A. General

Article 1: Scope of the tender:

1.1. The Contracting Authority as defined in the Special Regulations of the invitation to tender hereby launches an invitation to tender for the REHABILITATION of the works described in the Tender notice and briefly described in the Special Regulations.

1.2 The bidder retained or the preferred bidder must complete the works within the time-limit indicated in the Special Regulations and which time-limit runs from the date of notification of the Administrative Order or that indicated in the said Administrative Order.

1.3 In this Tender File, the term "day" means a calendar day.

Article 2: Financing: The source of financing of the works forming the subject of this invitation to tender shall be specified in the Special Regulations.

Article 3: Fraud and corruption:

3.1 The Contracting Authority requires of bidders and contractors the strict respect of rules of professional ethics during the award and execution of public contracts. By virtue of this principle:

a) The following definitions shall be admitted:

a.1 Shall be guilty of "corruption" whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;

a.2 Is involved in "fraudulent manoeuvres" whoever deforms or distorts facts in order to influence the award or execution of a contract;

a.3 "Collusive practices" shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition;

a.4 "Coercive practices" shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.

b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.

3.2 The Minister Delegate at the Presidency in charge of public contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him

Article 4: Candidates allowed to compete.

4.1 If the invitation to tender is restricted, consultation is addressed to all candidates retained after a pre-qualification procedure.

4.2 Generally, the invitation to tender is addressed to all entrepreneurs, subject to the following provisions:

a. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must be from an eligible country, in accordance with the funding agreement.

b. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must not be in a situation of conflict of interest, subject to disqualification. A bidder shall be judged to be in a situation of conflict of interest if he:

b.1 Is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts awarded for this invitation to tender; or

b.2 Presents more than one bid within the context of invitation to tender, except authorised variants according to article 17, where need be; meanwhile, this does not prevent the participation of sub-contractors in more than one bid.

b.3 The Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts.

c. The bidder must not have been excluded from bidding for public contracts.

d. A Cameroonian public enterprise may participate in the consultation if it can demonstrate that it is (i) legally and financially autonomous, (ii) managed according to commercial laws and (iii) not under the direct supervisory authority of the Contracting Authority or Project Owner.

Article 5: Building materials, materials, supplies, equipment and authorised services:

5.1 Building materials, the contractor's materials, supplies, equipment and services forming the subject of this contract must originate from countries meeting the criteria of origin defined in the Special Regulations of the invitation to tender and all expenditure done within the context of the contract shall be limited to the said building materials, materials, supplies, equipment and services.

5.2 Within the meaning of this 5.1 above, the term "originate" shall designate the place where the goods are extracted, cultivated, produced, manufactured and from where the services originate.

Article 6: Qualification of bidder:

6.1 As an integral part of their bid, bidders must:

6.1.1 Submit a power of attorney making the signatory of the bid bound by the bid; and

6.1.2 Provide all information (complete or update information included in their request for pre-qualification which may have changed in the case where the candidates took part in pre-qualification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- (i) The production of certified balance sheets and recent turnovers;
- (ii) Access to a line of credit or availability of other financial resources;
- (iii) Orders acquired and contracts awarded;
- (iv) Pending litigations; and
- (v) Availability of indispensable equipment.

6.2 Bids presented by two or more associated undertakings (joint-contracting) must satisfy the following conditions:

- a. The bid must include all the information listed in article 6(1) above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group;
- b. The bid and the contract must be signed in a way that is binding on all members of the group;
- c. The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form;
- d. The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the Contract;
- e. In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting.

6.3 Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender.

6.4 Bidders requesting to benefit from the margin of preference must furnish all the necessary information to prove that they satisfy the eligibility criteria set in article 33 of the General Regulations of the invitation to tender.

Article 7: Visit of works site:

7.1 The bidder is advised to visit and inspect the site and its environs and obtain by himself and under his own responsibility, all the information which may be necessary for the preparation of the bid and the execution of the works. The related cost of the visit of the site shall be borne by the bidder.

7.2 The Project Owner shall authorize the bidder and his employees or agents to enter the premises and the land for the said visit but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from this visit.

7.3 The Project Owner may organize a visit of the site of the works during the preparatory meeting to establishing the bids mentioned in article 19 of the General Regulations of the invitation to tender.

B. TENDER FILE

Article 8: Content of Tender File:

8.1 The Tender File describes the works forming the subject of the contract, sets the consultation procedure of contractors and specifies the terms of the contract. Besides the addendum (addenda) published in accordance with article 10 of the General Regulations of the invitation to tender, it includes the following documents:

Document No. 1. The letter of invitation to tender (for restricted invitation to tender);

Document No. 2. The tender notice;

Document No. 3. The General Regulations of the invitation to tender;

Document No. 4. The Special Regulations of the invitation to tender;

Document No. 5. The Special Administrative Conditions;

Document No. 6. The Special Technical Conditions;

Document No. 7. The schedule of unit prices;

Document No. 8. The bill of quantities and estimates;

Document No. 9. The sub details of unit prices;

Document No. 10. Model documents of the contract:

- The execution schedule;
- Model of forms presenting the equipment, personnel and references;
- Model bidding letter;
- Model bid bond;
- Model final bond;
- Model of bond of start-off advance;
- Model of guarantee in replacement of the retention fund;
- Model contract;

Document No. 11. Models to be used by bidders;

Model contract;

Document No. 12. Justifications of preliminary studies; to be filled by the Project Owner or Delegated Project Owner;

Document No. 13. List of first grade banking establishments or financial institutions approved by the Minister in charge of Finance authorized to issue bonds for public contracts to be inserted by the Contracting Authority.

8.2 The bidder must examine all the regulations, forms, conditions and specifications contained in the Tender File. It is up to him to furnish all the information requested and prepare a bid in compliance with all aspects of the said file.

Article 9: Clarifications on the Tender File and complaints

9.1 Any bidder who wants to obtain clarifications on the Tender File may request them from the Contracting Authority in writing or by electronic mail (fax or e-mail) at the Contracting Authority's address indicated in the Special Regulations of the invitation to tender and send a copy to the Project Owner. The Contracting Authority replies in writing to any request for clarification received at least fourteen (14) days prior to the deadline for the submission of bids. A copy of the Contracting Authority's response, indicating the question posed but not mentioning the author, is addressed to all bidders who bought the Tender File.

9.2 Between the publication of the tender notice including the pre-qualification phase of candidates and the opening of bids, any bidder who feels aggrieved in the public contracts award procedure may lodge a complaint to the Minister in charge of Public Contracts.

9.3 A copy of the complaint should be addressed to the Contracting Authority and to the body in charge of the regulation of public contracts and the chairperson of the Tenders Board.

9.4 The Contracting Authority has five (5) days to react. A copy of the reaction shall be forwarded to MINMAP and the body in charge of the regulation of public contracts.

Article 10: Amendment of the Tender File

10.1 The Contracting Authority may at any moment, prior to the deadline for the submission of bids and for any reason, be it at his initiative or in reply to a request for clarification formulated by a bidder, amend the Tender File by publishing an addendum.

10.2 Any published addendum shall be an integral part of the Tender File, in accordance with article 8.1 of the General Regulations of the invitation to tender and must be communicated in writing or made known by a traceable means to all bidders who bought the Tender File.

In order to give bidders sufficient time to take account of the addendum in the preparation of their bids, the Contracting Authority may postpone as is necessary, the deadline for the submission of bids, in accordance with provisions of article 22 of the General Regulations of the invitation to tender.

C PREPARATION OF BIDS

Article 11: Tender costs: The candidate shall bear the costs related to the preparation and presentation of his bid and the Contracting Authority and the Project Owner shall in no case be responsible for these costs nor pay for them whatever the evolution or outcome of the invitation to tender procedure.

Article 12: Language of bid: The bid as well as any correspondence and any document exchanged between the bidder and the Contracting Authority shall be written in English or French. Complementary documents and the forms provided by the bidder may be written in another language on condition that a precise translation into either English or French of the passages concerning the bid is included; in which case for reasons of interpretation, the translation shall be considered to be authentic.

Article 13: Constituent documents of the bid

13.1 The bid presented by the bidder shall include the documents detailed in the Special Regulations of the invitation to tender, duly filled and put together in three volumes:

b.3 **Proof of acceptance of conditions of the contract:** The bidder shall submit duly initialed copies of the administrative and technical documents relating to the contract, namely:

- ☐ The Special Administrative Conditions (SAC);
- ☐ The Special Technical Conditions (STC).

b.4 **Commentaries (optional):** A commentary on the technical choices of the project and possible proposals.

c. Volume 3: Financial bid: The Special Regulations specify the elements that will help in justifying the cost of the works, namely:

- ☐ The signed and dated original bid prepared according to the attached model, stamped at the prevailing rate;
- ☐ The duly filled Unit Price Schedule;
- ☐ The duly filled detailed estimates;
- ☐ The sub-details of prices and/or breakdown of all-in prices;
- ☐ The projected schedule of payments, where need be.

In this regard, the bidders will use the documents and models provided in the Tender File, subject to the provisions of article 17(2) of the General Regulations of the invitation to tender concerning the other possible forms of guarantees.

13.2 If in accordance with the provisions of the Special Regulations of the invitation to tender, the bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot.

Article 14: Bid price:

14.1 Except otherwise stated in the Tender File, the amount of the contract shall cover all the works described in article 1.1 of the General Regulations of the invitation to tender, on the basis of the price schedule and the detailed bill of quantities and estimates presented by the bidder.

14.2 The bidder shall fill the unit prices and totals of all items on the schedule and bill of quantities and estimates.

14.3 Subject to contrary provisions provided for in the Special Regulations and in the Special Administrative Conditions, all dues, taxes and fees payable by the bidder on grounds of the contract or on any other ground, thirty (30) days prior to the submission of the bids, shall be included in the prices and in the total amount of the bid presented by the bidder.

14.4 If a price revision/updating clause is provided for in the contract, the date of establishment of the initial price, as well as the price revision/updating conditions for the said price must be specified. This is with the understanding that any contract of duration less than one (1) year shall not be subject to price revision.

14.5 All unit prices must be justified by sub-details established in accordance with the structure proposed in document 8 of the Tender File.

Article 15: Currency of bid and payment

15.1 In case of international invitations to tender, the currencies of the bid shall follow the provisions of either Option A or Option B below, the applicable option being that retained in the Special Regulations of the invitation to tender.

15.2 **Option A:** The amount of the bid shall be entirely made in the national currency.

The amount of the bid, unit prices of the price schedule and the prices of the bill of quantities and estimates are completely made in CFA francs in the following manner:

a. Prices shall be entirely drawn in the national currency. The bidder who intends to commit expenditures in other currencies for the execution of the works shall indicate in the annex to the bid the percentage(s) of the amount of the bid necessary to cover the needs in foreign currencies, without exceeding the maximum of the three currencies of member countries of the funding institution of the contract.

b. The exchange rates used by the bidder to convert his bid into the national currency shall be specified by the bidder in an annex to the bid in compliance with the specifications of the Special Regulations. These rates shall be applied for any payment within the framework of the contract so that the retained bidder does not bear any change in the exchange rate.

15.3 **Option B:** The amount of the bid shall be directly made in the national and foreign currency at the rates fixed in the Special Regulations.

The bidder shall draw the unit prices of the price schedule and the prices of the bill of quantities and estimates in the following manner:

a. The prices of inputs necessary for the works which the bidder intends to procure in the Contracting Authority's country shall be in currency of the Contracting Authority's country specified in the Special Regulations and called "national currency";

a. The prices of inputs necessary for works which bidder intends to procure out of the Contracting Authority's country shall be in the currency of the country of origin of the bidder or of the currency of an eligible member country widely used in international trade.

15.4 The Contracting Authority may request the bidders to explain the needs in national and foreign currencies and to justify that the amounts included in the unit and total prices and indicated in annex to the bids are reasonable; to this end, a detailed statement of their needs in foreign currencies shall be furnished by the bidder.

15.5 During the execution of the works, most of the foreign currency to be paid as part of contract may be revised by mutual agreement between the Contracting Authority and the entrepreneur in a way as take account of any modification in the foreign currency needs within the context of the contract.

Article 16: Validity of bids:

16.1 Bids must remain valid during the period stated in the Special Regulations from the date of submission of the bids fixed by the Contracting Authority, in application of article 22 of the Special Regulations. A bid valid for a shorter period shall be rejected by the Contracting Authority or Delegated Contracting Authority as not being in compliance.

16.2 Under exceptional circumstances, the Contracting Authority may seek the approval of bidders to extend the validity time-limit. The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in article 17 of the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.

16.3 Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than sixty (60) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders. The updating period shall run from the date of overrun of sixty (60) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

Article 17: Bid bond

17.1 In application of article 13 of the General Regulations, the bidder shall furnish a bid bond of the amount specified in the Special Regulations and which bid bond shall be a full part of his bid.

17.2 The bid bond must conform to the model presented in the Tender File; other models may be authorised subject to the prior approval of the Contracting Authority. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of article 16 (2) of the General Regulations.

17.3 Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and mention each member of the associated grouping.

17.4 The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.

17.5 The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.

17.6 The bid bond may be seized:

- (a) if the bidder withdraws his bid during the period of validity;
- (b) if the retained bidder:

b.1 Fails in his obligation to register the contract in application of article 38 of the General Regulations;

b.2 Fails in his obligation to furnish the required final bond in application of article 38 of the General Regulations;

b.3 Refuses to receive notification of the Administrative Order to commence execution.

Article 18: Varying proposals of bidders

18.1 Where the works can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.

18.2 Except in the case mentioned in article 18(3) below, bidders wishing to offer technical variants must first assess the Secondary solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed REHABILITATION methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the Secondary solution has been evaluated as the lowest bid.

18.3 When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the works, these parts of the works must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of article 31(2) (g) of the General Regulations.

Article 19: Preparatory meeting to the establishment of bids

19.1 Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations.

19.2 The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.

19.3 As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting. The Contracting Authority may not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in article 19(4) below.

19.4 The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in article 8 of the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of article 10 of the General Regulations and not through the minutes of the preparatory meeting.

19.5 The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: Form and signature of bid

20.1 The bidder shall prepare an original of the constituent documents described in article 13 of the General Regulations in a volume clearly indicated "ORIGINAL". In addition, the bidder shall submit the number required in the General Regulations, bearing "COPY". In case of discrepancy, the original shall be considered as authentic.

20.2 The original and copies of the bid must be typed or written in indelible ink (photocopies shall be accepted in the case of copies) and shall be signed by the person(s) duly empowered to sign on behalf of the bidder, in accordance with article 6(1a) or 6(2c) of the General Regulations, as the case may be. All the pages of the bid containing alterations or changes must be initialed by the signatory (ies) of the bid.

20.3 The bid shall bear no modification, suppression or alteration unless such corrections are initialed by the signatory (i.e.) of the bid.

D. SUBMISSION OF BIDS

Article 21: Sealing and marking of bids

21.1 The bidder shall seal the original and each copy of the bid in separate envelopes (internal envelopes) by marking on these envelopes "ORIGINAL" and "COPY", as the case may be. The envelopes shall then be placed in another envelope which will equally be sealed but which will not give any indication regarding the identity of the bidder.

21.2 The external and internal envelopes:

- a) Should be addressed to the Contracting Authority at the address indicated in the Special Regulations;
- b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription **"TO BE OPENED ONLY DURING THE BID-OPENING SESSION"** as specified in the Special Regulations.

21.3 The internal envelopes should equally carry the name and address of the bidder in a way as to enable the Contracting Authority return the sealed bid if it is late in accordance with article 23 and 24 of the General Regulations.

21.4 If the external envelope is not sealed and marked as indicated in paragraphs 21(1) and 21(2) above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: Date and time-limit for submission of bids

22.1 The bids must be received by the Contracting Authority at the address specified in article 21(2) of the Special Regulations not later than the date and time stated in the Special Regulations.

22.2 The Contracting Authority may, at his discretion, postpone the deadline set for the submission of the bids by publishing an addendum in accordance with the provisions of article 10 of the General Regulations. In this case, all the rights and obligations of the Contracting Authority and bidders previously governed by the initial date will henceforth be governed by the new date.

Article 23: Late bids: Any bid received by the Contracting Authority beyond the deadline for the submission of bids in accordance with article 22 of the General Regulations shall be declared late and consequently rejected.

Article 24: Modification, substitution and withdrawal of bids

24.1 A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The said notification must be signed by an authorized representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription "WITHDRAWAL", and "REPLACEMENT BID" or "MODIFICATION".

24.2 Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.

24.3 In application of article 24(1), bids being requested to be withdrawn by bidders shall be returned to them unopened.

24.4 No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

E. OPENING AND EVALUATION OF BIDS

Article 25: Opening of the bids and petitions

25.1 The competent Tenders Board shall open the envelopes in single or double phases and in the presence of the representatives of bidders who wish to attend at the date, time and address specified in the Special Regulations. Representatives of bidders shall sign a register attesting to their presence.

25.2 Firstly, envelopes marked "withdrawal" shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is

read to the hearing of everyone. Then the envelopes marked "Replacement bid" are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked "modification" shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.

25.3 All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [in case of opening of financial bids] and any variant, where necessary, the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation.

25.4 Bids (and modifications received in accordance with the provisions of article 24 of the General Regulations) which were not opened and read to the hearing of everyone during the bid-opening session for whatever reason, shall not be submitted for evaluation.

25.5 Bid-opening minutes are recorded on the spot mentioning the admissibility of bids, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the session.

25.6 At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by the body in charge of regulation of public contract an initialed copy of the bids presented by bidders.

25.7 In case of petition as provided for by the Public Contracts Code, it should be addressed to the Minister Delegate in charge of Public Contracts with a copies to the body in charge of the regulation of public contracts, the head of structure to which is attached the Tenders Board concerned.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

The Independent Observer attaches to his report the sheet that was handed to him, including any related commentaries or observations.

Article 26: Confidential nature of the procedure

26.1 No information relating to the examination, clarification, evaluation and comparison of bids and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders or to any person not concerned with the said procedure as long as the preferred bidder has not been made public, subject to the disqualification of the bid of the bidder and suspension of the authors from all activities in the domain of public contracts.

26.2 Any attempt by a bidder to influence the Tenders Board or the Evaluation sub-committee of bids or the Contracting Authority in its award decision may lead to the rejection of his bid.

26.3 Notwithstanding the provisions of paragraph 26.2 above, between the opening of bids and the award of the contract, if a bidder wishes to enter into contact with the Contracting Authority for reasons having to with his bid may do so in writing.

Article 27: Clarifications on the bids and contact with the Contracting Authority

27.1 To ease the examination, evaluation and comparison of bids, the Tenders Board may, if it so desires, request any bidder to give clarifications on his bid. This request for clarification and the response thereto are formulated in writing but no change on the amount or content of the bid is sought, offered or authorised, except it is necessary to confirm the correction of calculation errors discovered by the Evaluation Sub-committee during the evaluation in accordance with the provisions of article 30 of the General Regulations.

27.2 Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the Evaluation Sub-committee for questions related to their bids, between the opening of envelopes and the award of the contract.

Article 28: Determination of compliance of bids

28.1 The Evaluation sub-committee shall carry out a detailed examination of bids to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the bids are in proper order.

28.2 The Evaluation sub-committee shall determine if the bid is essentially in compliance with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.

28.3 A bid that complies with the Tender File shall essentially be a bid that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:

- ☐ Which substantially limits the scope, quality or realization of the works;
- ☐ which substantially limits, contrary to the Tender File, the rights of the Contracting Authority or his obligations in relation to the contract;
- ☐ Whose correction would unjustly affect the competitiveness of the other bidders who presented bids that essentially complied with the Tender File.

28.4 If a bid is essentially not in compliance, it shall be rejected by the competent Tenders Board and shall not subsequently be rendered in compliance.

28.5 The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of bids.

Article 29: Qualification of the bidder: The Evaluation sub-committee shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in article 6 of the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: Correction of errors

30.1 The Evaluation sub-committee shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. The Evaluation sub-committee shall correct the errors in the following manner:

- a. Where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a gross error of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected.
- b. If the total obtained by addition or subtraction of the totals is not exact, the sub totals shall be considered authentic and the total corrected.
- c. Where there is a difference between the price indicated in letters and in figures, the amount in letters shall be considered authentic, unless the amount is linked to an arithmetical error confirmed by the sub-detail of the said price, in which case the amount in figures shall prevail subject to paragraphs (a) and (b) above.

30.2 The amount featuring in the bid shall be corrected by the Evaluation sub-committee, in accordance with the error correction procedure above and with confirmation by the bidder, the said amount shall be deemed to commit him.

30.3 If the bidder who presented the bid evaluated as the lowest refuses the correction thus carried out, his bid shall be rejected and the bid bond may be seized.

Article 31: Conversion into a single currency

31.1 To facilitate the evaluation and comparison of bids, the Evaluation sub-committee shall convert the prices of bids expressed in various currencies into those in which the bid is payable in CFA francs.

31.2 The conversion shall be done using the selling rate fixed by the Bank of Central African States (BEAC) under the conditions defined by the Special Regulations.

Article 32: Evaluation and comparison of financial bids

32.1 Only bids considered as being in compliance, as per the provisions of article 28 of the General Regulations, shall be evaluated and compared by the Evaluation sub-committee.

32.2 By evaluating the bids, the Evaluation Sub-committee shall determine for each bid the evaluated amount of the bid by rectifying the amount as follows:

- a. By correcting any possible error in accordance with the provisions of article 30.2 of the General Regulations;
- b. By excluding projected sums and where necessary provisions for unforeseen occurrences featuring in the bill of quantities and estimates but by adding the amount of works done under State supervision where they are costed in a competitive manner as specified in the Special Regulations.

- c. By converting into a single currency, the amount resulting from the rectifications (a) and (b) above, in accordance with the provisions of article 31(2) of the General Regulations;
- d. By appropriately adjusting any other modification, divergence or quantifiable reservation on technical or financial basis.
- e. By taking into consideration the various execution time-limits proposed by the bidders, if they are authorized by the Special Regulations;
- f. If need be, in accordance with the provisions of article 13(2) of the General Regulations and the Special Regulations by applying the rebates offered by the bidder for the award of more than one lot, if this invitation to tender is launched simultaneously for several lots.
- g. If need be, in accordance with the provisions of article 18(3) of the Special Regulations and the Technical Specifications, the proposed technical variants, if they are permitted, shall be evaluated on their own merit and independently of the fact that the bidder offered or not a price for the technical solution specified by the Contracting Authority in the Special Regulations.

32.3 The estimated effect of price revision formulae featuring in the GAC and SAC applied during the period of execution of the contract shall not be considered during the evaluation of bids.

32.4 If the bid judged the lowest bid is considered abnormally low or strongly unbalanced in relation to the estimates of the Project Owner for the works to be executed in this contract, the Tenders Board may, from the sub-details of prices furnished by the bidder for any element or all the elements of the bill of quantities and estimates, verify if these prices are compatible with the REHABILITATION methods and proposed calendar. In the case where the justifications presented by the bidder are not satisfactory, the Contracting Authority may reject the bid after the technical opinion of the Public Contracts Regulatory Agency.

Article 33: Preference granted national bidders: National contractors shall benefit from a margin of national preference during the evaluation of bids as provided for in the Public Contracts Code.

F- AWARD OF THE CONTRACT

Article 34: Award

34.1 The Contracting Authority shall award the contract to the bidder whose bid was judged essentially in compliance with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest by including, where necessary, proposed rebates

34.2 If, according to article 13(2) of the General Regulations, the invitation to tender comprises several lots, the lowest bid shall be determined by evaluating this contract with other lots to be awarded concurrently, by taking into account the rebates offered by the bidders in the case of more than one lot.

34.3 Any award of contract shall be made to the bidder fulfilling the technical and financial capacities required resulting from the evaluation criteria and presenting the bid evaluated as the lowest.

Article 35: The right by the Contracting Authority to declare an invitation to tender unsuccessful or cancel a procedure: The Contracting Authority reserves the right to cancel a procedure of invitation to tender after the authorisation of the Minister Delegate at the Presidency in charge of Public Contracts where the bids have been opened or to declare an invitation to tender unsuccessful after the advice of the competent Tenders Board, without any claims being entertained.

Article 36: Notification of award of the contract: Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.

Article 37: Publication of results of award and petitions

37.1 The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.

37.2 The Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

37.3 After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.

37.4 In case of petition, it should be addressed to the Public Contracts Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned. It must take place within a maximum deadline of five (5) working days after the publication of the results.

Article 38: Signing of the contract

38.1 After publication of the results, the draft contract subscribed by the successful bidder is submitted to the Tenders Board for examination and where applicable, to the Minister in charge of Public Contracts for prior endorsement.

38.2 The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception of the draft contract examined by the competent Tenders Board and subscribed by the successful bidder and where applicable, the endorsement of the Minister in charge of Public Contracts.

38.3 The contract must be notified to the successful bidder within five (5) days of its date of signature.

Article 39: Final Bond

39.1 Within twenty (20) days of the notification by the Contracting Authority, the contractor shall furnish the Project Owner with a final bond, to guarantee the complete execution of the works.

39.2 The bond whose rate varies between 2 and 5 per cent of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.

39.3 Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first-rate financial institution approved in accordance with the instruments in force.

39.4 Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

 - General information Form
 - Submission Form
 - Bank Guarantee Forms (Bid bond, Guarantee retentions)
 - Form for Price Elaboration (Detailed Unit Price) (DUP)
 - Document N^o: 9: Execution plans.

ARTICLE 8: AMENDMENT OF BIDDING DOCUMENTS

- 8.1 At any time prior to the deadline for submission of bids, the Council Internal Tenders Board, may modify the bidding documents for any reasons, whether at its own initiative, at the request of the Delegated Contracting Authority or in response to a clarification requested by a prospective bidder.
- 8.2 All prospective bidders that have received the bidding documents shall be notified of all amendments in writing or shall be contacted by telephone to do so and all such modifications will be considered as an integral part of their bidding documents.
- 8.3 In order to allow prospective bidders reasonable time in which to take the amendment into account in preparing their bids, the Council Internal Tenders Board at its discretion, may extend the deadline for the submission of bids if there were any such amendments.

ARTICLE 9: CALCULATION OF PRICES

- 9.1 The amount shall be calculated on the bases of variable prices.
The bidder shall fill, in letters and in figures, the unit prices in the unit price schedule and the unit prices are to be multiplied by the quantities given in order to obtain the amount of his/her offer for each item.
- 9.2 The unit price schedule must be completed. Any price lacking on this form shall be considered as follows:
- The corresponding price on the bill of quantities and costs estimates;
 - The highest corresponding price furnished by the bidder technically qualified, if it exists in the same lot,
 - The average of all the prices of bidders in the same lot if the bidder is the only qualified one.
- 9.3 The bidder shall express the prices in the UPS and BQCE in francs CFA excluding taxes before adding the taxes to the BQCE only.
The prices on the UPS in words shall have priority over those of the BQCE and DUP. They shall serve as the bases of calculation of the bidding amount.
The eventual calculation errors shall be corrected by the Sub Committee for Analysis and the amount altered, if necessary, without any complaints from the bidder.

ARTICLE 10: PRESENTATION OF BIDS

a. Signature of bids – Power of Attorney

10. a.1 All the signatures and initials needed for the tender and indicated in this article must be those of the bidder himself or his/her representative duly mandated.

10. a.2 If the bidder is a group of enterprises, each group member or representative must sign the bidding documents such that the result shall be a joint offer. The group shall choose a common representative who shall receive Service Orders and carry out all transactions in the name of the group.

b. **Presentation of bids:** The bid shall be presented in seven (07) copies (one (01) original and six (06) copies) marked as such and put inside three (03) sealed internal envelopes.

All these documents are to be arranged in the above order and separated with colour separators.

Note: Plans supplied with Tender File should not be submitted.

c. **Submission and opening of bids:** Envelopes A, B, and C are to be sealed and each envelope shall be marked "ADMINISTRATIVE DOCUMENTS, TECHNICAL FILE or FINANCIAL FILE" as the case may be. ARTICLE 13: PAYMENT MODALITIES: The contractor shall be paid upon presentation of monthly instalments "Décomptes" established from attachments signed by Project Manager and visa by the Contracting Authority showing the work progress, presented by the Contract Engineer and countersigned by the Contract Manager (Authorising Officer) and the Contractor.

ARTICLE 14: IMPORTATION OF MATERIALS: The taxes and duties on the importation of materials for execution of works shall be in conformity with the legislation of the Republic of Cameroon.

ARTICLE 15: VERIFICATION OF BIDS: The administration has a period of one (01) month to examine the bids and make its choice. It shall eventually rectify, as indicated in article 5.3, the bidding amount without any objection from the bidder.

15.1 At the request of the Tender Board, the bidder shall furnish in writing, within seven (07) calendar days, any information necessary for the examination of his/her bid or concerning errors and omissions noted.

15.2 The Tender Board reserves the right to convoke the bidder at his/her expenditure for complementary explanations. Any errors discovered by the Tender Board shall be rectified as follows:

15.2.1 Where there exists a difference between the amount in figures and the amount in letters, the amount in letters shall be taken as correct;

15.2.2 Where there exists a difference between a unit price and the amount obtained by the product of unit price and the quantity, the unit price shall be taken, except the Tender Board estimates that it is an error of decimal point, in which case the amount is taken and the unit price corrected.

15.2.3 The sub-committee for the evaluation of bids, whose president shall be designated by the Delegated Contracting Authority, shall be constituted during the bid opening session

ARTICLE 16: VALIDITY OF BIDS: The bidder shall be bound by his/her bid for a period of ninety (90) days from the day of submission of bids. If at the end of this period the jobbing Order is not notified to the bidder, he can withdraw his/her bid or accept the extension of duration on the written request of the administration.

ARTICLE 17: OPENING/EVALUATION OF BIDS AND CHOICE OF CONTRACTOR: The opening of bids shall take place on the date and place prescribed in the Tender File. Envelopes received from prospective bidders shall be opened at once and evaluated in two stages.

1) OPENING OF ENVELOPES (A) (B) and (C) (FIRST STAGE)

• **OPENING/EXAMINATION OF ENVELOPE (A):**

(Administrative documents) shall be opened and the conformity of the documents shall be verified. The administrative documents must be complete, valid and authentic. The bid bond must conform to the format submitted. Only bids with documents that meet these requirements shall have their other envelopes evaluated.

• **OPENING/EXAMINATION OF ENVELOPE (B)**

(Technical Offer) shall be opened to determine whether the file is complete with the authenticity of documents checked and whether the documents are legalised by the competent services concerned and placed in the recommended order.

• **OPENING/EXAMINATION OF ENVELOPE (C)**

(Financial Offer) shall be opened but evaluated only for bids that have sailed through the first two steps.

Bid amounts shall be read aloud as inscribed in the financial proposal of the bidder.

NB: Copies of the Financial proposal shall along side the Administrative and Technical bids, be handed to a Sub-Technical committee for verification and evaluation of the Technical and Financial Proposal.

The bidder shall do everything to facilitate the job of the Sub-Technical Committee for Analysis by using Coloured separators, Title pages and summaries where necessary and presentation of documents according to the order given in the Tender File.

FINAL RESOLUTION OF THE EVALUATION COMMISSION (use the corrected offer)				

17.2: Evaluation of Financial Proposal:

Careful study shall be carried out on the details of prices, unit prices, the bill of quantities and cost estimates presented to make sure the bidder did study the prices and has not made an arithmetic error to arrive at his/her final contract amount. The prices on the UPS shall have priority over those of the BQCE and DUP. They shall serve as the bases of calculation of the bidding amount.

The eventual calculation errors shall be corrected by the Sub Committee for Analysis and the amount altered, if necessary, without any complaints from the bidder. Any laxity noticed at the study of prices shall lead to the disqualification of the bid.

17.3: CHOICE OF CONTRACTOR (CRITERIA OF AWARDED CONTRACT):

According to article 33(1) (a) of the Public Contract Code, the contract shall be awarded to the meritorious and lowest bidder. Careful study must be carried out on the details of prices, unit prices, the bill of quantities and cost estimates presented to make sure the bidder did study the prices and has not made an arithmetic error to arrive at his/her final contract amount.

ARTICLE 18: PROCEDURE OF AWARD OF CONTRACT: The results from this tender shall be prepared, awarded and executed according to the rules and procedures defined by the legislation in force for Public Contracts.

18.1 The winner shall be notified through his/her official address or public media. He shall in five (05) days fulfil the formalities related to the awards, especially to submit seven (07) copies of the proposed contract that he/she has completed and signed, to the office of the Contracting Authority for final signature.

18.2 In the case where the enterprise does not fulfil these conditions, his/her choice shall simply be annulled without further notice and the next contender shall be called in for replacement.

Once the Contracting Authority has signed the contract, the contractor shall be notified with immediate effect. He has three (03) days to contact the Authorising Officer for the beginning of execution of works following notification of the Service Order to start work by the Project Manager. Failure to respect the date line shall call for withdrawal and eventual cancellation of contract.

18.3 The present contract can be cancelled outright in the cases provided for by Decree N^o.:2018/366 of 20th June 2018 instituting the Public Contracts Code.

A. Penalties for delay

23.1 The amount set for penalties for delays shall be set as follows:

☞ One two thousandth (1/2000th) of the initial contract amount all taxes inclusive per calendar day of delay from the first to the 30th day beyond the contractual time-limit;

☞ One thousandth (1/1000th) of the initial amount of the contract inclusive of all taxes per calendar day beyond the 30th day.

23.2 The cumulated amounts of penalties for delay shall be limited to ten percent (10 %) of the initial contract inclusive of all taxes.

B. Specific penalties

23.3 Independently of penalties for overrun of contractual time-limit, the contractor shall be liable for the following special penalties for the non observation of the provisions of the contract, especially:

- Late submission of final bond;

- Late submission of insurances;
- Late submission of the draft execution schedule if the lateness is caused by the contractor.

Article 24: Payment in case of a group of enterprises:

1. In the case of a group of enterprises, indicate the method of payment of co- and sub-contractors, where need be.
2. Indicate the method of payment of sub-contractors, where need be.

Article 25: Final detailed account:

25.1 After completion of the works and within a maximum time-limit of fourteen (14) days after the date of provisional acceptance, the contractor shall establish, based on joint reports, the draft final detailed account of works executed and which detailed account summarises the total sums to which the contractor may be entitled as a result of the execution of the whole contract.

25.2 The Contract Manager has up to thirty (30) days to notify the corrected and approved draft to the Project Manager.

25.3 The contractor has up to thirty (30) days to return the signed final detailed account.

Article 26: General and final detailed account

26.1 The Contract Manager or the Project Manager has up to thirty (30) days to *establish the general detailed account and forward to the contractor after final acceptance.*

At the end of the guarantee period which results in the final acceptance of the works, the Contract Manager draws up the general and final detailed accounts of the contract which he has had signed jointly by the contractor and the Contracting Authority. This detailed account includes:

- the final detailed account,
- the balance
- the summary of monthly payments on account.

The signing of the general and final detailed account without reservation by the contractor definitely binds the two parties, puts an end to the contract, except with regard to interest on overdue payments.

26.2 The contractor has up to thirty (30) days to return the signed final detailed account.

Article 27: Tax and customs regulations: Decree No. 2003/651/PM of 16 April 2003 lays down the terms and conditions for implementing the tax regulations and customs procedures applicable to public contracts. The taxes applicable to this contract include notably:

- Taxes and dues relating to industrial and commercial profits, including the AIR which is a deduction on company taxes;
- Registration dues in accordance with the Tax Code;
- Dues and taxes attached to the execution of services provided for in the contract;
- o Duties and taxes of entry into Cameroonian territory (customs duties, VAT, computer tax);
- o Council dues and taxes;
- o Dues and taxes relating to the extraction of buildings materials and water.

These elements must be included in the costs which the undertaking imputes on its running costs and constitute one of the elements of the sub-details of prices exclusive of taxes. All taxes inclusive prices means VAT included.

Article 28: Stamp duty and registration of contracts: Seven (7) original copies of the contract shall be stamped by and at the cost of the contractor, in accordance with the applicable regulations.

Chapter III: Execution of works

Article 29: Nature of the works: The works shall include especially: (position or volume of works), See Special Technical Conditions.

Article 30: Role and responsibilities of the Project Owner

30.1 The Project Owner shall be bound to furnish the contractor with information necessary for the execution of his mission and to guarantee, at the cost of the contractor, access to sites of projects.

30.2 The Project Owner shall ensure the contractor of protection against threats, insults, violence, assault and battery, slander or defamation of which he could be victim by reason of or during the exercise of his mission.

Article 31: Execution time-limit of the contract:

31.1 The time-limit for the execution of the works forming the subject of this contract shall be **four (4) months - one hundred and twenty (120) days**.

31.2 This time-limit shall run from the date of notification of the Administrative Order to commence execution of the works.

Article 32: Role and responsibilities of the contractor: The detailed and general plan of progress of the works shall be communicated to the Project Manager in *five (05) copies* at the beginning of each.

Article 33: Provision of documents and site: A reproducible copy of the plans featuring in the Tender File shall be submitted by the Contract Manager. The Project Owner shall make available the site and access ways to the contractor at the appropriate time as the works progress.

Article 34: Insurance of structures and civil liabilities: The following insurance policies are required within the scope of this contract in the minimum amounts indicated hereafter within fifteen (15) days of the notification of the contract (*to be adapted*):

- *Liability insurance, business manager;*
- *Comprehensive insurance of the site;*
- *Insurance covering its ten-year obligation, where applicable.*

Article 35: Documents to be furnished by the contractor:

35.1 Programme of works, Quality Assurance Plan and others.

a) Within a minimum deadline of fifteen (15) days from the date of notification of the Administrative Order to commence execution, the contractor shall submit in six (6) copies for the approval of Contract Manager after the endorsement of the Contract Engineer the execution programme of the works, his work calendar, his draft Quality Assurance Plan and the Environment Management Plan, where applicable.

This programme shall be exclusively presented according to the furnished models.

Two (2) copies of these documents will be returned to him within a deadline of fifteen (15) days from the date of receipt with:

- Either the indication "GOOD FOR EXECUTION";
- Or the indication of their rejection including the reasons for the said rejection.

The contractor has eight (8) days to present a new draft. The Contract Engineer and the Contract Manager then have a deadline of five (5) days each to give his approval or possibly make comments. Delay in approving the draft execution schedule shall stay the execution deadline.

The approval given by the Contract Manager or Project Manager does not in any way release the contractor of his responsibilities. Meanwhile, works executed before the approval of the programme shall neither be ascertained nor paid for. The updated and approved schedule will become the contractual schedule.

The contractor shall constantly update on site, a schedule that will take account of real progress of the site. Significant modifications may only be made on the contractual programme upon receiving the approval of the Project Manager. After approval of the execution schedule by the Contract Manager, the latter shall transmit it within five (5) days to the Contracting Authority without staying its execution. However, if important modifications alter the objective of the contract or the nature of the works, the Contracting Authority shall return the execution schedule accompanied by reservations to be lifted within fifteen (15) days of the date of reception.

b) The Environment Management Plan should bring out notably the choice technical conditions of the site and Secondary life, conditions of the backfill of the extraction sites and conditions for reinstating the works and installation sites.

c) The contractor shall indicate in this schedule the equipment and methods which he intends to use as well as the personnel he intends to employ.

d) The approval granted by the Contract Manager or Project Manager shall in no way diminish the responsibility of the contractor with regard to the harmful consequences which their implementation may cause both towards third parties and the respect of clauses of the contract.

35.2 Execution draft

- a) The execution plan documents (*calculations and drawings*) necessary for the realisation of all the parts of the structure must be submitted for the endorsement of the *Contract engineer or Project Manager* at most fifteen (15) days prior to the date provided for the commencement of execution of the corresponding part of the structure.
- b) The *Contract engineer* has a deadline of *five (05) days* to examine and make known his observations. The contractor then has a deadline of [04] four *days* to present a new file including the said observations.

35.3 In case of the non observance of the approval deadlines of the above documents by the Administration, these documents shall be deemed to have been approved.

Article 36: Organisation and safety on site: Signboards at the beginning and end of each section must be placed within a maximum deadline of fifteen days after the notification of the Administrative Order to commence work. The services to inform in case of interruption of traffic or along the deviated itinerary are the *Delegated Contracting Authority, Project Owner, contract Engineer*

ARTICLE 37: Commencement of work: Before the commencement of work, the authorizing officer shall convene an enlarged site meeting with the following in attendance:

- ☐ The authorizing officer(Chairperson)
- ☐ Contract Engineer or his representative(Secretary)
- ☐ The Divisional Delegate of MINMAP or his representative;.....(Member)
- ☐ The Divisional Delegate of MINDDEVEL or his representative.....(Member)

- ☐ The Project Manager(Member)
- ☐ The Divisional Delegate of MINEPAT or his representative;.....(Member)
- ☐ The Fon/ Chief of the locality or his representative(Member)
- ☐ The CDO of Ndu Council(Member)
- ☐ The contracting partner or duly authorized representative(Member)

The authorizing officer (Chairperson) shall schedule for this meeting and invite the members of the commission by a letter of invitation - not more than five (5) working days, from the date of receipt of the contract documents transmitted by the Contracting Authority to the Project owner. **Beyond this deadline, the Contracting Authority shall establish the default of the Project Owner and shall take responsibility to carry out the said schedule and call for this site meeting.**

During this meeting, the commission shall do the following;

- Install the project sign post;
- Fix the Building line, which shall be with respect to main roads, existing structures or natural features on the site;
- Verify the harmony between the building plans and quantities/cost estimates, and note with recommendations any discrepancies;
- Present the site log-book to the contractor;
- Establish and sign an on-the-spot report (minutes).

Article 38: Settingout of the structures: The Contract engineer, upon receipt of the contract documents transmitted by the Contracting Authority shall, - within five (5) days verify the proper installation of the site by the contractor, verify the respect of the building line and all other Secondary points and levels of the project, and the accuracy of the settingout by the contractor.

Article 39: Sub-contracting: The part of the works that can be sub-contracted shall be 30 % of the initial amount of the contract and its additional clauses.

Article 40: Site laboratory and trials: The project engineer has a deadline of three days to approve the contractor's personnel and laboratory as soon as the request is made.

Article 41: Site logbook:

40.1 The Site logbook must be systematically jointly signed by the Project Manager or Engineer, where need be and the contractor's representative each day.

40.2 It is a joint document in a single copy. Its pages must be numbered and initialled. No page should be removed. The erased or cancelled parts must be mentioned on the margin for validation.

NB: the Site logbook must be such that two carbon copies of each page are left behind.

Article 42: Use of explosives: The contractor shall not use any explosives without prior authorization.

Article 43: Pre- Acceptance: Before the provisional acceptance of the works, the contractor shall make a written request to the Contract Engineer, who shall then organize a technical visit for pre-acceptance. This visit shall include the following operations.

- ⑦ Qualitative and quantitative evaluations of the different works that have been executed.
- ⑦ Findings and statement of the unexecuted task envisaged in the present jobbing order.
- ⑦ Findings relative to the completion of the work
- ⑦ Findings on the quantity of works that have been effectively realized.

These operations shall be subject to a site report drawn up and signed on the field, by the following.

- The Contract Engineer..... (Secretary)
- A representative of the Contracting Authority..... (Member)
- A representative of MINMAP(Observer)
- The Contractor or his Representative..... (Member)

During this pre-acceptance, the commission shall eventually specify the reserves to be up-lifted and the corresponding works to be effected before the provisional acceptance.

Article 44: Provisional Acceptance: The contractor shall request the Authorizing Officer in writing, to schedule and call for the provisional acceptance of the works. The report (minutes) of the Pre- Acceptance shall be attached to the said request. The Authorizing officer shall then fix the date of acceptance in collaboration with the contract Engineer and call for the task by a letter of invitation. The Acceptance Commission shall comprise the following;

- The Authorizing Officer (Chairman)
- The Contract Engineer..... (Secretary)
- The Divisional Delegate of MINMAP or his representative ;.....(Observer)
- The Chief of Control Brigade DD/MINMAP or his representative ;.....(Observer)
- The Divisional Delegate of MINDEVEL or his representative.....(Member)
- The Contracting Authority or his representative..... (Member)
- The Project manager..... (Member)
- The Contractor or his Representative..... (Member)

The commission shall examine the report of the Pre-acceptance and shall proceed to the Provisional Acceptance if satisfied with the works executed. An acceptance report (process - verbal) of the works shall be prepared by the Contract Engineer and signed by all the commission members on the site.

Article 45: Final acceptance: Final acceptance shall take place within a maximum deadline of fifteen (15) days from the date of expiry of the period of guarantee. The commission and procedure for final acceptance shall be the same as for Provisional Acceptance. But only the structures shall be considered for the final acceptance.

Article 46: Guarantee Period: The guarantee period shall last for one (01) year from the date of the provisional acceptance.

Chapter V: SUNDRY PROVISIONS

Article 47: Termination of the contract (article 74 of the GAC)

The contract may be terminated as provided for in Decree No. 2018/366 of 20th June 2018 and equally under the conditions laid down in articles 74, 75 and 76 of the GAC especially in one of the following cases:

- Delay of more than fifteen (15) calendar days in the execution of an Administrative Order or unjustified stoppage of more than seven (7) calendar days;
- Delay in work resulting in penalties of more than 10 % of the amount of the works;
- Refusal to repeat poorly executed works;
- Default by the contractor;
- Persistent non payment for services.

Article 48: Case of force majeure (article 75 of the GAC): If the contractor were to raise the issue of force majeure, the thresholds below which claims shall not be admitted are:

- Rainfall: 200 millimetres in 24 hours;
- Wind: 40 metres per second;
- Flood: decennial flood frequency.

Article 49: Disagreements and disputes (article 79 of the GAC): Disagreements and disputes resulting from the execution of this contract may be settled amicably. Where no amicable solution can be found for a disagreement, it is brought before the competent Cameroonian jurisdiction.

Article 50: Production and dissemination of this contract: Ten (11) copies of this contract shall be produced at the cost of the contractor and furnished to the Contract Manager.

Article 51: Entry into force of this contract: This contract shall be final only upon its signature by the Contracting Authority. It shall enter into force as soon as it is notified to the contractor by the Contracting Authority.

Article 52 and last: INFORMATION TO BE POSTED: The Contractor shall put up a visible sign board (total height=2.80m, width=1.20m, board thickness=2.5cm at 1,20m above the ground level with poles embedded in concrete) at the entrance to the site on a place approved by the Contract Engineer, bearing the following text written on one side of the board.

DOCUMENT NO. 5:

Special Technical Conditions (STC)

- I - GENERALITIES
- II- PREPARATORY WORKS
- III- EARTHWORKS - ROAD SURFACING
- IV - DRAINAGE WORKS
- V - PROTECTION OF THE ENVIRONMENT
- VI - ORIGIN, QUALITY AND PREPARATION OF MATERIALS

I – GENERALITIES: These present special technical specifications concern the FOR THE REHABILITATION OF THE BRIDGE ON THE NJIMNKANG - NKWITANG ROAD, NDU SUBDIVISION, DONGA-MANTUNG DIVISION, NORTH WEST REGION. It is the duty of the contractor to realize the structure as per the execution plans that shall be approved by the competent authority. Through the contract Engineer, the contractor shall furnish the owner of the project and other project team members within 15 days from the date of notification to start work with an execution plan showing clearly how he intends to run the work site.

SIGN-POSTS: The contractor shall put in place at his expense a sign-posts indicating the ongoing work in conformity with the plans put at his disposal by the contracting authority.

Hygiene and safety: The contractor shall ensure total hygiene and security of the site by constructing a temporal latrine and putting up a temporal fence around the project site if need be.

The contractor shall be responsible for the protection of the structures before final reception. He shall be equally responsible for all equipment and materials present at the work site. He shall seek an insurance policy to cover theft and fire incidence.

The contractor shall take all preventive measures against accidents. The owner of the project has the right to intervene in case of any emergency without necessary interfering with the activities of the contractor.

All modifications accepted by the contractor shall be accomplished within a specified duration and at his cost without modification of the contract amount. The owner of the project shall have the right to the final choice in case of any modification.

II- PREPARATORY WORKS

a. **Site installation:** The installation of the working site will be at the expenses of the executing enterprise. It will include:

- ⑦ Pegging of the road following the plan of the roads;
- ⑦ The construction or renting of a base where the equipment of the contractor shall be kept.
- ⑦ The construction of a provisional fence round the base;
- ⑦ Provisional water connections, electricity and telephone
- The cleaning of the project site
- Necessary measures for the respect of legal/lawful provisions relating to hygiene and safety on site. (Installation of a
- ⑦ latrine, provision of drinkable water, provision of a first aid box equipped with products such as: aspirin, nivaquine,
- ⑦ adhesive plaster, bétadine, bands, compress, alcohol...);
- ⑦ Provisional access roads to the project site;
- ⑦ A storeroom on site;
- A site office, where the site book, the building plans will be available permanently throughout all realization of works;
- ⑦ An office or room of at least of 8 m² equipped with a table office and two chairs reserved with the Project superintendent;
- ⑦ A meetings room for the building site which can receive at least 5 people equipped with a table, two benches of 1.5 m, a display board for plans and planning placed permanently.
- Receptacles to receive waste are to be installed near the various installations. These receptacles are to be emptied periodically and waste to be deposited in a vat for recovery or a dump (pit). This pit must be located at least 100m installations and in the event of presence of river with at least 150m. At the end of work, the pit is to be filled with ground up to the level of the original ground.

b. Bringing in and folding up of equipment

- The entrepreneur does all necessary steps to ensure the delivery of the facilities and the equipment or machine imported is done within the delays with respect to the planning of works, and that all arrangements are taken for their
- ⑦ fast deployment on site. This requirement applies in particular to earthwork equipment crushing machines, and those
- ⑦ of transportation;
- The contractor is supposed to have taken into account;
- ⑦ suggestions due to the bringing-in and the folding up of equipment unto the place of works, and notably those due
- ⑦ transportations by use of a carrying trailer truck;
- ⑦ Suggestions due to the passage on a road itinerary worked by another enterprise;
- The control engineer will verify the conformity of the equipment brought to the site by the bidder's tender;
- The entrepreneur must take into account the possible limitations of loads on the roads and existing bridges. He is held
- ⑦ to load the equipment on trailers of multiple axles in order to assure the distribution of the total load respecting the limits prescribed by the code of the Road;
- ⑦ The control engineer can proceed at all times to verifications of the loads on the axle of the transportation vehicles. The detentions and the loss of time that result are to the entrepreneur's charge;
- The transportation of the materials is not taken into account if the vehicles doing this transportation are in overload state;

²
c. Grass clearing

This task is given the first priority, because it will facilitate visibility around embankments, rivers and streams. Labour intensive will be the aspect of this task and the main equipment would be cutlasses.

III- EARTHWORKS - ROAD SURFACING

a. BULLDOZING (OPENING) OF THE ROAD

Bulldozing which is the main task of this project will be carryout on the track already cleared and trees cut to enable visibility to the operator of the bulldozer around embankments, rivers and streams. The said task will consist of first of all removing the top vegetable soil, uprooting stumps from the cut trees. Then opening of the road way at least 8m wide will be approved by the contract or/and control engineer of the project.
The materials bulldozed from the road way shall be dump far off the road way to enable free drainage of rain water during rainy days.

²
b. FILL FROM BORROW PITS

² Fill from borrow pit shall be done with laterite or pozzolan or volcanic ash according to the required profile, on a minimum thickness of 10 cm measured after compaction. The cross section should correspond to that specified for the road section.

² The required compaction of the surfacing shall be 95% of the dry modified optimum Proctor density. To obtain this result, the Contractor shall use laterite or volcanic scoria bulked, reserved and approved according to the requirements of Art. 32 of these technical specifications and at least four passes of compaction equipment previously approved by the Supervisor on the entire surface of the surfacing course and water this surface whenever necessary during compaction. Geotechnical test at an interval of every 200m shall be conducted to determine this density

² Where the Supervisor is dissatisfied with the job done or doubts the compaction results, he shall at his own expense conduct control tests and where necessary ask an approved laboratory to do so. If on a section, more than 20% of compactness tests are below standards, the contractor will repeat compaction and new tests will be conducted before acceptance of the section. Expenses for such laboratory tests shall be borne by the contractor. The Supervisor shall check the thickness of the layer.

² No thickness below 10cm shall be tolerated. If measuring reveals less than 10cm, the corresponding section shall be further scarified, refilled and compacted until the required thickness and degree of compaction is obtained.

In such a case, laboratory expenses shall be borne by the contractor. Just as defined in Article 8 above, a patch shall be carried out before the works.

c. PROFILING AND COMPACTING OF ROAD SECTION WITH GUTTERS/OFFSHOOTS

This price remunerates, a m2 of treated road no matter its width, the putting in form of the platform whose definition is obtained through site visit before realization of the wearing course layer in spot regravelling. This price involves the reshaping of the lateral ditches

It comprises notably:

- ² the possible cleaning of the roadway
- ² the evacuation of existing vegetable soil and ditch cleaning products,
- ² The possible scarification of the roadway, according to the prescriptions of the control engineer
- ² the levelling of the scarified platform,
- the watering and the compaction of the roadway,
- all suggestions linked to the conditions of circulation and the respect of environmental prescription.

The quantity to be taken into account is the m2, measured according to the slope of the axis of the roadway that has been really executed between edges of the ditches.

IV. DRAINAGE WORKS

a. Stone masonry culvert (1.50x1.00)m

This price remunerates the supplying on the work site of stones, sand, gravel, rods and the REHABILITATION of a stone masonry culvert after excavation in accordance with typical plans on the tender file, with the execution file and to the specifications of the present PTSN/CCTP.

It comprises notably:

- ² the supply on the work site of stones, sand, gravel and rods,
- ² the eventual demolition of any damaged existing culvert,
- the implantation and the setting out of the work site,
- the possible setting up of a temporary deviation,

2

- 2 the execution of the excavations in land of all natures and the evacuation of the rubbles to the places accepted by the Contract Engineer, and the possible substitution of the foundation seat soil,
- 2 the installation and construction of the culverts,
- 2 the realization of the technical block (brought-in material for back filling) compacted in layers of 20m to take level with the concreted slab of the culvert
- 2 during construction all suggestions (water pumping, propping-up) and the taking into account of the differential settlements of the structure,
- 2 the possible cleaning of the upstream opening and downstream of the culvert in order to ensure a perfect in and out-flow of water,
- 2 connecting adjustments with slopes lower than 4% of the linking point created by the technical block with the existing roadway,
- 2 all suggestions linked in particular to the environmental prescriptions.

These prices apply to a LINEAR METER (ml) of stone masonry culvert constructed. The lengths to be taken into account will come from approved execution programme.

b. Proposed box culvert of 1.5mx1mx7m

c.1.1. Setting out of box culvert:

This activity shall consist of identifying the different positions of the different structures of the box culvert with reference to the prescribed plans, using building tools like spades, dig axes, ropes, nails and wood to mark the various points

c.1.2. Excavation of trenches:

This shall be done manually and with the use of small manual tools and the dimensions of the trenches shall respect the dimensions of the prescribed plans.

c.1.3. Hard core:

Under the general contract terms, this total price shall cover each m3 of the supply and complete laying of rocks whose facing should be at least 1.5 times the average diameter of rocks used and at least 60 cm thick under the structure, in compliance with the technical specifications. The price shall include the following:

supply of stones

laying of the stones following specifications

c.1.4. Lean concrete:

Under the general contract terms, this total price shall cover each cubic meter (m3) of the supply and complete laying of lean concrete, in compliance with the technical specifications. It shall include the following and shall be in the dosage of 150kg/m3 and of at least 5cm thick:

- 2 Supply and on-site transportation of all materials needed for manufacturing and laying concrete,
- 2 Earthworks, including all type of excavation works,
- 2 Subsequent formwork
- 2 Manufacture of concrete following technical specifications and all supply tasks,
- 2 Laying of concrete, the subsequent treatment and finishing of surface,
- 2 Stripping of forms, filling in, ramming or compaction, the reconditioning of the edges,
- 2 And all other duties.

c.1.5. Reinforced concrete for the box culvert (dosage 350kg/m3):

Reinforced concrete in the elevation of the footing shall contain 350 kilograms of cement per cubic metre or as required by design calculations and shall be vibrated during laying.

A.350 concrete for reinforced concrete structures should have a minimal compressive strength of 25MPa in 28 days.

- 2 Depending on the volume of concrete to be made, the supervisor may request the contractor to carry out quality control tests such as for the compressive strength compression etc. While concrete for bridge structures shall have to undergo the required test before interim payments are made to the contractor.
- 2 If the required minimum strength is not attained, the Supervisor shall decide on the measure to take in respect of the structure concerned.

The volume of average and big size aggregates in the C150 concrete should double that of the volume of sand. The test on grading of the aggregate must be performed for the concrete structures. Also sand equivalence test as well as any other test deemed necessary to be required by the supervisor. Steel reinforcement shall be in accordance to the structural analysis document provided by the contractor and approved by the supervisors.

2

c.1.6. Filling operation

Backfilling shall be done with the materials defined by compacted layers at most 20 cm (twenty centimetres) thick placed continuously over the entire section of the road profile and compacted at 90% modified optimum dry density same as indicated here above

In the case of double pipes, backfilling shall only be done after the two elements have been mounted and in such a way as to join at the same time the entire structure.

2

Compaction must be performed with machines approved by the Supervisor Manual compaction shall be prohibited except where previously approved by the supervisor within the framework of the manual execution of works.

c.1.7. Upstream and downstream improvements

The laying of culverts shall be completed by carrying out improvement works upstream and downstream, clearly defined in the execution drawings and adapted to the landscape and different local conditions specific to each structure.

2

V. PROTECTION OF THE ENVIRONMENT:

The entrepreneur shall obtain an attestation of environmental impact notice from the council concerned, indicating that the environment impact notice has been carried out by the project owner

2 The site must be chosen outside of the sensitive zones, in order to limit the site clearing, the extraction of bushes, the setting out of the building and general circulation.

The site must foresee an adequate drainage of waters on the whole surface. The REHABILITATION areas and of washing should be concreted. These REHABILITATION areas should have a slope toward a cesspool provided for the purpose and toward the inside of the platform in order to avoid the out-flow of the polluting products toward the site and the neighbourhood.

2 At the end the works, the entrepreneur will do all necessary works to the restoration of the various places of the site. The entrepreneur should fold all his material, and equipment. He should demolish all stationary installation, as foundation, support made of concrete or metallic, etc. in order to put back the site in its nearest initial state. No equipment nor materials should be abandoned on the site, nor in the vicinity after the execution of all the works. Left-over materials are to be covered with a layer of earth, and the site has to receive an adequate drainage in order to avoid all erosion as the case may be.

VI. ORIGIN, QUALITY AND PREPARATION OF MATERIALS:

The fine and coarse aggregates may either be from the river or quarry crushed and must be approved by the Contract Engineer before any use on the site. The sand (0/5) shall have very fine elements settlement of less than 4%. The gravels (5/15 or 15/25) shall be clean and well graded with very fine elements settlement of less than 2%. The cement shall be CPA 325 class from an approved factory.

The reinforcement steel for reinforced concrete shall be of type HA FeE400 for the main reinforcement steel rods and round-smooth RL E235 for the stirrup rings. Any fill material for the foundation and the surroundings structures shall have no particle dimension above 50mm and with plasticity index of less than 35. Fill materials shall also be free from organic elements and shall have a good granularity grading. No black vegetable soil shall be accepted for backfilling.

Stones for masonry works shall be of basalt, gneiss or granite type, be esthetical and should be gotten from the quarry or deposits approved by the Contract Engineer with dimension sizes of not less than 20cm.
