- 1.3. In this present invitation to tender (LPO), the term "day" refer to a calendar day.

Article 2: Funding

The above works, subject of the present invitation to tender, are financed by the **2021 Public Investment Budget**.

Article 3: Fraud and corruption

3.1. The Contracting Authority requires that bidders and contractors respect strictly the rules of professional ethics during the procurement process and execution of this contract. Under this principle:

a. The following definitions are applicable:

I. Is guilty of "corruption" anyone who offers, gives, solicits or accepts any benefit to influence the action of a public official in the allocation or the execution of a contract.

II. Is engaged in "fraudulent practices" anyone who distorts or misrepresents facts in order to influence the award or execution of a contract.

III. "Collusive practices" are any form of agreement between two or more bidders (with the knowledge of the contracting Authority or not) to artificially maintain prices of the offers at a level not corresponding to those that would result from the competition.

IV. "Coercive practices" are any form of damage to persons or their property or threats against them to influence their action in the attribution or the execution of a Contract.

b. Shall reject any award proposal if it is proven that the proposed contractor is, directly or through an agent, convicted of corruption or engaged in fraudulent, collusive or coercive practices for the award of the said contract.

3.2. The Minister of Public Contracts, Authority in charge of public contracts may on a provisional basis, take a decision to band or suspend any bidder for a period not exceeding two (2) years, that is found guilty of influence, conflicts of interest, fraud, corruption or production of no-authentic documents in the bid submission, without prejudice to the criminal prosecution that could be engaged against him.

Article 4: Qualification of bidders

4.1. Bidders shall, as part of their bid:

a. Submit a power of attorney.

b. Submit all information (complete or update the information attached to their application pre-qualification may have change; to the case where the candidates were the subject of a pre-qualification) requested from bidders, in the OMPP, to establish their qualification to run the contract.

The following information is required if applicable:

- i. The production of certified balance sheets and a recent turnover figure;
- ii. Access to a credit line or provision of other resources;
- iii. Previous jobbing orders and ongoing contracts attributed;
- iv. On-going disputes;
- v. The availability of the necessary equipment.

4.2. The bids submitted by two or more grouped entrepreneurs (co-contracting) must meet the following conditions:

- a. The offer must include for each of the bidders in the co-contracting, all the information listed in section 4.1 above. The special regulation of the Call for Tender (SRCT) must specify the information to be provided by each Member of the Group;
- b. The nature of the group must be specified and justified by the production of a group agreement in good and due form;
- c. The Member of the Group designated to lead, shall represent all the enterprises engaged in the consortium in front of the contracting Authority for the execution of the contract;
- d. In case of co-contracting, co-contractors share the amounts that are paid by the contracting authority in a single account; however, each company is paid by the contracting authority in a unique account; when it comes to a joint group.

4.3. Bidders must also submit detailed proposals to show that they conform to the technical specifications and the time frames specified in the special regulation of the Call for Tender.

4.4. Bidders requesting for a preferential margin, must provide all the information necessary to prove that they meet the eligibility criteria described in the special regulation of the Call for Tender.

4.5 The bidder must not have been excluded from bidding for public contracts.

Article 5: The site visit

5.1 Each bidder shall visit and inspect the site of the work and its surroundings and by himself and under his own responsibility, gather all the information as may be necessary for the preparation of the bid and the performance of the work. An attestation of site visit shall be signed by the bidder. The observations of the bidder will be recorded in the site visit report annexed to the technical offer.

5.2 The Project Owner shall authorise the bidder and his employees or agents to enter the premises and the land for the said visit, but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from this visit.

Article 6: Building materials, materials, supplies, equipment and authorised services

6.1 Building materials, the contractor's materials, supplies, equipment and services forming the subject of this contract must originate from countries meeting the criteria of origin defined in the Special Regulations of the invitation to tender and all expenditure done within the context of the contract shall be limited to the said building materials, materials, supplies, equipment and services.

6.2 Within the meaning of this 6.1 above, the term "originate" shall designate the place where the goods are extracted, cultivated, produced, manufactured and from where the services originate.

B. TENDER FILE

Article 7: Contents of tender file

7.1. The tender file describes the works, subject of the contract, establishes the consultation procedures of the contractors and special contract conditions. In addition to the amendment(s) published in conformity to article 8 of the General regulations of the invitation to tender (RGAO), it includes the following documents:

- 1) The invitation to tender written in French and English (AAO);
- 2) General Regulation of the invitation to tender (RGAO);
- 3) Special Regulation of the invitation tender (SRIT);
- 4) Specification of the Special administrative Clauses (CCAP);
- 5) Specifications of the special Technical Clauses (CCTP);
- 6) Unit price schedule;
- 7) Bill of Estimates and Quantities;
- 8) Format of Sub-Detail of unit prices;
- 9) Drawings and other elements of the technical file;
- 10) Model engagement letter by bidder;
- 11) Model bid submission letter;
- 12) Model bid bond;
- 13) Model performance guarantee;
- 14) Model bank guarantee for the refund of start-up advance;
- 15) Model of draft contract;
- 16) Lists of banks of 1st order approved by the Ministry in charge of finance;
- 17) Table of references of the bidder;
- 18) Table of key materials and equipment of the contractor;
- 19) Model of qualification and experience of the key personnel responsible for enforcement of the contract.

7.2. The bidder must consider all of the regulations, forms, conditions and specifications contained in the Tender File. He is invited to provide all the information requested and to prepare a compliant offer in all aspects. Any deficiency can lead to the rejection of its offer.

Article 8: Clarification made to the tender file

8.1. Any bidder seeking clarification on the Tender File can apply to the Contracting authority in writing at the address of the Contracting authority indicated in the tender notice. The Contracting authority will respond in writing to any request for clarification received at least fourteen (14) days before the date of depositing of bids.

A copy of the response of the Contracting authority, indicating the question but not mentioning its author, is addressed to all bidders who purchased the Tender File.

8.2. Between the publication notice including the phase for the pre-qualification of candidates and the opening of the bids, any bidder who is aggrieved in the public contracts award procedure may petition to the Minister in charge of Public Contracts.

8.3. The appeal must be addressed to the contracting authority with copies transmitted to the Chairperson of the Tender Board and to the organ in charge of the regulation.

It must reach the contracting authority not later than fourteen (14) days before the date of opening of the bids.

8.4. The contracting authority has five (5) days to respond. The response is transmitted MINMAP and to the organ in charge of the regulation.

Article 9: Modification of the tender file

9.1. The Contracting authority can, at any time before the deadline of depositing of bids and any reason, whether on its own initiative or in response to a request for clarification by a bidder, modify the tender file by publishing the amendment.

9.2. Any amendment so published will be an integral part of the tender file as presented Article 6.1 of the RGAO and will be communicated in writing to all bidders who purchased the Tender File.

9.3. To give bidders sufficient time to take account of the amendment in the preparation of the bids, the Contracting authority could extend the deadline of submission of bids, as much as necessary the deadline for offers, in conformity with the provisions of section 19 of the RGAO.

C. PREPARATION OF BIDS

Article 10: Costs of submission

The candidate will bear all the costs associated with the preparation and presentation of his bid and the Contracting authority and the project owner are not responsible for any of these costs, or settle them, regardless of the conduct or outcome of the tender procedure.

Article 11: Language of bid

The bid, all correspondences and all documents exchanged between the bidder and the Contracting authority will be written in English or French.

Article 12: Composition of bid

12.1. The bidder's bid will include documents detailed in the Special Regulations of the invitation to tender, duly completed and grouped in three volumes:

a. Volume I: Administrative documents

It includes:

I. All documents stating that the bidder:

- Has complied with all declarations provided for by the laws and regulations in force;
- Is current with his taxes, contributions, fees or levies of any kind whatsoever;
- Is not in a State of liquidation or bankruptcy;
- Is not caught by one of the prohibitions and disqualifications criteria provided for by the legislation in force.

II. Bid bond(s) issued is in conformity with the provisions of article 15 of the present RGAO;

III. A written confirmation authorizing the signatory of the bid to engage the bidder

IV. The CCAP is duly initialed on each page and signed on the last page.

V. Localization plan is duly signed by the authority concerned

b. Volume II: Technical File

It includes:

I. Attestation of site visit and the site visit report;

II. Personnel: the contractor will present the competent technical staff and workers he intends to hire before the beginning of the work (attach to each staff CV signed by the candidate, certified copy of technical diploma, attestation of presentation original and the attestation of availability signed by the candidate);

- III. Site equipment: The contractor shall justify the ownership and the State of the equipment necessary for the performance of the work (providing registration certificates, invoices and certificates of technical visit of rolling equipment);
- IV. References of the company (the contractor will provide contracts or Jobbing orders for similar work carried out as well as related minutes of reception);
- V. The technical note on the methodology of intervention of the work: the company will produce a technical note dated and signed providing all the information concerning the mode of execution of the works, the planning of intervention, the expected output, provision of materials or site materials, the potential advantages in terms of safety of the environment and the Organization of the company;
- VI. The CCTP duly initialed on each page and signed on the last page;
- VII. Attestation of solvency of the contractor.
- VIII. Commentaries (optional)
A commentary on the technical choices of the project and possible proposals.

c. Volume 3: Financial File

It includes:

- I. The tender specimen form, in original drafted according to the model attached, stamped at the rate in force, signed and dated;
- II. The unit price schedule duly completed, with an indication of the unit price excluding VAT in letters and figures;
- III. Bill of estimates and quantities completed;
- IV. Sub-details of the different prices according to the model attached;

Bidders will therefore use the parts and models provided in the Tender File, subject to the provisions of section 16.2 of the RGAO on the other possible forms of bid security.

12.2. If, in conformity to the provisions of the RPAO, bidders bidding for several lots of the same invitation to tender, they can indicate the discount or rebates in case of allocation of more than one lot.

Article 13: Amount of bid

13.1. Unless otherwise indicated in the Tender File, the amount of the contract will cover all of the work described in section 1.1 of the RGAO, on the basis of the bill of quantity and cost estimates presented by the bidder.

13.2. The bidder will fill the unit and total price of all the items as well as the detail estimated quantities.

13.3. Subject to contrary provisions in the RPAO and CCAP, all the taxes and fees payable by the contractor in respect of the future contract, where otherwise, thirty (30) days before the deadline for submission of bids will be included in the bid prices and in the total amount of its offers.

13.4. If the terms of revision and/or updating of prices are provided in the contract, the date of establishment of the initial price and methods of review and/or discount price must be specified. Provided that any contract whose execution time is at most equal to one (1) year may not be the subject of price revision.

13.5. All unit prices shall be justified by sub-details established in accordance with the for proposed in section of sub detail for prices.

Article 14: Bid Currency and settlement

14.1. The amount of the contract is written entirely in CFA FRANCS. The amount of the bid, unit price of the prices schedule and quantitative and estimated detail prices are labeled entirely in C FRANCS in the following manner:

- (a) Prices will be entirely denominated in CFA FRANCS. The bidder willing to spend money other currencies for the execution of the work, will indicate in annex to the submission, percentage of the amount of the offer required to cover needs in foreign currencies, with exceeding a maximum of three currencies of Member country of the institution financing contract.
- (b) The exchange rates used by the bidder to convert its offer in national currency will be specified by the bidder in the annex of the submission. They will be applied for any payment in respect the contract, so that no foreign exchange risk is supported by the winning bidder.

Article 15: Validity of bids

15.1. The bids shall remain valid for Ninety (90) days. Any offer with validity less than the period will be rejected by the Delegated Contracting authority.

15.2. In exceptional circumstances, the Contracting authority may seek the consent of the bidder for an extension of the period of validity. The application and responses to be made will be in writing. The validity of the submission guaranty under article 15 of the RGAO will be similarly extended for corresponding period. A bidder may refuse to extend the validity of the offer without losing its bid bond. A bidder who agrees for an extension will not be asked to modify its offer, or will be allowed to do so.

15.3. When there is no article in the contract for the revision of prices and the period of bid validity is extended over sixty (60) days to the date of notification of the contract award or of the service order to start work to the successful bidder, as provided in the CCAP, the effect of actualization is not taken into account for the purposes of the assessment.

Article 16: Guarantee of submission

16.1. In application of article 10 of the RGAO, the bidder will provide a bid bond of the amount specified in the OMPP, which will be an integral part of its bid.

16.2. The bid bond must be in conformity with the model presented in the Tender File.

16.3. Any bid not accompanied by an acceptable bid bond will be rejected by the tenders' board as non-compliant. The bid bond of a group must be established in the name of the agent mandated to submit the bid and each member of the grouping must be mentioned.

16.4. The bid bonds and bids of unsuccessful bidders shall be returned within a period of fifteen (15) days from the date of publication of the results.

16.5. The bid bond of the successful bidder shall only be released as soon as the latter has signed the contract and has provided the required performance guarantee.

16.6. The bid bond may be seized:

- a. If the bidder withdraws his bid during the period of validity;
- b. If the bidder selected;

- ☐ Fails to fulfill its obligation to accept the contract pursuant to the results of award of the contract, or
- ☐ Fails to provide the performance guarantee pursuant to section 30 of the RGAO.

Article 17: Form and signature of the bid

17.1. The bidder will prepare an original of the constituent documents of the bid described in section 11 of the RGAO, in a volume bearing clearly the indication "**ORIGINAL**". In addition, the bidder shall submit the number of copies required by the OMPP, bearing the indication "**COPY**". In case of discrepancy between the original and the copies, the original will be taken.

17.2. The original and all copies of the offer must be typed or written in eligible ink and will be signed by the person duly empowered to sign on behalf of the bidder. All pages of the bid including overleaf will be initialed by the person (s) mandated to sign the offer.

17.3. In the offer there shall be no amendment, deletion or overloading, unless such corrections are initialed by the signatories of the bid.

D. SUBMISSION OF BIDS

Article 18: Sealing and marking of bids

18.1. The bidder will place the original and copies of the constituent documents of the bids in two separate and sealed envelopes marked "**Original**" and "**Copy**", as the case may be. These envelopes will then be placed in an outer envelope which will also have to be sealed, but that should give no indication of the identity of the bidder.

18.2. The inner and outer envelopes

- a. Will be addressed to the Contracting authority as indicated in the OMPP;
- b. Will bear the name of the project, the number of the invitation to tender in the OMPP, and the mention "To be opened only during the bid opening session" and also specify the lots.

18.3. The inner envelopes shall bear the name and address of the bidder to enable the Contracting authority to return the offer sealed if it was submitted after the date and time limit under the provisions of article 19 of the RGAO or to satisfy the provisions of article 20 of the RGAO.

18.4. If the outer envelope is not sealed and marked as specified in sections 17.1. and 17.2. above, the Contracting authority will not be responsible if the offer is lost or open prematurely.

Article 19: Date and time limits to deposit bids

19.1. Bids must be received at the Fonfuka Council Secreteriat at the **specific date and time indicated in the Special Regulation for the Invitation to Tender**.

19.2. The Contracting Authority may at his discretion, extend the deadline fixed for the deposition of bids by publishing another date in accordance with the provisions of **section 7** of the RGAO. In this case, all the rights and obligations of the bidders and the Contracting authority previously governed by the initial date limit shall be governed by the new date limit.

Article 20: Bids out of time

Any bid coming in after the date and time limit for the submission of bids under article 19 of the RGAO will be declared out of time and, therefore, not receivable.

Article 21: Modification, Substitution and withdrawal of bids

21.1. A bidder may modify, replace or withdraw his bid after submission, provided a written notification for the modification or withdrawal is received by the Contracting authority before the expiration of the period prescribed for the submission of bids. Such notification must be signed by a mandated representative. Modification or the corresponding bid to be replaced shall be attached to the written notification. The envelopes should be clearly marked depending on the situation, the mention "Withdrawal" and "Offer of replacement" or "Modification."

21.2. The notification of the modification, replacement or the withdrawal of the bid by the bidder shall be prepared, sealed, marked and sent in accordance with the provisions of section 15 of the RGA. Withdrawal may also be notified by fax, but must in this case be confirmed by a duly signed written notice, with the date, the postmark being authentic, and must not be after the deadline set for submission of tenders.

21.3. The bids which the bidders asked for the withdrawal pursuant to section 21.1 will be returned to them without having been opened.

21.4. Bid cannot be withdrawn within the interval between the deadline for the submission of bids and the expiration period of validity of the bid as on the bid form. The withdrawal of bid by a bidder during this interval leads to the bid bond being forfeited pursuant to the provisions of article 1 of the RGAO.

C. OPENING AND EVALUATION OF BIDS

Article 22: Opening of Bids

The tender's board shall proceed to open the bids in the presence of the bidders or their duly mandated representatives having a perfect knowledge of the bid.

Article 23: Confidential nature of the procedure

23.1. No information on the examination, evaluation, comparison of the bids, the verification of the qualification of bidders, and the recommendation of award of the contract shall be given to bidder or to any other person not concerned in this process until the award of the contract shall be made publicly by the Contracting Authority.

23.2. Any attempt by a bidder to influence the Tender's board or the Sub-Committee for analysis in the evaluation of bids or the Contracting authority in the award decision may lead to rejection of his bid.

23.3. Notwithstanding the provisions of paragraph 19.2, between the opening of bids and the award of the contract, if a bidder wishes to enter in contact with the Contracting authority for reasons related to his bid, he must do so in writing.

Article 24: Clarification on the bids and contact with the Contracting authority

24.1. To facilitate the examination and comparison of bids, the Chairman of the Tender's board may, at his discretion, ask any bidder for clarification on the bidder's bid. The request for clarification and the response shall be in writing, but no change in the amount or the content of the submission is sought, offered or permitted, unless it is necessary to confirm the correction of arithmetic errors discovered by the Sub-Commission for analysis in the evaluation of bids.

24.2. Subject to the provisions of paragraph 1 above, bidders are not allowed to have contact with any member of the tender's board and that of the Sub-committee for analysis for issues related to their bids, between the opening of bids and the award of the contract.

Article 25: Determining the conformity of bids

25.1. The Sub-Commission for analysis shall carry out a detailed examination of the bids to determine if they are complete, if the required guarantees have been provided, if the documents were properly signed and bids are generally in good order.

25.2. The Sub-Commission shall determine if the bid is substantially responsive to the requirements of the Tender File based on its content without recourse to extrinsic evidence.

Article 26: Correction of errors

26.1. The Sub-Commission shall check the bids found substantially responsive with the requirements of the Tender File for any correction of arithmetic errors. The Sub-Commission for analysis will correct the errors in the following ways:

- a. If there is a contradiction between the unit price and the total price obtained by multiplying the price by the amount, the unit price will govern and the total price will be corrected, unless, in the opinion of the Sub-Commission for analysis, the comma of the decimal digits of the unit price is obviously poorly placed, in which case the total price indicated will prevail and the unit price will be corrected.
- b. If the total obtained by addition or subtraction of the subtotals is not correct, the subtotal as indicated will govern and total will be corrected.
- c. If there is a contradiction between the price indicated in words and figures, the amount in words will govern, unless this amount is related to an arithmetic error confirmed by the sub detail of the said price, in which case the amount in figures will prevail subject to paragraphs (a) and (b) above.
- d. If there is a contradiction between the amount in the unit price in the bill of quantities and estimates, and the unit price breakdown (sub-detail), the amount in the unit price break down shall govern.

26.2. The bid amount will be corrected by the Sub-Commission for analysis, in accordance with the procedure of correction of errors mentioned above and with the confirmation of the bidder, such amounts will be deemed to hire him.

26.3. If the bidder having presented the lowest evaluated bid price does not accept the corrections on his bids, his offer will be rejected and the bid bond forfeited.

Article 27: Evaluation and comparison of the financial bid (offer)

Only offers accepted, in conformity according to the provisions of section 24 of the RGAO, will be evaluated and compared by the Sub-Commission for analysis.

By evaluating the bids, Sub-Commission for analysis will determine for each bid the evaluated amount by correcting the amount as follows:

- By correcting any possible error in accordance with the provisions of article 25 of the RGAO.
- Excluding provisional sums and, the provisions if any, for contingencies in the detail bill of quantities and summary, but by adding the amount of day work, when they are competitively priced as specified in the OMPP.

F. ATTRIBUTION OF CONTRACT

Article 28: Award

The contracting authority will award the contract to the bidder whose bid has been recognized substantial responsive to the requirement of the Tender File and which has the technical and financial capacity required to carry out the contract in a satisfactory way and in which the bid has been evaluated the lowest.

Article 29: Right of the Contracting authority to declare an invitation to tender unfruitful (unsuccessful) or cancel a procedure

The Contracting authority reserves the right to cancel a tender procedure only after approval from the Minister Delegate in charge of Public Contracts when the bids have opened or declare a tender unsuccessful following the opinion of the competent tender's board, without thereby incurring any claims from the affected bidders.

Article 30: Notification of the award of the contract

Before the expiry of the bid validity period fixed by the Special Regulation for Invitation to Tender, the contracting authority shall notify the award of the contract to the successful contractor confirmed by fax, by registered letter or by any other means available to do it. This notification letter

will indicate the amount HT that the contracting authority shall pay to the contractor in respect of execution of works and the duration.

Article 31: Publication of the award decision and redress

The award of a contract shall be materialised by a decision of the Contracting authority notified to the successful bidder.

Any decision by the Contracting authority to award a public contract shall be published; including the price and deadline, in the Journal of Public Contracts (JDM) published by the organ in charge of regulation of public contracts or in any other publication authorised to do so.

Once the results awarding a contract are published by the Delegated Contracting Authority, bidders whose bids were not retained shall be informed of the rejection of their bids and invited to withdraw them within fifteen (15) days, except the copy meant for the organ in charge of the regulation of public contracts. Tenders that are not withdrawn within this deadline shall be destroyed without any claims being lodged by the bidder.

After publication of the results of the award, the Independent Observer's report, as well as the minutes of the award session to which is attached the report of the evaluation of bids, shall be communicated to any bidder or administration concerned upon request addressed to the Contracting Authority.

In case of any petition, it must be addressed to the Minister in charge of Public Contracts, with copies to the organ in charge of the regulation of public contracts, the Contracting authority as well as the chairperson of the tenders' board.

On risk of being declared null and void, any petition must be formulated within a maximum of five (5) working days after the publication of result.

Article 32: Signature of the Contract

The award of a contract shall be materialised by a decision of the Contracting authority notified to the successful bidder.

32.1. After the publication of the award decision, the draft contract subscribed by the successful bidder is transmitted to the competent tenders' board for examination and adoption.

32.2. The Contracting authority has a time-limit of seven (07) days from the date of reception of the approved draft contract from the competent's tenders' board and subscribed by the successful bidder to sign the contract.

32.3. The contract is notified to the contractor within five (05) days of signature.

Article 33: Guarantees

33.1. The final bond must be constituted within twenty (20) days following the notification of the contract by the Contracting authority guaranteeing of the complete execution of the contract.

33.2. The final bond may not be less than two percent (2%) and more than five percent (5%) of the initial value of the contract. It may be replaced by a bank caution issued by a banking establishment or first rate financial institution authorized in accordance with the instruments in force.

33.3. Small and medium-sized enterprises (SME) constituted of National capital and managed by nationals may, in lieu of the final bond, provide a stator lien or a bond issued by a banking establishment or first rate financial institution authorized in accordance with the instruments in force.

33.3. The absence of the final bond within the prescribed time-frame, the Contracting authority may decide to cancel or terminate the contract at the fault, expense and risk of the said contractor according to the conditions provided in the General Administrative Clauses (CCAG).

The minutes of the final acceptance shall be drawn on the spot and signed by all the members.

CHAPTER V: MISCELLANEOUS PROVISIONS

ARTICLE 39: Termination of the contract (CCAG article 74)

The contract may be terminated as provided for in Article 180 of the Decree 2018/366 of 20/06/2018 of the Public Contracts code and equally under conditions stipulated in articles 74, 75 and 76 of the CCAG, notably:

- Delay for more than fifteen (15) calendar days in the execution of a Service order or unjustified stoppage of work for more than seven (7) calendar days;
- Delay in the execution of work resulting to penalties above 10% of the amount of the contract;
- Default of the contractor;
- Refusal to repeat poorly executed works;
- Persistent non respect of payments on account.

ARTICLE 40: Case of force majeure (CCAG article 75)

40.1 No party to the contract shall be considered as having contravened his contractual obligations if he is prevented from doing so by a force majeure.

40.2 No claims shall be made against the contractor if he fails or delays in the execution of his contract due to cases of force majeure such as:

- Rains : 200 millimetres in 24 hours ;
- Winds : 40 metres per second ;
- Floods: frequent floods.

ARTICLE 41: Disagreements and disputes (CCAG article 75)

Disagreements and disputes during the execution of the contract shall be the subject of an attempt of amicable settlement, where need be, through mediation, in accordance with the provisions of the SAC and subject to the provisions of the Public Contracts Code.

Where the disagreements and disputes cannot be settled amicably, the matter shall be brought before the competent Cameroon jurisdiction, subject to the provisions of the SAC.

ARTICLE 42: Production and dissemination of this present contract.

Ten (10) copies of this present contract shall be produced and multiplied at the expense of the contractor.

ARTICLE 43 and last: Entry into Force of the Jobbing order

This contract shall be valid only upon its signature by the Contracting Authority. It shall enter into force as soon as it is notified to the contractor by the Contracting Authority.

Article 18 : Command of the solar streetlights	55
Article 19 : Fixing and civil works	55
Article 20 : Calculation	55
Article 21 : Technical Characteristics of the work	57

Article 1 : Goal of the STC

This present STC helps to inform the bidder on the nature of the work to be done, the consistency, the size and the technical specifications to be observed. It is however not limited and the bidder has to execute as per the prices without exception nor reserves all the works contained in this tender file with all professionalism using cutting edge techniques. The diagrams and plans contained in this document are simple snotic for ease understanding of the project.

Article 2 : Duties of the contractor

The fact that the contractor has to execute the job without modifying the technical prescription done by the engineer doesn't attenuate in any way his full and total responsibilities. However, a site visit will help to have a better visibility of the project to be done.

In the case of insufficiencies or errors, the contractor has to refer to the engineer in good time such that he will have enough time to submit the corrections. He the engineer remains responsible for the errors and have the singular ability to bring about the modifications or observation of this clause.

The contractor will be responsible for every destruction or accidents committed by his personnel in the cause of the works.

Article 3 : Nature of work

The nature of work described in this tender file is for the installation of solar power plant at FONFUKA Council chambers.

Article 4 : Normes and regulation texts

4.1- Normes and general texts

The consistency of the works is subject to prescriptions, laws, decrees, arretes, standards, norms and publications in force in Cameroon and in relation to the management of the electricity sector and or the labour code. By default of these texts, the following recommendations from comité électrotechnique international (CEI) will apply:

- European norms CEN-CENELEC (EN) ;
- French norms AFNOR ;
- UTE norms – class C relating to electrical installation (NF C 10-100 ; NF C 10-101 NF C 10-200 ; NF C 13.100 ; NF C 14.100 ; NF C 15.100) and supplementaries ;
- les Documents techniques unifiés (DTU).

4.2- Normes and texts relating to the installation of solar photovoltaic

The installation of solar photovoltaic of this present tender file must be in conformity to prescriptions, laws, decrees, arretes, standards, norms and publications in force in Cameroon, and relating to renewable energy and low voltage electric installation:

- UTE C 57-300 : descriptive parameters for a photovoltaic system ;
- UTE C 57-310 : direct transformation from solar energy to electrical energy;
- NF EN 61727 : photovoltaic system(PV) – Characteristics and grid connected interface;
- NF EN 61173 : High voltage protection in solar photovoltaic systems and energy protection.
- CEI 61724 : surveillance of quality functioning of the solar photovoltaic system- Recommandations pour la mesure, le transfert et l'analyse des données

- NF EN 60904-3 (C57-323) photovoltaic Dispositive – Part : Measuring the photovoltaic characteristics Current-voltage - Part 3 : Principle of measuring the solar photovoltaic dispositive (PV) to be used on the ground including spectral lighting which is reference.
- NF EN 61215 Silicon monocrystalline or polychrystalline photovoltaic modules (PV) : Qualification of the conception and homologation.
- NF EN 61730-1 (C 57-111-1) Qualification for the certainty of functioning of Part 1 photovoltaic modules: Demands for the construction.
- NF EN 61730-2 (C 57-111-2) Qualification for the certainty of functioning of Part 3 photovoltaic modules: Demands for Testing.

4.3- Normes and text relating to the installation of street lighting.

Solar streetlighting which is the subject of this tender file must be in conformity to prescriptions, laws, decrees, arretes, standards, norms and publications in force in Cameroon, and relating to the installation of streetlighting. By default of these texts, the following recommendations will apply:

- NF EN 60598 on the safety of luminaries;
- UTE C 17-205 applicable to the characteristics of streetlighting installations;
- NF C 17-200 Relating to installations destined for public streetlighting;
- NF C 17-202 applicable to illumination installations and lighting purposes;
- NF EN 13201 concerning public lighting parts 1, 2, 3 and 4.
- NF EN 40 concerning poles of public lighting.

4.4- Other textes

The fact that all the regulations have not been mentioned requires the contractor to conform to them. The contractor after signing the contract takes the responsibility to conceive and execute the project. He is called upon to submit his remarks on the design of this document before signing the contract. In case in the course of the execution of this project, new regulations are enforced, the contractor has to inform the engineer by writing specifying the modalities of applying the new regulations and their incidence in course.

Article 5 : Quality and source of material

All the material, appliances and diverse accessories to be used for this installation of this project must be new and of first quality.

The bidder has to furnish alongside his offer and the state of the material, a descriptive list of his suppliers and documents justifying the supply or an eventual partnership. In the course of the works, replacements of material will not be possible without autorisation from the engineer.

Article 6 : Site Organisations – duration – penalties

All necessary measures for the execution of this present project must be respected. (supply and temporal connection, time management etc.). the contractor must ensure the supply of the material in good time and the necessary suppliers for a consistent work evolution. No material delivery will be used as an excuse for lateness on the prescribed schedule.

Article 7 : Modifications of works during execution

No change in the project shall be accepted in the course of the works without autorisation of the project owner.

Article 8 : Site visit meetings

Prior to the start of the works, a site visit will be organised to peek the site in the presence of the contractor. Once convened for a meeting at the site by the project owner or his representative, the contractor must take part in this meetings.

Article 9 : Hygiene, safety and conditions of work

9.1- General safety measures

All regulatory dispositions concerning hygiene and safety at work for workers must be respected by the contractor or by his sub contractor. In addition, it is also imperative to respect the dispositions of article 10 of this present STC.

9.2- Specific measures for safety

In order to reduce the risk incurred in the course of working, the following safety measures subject to this tender file must be put in place :

- Lifting works : the use of individual protective equipments (helmet, overalls, gloves, safety shoes...); the use of appropriate lifting devices ; the use of homologated tools and appliances for external use (tools, portable electrical tools, extension cords, mobile lamps, generator etc.) ;
- Electrical works : the use of individual protective equipments ; the use of collective safety material (protective bands, etc.) ; the respect of the right procedure in the installation;
- Working at heights : the use of appropriate temporal or permanent material (mobile ladders, scaffold, crinoline ladder,...); the use of individual protective equipment (helmet,...) ; signaling and limiting areas of work from risk zones of falling objects (barriers, bands, sign board...).

Article 10 : Number and qualification of staff

The competing bidders for awards subject to this tender, out of training personnel, as stipulated in table 2 of the particular regulations of the offer, a team of operators with at least 8 persons. They should show prove of relative experience in similar works like installations of the modules and frames, the putting in place of photovoltaic installations, electric wiring, working at heights, sheet metal works, wood works and masonry.

On the organisation chart furnished by the competing bidder in his technical offer of the bids should specify the function and the tasks of each staff.

Chapitre II : General Technical Specifications for the project.

Article 11 : Definition

A solar streetlight is a dispositive for public lighting that functions through the use of solar photovoltaic energy. Withing the framework of this STC, it consists of :

- Panel : made up of Cells of 72(6x12) which forms an array;
- A luminary or the head of the streetlight : its the sum up of the mechanical, optical, and electrical parts that carries one or more lamps. It permits on the one hand to distribute and control the luminous flux and on the other hand protects the lamps, the electric circuit and the mechanical dispositive from atmospheric effects
- One or photovoltaic modules;
- One or more batteries for storage;
- A charge controller;
- A set of control dispositive, cables and earth;
- Battery storage system;
- Panel rack.

Article 12 : The panels

The working voltage of the solar cell needs to be selected according to the controller Working voltage, and then confirm the open circuit voltage of the solar panel..

Article 13 : Le luminary

The luminary consists of an optical system incorporating a reflector, a refractor and a control mechanism. This setup should guarantee a high efficiency without emitting luminous flux above the horizon. The head of the luminary should hence be flat, transparent and in a horizontal posture. We should avoid convex and non transparent heads which disperse luminous flux thereby provoking useless losses.

The system should be of the LED type with a nominal power of 6,3kW (DC, 12V)

Article 14 : Photovoltaic modules

The modules of photovoltaic cells must resist the ambient climatic conditions described below :

- Temperature : 10° à $+ 85^{\circ}\text{C}$
- Relative Humidity : uptill 100%
- Wind speed : weak constraints in the Center and south Regions of Cameroon.
- Precipitations : continues severe rains
- particular conditions (tropical climate of the equatorial type, etc.)

the photovoltaic Les modules must respect the standard CEI 61215 for crystalline modules.

The maximum operational voltage should be clearly specified on the datasheet and on the name plate of the module. It must be compatible with the voltage put in place for the normal functioning of the lamps.

The module should have :

- A junction box where appropriate connectors of IP54 at least are used ;
- A bypass diode (diode for derivation).

All precautions must be taken in a manner to avoid every risk link to corrosion by electrolytic coupling between the photovoltaic module and the frames or racks.

Article 15 : The solar Batteries

The solar batteries are sized such that it functions from 6am to 6pm with a 3 days autonomy. It must reconstitute a constant current flow during long periods while preserving its ability to recharge.

Gel batteries are of preference and must have the following characteristics:

- A high efficiency (0,9 in Ah) ;
- Cycle and life span: the number of charging/discharging of about 200cycles at 80% depth of discharge;
- autodischarge : a good solar battery must not have more than 3 to 5 % of monthly losses capacity at 20°C ;

to avoid the accumulation of explosive gas, we need to watch out for good ventilation of the batteries. A supplementary water tight container will constitute a good protection in case of acid.

Article 16 : Charge controller

The charge controller protects the battery against overcharging from the modules and deep discharges by the load. For the purpose of this jobbing order, the following charge controller of the series model will be used for the following criteria:

- an eventual reverse biased diode of type « schottky » ;
- quality contacts with easy access;
- a minimum internal consumption (few mA maximum) ;
- a load thermal compensation ($T > 30^{\circ}\text{C}$ and $T < 0^{\circ}\text{C}$) ;
- an output manual faulty breaker;

- full charge indicators and output cut;
- an output protection (fuses).

Article 17 : Earth and lightning discharge protection

The interconnection of masses is of a fundamental importance for the proper functioning of protection against lightning and over voltage. The metallic masses of equipments must be interconnected and linked to the earth.

In a mode of protecting the equipments against indirect lighting faults, thunder arrestors must be installed in different liasons.

Article 18 : Control of Lighting

A control mechanism for the solar plant must allow the the system to be controlled in lighting and turning off during appropriate hours by the help of usual mechanism (sensors, switches, etc.). This mechanism can eventually be intergrated into the charge controller. A dispositive to vary the power will permit us reduce the energy consumption in the middle of the night.

Article 19 : Fixtures and civil works

The solar panel will be fixed on the ground through a steel rack casted heavily with reinforced concrete and with the help of flat fixture. This setup must be sized following the rules of the art to withstand the weight of the solar panels.

Article 20 : Calculations

We understand that _____ (hereinafter called "the bidder"), has submitted his bid on _____ for INSTALLATION OF SOLAR POWER PLANT AT THE FONFUKA COUNCIL CHAMBERS, BUM SUB DIVISION, BOYO DIVISION, North-West Region Lot....

We, _____ (Bank) of _____ (country), with our head quarter in _____ hereby declare to guarantee payment to the contracting authority of the sum of _____ (in letters and in figures), that the Bank is committed to pay completely to the contracting authority, bidding itself, its successors and assignees.

Signed and authenticated by the aforementioned Bank this (day) of (month), and (year).

The conditions of this commitment are as follows:

1. If after the opening of the bids, the bidder withdraws his Offer during the validity period specified by himself in his tender, or
2. If the bidder, having been notified of the award of the contract by the contracting authority during the period of bid validity:
 - Fails or refuses to sign the contract even though required to do so:
 - Fails or refuses to furnish the final bond for the contract as provided for by the contract.

We undertake to pay the contracting authority an amount up to the maximum of the sum referred to above upon receipt of his written demand, without the contracting authority having to substantiate his demand, provided that in its demand the contracting authority shall note that the amount claimed by him is due, because on or the other or both of the above condition(s) has (have) been fulfilled and he shall specify which condition(s) took effect.

This bond shall enter into force from the date of signature and from the date set by the contracting authority for the submission of tenders. It shall remain valid up till the thirtieth day inclusive following the end of the deadline for the validity of tenders. Any request by the contracting authority to cause it to take effect should reach the bank by registered mail with an acknowledgement of receipt before the end of this period of validity.
