General regulations of the invitation to tender

1. General

- 1.1 The Delegated Contracting Authority selects a service provider in accordance with the selection method specified in the Special Regulations of the invitation to tender.
- 1.2 Candidates are invited to submit an administrative file, a technical bid and a financial bid for the provision of the services necessary for the accomplishment of the mission stated in the Terms of Reference. The proposal shall serve as base for negotiation of the contractual terms and eventually the signing of the contract with the candidate retained.
- 1.3 The mission shall be accomplished in accordance with the calendar indicated in the Terms of Reference. Where the mission involves several phases, the performance of the service provider during this phase should satisfy the Project Owner before the next phase commences.
- 1.4 Candidates must be acquainted with the local conditions and take them into account in preparing their bids. To receive first-hand information on the mission and local conditions, candidates are advised, prior to submitting their offers, to take part in the preparatory conference before the preparation of proposals, if the Special Regulations provide for one. But participation in such a conference is not obligatory. Representatives of the candidates must contact officials mentioned in the Special Regulations to organise a visit or obtain complementary information on the preparatory conference. Candidates must ensure that officials are informed of their visit at the required time to take the appropriate measures.
- 1.5 The Project Owner shall furnish the information specified in the Terms of Reference, help the service provider to obtain the licences and permits necessary for the provision of the services and furnish the related data and reports on the project.
- 1.6 It should be noted that:

 - ii) The Delegated Contracting Authority is not bound to accept any of the bids which would have been submitted.
- 1.7 Service providers shall furnish objective, impartial and professional counsel; in all circumstances, they shall defend the interest of the Project Owner without consideration of an ulterior mission and scrupulously avoid any possibility of conflict of interest with other activities or with the interests of their enterprise. Service providers must not be engaged for missions which would be incompatible with their present or past mission towards other Project Owners or which would risk making it impossible for them to execute their task to the best interest of the Project Owner.
 - 1.7.1 Without prejudice to the general character of this rule, service providers shall not be bound by the circumstances stipulated hereunder:
 - a) No enterprise engaged by the Delegated Contracting Authority shall supply goods and services or provide services for a project, nor shall any enterprise affiliated to it be accepted to provide advisory services for the same project. Equally, no design office engaged to supply consultancy services in view of the preparation or execution of a project nor shall any enterprise affiliated to it, eventually be admitted

- a) No enterprise engaged by the Contracting Authority shall supply goods and services or provide services for a project, nor shall any enterprise affiliated to it be accepted to provide advisory services for the same project. Equally, no design office engaged to supply consultancy services in view of the preparation or execution of a project nor shall any enterprise affiliated to it, eventually be admitted to supply goods, provide services or execute services linked to its initial mission for the same project (unless it is a continuation of the same project).
- b) Neither the service providers nor enterprises affiliated to them can be engaged for a mission which, by its nature, risks being incompatible with another of its missions.

1.7.2 As indicated in paragraph 1.7.1(a) above, service providers may be engaged to perform service downstream where it is essential to ensure some continuity, in which case the Special Regulations must state this possibility and the criteria used in the selection of the service provider must take into account the possibility of renewal. It is exclusively up to the Project Owner to decide to execute or not the activities downstream and if in the affirmative, to determine which service provider shall be engaged to this end.

1.8 The Contracting Authority requires of its bidders and contractors that they strictly respect the rules of professional ethics during the award and execution of these contracts. By virtue of this principle, the Contracting Authority:

Each compliant bid is attributed a technical score (Ts). A bid is rejected at this stage if it does not satisfy the important aspects of the Terms of Reference or does not obtain the minimum technical score mentioned in the Special Regulations.
- 5.4 At the end of the evaluation of the technical quality, the Contracting Authority notifies the bidders whose bids did not obtain the minimum quality score that their bids were not retained; their financial bids are returned to them at the end of the selection process unopened. At the same time, the Contracting Authority notifies candidates who obtained the minimum qualification score and informs them of the date, time and venue of the opening of the financial bids.. This notification may be addressed to them by registered mail, fax or electronic mail.

Opening and evaluation of financial bids

- 5.5 The financial bids are opened by the Tenders Board in the presence of representatives of the candidates which wish to attend. The name of the candidate and the proposed price are read out loud and entered in writing during the opening of the financial bids. The Contracting Authority takes down minutes of the opening session.
- 5.6 At the end of each bid-opening session, the chairperson of the Tenders Board immediately puts at the disposal of the focal point designated by ARMP, an initialled copy of the bids submitted by bidders.
