shall have reached 80% of the contract price. Following of the rate of reimbursement of the advance, the Contracting authority shall authorize the payment of the corresponding part of the contract upon written request. Whatever be the case, the reimbursement must be completed one (01) month before the date of expiration of the contractual period. As the start-off advance is refunded, the Contracting Authority shall release the corresponding bid bond if the contractor requests it.

Article 45: GUARANTEES

Any Structure having issued a guarantee to a Contractor must undertake to pay on the order of the Contracting Authority, the amount corresponding to the guarantee in case of default on the side of the Contractor.

a) Final bond

The final bond (*final surety*) of the contract referred to as security in guarantee for complete execution shall be provided within twenty (20) days as from the date of notification of the contract and in any case before the first payment and/or before the expiry of the bid bond. It shall be addressed to the Contracting Authority who shall then act as the Beneficiary, reason why he shall be one to keep it. The amount of the final bond shall be 2% of the value of the initial contract, all taxes inclusive (ATI). The bid bond shall only be returned to the contractor by the Contracting Authority once the final bond has been provided. The Bank that issued shall refund corresponding amount upon presentation of the original bid bond by the Contractor.

Remarks:

- *The final bond may be replaced by a bond (bank guarantee) issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *As concern Small and Medium Enterprises constituted of National Capital and managed by Nationals, the final bond may be replaced by a Statutory Lien bond (bank guarantee) issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *The final bond shall be released upon written request of the contractor after completion of works proven by technical acceptance minutes duly signed by all the members of its committee.*
- *The final bond shall be addressed to the Contracting Authority who shall then act as the Beneficiary.*
- *In case where the Contractor does not provide the final bond within the twenty (20) days, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI)*

b) Retention Bond

The retention bond (*Performance bond*) of the contract referred to as security in guarantee for proper execution shall be the sum deducted (blocked up) from the amount on account during each payment made to the Contractor. After provisional acceptance, the guarantee period of this project shall be **one year** during which the Contractor shall be expected to carry out period visits every three months to carry out corrections of imperfections or defects. The amount of the retention bond shall be 10% of the value of the initial contract (all taxes inclusive), increased if need may be, by the value of the additional clauses.

Remarks:

- *The retention bond may be replaced by a bank guarantee issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *The retention bond shall only be refunded to the Contractor upon a Release Order issued by the Contracting Authority after fulfilment of the contractual obligations by the Contractor proven by final acceptance minutes duly signed by all the members of its committee. The Release Order must be issued within thirty (30) days from expiration of the guarantee deadline or where the contract has no such deadline, following the final acceptance of works otherwise if there is no notification from the Contracting Authority to the Contractor for having not honoured his obligations, the Competent Structure shall undertake to refund the guarantee or release the bond upon a simple request from the Contractor. In the case of notification, the end of the commitment of the bond shall only be put into effect by a Release Order issued by the Contracting Authority. After the expiry of the deadline, the bond shall cease from having any effect even in the absence of the release.*

- If for any reason, the Contractor refuses to carry out corrections of imperfections or defects during the period of guarantee, the Contracting Authority, Project Owner and the Project Engineer shall have the right to carry out the corrections using any other contractor who shall be paid using the amount retained for the retention bond at the expense of the main by virtue of the contract.

Article 46: PRICE REVISION

In respect to the maximum works execution deadline of six months defined in the tender, the prices shall be concluded firm and so shall be final and unchangeable. As well the contract arising from this tender shall not be subject to price revision.

Note should be taken that the contract amount that shall arise from this tender shall be lump sum. Hence, possible differences noticed for each type of structure or each element of the structure between the quantities in the cost estimates and the quantities effectively executed shall not lead to the modification of the said contract amount. This applies to errors that the cost estimates may include. The contract shall be paid on the basis of approved plans by the contracting parties.

Article 47: STAMP DUTY AND REGISTRATION

Seven (7) original copies of each constituent document of the contract arising from this invitation to tender shall be produced, stamped and registered by at the expense of the contractor, in accordance with the laws in force; within thirty (30) days as from the date of notification of the contract by the Contracting Authority.

Article 48: TAX AND CUSTOMS REGIME

In respect to Decree N° 2003/651/PM of 16 April 2003 that defined modalities for the implementation of the tax and customs systems to Public Contracts taxes that shall be concerned with the contract arising from this invitation to tender shall be subject to the laws in force in the Republic of Cameroon.

Article 49: PENALTIES

- (a) **Penalties for lateness:** In case of failure by the contractor to complete the work within the contractual time-limits, he shall be subject to the following penalties:
- 1/2000th of the amount of the contract per calendar day overrun, from the 1st to the 30th day;
 - 1/1000th of the amount of the contract per calendar day, beyond the 30th day;
 - Penalties for lateness shall not exceed ten percent (10%) of the amount of the contract; A percentage higher than 10% shall lead to termination of the contract.
- (b) **Specific penalties:** Apart from penalties of overrun of the contractual time-limits, the Contractor shall be liable to the following particular penalties for the non-respect of the terms of the contract notably:-
- *The late provision of the final bond:* In case where the Contractor does not provide the final bond within the twenty (20) days from date of notification of the contract, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness;
 - *The late provision of the insurance policy:* If after fifteen (15) days from the notification of the contract the contractor has not provided an insurance policy covering all risk on site, all execution activities shall be suspended without suspending the execution deadline. Hence penalties arising from failure to complete the work within the contractual time-limits shall be paid. After two months from the date of notification of the contract the Contractor has not complied, the contract may be terminated;
 - *The late provision of the execution program:* In case where the Contractor does not provide the execution program within the thirty(30) days from date of notification of the service order to start work, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness. As well, these penalties shall be applied on any stakeholder who delays

the process of approving the execution program submitted or who carries out abusive rejects of the execution program;

- *The late request for site installation:* If within fifteen (15) days from the date of notification of the service order to start execution site installation is not carried out, the Contractor shall pay penalties of 1/5000th the cost of the contract (ATI) for every calendar day of lateness.
- *The replacement of Key Personnel:* If in replacement of key personnel, the qualities of the personnel proposed are less than that of the personnel replaced in terms of qualification, experience and competence, such replacement shall attract penalties of 1/5000th the cost of the contract (ATI) independently of the procedure for validation of the new personnel. The above penalties shall not apply for situations of force majeure such as incapacitation of personnel due to accident and death of personnel or in a situation duly recognized by the procedure spelled out in Article 50 of these Administrative Conditions.
- *Absence of Project Site Log Book:* It shall attract penalties of 1/5000th the cost of the contract (ATI) of the main Contractor and that of the Chief of Service of the Contract as the case be of complicity.

Remark: The total of penalties shall not be more than 10% the amount of the contract in concerned otherwise the contract will be terminated.

CHAPTER IV: FINAL PROVISIONS

Article 50: RISKS, RESERVES AND FORCE MAJEURE

The Contractor may during execution be subjected to risk(s) which can give rise to reserves that need to be recognized by the Project Engineer.

Force majeure shall include the effects of natural disasters or any other external events that the contractor could not have reasonably foreseen or avoided, and which make works impossible and not only costly. In case of force majeure, the contractor shall be relieved of his responsibility only if he has notified in writing to the Project Engineer with copies forwarded to Project Owner and Contracting Authority of his intention of how the effect(s) on execution arising from the Force Majeure should be treated. This shall be done before the end of the 20th day following the event. The Project Engineer shall visit the site of the Force Majeure, carry out his own evaluation of its gravity basing as well on the evidence given by the contractor and decide on the nature of force majeure and if he considers that the Contractor's preoccupation(s) should be taken into account:-

- (a) He the Project Engineer shall forward to the Project Owner a succinct report bearing his appraisal and suggestion(s);
- (b) The Project Owner shall cross examine the report of the Project Engineer through discrete investigations and decide on the way forward. In case where the Contractor solicited for suspension of execution or prolongation of the execution duration and that the Project Owner validates the suggestion(s) of the Project Engineer, he shall forward his suggestion(s) in a report to the Contracting Authority.
- (c) The Contracting Authority shall equally carry out an appraisal of the report through discrete investigations and take a final decision on the final way forward.

Article 51: SETTLEMENT OF DISPUTES

Any dispute arising between the parties shall first of all be subject to an attempt through direct amicable settlement. In the absence of an amicable settlement, any dispute relating to this invitation to tender shall be carried before the Cameroonian court of competent jurisdiction.

Article 52: TERMINATION OF CONTRACT

The contract may be terminated as per article 100 of decree No.2004/275 of 24/09/2004 to lay down the Public Contracts Code and the following special conditions:

- non-registration of the contract within the required time-limits;
- non-compliance of technical documents;
- a delay exceeding fifteen calendar days in the execution of a service order or an unjustified halt of works exceeding seven (07) calendar days;
- a delay giving rise to penalties beyond 10% of the amount of the contract;
- refusal to carry over works declared not properly done;
- refusal to carry out works notified by service order;
- unilateral modification to provisions of the tender file relating to materials and supervisory staff;
- replacement of more than 50% of personnel ;
- Non-payment of insurance charges.

Article 53: SPECIAL COMMERCIAL CHARGES

The contractor shall declare that the contract agreement has not given and shall not give rise to the collection of special commercial charges.

In case special commercial charges are provided for under the contract agreement, the contractor shall reserve the amount of these charges for the Project Engineer on behalf of the Contracting Authority.

Moreover, if it is established that the contractor has received special commercial charges, he shall be subject to the sanctions provided for by the laws.

Article 54: INTERNATIONAL TRANSPORTS

In case where the execution of the contract requires transport of materials and equipment from abroad to Cameroon and vice versa, this transport shall be carried out in compliance with the provisions of international covenants and agreements at the expense of the contractor.

Article 55: VALIDITY AND ENTRY INTO FORCE OF THE CONTRACT

The contract arising from this invitation to tender shall become valid only after it must have been read and approved by the Contractor, visaed by the Central Financial Controller for the Ministry of Economy, Planning and Regional Development and signed by the Contracting Authority. Its execution shall enter into force upon notification of the Contractor by the Contracting Authority.

Article 56: INFORMATION TO BE POSTED

The Contractor shall put up a visible sign board (*total height=2,80meters, width=1,20meters, board thickness=2,5centimeters at 1,20meters above the ground level with poles embedded in concrete*) at the entrance of the site on a place approved by the Project Engineer, bearing the following text:

REPUBLIC OF CAMEROON

BY URGENT PROCEDURE

CONTRACTING AUTHORITY: THE MAYOR OF BENAKUMA COUNCIL

AUTHORISING OFFICER: THE MAYOR OF BENAKUMA COUNCIL

CONTRACT CHIEF OF SERVICE: THE COUNCIL DEVELOPMENT OFFICER

**CONTRACT ENGINEER: THE DIVISIONAL DELEGATE OF PUBLIC WORKS
FOR MENCHUM**

CONTRACTOR:.....

FINANCING: BIP 2019

DURATION OF CONTRACT: FOUR (04) MONTHS AS FROM:

DOCUMENT N° 05

THE SPECIAL TECHNICAL CONDITIONS

TECHNICAL SPECIFICATIONS FOR EXECUTION

This technical description of estimates is intended to define the content **THE CONSTRUCTION OF A BRIDGE OF 12M OVER RIVER MUFEGHE AT BENAKUMA, MENCHUM VALLEY SUB-DIVISION, MENCHUM DIVISION IN THE NORTH-WEST REGION.**

It specifies the quality of materials and the mode of execution in keeping with the rules and in compliance with the constituent documents of the Jobbing Order. Hence, this descriptive has as objective the definition of the consistence of works to be executed in accordance with the plans and according to technical norms for the construction of public buildings.

Description of tasks

The main tasks to be carried out shall be the following:

- Earthworks
- Drainage
- culvert
- Bridge deck
- foundations
- elevation
- bridge abutment

Reference documents

In the study and execution of the Jobbing Order, the successful bidder shall comply with the following:

- Statutory and regulatory instruments (laws, ordinances, decrees, orders)
- Unified technical documents (requirements, special conditions, designing rules)
- French norms approved by ARNOR
- Security rules and norms relating to public protection
- Agreements, technical opinion and recommendations of the CSTB applicable to works relating to this invitation to tender in force on the date of signature of this Jobbing Order.

To carry out the general control of works, the Project Engineer and the other administrations involved in the follow-up of the project may make regular or unexpected visits to the site.

The description of estimates is intended to spell out the technical requirements for a proper execution of the construction works.

The Contractor shall strictly comply with the description of estimates in keeping with rules and norms prescribed in the DTU, the ARNOR norm.

Hence for:-

Article 01: STRUCTURE AND EXECUTION PLANS:

It is the duty of the Contractor to realize the structures as per the execution plans that shall be approved by the Project Engineer and sample models of equipments and furniture provided by the project owner.

Article 02: PRELIMINARY WORKS:

These works concern the demolition of any existing structure on the site and the evacuation of the rubbish to the public discharge, the clearing and levelling of the site where necessary. To do these, the Contractor shall obtain all the documents necessary for the realization of the CONTRACT from the

competent services concerned. He shall also make contacts with the water, electricity and telephone network authorities in case their network shall be tampered with.

Article 03: INSPECTION OF WORKSITE INSTALLATIONS:

Through the Project Engineer, the Contractor shall furnish the owner of the project within the shortest possible time with an installation plan showing clearly how he intends to run the work site. A fence in local materials enclosing the whole work site to avoid trespassing and site sign board bearing information recommended to be posted shall be in place during this inspection mission. To install, the contractor with his/her personnel shall be installed on the site by a Commission comprising of:

- The Authorising officer or Representative----- Chairperson
- The Contracting Authority (CA) or his Representative----- Member
- The Contract chief of service or his representative -----Member
- The (Contract) Engineer----- Secretary
- The DD MINMAP MENCHUM.....Obsever
- The DD MINEPATMember
- The Contractor ----- Member

Remark: *A report on the site installation shall be prepared by the Secretary on the site and signed by all the members on the site.*

Article 04: PROTECTION OF STRUCTURES AND MATERIALS:

The Contractor shall be responsible for the protection of the structures before final reception. He shall be equally responsible for all tools and materials present at the work site. He shall seek an insurance policy to cover theft and fire incidence.

Article 05: PRECAUTION AGAINST ACCIDENTS:

The Contractor shall take all preventive measures against accidents. The owner of the project reserves the right to intervene in case of any emergency without necessary interfering with the responsibilities of the Contractor.

Article 06: VERIFICATION OF DIMENSIONS:

The Contractor shall verify all dimensions on the plans. For execution no dimension shall be measured with a scale rule from the plans. The Contractor shall check the possibility of translating the dimensions on plans to the structure before work begins. He shall refer to the Project Engineer in case of any doubt. He shall not on his own modify anything on the structure and shall inform the Project Engineer of any changes that he considers necessary.

NB: All modifications accepted by the Contractor shall be accomplished in a specified duration and at his cost without modification of the CONTRACT amount. The owner of the project shall have the right to the final choice in case of any modification.

Article 08: ERRORS AND OMISSIONS IN THE DOCUMENTS:

The descriptive notice completes or confirms the indications on the execution plans. In the case of contradictions between the plans and the descriptive notice, the project team shall be contacted for examination, elaboration and conclusion.

Article 09: QUALITY AND PREPARATION OF MATERIALS

Every material used and supplies shall be of high quality and put up in keeping with the rules and with great care.

They shall meet the general specifications and the general requirements set out by the CSTB.

Reference of manufactured goods

The Contractor shall be bound to provide all the justifications, invoices and references of manufactured goods to be used.

Equivalent supplies

In case the materials referred to in the description of estimates are to be replaced by approved equivalent materials and supplies, the latter shall be at least of equal or higher quality and any justification may be requested from the Contractor before use.

Every material and supplies used shall be of high quality and put up in keeping with the rules and with great care. They shall meet the general specifications and the general requirements set out by the CSTB

SAND

All the sand supplied by the Contractor put at his disposal shall be subject to the approval of the Control Engineer.

The granulometry shall vary between 0.80 mm and 2.5 mm for mortars and toppings and between 0.16 mm and 5 mm for concrete structures.

FINE GRAVELS

All the fine gravels supplied by the Contractor or put at his disposal shall be subject to the approval of the Project Engineer.

Meant for the production of concretes, fine gravels shall be homogeneous natural or crushed materials. The films of the gravels must have been blown or washed away.

MIXING WATER

Water meant for the production of concretes shall be supplied by the Contractor at his expense. In general, water may be obtained near the building site from water points or rivers, provided its quality meets the conditions stated below. Water may also be obtained from other sources (boreholes, wells, etc.)

Mixing waters shall be clean, not salty, and virtually free from bodies in suspension and dissolved mineral salts, namely sulphates and chlorides. It shall be forbidden to use water from swamp or peat bogs.

BINDERS

The cements used for concretes and mortars shall meet the general conditions set out by the laws in force. They shall be of type at least CPJ 42,5 and shall bear no trace of damp. Therefore, storing on the site shall be done on a dry and ventilated floor.

REINFORCEMENTS

Reinforcements for reinforced concrete shall be high-bond mild steel in compliance with the specifications of the BAEL 91 rules. They shall be perfectly clean without any trace of rust, paint or grease.

They shall be formed and put up in accordance with the bar bending plan submitted by the contractor to the approval of the Project Engineer before the start of works.

WOOD

The wood chosen for the construction of the structures and formwork shall be free from any trace of rot, hard rot, decayed knot, splits or shake.

FORMWORK

Forms shall be simple and solid. They shall bear, without any noticeable deformation, the weight and pressure of concrete, the effects of vibration and the weight of workers during construction. Forms shall be tight enough so as to prevent extra water from washing cement away.

In other words:-

- 1) **SITE PREPARATION:** The setting out will be in respect of the technical plans. The setting out profile boards will be at least 1,20 m from the outside axes, this to facilitate terracing (trench and other earthworks) and a good circulation. No starting of excavation will be accepted by the Project Engineer without the checking of the conformity of the setting out axes of the building.
- 2) **EXCAVATION:** - Some minimum excavation will be necessary to bring the site to a relative flat surface. The vegetable soil has to be cleared off. Excavation and leveling shall be carried out normally using dig axes, spades and sledge hammers. The minimal depth of the excavation trenches will be of 80 cm, and depending on the soil bearing capacity. Where there is black cotton soil or soil with low bearing capacity at the bottom of the trench, the contractor shall continue excavation up to a depth as will be approved by the control engineer. The excavations will be done manually and no concrete or mortar shall be laid on the bottom of the trench without the acceptance of the trench bottom of excavation by the Project Engineer. The foundation shall be excavated to obtain the hard soil where it shall resist and to bear the foundation work.

NB: The final depth of excavation must be received before the continuation of any other works.

3) CONCRETE:

- **Ordinary concrete** specifically lean concrete shall be 5cm thick and laid all-round the excavated foundation trenches before the stone/block work is carried out and dosed at 150kg/m^3 .
- **Over-site concrete** shall be 10cm thick laid over the entire floors and paved area between walls and gutters at 250kg/m^3 .

NB: The external veranda shall be 5cm below the level of the internal floor with 2% slope outwards.

- **Reinforced concrete** shall be specifically for bridge deck, abutment, and their mixture shall be in a proportion of 400kg/m^3 .

NB: All concrete works should be properly cured the method should be approved by the Engineer .

- **Rods** shall be mild steel reinforcement, Tor or high yield (*Haute Adherence HA*) Steel in accordance with the R/C & 3 rules. The steel shall be perfectly clean without any trace of rust, non-adhesive to paint or grease. The reinforcement steel for reinforced concrete shall be of type HA FeE500 for the main reinforcement steel rods and round-smooth RL E235 for the stirrup rings.

- **Sand:** Will be free from oxide, organic material of animals or plant origin. Sieving shall vary from 0.08 to 2.5mm for mortar and other resisting surfaces like concrete structure shall vary from 0.16 to 5mm. It shall be river sand and nothing else. The sand shall have very fine elements settlement of less than 4%.
- **Aggregate** shall consist of natural and homogeneous materials or crushed stones. Tiny layer of grave (dust) shall be removed by sieving, blowing or washing. The fine and coarse aggregates may either be from the river or quarry crushed and must be approved by the control engineer before any use on the site. The gravels shall be clean and well graded with very fine elements settlement of less than 2%.
- **Water:** To be used for the mixture mortar, concrete and washing of aggregates. Shall be clean and free from impurities, meaning potable water.
- **Cement:** To be used mostly for cement mortar and for all concrete mixtures, they must satisfy the general conditions laid down by regulation in force. The cement which shall not show any

trace of uneven mixture shall be at least the CPA42,5 class from CIMENCAM or from an approved factory. Storage on the building site shall be done on a dry and ventilated floor. Any stock presenting an unsatisfactory pulverulent condition will be discarded and cleared away within four (04) days.

Article 10: TECHNICAL REQUIREMENTS

The Contractor shall comply with the laws in force concerning fire protection, thermal insulation, acoustical insulation and ventilation; even if provisions have not been made in the plans and written documents.

It should be noted that all the works to be carried out or modified following amendments brought in keeping with the rules, shall be charged to the Contractor.

Article 11: PROTECTION OF THE ENVIRONMENT

The entrepreneur will propose to the control engineer, before the beginning of works, the place of his yard facilities and will request his authorization of installation.

The site must be chosen outside of the sensitive zones, in order to limit the site clearing, the extraction of bushes, the setting out of the building and general circulation.

The site must foresee an adequate drainage of waters on the whole surface. The maintenance areas and of washing should be concreted. These maintenance areas should have a slope toward a cesspool provided for the purpose and toward the inside of the platform in order to avoid the out-flow of the polluting products toward the site and the neighbourhood.

At the end of the works, the entrepreneur will do all necessary works to the restoration of the various places of the site. The entrepreneur should fold all his material, and equipment. He should demolish all stationary installation, as foundation, support made of concrete or metallic, etc.. in order to put back the site in its nearest initial state. Neither equipment nor materials should be abandoned on the site or in the vicinity after the execution of all the works. Left-over materials are to be covered with a layer of earth, and the site has to receive an adequate drainage in order to avoid all erosion as the case may be.

MODE OF EXECUTION OF WORKS

Article 12: STRUCTURES OF THE BUILDING SITE

The Contractor shall be in charge of the setting up operations which shall include:

- Excavations
- Construction of abutment
- construction of deck
- Put in place profile IPE
- Back-filing
- Cleaning of premises after execution of work.

The plan relating to setting up operations shall give all the details on the following points:

- In addition, setting up operations shall include the actual mobilization of supervisory staff, the foreman, and the charge hands among others.

Signals, safety, miscellaneous

The Contractor shall plan to put in place temporary signals essential for the safety of users and personnel of the enterprise. Safety measures shall be part of the plan of execution to be provided by the Contractor at the start of work.

Article 12: CONSTRUCTION WORKS

I- Plan of execution:

It shall be made up as follows:

- construction drawing and details at the appropriate scales;
- work planning;
- method and technical approach to execution;
- organization of the building site;

Knowledge of the soils

The Contractor shall be supposed to have perfect knowledge of the nature and consistency of the soils. No complaint shall be accepted in the course of work; differences in the nature of soils noticed during the execution of work shall not give rise to an increase in the price of the Jobbing Order.

Appraisal of the difficulties of the field

The Contractor shall be supposed to have accepted all the difficulties that he may encounter and relating to the configuration of the sites, the nature of the soils, the stone and brick works, and solids existing in the soil.

Moreover, the Contractor shall take note of the location of the eventual old networks: telephone, water, electricity or other that may be found in the field. Therefore, he shall not remove any existing meter or pipe without informing the Project Engineer of their presence.

It shall be the Contractor's responsibility to follow the required procedures to obtain from public services the authorization to remove these networks.

Party walls survey

Before any excavation onto an existing building and before underpinning any work, the Contractor shall make sure that the existing structures are solid and put all the necessary mortar patches.

It shall also be his responsibility to have an affidavit of the party walls drawn up by a bailiff who shall enclose copies of these walls with his report.

Site survey

The Contractor shall take over the site as he shall find it. He shall therefore be supposed to have perceived all the difficulties that he may encounter and relating to the configuration of the site, the nature of the soils, neighbouring constructions, etc...

Construction drawing

The Contractor shall draw a complete set of designs to be executed (general design, formwork design, bar bending design, form of pitch, partition, etc...) and all the designs that may be requested by the Project Manager in the course of work.

These designs shall be submitted to the approval of the Project Engineer in due time. This approval shall not relieve the Contractor of any of his responsibilities.

Before acceptance, the Contractor shall give to the Delegated Contracting Authority one (01) blueprint and three (03) design drafts in compliance with execution.

II- Foundations:

Any fill material for the foundation and the surroundings structures shall have no particle dimension above 50mm and with plasticity index of less than 35. Fill materials shall also be free from organic elements and shall have a good granularity grading. No black vegetable soil shall be accepted for backfilling.

CHAPTER I GENERAL PROVISIONS

Article 01- General

Article 02- Definition and consistency of prices

Document N° 6

THE SCHEDULE OF UNIT PRICES

Article 01: GENERAL

In general, the contractor is supposed to be fully aware of all the expenses relating to works as well as all the conditions prevailing in the area and likely to influence the execution and cost of works. Therefore, he shall not present any complaint, except in the conditions provided for by the contract arising from this invitation to tender. Works done by the contractor shall be paid to him by applying prices of the Price list to the quantities actually carried out and assessed according to the conditions of the contract.

Costs and various charges not giving rise to any payment are supposed to be taken into account in the costs for execution of quantifiable works and shall be included in the various Price lists. The costs and charges are as follow:

- Personnel charges (salaries, travelling expenses, transport and leave allowances, allowances for housing on the building site, miscellaneous allowances, premiums, insurances, medical expenses, etc. .)
- Charges for the conveyance of personnel, equipment and materials, overheads, taxes, duties, registration fees and licence as well as any other charges relating to works (*and notably expenses for the acceptance of works on the field*) and to the running of the enterprise.

Similarly, running charges, write-off and maintenance costs of building equipment and rolling equipment, vehicles of all categories are also supposed to have been included in the costs for execution of quantifiable works.

Prices shall be given in figures and in words. The contractor shall make sure that unit prices in words agree with unit prices in figures.

The contractor shall not put forward his good faith to shirk his commitment if the global amounts of his bid happen to be modified after verification of compliance of unit prices in figures or calculation of the detailed estimates.

FRAMEWORK OF SUB-DETAIL OF PRICES

Note relating to the presentation of the sub-detail of prices and taxes

1, A sub-detail presents all the stages involved in the establishment of a sales price. It is also an important element for the evaluation of the quality of the price proposed by a bidder. It is not necessary to impose a model of presentation on all bidders, taking into account the great diversity of software for the determination of sub-details of prices. On the other hand, they must include the following elements;

- a. Detail of the sales coefficient according to the model presented after this note;
- b- Cost in dry price of the materials provided for the site;
- c. Cost in dry price of the supplies necessary for the site;
- d. Cost of local and expatriate labor;
- e. For each price on the Schedule of prices, a form resulting from points a, b, c and d above indicating the outputs leading to the unit prices;
- f. The precise sub-detail of lump sums for the installation of the site camp, the carting in and out of equipment, laboratory and its equipment, development of a quarry (where need be), etc;
- g. The precise sub-detail of lump sums for the building, maintenance of premises and supply of means put at the disposal of the Contracting Authority;
- h. The sub-detail of dues and taxes.

2- Presentation framework of the sales coefficient, also called the coefficient of over-heads.

A. Overheads of the site
