A. GENERAL REGULATION OF THE INVITATION TO TENDER

Article 1: Scope of the tender: The Contracting Authority as defined in the Special Regulations of the invitation to tender hereby launches an OPEN NATIONAL INVITATION TO TENDER FOR THE CREATION OF GREEN SPACE 2 IN FUNDONG TOWN IN THE FUNDONG MUNICIPALITY, BOYO DIVISION.

1.1 Described in the Tender notice and briefly described in the Special Regulation.

1.2 The bidder retained or the preferred bidder must complete the works within the time-limit indicated in the Special Regulations and which time-limit runs from the date of notification of the Administrative Order or that indicated in the said Administrative Order.

1.3 In this Tender File, the term "day" means a calendar day.

Article 2: Financing: The source of financing of the works forming the subject of this invitation to tender shall be specified in the Special Regulations.

Article 3: Fraud and corruption:

- 3.1 The Contracting Authority requires of bidders and contractors the strict respect of rules of professional ethics during the award and execution of public contracts. By virtue of this principle:
- a) The following definitions shall be admitted:
- a.1 Shall be guilty of "corruption" whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;
- a.2 Is involved in "fraudulent manoeuvres" whoever deforms or distorts facts in order to influence the award or execution of a contract;
- a.3 "Collusive practices" shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition;

a.4 "Coercive practices" shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.

- b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.
- 3.2 The Minister Delegate at the Presidency in charge of public contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him

Article 4: Candidates allowed to compete.

- 4.1 If the invitation to tender is restricted, consultation is addressed to all candidates retained after a pre-qualification procedure.
- 4.2 Generally, the invitation to tender is addressed to all entrepreneurs, subject to the following provisions:

a. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must be from an eligible country, in accordance with the funding agreement.

 A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must not be in a situation of conflict of interest, subject to disqualification. A bidder shall be

judged to be in a situation of conflict of interest if he:

b.1 Is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts awarded for this invitation to tender; or

b.2 Presents more than one bid within the context of invitation to tender, except authorized variance according to article 17, where need be; meanwhile, this does not prevent the

participation of sub-contractors in more than one bid.

b.3 The Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts.

c. The bidder must not have been excluded from bidding for public contracts.

d. A Cameroonian public enterprise may participate in the consultation if it can demonstrate that it is (i) legally and financially autonomous, (ii) managed according to commercial laws and (iii) not under the direct supervisory authority of the Contracting Authority or Project Owner.

Article 5: Building materials, materials, supplies, equipment and authorized services:

- 5.1 Building materials, the contractor's materials, supplies, equipment and services forming the subject of this contract must originate from countries meeting the criteria of origin defined in the Special Regulations of the invitation to tender and all expenditure done within the context of the contract shall be limited to the said building materials, materials, supplies, equipment and services.
- 5.2 Within the meaning of this 5.1 above, the term "originate" shall designate the place where the goods are extracted, cultivated, produced, manufactured and from where the services originate.

Article 6: Qualification of bidder:

- 6.1 As an integral part of their bid, bidders must:
- 6.1.1 Submit a power of attorney making the signatory of the bid bound by the bid; and
- 6.1.2 Provide all information (complete or update information included in their request for prequalification which may have changed in the case where the candidates took part in prequalification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- (i) The production of certified balance sheets and recent turnovers;
- (ii) Access to a line of credit or availability of other financial resources;
- (iii) Orders acquired and contracts awarded;
- (iv) Pending litigations; and
- (v) Availability of indispensable equipment.

6.2 Bids presented by two or more associated undertakings (joint-contracting) must satisfy the following conditions:

a. The bid must include all the information listed in article 6(1) above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group;

b. The bid and the contract must be signed in a way that is binding on all members of the group;

c. The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form;

d. The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the Contract:

e. In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting.

6.3 Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender.

6.4 Bidders requesting to benefit from the margin of preference must furnish all the necessary information to prove that they satisfy the eligibility criteria set in article 33 of the General Regulations of the invitation to tender.

Article 7: Visit of works site:

7.1 The bidder is advised to visit and inspect the site and its environs and obtain by himself and under his own responsibility, all the information which may be necessary for the preparation of the bid and the execution of the works. The related cost of the visit of the site shall be borne by the bidder.

7.2 The Project Owner shall authorize the bidder and his employees or agents to enter the premises and the land for the said visit but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from this visit.

7.3 The Project Owner may organize a visit of the site of the works during the preparatory meeting to establishing the bids mentioned in article 19 of the General Regulations of the invitation to tender.

B. TENDER FILE

Article 9: Clarifications on the Tender File and compliance

- 9.1 Any bidder who wants to obtain clarifications on the Tender File may request them from the Contracting Authority in writing or by electronic mail (fax or e-mail) at the Contracting Authority's address indicated in the Special Regulations of the invitation to tender and send a copy to the Project Owner. The Contracting Authority replies in writing to any request for clarification received at least fourteen (14) days prior to the deadline for the submission of bids. A copy of the Contracting Authority's response, indicating the question posed but not mentioning the author, is addressed to all bidders who bought the Tender File.
- 9.2 Between the publication of the tender notice including the pre-qualification phase of candidates and the opening of bids, any bidder who feels aggrieved in the public contracts award procedure may lodge a complaint to the Minister in charge of Public Contracts.
- 9.3 A copy of the complaint should be addressed to the Contracting Authority and to the body in charge of the regulation of public contracts and the chairperson of the Tenders Board.
- 9.4 The Contracting Authority has five (5) days to react. A copy of the reaction shall be forwarded to MINMAP and the body in charge of the regulation of public contracts.

Article 10: Amendment of the Tender File

10.1 The Contracting Authority may at any moment, prior to the deadline for the submission of bids and for any reason, be it at his initiative or in reply to a request for clarification formulated by a bidder, amend the Tender File by publishing an addendum.

10.2 Any published addendum shall be an integral part of the Tender File, in accordance with article 8.1 of the General Regulations of the invitation to tender and must be communicated in writing or made known by a traceable means to all bidders who bought the Tender File.

In order to give bidders sufficient time to take account of the addendum in the preparation of their bids, the Contracting Authority may postpone as is necessary, the deadline for the submission of bids, in accordance with provisions of article 22 of the General Regulations of the invitation to

C PREPARATION OF BIDS

Article 11: Tender costs: The candidate shall bear the costs related to the preparation and presentation of his bid and the Contracting Authority and the Project Owner shall in no case be responsible for these costs nor pay for them whatever the evolution or outcome of the invitation to tender procedure.

Article 12: Language of bid: The bid as well as any correspondence and any document exchanged between the bidder and the Contracting Authority shall be written in English or French. Complementary documents and the forms provided by the bidder may be written in another language on condition that a precise translation into either English or French of the passages concerning the bid is included; in which case for reasons of interpretation, the translation shall be considered to be authentic.

Article 13: Constituent documents of the bid

13.1 The bid presented by the bidder shall include the documents detailed in the Special Regulations of the invitation to tender, duly filled and put together in three volumes:

a. Volume 1: Administrative file: It includes:

- a.1 All documents attesting that the bidder:
- Has subscribed to all declarations provided for by the laws and regulations in force;
- Paid all taxes, duties, contributions, fees or deductions of whatever nature;
- Is not winding up or bankrupt;
- Is not the subject of an exclusion order or forfeiture provided for by the law in force;
- a.2 The bid bond established in accordance with the provisions of article 17 of the General Regulations of the invitation to tender;
- a.3 The written confirmation empowering the signatory of the bid to commit the bidder, in accordance with the provisions of article 6(1) the General Regulations of invitation to tender.

b. Volume 2: Technical bid

b.1 Information on qualifications: The Special Regulations list the documents to be furnished by bidders to justify the qualification criteria mentioned in article 6(1) of the Special Regulations of the invitation to tender.

- b.2 Methodology: The Special Conditions of the invitation to tender specifies the constituent elements of the technical bid of the bidders especially; a methodological statement on an analysis of the works and specifying the organization and programme which the bidder intends to put in place or use to execute the works (installations, schedule, Quality Assurance Plan (QAP), sub-contracting, attestation of visit of the site, where necessary, etc).
- b.3 Proof of acceptance of conditions of the contract: The bidder shall submit duly initialled copies of the administrative and technical documents relating to the contract, namely:
- The Special Administrative Conditions (SAC);
- The Special Technical Conditions (STC).
- b.4 Commentaries (optional): A commentary on the technical choices of the project and possible proposals.
- c. Volume 3: Financial bid: The Special Regulations specify the elements that will help in justifying the cost of the works, namely:
- The signed and dated original bid prepared according to the attached model, stamped at the prevailing rate;
- The duly filled Unit Price Schedule;
- The duly filled detailed estimates;
- The sub-details of prices and/or breakdown of all-in prices;
- The projected schedule of payments, where need be.

In this regard, the bidders will use the documents and models provided in the Tender File, subject to the provisions of article 17(2) of the General Regulations of the invitation to tender concerning the other possible forms of guarantees.

13.2 If in accordance with the provisions of the Special Regulations of the invitation to tender, the bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot.

Article 14: Bid price:

- 14.1 Except otherwise stated in the Tender File, the amount of the contract shall cover all the works described in article 1.1 of the General Regulations of the invitation to tender, on the basis of the price schedule and the detailed bill of quantities and estimates presented by the bidder.
- 14.2 The bidder shall fill the unit prices and totals of all items on the schedule and bill of quantities and estimates.
- 14.3 Subject to contrary provisions provided for in the Special Regulations and in the Special Administrative Conditions, all dues, taxes and fees payable by the bidder on grounds of the contract or on any other ground, thirty (30) days prior to the submission of the bids, shall be included in the prices and in the total amount of the bid presented by the bidder.
- 14.4 If a price revision/updating clause is provided for in the contract, the date of establishment of the initial price, as well as the price revision/updating conditions for the said price must be

specified. This is with the understanding that any contract of duration less than one (1) year shall not be subject to price revision.

14.5 All unit prices must be justified by sub-details established in accordance with the structure proposed in document 8 of the Tender File.

Article 15: Currency of bid and payment

15.1 In case of international invitations to tender, the currencies of the bid shall follow the provisions of either Option A or Option B below, the applicable option being that retained in the Special Regulations of the invitation to tender.

15.2 Option A: The amount of the bid shall be entirely made in the national currency.

The amount of the bid, unit prices of the price schedule and the prices of the bill of quantities and estimates are completely made in CFA francs in the following manner:

- a. Prices shall be entirely drawn in the national currency. The bidder who intends to commit expenditures in other currencies for the execution of the works shall indicate in the annex to the bid the percentage(s) of the amount of the bid necessary to cover the needs in foreign currencies, without exceeding the maximum of the three currencies of member countries of the funding institution of the contract.
- b. The exchange rates used by the bidder to convert his bid into the national currency shall be specified by the bidder in an annex to the bid in compliance with the specifications of the Special Regulations. These rates shall be applied for any payment within the framework of the contract so that the retained bidder does not bear any change in the exchange rate.
- 15.3 Option B: The amount of the bid shall be directly made in the national and foreign currency at the rates fixed in the Special Regulations.

The bidder shall draw the unit prices of the price schedule and the prices of the bill of quantities and estimates in the following manner:

- a. The prices of inputs necessary for the works which the bidder intends to procure in the Contracting Authority's country shall be in currency of the Contracting Authority's country specified in the Special Regulations and called "national currency";
- a. The prices of inputs necessary for works which bidder intends to procure out of the Contracting Authority's country shall be in the currency of the country of origin of the bidder or of the currency of an eligible member country widely used in international trade.
- 15.4 The Contracting Authority may request the bidders to explain the needs in national and foreign currencies and to justify that the amounts included in the unit and total prices and indicated in annex to the bids are reasonable; to this end, a detailed statement of their needs in foreign currencies shall be furnished by the bidder.

15.5 During the execution of the works, most of the foreign currency to be paid as part of contract may be revised by mutual agreement between the Contracting Authority and the entrepreneur in a way as take account of any modification in the foreign currency needs within the context of the contract.

Article 16: Validity of bids:

16.1 Bids must remain valid during the period stated in the Special Regulations from the date of submission of the bids fixed by the Contracting Authority, in application of article 22 of the Special Regulations. A bid valid for a shorter period shall be rejected by the Contracting Authority or Delegated Contracting Authority as not being in compliance.

16.2 Under exceptional circumstances, the Contracting Authority may seek the approval of bidders to extend the validity time-limit. The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in article 17 of the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.

16.3 Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than sixty (60) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders. The updating period shall run from the date of overrun of sixty (60) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

Article 17: Bid bond

17.1 In application of article 13 of the General Regulations, the bidder shall furnish a bid bond of the amount specified in the Special Regulations and which bid bond shall be a full part of his bid. 17.2 The bid bond must conform to the model presented in the Tender File; other models may be authorised subject to the prior approval of the Contracting Authority. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of article 16 (2) of the General Regulations.

17.3 Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and should mention each member of the associated grouping.

17.4 The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.

- 17.5 The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.
- 17.6 The bid bond may be seized:
- (a) if the bidder withdraws his bid during the period of validity;
- (b) if the retained bidder:
- b.1 Fails in his obligation to register the contract in application of article 38 of the General Regulations;
- b.2 Fails in his obligation to furnish the required final bond in application of article 38 of the General Regulations;
- b.3 Refuses to receive notification of the Administrative Order to commence execution.

Article 18: Varying proposals of bidders

- 18.1 Where the works can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.
- 18.2 Except in the case mentioned in article 18(3) below, bidders wishing to offer technical variants must first assess the Secondary solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed construction methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the Secondary solution has been evaluated as the lowest bid.
- 18.3 When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the works, these parts of the works must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of article 31(2) (g) of the General Regulations.

Article 19: Preparatory meeting to the establishment of bids

- 19.1 Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations.
- 19.2 The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.
- 19.3 As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting The Contracting Authority may

not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in article 19(4) below.

19.4 The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in article 8 of the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of article 10 of the General Regulations and not through the minutes of the preparatory meeting.

19.5 The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: Form and signature of bid

20.1 The bidder shall prepare an original of the constituent documents described in article 13 of the General Regulations in a volume clearly indicated "ORIGINAL". In addition, the bidder shall submit the number required in the General Regulations, bearing "COPY". In case of discrepancy, the original shall be considered as authentic.

20.2 The original and copies of the bid must be typed or written in indelible ink (photocopies shall be accepted in the case of copies) and shall be signed by the person(s) duly empowered to sign on behalf of the bidder, in accordance with article 6(1a) or 6(2c) of the General Regulations, as the case may be. All the pages of the bid containing alterations or changes must be initialled by the signatory (ies) of the bid.

20.3 The bid shall bear no modification, suppression or alteration unless such corrections are initialled by the signatory (i.e.) of the bid.

D. SUBMISSION OF BIDS

Article 21: Sealing and marking of bids

- 21.1 The bidder shall seal the original and each copy of the bid in separate envelopes (internal envelopes) by marking on these envelopes "ORIGINAL" and "COPY", as the case may be. The envelopes shall then be placed in another envelope which will equally be sealed but which will not give any indication regarding the identity of the bidder.
- 21.2 The external and internal envelopes:
- a) Should be addressed to the Contracting Authority at the address indicated in the Special Regulations;
- b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription "TO BE OPENED ONLY DURING THE BID-OPENING SESSION" as specified in the Special Regulations.

21.3 The internal envelopes should equally carry the name and address of the bidder in a way as to enable the Contracting Authority return the sealed bid if it is late in accordance with article 23 and 24 of the General Regulations.

21.4 If the external envelope is not sealed and marked as indicated in paragraphs 21(1) and 21(2) above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: Date and time-limit for submission of bids

22.1 The bids must be received by the Contracting Authority at the address specified in article 21(2) of the Special Regulations not later than the date and time stated in the Special Regulations.

22.2 The Contracting Authority may, at his discretion, postpone the deadline set for the submission of the bids by publishing an addendum in accordance with the provisions of article 10 of the General Regulations. In this case, all the rights and obligations of the Contracting Authority and bidders previously governed by the initial date will henceforth be governed by the new date.

Article 23: Late bids: Any bid received by the Contracting Authority beyond the deadline for the submission of bids in accordance with article 22 of the General Regulations shall be declared late and consequently rejected.

Article 24: Modification, substitution and withdrawal of bids

24.1 A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The said notification must be signed by an authorized representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription "WITHDRAWAL", and "REPLACEMENT BID" or "MODIFICATION".

24.2 Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.

24.3 In application of article 24(1), bids being requested to be withdrawn by bidders shall be returned to them unopened.

24.4 No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

E. OPENING AND EVALUATION OF BIDS

Article 25: Opening of the bids and petitions

- 25.1 The competent Tenders Board shall open the envelopes in single or double phases and in the presence of the representatives of bidders who wish to attend at the date, time and address specified in the Special Regulations. Representatives of bidders shall sign a register attesting to their presence.
- 25.2 Firstly, envelopes marked "withdrawal" shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked "Replacement bid" are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked "modification" shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.
 - 25.3 All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [in case of opening of financial bids] and any variant, where necessary, the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation.
 - 25.4 Bids (and modifications received in accordance with the provisions of article 24 of the General Regulations) which were not opened and read to the hearing of everyone during the bidopening session for whatever reason, shall not be submitted for evaluation.
 - 25.5 Bid-opening minutes are recorded on the spot mentioning the admissibility of bids, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the session.

25.6 At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by the body in charge of regulation of public contract an initialled copy of the bids presented by bidders.

25.7 In case of petition as provided for by the Public Contracts Code, it should be addressed to the Minister Delegate in charge of Public Contracts with a copies to the body in charge of the regulation of public contracts, the head of structure to which is attached the Tenders Board concerned.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

The Independent Observer attaches to his report the sheet that was handed to him, including any related commentaries or observations.

Article 26: Confidential nature of the procedure

26.1: No information relating to the examination, clarification, evaluation and comparison of bids and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders or to any person not concerned with the said procedure as long as the preferred bidder has not been made public, subject to the disqualification of the bid of the bidder and suspension of the authors from all activities in the domain of public contracts.

26.2 Any attempt by a bidder to influence the Tenders Board or the Evaluation sub-committee of bids or the Contracting Authority in its award decision may lead to the rejection of his bid.
26.3 Notwithstanding the provisions of paragraph 26.2 above, between the opening of bids and the award of the contract, if a bidder wishes to enter into contact with the Contracting Authority for reasons having to with his bid may do so in writing.

Article 27: Clarifications on the bids and contact with the Contracting Authority

27.1 To ease the examination, evaluation and comparison of bids, the Tenders Board may, if it so desires, request any bidder to give clarifications on his bid. This request for clarification and the response thereto are formulated in writing but no change on the amount or content of the bid is sought, offered or authorized, except it is necessary to confirm the correction of calculation errors discovered by the Evaluation Sub-committee during the evaluation in accordance with the provisions of article 30 of the General Regulations.

27.2 Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the Evaluation Sub-committee for questions related to their bids, between the opening of envelopes and the award of the contract.

Article 28: Determination of compliance of bids

- 28.1 The Evaluation sub-committee shall carry out a detailed examination of bids to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the bids are in proper order.
- 28.2 The Evaluation sub-committee shall determine if the bid is essentially in compliance with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.
- 28.3 A bid that complies with the Tender File shall essentially be a bid that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:
- Which substantially limits the scope, quality or realization of the works;
- which substantially limits, contrary to the Tender File, the rights of the Contracting Authority or his obligations in relation to the contract;
- Whose correction would unjustly affect the competitiveness of the other bidders who presented bids that essentially complied with the Tender File
- 28.4 If a bid is essentially not in compliance, it shall be rejected by the competent Tenders Board and shall not subsequently be rendered in compliance.
- 28.5 The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of bids.
- Article 29: Qualification of the bidder: The Evaluation sub-committee shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in article 6 of the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: Correction of errors

- 30.1 The Evaluation sub-committee shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. The Evaluation sub-committee shall correct the errors in the following manner:
- a. Where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a gross error of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected.

Article 36: Notification of award of the contract: Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.

Article 37: Publication of results of award and petitions

37.1 The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.

37.2 The Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

37.3 After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.

37.4 In case of petition, it should be addressed to the Public Contracts Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned. It must take place within a maximum deadline of five (5) working days after the publication of the results.

Article 38: Signing of the contract

38.1 After publication of the results, the draft contract subscribed by the successful bidder is submitted to the Tenders Board for examination and where applicable, to the Minister in charge of Public Contracts for prior endorsement.

38.2 The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception of the draft contract examined by the competent Tenders Board and subscribed by the successful bidder and where applicable, the endorsement of the Minister in charge of Public Contracts.

38.3 The contract must be notified to the successful bidder within five (5) days of its date of signature.

Article 39: Final Bond

39.1 Within twenty (20) days of the notification by the Contracting Authority, the contractor shall furnish the Project Owner with a final bond, to guarantee the complete execution of the works.

39.2 The bond whose rate varies between 2 and 5 per cent (%) of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved

according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.

39.3 Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first-rate financial institution approved in accordance with the instruments in force.

39.4 Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

- b)One thousandth (1/1000th) of the initial amount of the contract inclusive of all taxes per calendar day beyond the 30th day.
- 23.2 The cumulated amounts of penalties for delay shall be limited to ten percent (10 %) of the initial contract inclusive of all taxes.

B. Specific penalties

- 23.3 Independently of penalties for overrun of contractual time-limit, the contractor shall be liable for the following special penalties for the non-observation of the provisions of the contract, especially:
- Late submission of final bond;
- Late submission of insurances:
- Late submission of the draft execution schedule if the lateness is caused by the contractor.

Article 24: Payment in case of a group of enterprises:

- 1. In the case of a group of enterprises, indicate the method of payment of co- and subcontractors, where need be.
- 2. Indicate the method of payment of sub-contractors, where need be.

Article 25: Final detailed account:

- 25.1 After completion of the works and within a maximum time-limit of fourteen (14) days after the date of provisional acceptance, the contractor shall establish, based on joint reports, the draft final detailed account of works executed and which detailed account summarises the total sums to which the contractor may be entitled as a result of the execution of the whole contract.
- 25.2 The Contract Manager has up to thirty (30) days to notify the corrected and approved draft to the Project Manager.
- 25.3 The contractor has up to thirty (30) days to return the signed final detailed account.

Article 26: General and final detailed account

26.1 The Contract Manager or the Project Manager has up to thirty (30) days to establish the general detailed account and forward to the contractor after final acceptance.

At the end of the guarantee period which results in the final acceptance of the works, the Contract Manager draws up the general and final detailed accounts of the contract which he had signed jointly by the contractor and the Contracting Authority. This detailed account includes:

- the final detailed account,
- the balance
- the summary of monthly payments on account.

The signing of the general and final detailed account without reservation by the contractor definitely binds the two parties, puts an end to the contract, except with regard to interest on overdue payments.

26.2 The contractor has up to thirty (30) days to return the signed final detailed account.

Article 27: Tax and customs regulations: Decree No. 2003/651/PM of 16 April 2003 lays down the terms and conditions for implementing the tax regulations and customs procedures applicable to public contracts. The taxes applicable to this contract include notably:

- Taxes and dues relating to industrial and commercial profits, including the AIR which is a deduction on company taxes;
- Registration dues in accordance with the Tax Code;
- Dues and taxes attached to the execution of services provided for in the contract;
- Duties and taxes of entry into Cameroonian territory (customs duties, VAT, computer tax);
- Council dues and taxes:
- Dues and taxes relating to the extraction of buildings materials and water.

These elements must be included in the costs which the undertaking imputes on its running costs and constitute one of the elements of the sub-details of prices exclusive of taxes. All taxes inclusive prices means VAT included.

Article 28: Stamp duty and registration of contracts: Seven (7) original copies of the contract shall be stamped by taxation service and at the cost of the contractor, in accordance with the applicable regulations.

Chapter III: Execution of works

Article 29: Nature of the works: The works shall include especially: (position or volume of works), See Special Technical Conditions.

Article 30: Role and responsibilities of the Project Owner

- 30.1 The Project Owner shall be bound to furnish the contractor with information necessary for the execution of his mission and to guarantee, at the cost of the contractor, access to sites of projects.
- 30.2 The Project Owner shall ensure the contractor of protection against threats, insults, violence, assault and battery, slander or defamation of which he could be victim by reason of or during the exercise of his mission.

Article 31: Execution time-limit of the contract:

- 31.1 The time-limit for the execution of the works forming the subject of this contract shall be Four (04) months (120) days.
- 31.2 This time-limit shall run from the date of notification of the Administrative Order to commence execution of the works.

Article 32: Role and responsibilities of the contractor: The detailed and general plan of progress of the works shall be communicated to the Project Manager in five (05) copies at the beginning of each month.

Article 33: Provision of documents and site: A reproducible copy of the plans featuring in the Tender File shall be submitted by the Contract Manager. The Project Owner shall make available the site and access ways to the contractor at the appropriate time as the works progress.

Article 34: Insurance of structures and civil liabilities: The following insurance policies are required within the scope of this contract in the minimum amounts indicated hereafter within fifteen (15) days of the notification of the contract (to be adapted):

- Liability insurance, business manager;
- Comprehensive insurance of the site;
- Insurance covering its ten-year obligation, where applicable.

Article 35: Documents to be furnished by the contractor: 35.1Programme of works, Quality Assurance Plan and others.

a) Within a minimum deadline of fifteen (15) days from the date of notification of the Administrative Order to commence execution, the contractor shall submit in six (6) copies for the approval of Contract Manager after the endorsement of the Contract Engineer the execution programme of the works, his work calendar, his draft Quality Assurance Plan and the Environment Impact Notice, where applicable.

This programme shall be exclusively presented according to the furnished models.

Two (2) copies of these documents will be returned to him within a deadline of fifteen (15) days from the date of receipt with:

- Either the indication "GOOD FOR EXECUTION";
- Or the indication of their rejection including the reasons for the said rejection.

The contractor has eight (8) days to present a new draft. The Project Engineer and the Contract Manager then have a deadline of five (5) days each to give his approval or possibly make comments. Delay in approving the draft execution schedule shall stay the execution deadline.

The approval given by the Contract Manager or Project Manager does not in any way release the contractor of his responsibilities. Meanwhile, works executed before the approval of the programme shall neither be ascertained nor paid for. The updated and approved schedule will become the contractual schedule.

The contractor shall constantly update on site, a schedule that will take account of real progress of the site. Significant modifications may only be made on the contractual programme upon receiving the approval of the Project Manager. After approval of the execution schedule by the Contract Manager, the latter shall transmit it within five (5) days to the Contracting Authority without staying its execution. However, if important modifications alter the objective of the contract or the nature of the works, the Contracting Authority shall return the execution schedule accompanied by reservations to be lifted within fifteen (15) days of the date of reception.

- b) The Environment Impact Notice should bring out notably the choice of technical conditions of the site and Secondary life, conditions of the backfill of the extraction sites and conditions for reinstating the works and installation sites.
- c) The contractor shall indicate in this schedule the equipment and methods which he intends to use as well as the personnel he intends to employ.
- d) The approval granted by the Contract Manager or Project Manager shall in no way diminish the responsibility of the contractor with regard to the harmful consequences which their implementation may cause both towards third parties and the respect of clauses of the contract...

35.2 Execution draft

- a) The execution plan documents (calculations and drawings) necessary for the realisation of all the parts of the structure must be submitted for the endorsement of the Contract engineer or Project Manager at most fifteen (15) days prior to the date provided for the commencement of execution of the corresponding part of the structure.
- b) The Contract engineer has a deadline of five (05) days to examine and make known his observations. The contractor then has a deadline of [04) four days to present a new file including the said observations.
- 35.3 In case of the non-observance of the approval deadlines of the above documents by the Administration, these documents shall be deemed to have been approved.

Article 36: Organisation and safety on site: Signboards at the beginning and end of each section must be placed within a maximum deadline of fifteen days after the notification of the Administrative Order to commence work. The services to inform in case of interruption of traffic or along the deviated itinerary are the Delegated Contracting Authority, Project Owner, contract Engineer

ARTICLE 37: Commencement of work: Before the commencement of work, the contractor shall be installed on the site by a commission that is made up of the following:

The Project Owner (Mayor) or his representative	(Chairperson)
The Contract Engineer (DD MINHDU Boyo) or his representative	(Secretary)
The Contract Manager	(Member)

The Project Manager	(Member)
The Divisional Delegate of MINMAP Boyo or his representative	(Observer)
The Divisional Delegate of MINEPAT Boyo or his representative	(Member)
The Divisional Delegate of MINDDEVEL Boyo or his representative	(Observer)
A representative of the community	(observer)
The Contractor or his representative	(Member)

The Project Owner (Chairperson) shall schedule for the site installation and invite the members of the commission by a letter of invitation - not more than five (5) working days.

Article 38: Setting out of the structures: The Project engineer, upon receipt of the contract documents transmitted by the Contracting Authority shall indicate to the contractor - within five (5) days the building line and all other Secondary points and levels of the project, for proper setting out.

Article 39: Sub-contracting: The part of the works that can be sub-contracted shall be 30 % of the initial amount of the contract and its additional clauses.

Article 40: Site laboratory and trials: The project engineer has a deadline of three days to approve the contractor's personnel and laboratory as soon as the request is made.

Article 41: Site logbook:

- 40.1 The Site logbook must be systematically jointly signed by the Project Manager or Engineer, where need be and the contractor's representative each day.
- 40.2 It is a joint document in a single copy. Its pages must be numbered and initialled. No page should be removed. The erased or cancelled parts must be mentioned on the margin for validation.

NB: The Site logbook most be such that two carbon copies of each page are left behind.

Article 42: Use of explosives: The contractor shall not use any explosives without prior authorization.

Chapter IV: ACCEPTANCE OF WORKS

Article 43: Pre- Acceptance: Before the provisional acceptance of the works, the contractor shall make a written request to the Contract Engineer, who shall then organize a technical visit for pre-acceptance. This visit shall include the following operations.

- Qualitative and quantitative evaluations of the different works that have been executed.
- Findings and statement of the unexecuted task envisaged in the present jobbing order.
- > Findings relative to the completion of the work

These operations shall be subject to a site report drawn up and signed on the field, by the following.

-The Contract Engineer or his representative	(Secretary)
-The Project Manager	(Member)
-The Contractor or his Representative	(Member)
- Control Brigade MINMAP	(Member)

During this pre-acceptance, the commission shall eventually specify the reserves to be up-lifted and the corresponding works to be effected before the provisional acceptance.

<u>Article 44</u>: Provisional Acceptance: The contractor shall request the Authorizing officer in writing, to schedule and call for the provisional acceptance of the works. The report (minutes) of the Pre- Acceptance shall be attached to the said request. The Authorizing officer shall then fix the date of acceptance in collaboration with the Contract Engineer and call for the task by a letter of invitation. The acceptance commission shall comprise the following;

The Project Owner (Mayor) or his representative	(Chairman)
The Contract Engineer (DD MINHDU Boyo) or his representative	(Secretary)
The Contract Manager	(Member)
The Project Manager	
The Divisional Delegate of MINDDEVEL or his representative	(Member)
Stores Accountant Fundong Council	(Member)
The Divisional Delegate MINMAP Boyo or his representative	(Observer)
The Divisional Delegate MINEPAT Boyo or his representative	(Observer)
The Divisional Delegate of MINEPDED Boyo or his representative	
The Contractor or his Representative	(Member)

The commission shall examine the report of the Pre-acceptance and shall proceed to the Provisional Acceptance if satisfied with the works executed. An acceptance report (process verbal) of the works shall be prepared by the Contract Engineer and signed by all the commission members on the site.

Article 45: Final acceptance: Final acceptance shall take place within a maximum deadline of fifteen (15) days from the date of expiry of the guarantee. The commission and procedure for final acceptance shall be the same as for Provisional Acceptance

Article 46: Guarantee Period: The guarantee period shall last for one (01) year from the date of the provisional acceptance.

Chapter V: SUNDRY PROVISIONS

Article 47: Termination of the contract (article 74 of the GAC)

The contract may be terminated as provided for in Section II Paragraph 1 and 2 of Decree No. 2018/366 of 20 June 2018 and equally under the conditions laid down in articles 74, 75 and 76 of the GAC especially in one of the following cases:

- Death of the allotee.
- Bankruptcy of the allotee
- Judicial liquidations
- In case of sub-contracting, co-contracting or subsidiary orders with the prior authorisation of the project owner
- Failure to comply with labour laws and regulations
- Significant price variation under the conditions laid down by the General Administrative Clauses due to changes in economic conditions or in the initial quantities of the contract.
- Duly established fraudulent and corrupt practices
- Delay of more than fifteen (15) calendar days in the execution of an Administrative Order or unjustified stoppage of more than seven (7) calendar days;
- Delay in work resulting in penalties of more than 10 % of the amount of the works;
- Refusal to repeat poorly executed works;
- Default by the contractor;
- Persistent non-payment for services.

Article 48: Case of force majeure (article 183 of the GAC): If the contractor were to raise the issue of force majeure, the thresholds below which claims shall not be admitted are:

- Rainfall: 200 millimetres in 24 hours;
- Wind: 40 metres per second;
- Flood: decennial flood frequency.
- War and insecurity
- Road blockage
- Terror
- Outbreak of pandemic

<u>Article 49</u>: Disagreements and disputes (article 187 of the GAC): Disagreements and disputes resulting from the execution of this contract may be settled amicably. Where no amicable solution can be found for a disagreement, it is brought before the competent Cameroonian jurisdiction.

<u>Article 50</u>: Production and dissemination of this contract: Ten (10) copies of this contract shall be produced at the cost of the contractor and furnished to the Contract Manager.

Article 51: Entry into force of this contract: This contract shall be final only upon its signature by the Contracting Authority. It shall enter into force as soon as it is notified to the contractor by the Contracting Authority.

Article 52 and last: INFORMATION TO BE POSTED: The Contractor shall put up a visible sign board (total height=2.80m, width=1.20m, board thickness=2.5cm at 1,20m above the ground level with poles embedded in concrete) at the entrance to the site on a place approved by the Contract Engineer, bearing the following text written on one side of the board.

- GENERALITIES
- II- PREPARATORY WORKS-IMPLANTATION
- III- FOUNDATION
- IV ELEVATION WORKS
- V ROOF TRUSS AND THE COVERING
- VI JOINERY AND METAL WORKS
- VII PLUMBING-SANITARY
- VIII- ELECTRICAL INSTALLATION
- IX RENDERING (PLASTERING) AND COATING
- X PAINTING
- XI OUTSIDE AMENITIES AND LAYOUT PLANNING
- XII PROTECTION OF THE ENVIRONMENT
- XIII ORIGIN, QUALITY AND PREPARATION OF MATERIALS

1 – GENERALITIES: These present special technical specifications concern the CREATION OF GREEN SPACE 2 IN FUNDONG TOWN IN THE FUNDONG MUNICIPALITY, BOYO DIVISION.

It is the duty of the contractor to realize the structure as per the execution plans that shall be approved by the competent authority. Through the contract Engineer, the contractor shall furnish the owner of the project and other project team members within 15 days from the date of notification to start work with an execution plan showing clearly how he intends to run the work site.

SIGN-POSTS: The contractor shall put in place at his expense a sign-posts indicating the ongoing work in conformity with the plans put at his disposal by the contracting authority.

Hygiene and safety: The contractor shall ensure total hygiene and security of the site by constructing a temporal latrine and putting up a temporal fence around the project site if need be. The contractor shall be responsible for the protection of the structures before final reception. He shall be equally responsible for all tools and materials present at the work site. He shall seek an insurance policy to cover theft and fire incidence.

The contractor shall take all preventive measures against accidents. The owner of the project has the right to intervene in case of any emergency without necessary interfering with the activities of the contractor.

The contractor shall verify all dimensions on the plans. For execution, no dimension shall be measured with a scale rule from the plans. The contractor shall check in-situ the possibility of translating the dimensions on plans to the structure before work begins. He shall refer to the Project Engineer in case of any doubt. He shall not on his own modify anything on the structure and shall inform the Project Engineer of any changes that he considers necessary.

All modifications accepted by the contractor shall be accomplished within a specified duration and at his cost without modification of the contract amount. The owner of the project shall have the right to the final choice in case of any modification.

2 - PRELIMINARY WORKS - SETTING OUT: These works concern the clearing of the site and evacuation of the rubbles, the clearing and levelling of the site where necessary. The setting out will be in respect to the technical plans.

The setting out profile boards will be at least 1.20m from the outside axes, this to facilitate trenching and other earth works and good circulation. The commencement of excavation will be accepted by the Project Engineer after checking the conformity of the setting out.

5 - FOUNDATION: A layer of blinding concrete of 10cm thick, batched at 150 kg/m³ of firm consistency shall be laid at the bottom of the trench, on which the footings shall rest. The foundation peripheral walls will be of stone masonry or frog filled foundation blocks 20x20x40, laid with cement mortar, on which shall lay a continuous beam of 20 x 20cm in reinforced concrete batched at 350 kg/m³ of concrete.

The foundation will be filled with earth of good quality in successive compacted layers of 20cm where the fill depth exceeds 30cm. An over-site concrete of thickness 12cm batched at 350kg/m³ shall be laid over the entire compacted surface of the foundation area.

The floor shall be in cement grout, smoothly trowel finished on a sand screed of 3cm thick.

6 – ELEVATION WORKS: The elevation walls will be in agglomerated hollow blocks of 15 x 20 x 40cm with a good crushing resistance. The mix for block moulding should give at most 28 blocks per bag of cement for blocks of 15x20x40 cm. They shall be cured for at least 21days before lying on the elevation walls. The reinforced concrete pillars of section 15x15 and 15x30 at 350 kg/m³ will be cast as one raises the agglomerated hollow blocks walls and this is to permit a good adhesion. The characteristic strength of concrete at 28 days should not be less than 16Mpa.. The lintels 15 x 20 in reinforced concrete at 350 kg/m³ will be levelled to + 2,10m above the level of the finished foundation.

The average height under the ceiling shall be 3,00m.

A binding course of 15 x 20 cm in reinforced concrete at 350 kg/m³ will be laid above the finished level of the agglomerated hollow blocks walls with fixing wires so as to receive the wooden roof truss.

- 7- ROOF TRUSS AND THE COVERING: The work of the roof truss shall commence 14 days after the concreting of the wall plate, ie after the concreting of the wall plate, works shall halt for 14 days to allow the structure gain strength before the roof truss is constructed.
- Trusses: shall be of locally sawn and treated hard wood (eucalyptus inclusive), shall compose
 of single frame rafters of 5cmx15cmx4m and spaced at 1.50m interval. These rafters will be
 solidly attached to the wall plate with the help of standby beam iron rods also spaced at 1.50m
 spacing;
- Purlins and noggins: shall consist of 5x8cmx4m locally sawn timber from hard wood (eucalyptus inclusive). All structural timber shall be treated with carbonyl. The timber for the roof work will be of good quality, with the straight grain and free of any defect.
- -Roofing sheets: shall be in high rib aluminium sheets (Tôle Bac) of type 5/10mm. The sheets shall be fixed onto the purlins using twisted zinc nails 90mm, equipped with bituminous rubbers caps.
- -Facial board shall be 30cm wide and of high rib aluminium sheets (tôle Bac) of 5/10mm thickness, including a lining.
- -Ceiling- shall be in 4mm thick (red plywood on both sides), fastened in sheets of 60x120 to noggins of 4cm thick or 5x8 and treated with carbonyl. The noggins shall be spaced 60cm centre to centre and braced appropriately. Eaves shall be equipped with ventilated pre-cast blocks. An access shall be provided into the loft (ceiling of each classroom). The external ceiling shall be in smooth aluminium sheets (tôle lisse) nailed to noggins and fastened with wooden ceiling battens.

8 – JOINERY/METEL WORKS Doors and Windows:

- Door shutters (100X210)m shall be made of double metallic panels fixed on metallic angle bars (35x35)mm securely anchored to the walls, (90X210)m aluminium glazed doors mounted on aluminium frames and securely anchored to the walls, (90X210)m double metallic panels fixed on metallic angle bars (35x35)mm securely anchored to the walls. All door shutters shall open to the inside.
- -All window openings (210 X 90) cm and (120 X 110) cm shall be fitted with sliding aluminium glazed panel shutters internally and fixed external window protectors (210 X 90)cm and (120 X 110)cm of vertical striped metallic tubes (30mm) welded to a frame of angle bar (35x35)mm.

(sockets, switches etc...) will be of good model. The set of facilities will be joined to a general earth hold.

- 10- RENDERING (PLASTERING) AND COATINGS: There will be an under-coat layer and a finish layer floated and foamed to finish. They must be well cut horizontally and vertically using a straight edge. All walls shall receive a base coat of spat dash before plastering is done.
- 11 PAINTING: A layer of impression in ordinary paint will be applied previously on all the walls as priming layer. The external walls will be painted in water resistant paint (Pantex 1300 type). Colour tinted tubes will be chosen to achieve the desired magnolia colour. The ceiling shall be painted in crystal white glue paint. All metal works shall be painted with oil paint Glyptal resien lacquer, in two coats. A primary coat of antirust before final painting is done.
- 12 EXTERNAL WORKS: Gutters: To be excavated 40cm wide and 30cm deep at the rain drops. The walls of gutters are to be constructed in concrete and the floor well rolled and smoothen out with ordinary cement concrete providing a slope of 10% for the flow of water with an offshoot of at least 3m to the environment.

Prefabricated slabs of one meter twenty (1.20m) wide each shall be provided at the main entrance of the grandstand at right angles.

Steps shall be constructed out of shaped stones at the main entrance to the grandstand at 1,20m wide as the case may be.

13 - PROTECTION OF THE ENVIRONMENT: The entrepreneur shall obtain an attestation of environmental impact notice from the council concerned, indicating that the environment impact notice has been carried out by the project owner

The site must foresee an adequate drainage of waters on the whole surface. The maintenance areas and of washing should be concreted. These maintenance areas should have a slope toward a cesspool provided for the purpose and toward the inside of the platform in order to avoid the out-flow of the polluting products toward the site and the neighbourhood.

At the end of work, the entrepreneur will do all necessary works to the restoration of the various places of the site. The entrepreneur should fold all his material, and equipment. He should demolish all stationary installation, as foundation, support made of concrete or metallic, etc. in order to put back the site in its nearest initial state. No equipment nor materials should be abandoned on the site, nor in the vicinity after the execution of all the works. Left-over materials are to be covered with a layer of earth, and the site has to receive an adequate drainage in order to avoid all erosion as the case may be.

12 - ORIGIN, QUALITY AND PREPARATION OF MATERIALS: The fine and coarse aggregates may either be from the river or quarry crushed and must be approved by the Project Engineer before any use on the site. The sand (0/5) shall have very fine elements settlement of less than 4%. The gravels (5/15 or 15/25) shall be clean and well graded with very fine elements settlement of less than 2%. The cement shall be CPA 325 class from CEMENCAM or from an approved factory.

The reinforcement steel for reinforced concrete shall be of type HA FeE400 for the main reinforcement steel rods and round-smooth RL E235 for the stirrup rings. Any fill material for the foundation and the surroundings structures shall have no particle dimension above 50mm and with plasticity index of less than 35. Fill materials shall also be free from organic elements and shall have a good granularity grading. No black vegetable soil shall be accepted for backfilling.

Stones for masonry works shall be of basalt, gneiss or granite type, be esthetical and should be gotten from the quarry or deposits approved by the Project Engineer with dimension sizes of not less than 20cm.

1) CONCRETE:

- -Ordinary concrete: specifically, lean concrete shall be 5cm thick and laid all-round the excavated foundation trenches before the stone/block work is carried out and dosed at 150kg/m³.
- Over-site concrete: shall be 12cm thick laid on the entire floors and paved area between walls
 and gutters dosed at 350kg/m³ over the entire surface.
- -Reinforced concrete: shall be specifically for pillars, beams damp proof course (DPC), lintels and tie-beams and their mixture shall be in a proportion of 350kg/m³.

NB: All concrete works should be properly cured (i.e. water three times a day for seven days)

NOTE: Reinforcement Schedule.

6	Beams 20x20 and 15x20	4	8mm	6mm	20cm	350kg/m ³	Fe-E-400

NB: All rods should preferably be from the local markets.

- Sand: Will be free from oxide, organic material of animals or plant origin. Sieving shall vary from 0.08 – 2.5mm for mortar and other resisting surfaces like concrete structure shall vary from 0.16 – 5mm. It shall be river sand and nothing else.
- Aggregate: shall consist of natural and homogeneous materials or crushed stones. Tiny layer
 of grave (dust) shall be removed by sieving, blowing or washing.
- Water: To be used for the mixture mortar, concrete and washing of aggregates. Shall be clean
 and free from impurities; meaning potable water.
- Cement: To be used mostly for cement mortar, all concrete mixtures shall satisfy the general
 conditions laid down by regulation in force. It will be type CPA325 Portland cement and shall not
 show any trace of uneven mixture. Storage on the building site shall be done on a dry and
 ventilated floor. Any stock presenting an unsatisfactory pulverulent condition will be discarded
 and cleared away within four (04) days.

- Rods: shall be mild steel reinforcement, Tor or Steel in accordance with the R/C &3 rules.
 The steel shall be perfectly clean without any trace of rust, non-adhesive to paint or grease.
- Shuttering: hard wood, to bear without any noticeable distortion, the load and pressure of
 concrete, the effect of vibration and weight of workers involved in setting it up.

- MASONRY:

-Blocks- Blocks should show an appreciable degree of resistance to violent pressure.

All blocks shall be cured for at least 21 days before being used.

- -Plastering: All plastering shall be applied using a trowel, float, straights edges and sponge. Cement mortar mix in a proportion of 400kg/m³ will be used to plaster all previously re-joined areas on all masonry and concrete works, and then thinly floated. The final thickness of the plastering shall not be less (02cm on both sides of the walls). The external walls shall receive a coat of spatadash before plastering is done on it.
- -Screed: a smooth layer of ordinary cement screed 400kg/m³ (1:2) finish shall be spread on the 12cm thick concrete floor and the screed shall be 3cm thick.

13 GUTTERS:

To be excavated 40cm wide and 30cm deep at the rain drops and to be provided particularly at the frontage and the two ends of the grandstand as the topography of the terrain is relatively flat. The walls of gutters are to be constructed in concrete and the floor will be rolled and smoothen out with ordinary cement concrete providing a slope of 10% for the flow of water for level surfaces.

15- Wood – Material: The wood must be pure and should not have nodes, foreign bodies or fractures due to sawing. This shall be locally sawn hard wood (eucalyptus inclusive).
