1	MINEE	The Mayor, Zhoa Council	Rehabilitation of existing distribution network of Zhoa, Fungom Sub Division in Menchum Division.	12, 500,000 FCFA

8) BID BONDS (PROVISIONAL GUARANTEE):

Each bidder shall enclose in his administrative documents a bid bond issued directly in the bidder's name by a first rate bank approved by the Ministry in charge of Finance and that shall respect the model in this tender file featuring on the list in document 12 of the tender file and valid for ninety (90) days beyond the original date of the validity of the offers.

Lot	Works	Locality	Estimated Cost	Bid Bond	Tender Fee
1	Rehabilitation of existing distribution network of Zhoa, Fungom Sub Division in Menchum Division.	Zhoa, Fungom Sub Division in Menchum Division-North West Region.	12, 500,000 FCFA	250,000 FCFA	25,000 FCFA

9) CONSULTATION OF TENDER FILE:

CONSULTATION OF TENDER FILE:

The Tender documents may be consulted immediately after publication of this invitation to tender from the Services of the Contracting Authority (*Service in charge of the contracts award*) during working hours at the Zhoa Council.

10) ACQUISITION OF TENDER FILE:

The Tender documents shall be obtained immediately after publication of this invitation to tender from the Services of the Contracting Authority during working hours at the Zhoa Council. The document shall be obtained upon presentation of a Public Treasury receipt/Municipal Treasury showing the payment of a non-refundable sum of **Forty thousand (40,000) francs CFA**.

11) SUBMISSION OF BIDS (OFFERS):

Each bid written in English or French shall be signed by the bidder or by a duly authorized Representative and presented in seven (7) copies, that is **one (01) original and six (06) copies** labelled as such. These shall be submitted in one sealed external envelope containing three (3) envelopes, that is, Envelope A: Administrative Documents, Envelope B: Technical documents and Envelope C: Financial documents. It shall reach the Zhoa Council (*at the Zhoa*) not later than 05/03-----at **12pm** local time. The sealed external envelope shall be free of all identification marks, failing which it shall be rejected.

The sealed external envelope addressed to the Contracting Authority shall bear the following inscriptions:

OPEN NATIONAL INVITATION TO TENDER

N^o 03/ONIT/MINDDEVEL/ZC/MAYOR/ZCITB/MCH/2025 OF 29/01----- 2025 FOR THE
REHABILITATION OF EXISTING DISTRIBUTION NETWORK OF ZHOA WATER, FUNGOM
SUB-DIVISION IN MENCHUM DIVISION NORTH WEST
(*To be opened only during the bids opening session of the Tenders Board*)

12) ADMISSIBILITY OF OFFERS:

Under risk of being rejected, administrative documents must be produced in originals or true copies certified by the issuing services of the required administrative documents (*Examples: Taxation Officials, Bank Officials, etc.*) or by Administrative Authorities as the case may be (*Example: SDO, DO etc*) and must imperatively be produced in accordance with the Special Tender Regulations. They must obligatorily not be older than three (03) months or must not be produced after the submission of the tender file. Double certification shall not be accepted. Any bid that shall not be in conformity with the prescriptions of this notice and tender file shall be declared null and void, especially bids containing a bid bond not issued directly in the bidder's name by a first rate bank approved by the Ministry in charge of Finance.

The bid bond which shall only be released by the Contracting Authority shall be released for unsuccessful bidders not later than thirty (30) days after the period of bid validity. For the successful bidder to whom the contract will be awarded, the bid bond shall be returned to the contractor by the Contracting Authority once the final bond has been provided.

Bidders shall remain committed to their offers for a period of ninety (90) days from the last date for the submission of tenders, that is, the tenders shall be valid for 90 (ninety) days with effect from their submission deadline.

NB: The contractor shall, present the originals of the respective certified documents for strict verification of their authenticity during site installation.

13) OPENING OF BIDS(OFFERS):

Bids shall be opened by the Zhoa council Internal Tenders Board in a single phase for all in that order on the 05/03/----- 2025 at **12pm** local time in the hall at the Zhoa Council. Only bidders or their authorized representatives having a perfect knowledge of the file may attend the bid opening session. Note should be taken that in case of any ambiguities or differences during opening, only the original shall be considered authentic, that is, any bid which shall not comply with the requirements of the tender file shall be rejected.

14) EVALUATION CRITERIA:

Tender conformity shall be evaluated as per the following:

- Offers (bids) submitted after the deadline or time limit shall be rejected;
- Bids submitted in unsealed external envelopes shall be rejected.
- External envelopes with identification marks or inscriptions which may lead to the identification of the said company shall be rejected.
- Absence of original or properly certified administrative document or documents certified more than one time shall be given 48 hours to replace it.
- False declaration or forged documents shall be given 48 hours to replace them;

- Absence of bid bond, or Certified cheque, Bank cheque, Legal mortgage or Bank Guarantee or bid bond not issued directly in bidder's name by a first rate bank approved by the Ministry in charge of Finance the bidder shall simply be rejected.

NB: Bid bond or any bid security for a group of enterprises must bear the name of mandated enterprise with the names of the other enterprises mentioned as well.

A) Essential Criteria They are primordial or key modalities in the judgment of the technical and financial capacity of candidates to execute the tasks forming the subject of the invitation to tender. They were determined in relation to the nature and content of the tasks to be executed. Hence in the evaluation of:-

(i) Technical documents, it shall be the binary method (**YES or NO**) based on the following distribution of points:

CRITERIA	POINTS

DOCUMENT N° 02

GENERAL REGULATIONS OF THE INVITATION TO TENDER

A-GENERALITIES

Article 01: SCOPE OF THE INVITATION TO TENDER

- (a) **CONTRACTING AUTHORITY** as defined in the Special Regulations of the invitation to tender ("RPAO") is the Mayor of Zhoa Council who shall be in charge of launching the tenders file. The name, the reference number and the number of lots contained in the invitation to tenders are found in the Special Regulations of the invitation to tender.
- (b) **SUCCESSFUL BIDDER** shall be the company to which the contract shall be awarded. This company shall have to execute and finish the tasks defined in the Special Regulations of the invitation to tender within the deadline spelled out in the service order notifying when to start execution, except modified by the Special Administrative conditions ("CCAP") of the invitation to tender.
- (c) **DAY** in this tender file shall mean **a calendar day**.

Article 02: FINANCING

The source of funding for the project shall be contained in the financial documents and shall bear specifications of funding as shall be spelled out in the Special Tender Regulations.

Article 03: FRAUD AND CORRUPTION

The Contracting Authority requires of bidders and contractors the strict respect of rules of professional ethics during the award and execution of the contract to be established. By virtue of this principle:

a) The following definitions shall be admitted:

- i) Shall be guilty of "**corruption**" whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;
- ii) Is involved in "**fraudulent manoeuvres**" whoever deforms or distorts facts in order to influence the award or execution of a contract;
- iii) "**Collusive practices**" shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition;
- iv) "**Coercive practices**" shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.

b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.

Remark: The Minister Delegate at the Presidency in charge of Public Contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him.

Article 04: CONDITIONS FOR CANDIDATES TO BE ADMITTED TO COMPETE

Participation in this invitation to tender is open to all registered and qualified enterprises, group of enterprises and Sub-Contractors of the Republic of Cameroon, with the required technical and professional expertise in construction works accompanied by the necessary legal and financial autonomy

and must not have been excluded from bidding for public contracts as well as managed according to commercial laws and not under the direct supervisory authority of the Contracting Authority or Project Owner. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must not be in a situation of conflict of interest, subject to disqualification. A potential bidder shall be judged to be in a situation of conflict of interest and considered not eligible if he:-

- (a) is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts awarded for this Invitation To Tender.
- (b) presents more than one bid within the context of Invitation To Tender, except authorised variants, where need be; meanwhile, this does not prevent the participation of sub-contractors in more than one bid.
- (c) and the Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts

Article 05: ORIGINS OF MATERIAL, SUPPLIES, EQUIPMENT AND AUTHORIZED SERVICES

The origin for these resources must be in countries fulfilling the criteria defined in the Special Regulations of the invitation to tender. Origin in this invitation to tender means the place from where the resource is extracted, cultivated, produced or fabricated and from where comes the services.

Article 06: QUALIFICATION OF BIDDERS

- (a) As an integral part of their bid, bidders must:
 - (i) Submit a power of attorney making the signatory of the bid bound by the bid; and
 - (ii) Provide all information (complete or update information included in their request for pre-qualification which may have changed in the case where the candidates took part in pre-qualification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- The production of certified balance sheets and recent turnovers
- Access to a line of credit or availability of other financial resources
- Orders acquired and contracts awarded
- Pending litigations
- Availability of indispensable equipment
- (b) Bids presented by two or more associated undertakings (joint-contracting) must satisfy the following conditions:-
 - The bid must include all the information listed in paragraph 1 above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group
 - The bid and the contract must be signed in a way that is binding on all members of the group
 - The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form
 - The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the contract
 - In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting
- (c) Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender

Article 07: SITE VISIT

It is advisable to potential bidders to visit the project site and its environ and rate the availability of resources and get all the information about the site before preparation of their offers. The Project Owner shall authorise the bidder and his employees or agents to enter the premises and the land for the said visit but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from the visit. The Project Owner may organise a visit of the project site during the preparatory meeting for the building of offers.

B-TENDERS FILE

Article 08: CONTENT OF THE TENDER FILE

The Tenders File describes the tasks to be accomplished in the contract, fixes the procedures of consultation of entrepreneurs and precise the conditions of the contract and conditions surrounding any modification of the Tenders File. The principal documents that must be in the Tenders File include:-

- (a) Document N° 1- Tender Notice ("AAO")
- (b) Document N° 2- General Regulations of the Invitation To Tender ("RGAO").
- (c) Document N° 3- Special regulations of the invitation to tender ("RPAO").
- (d) Document N° 4- Special Administrative Conditions (SAC="CCAP").
- (e) Document N° 5- Special technical Conditions (STC="CCTP").
- (f) Document N° 6- Schedule of Unit prices (Price Elaboration Schedule=PES).
- (g) Document N° 7- Bill of quantities and cost estimate (BQCE).
- (h) Document N° 8- Sub detail of unit prices.
- (i) Document N° 9- Model Contract.
- (j) Document N° 10- Model forms to be used by bidders.
- (k) Document N° 11- Justification of prior feasibility studies (*written by the Project Owner*).
- (l) Document N° 12- List of first rate Banks and Financial Organisations approved by the Ministry in charge of Finance to issue bid bonds(*to inserted by the Contracting Authority*).
- (m) Document N° 13- Plans, diagrams and/or pictures, *as the case may be*

Article 09: CLARIFICATIONS ON THE TENDER FILE

Request for clarifications may be addressed by letter, electronic mail (telecopier or email) or fax to the Contracting Authority at the following address:

THE MAYOR OF ZHOA COUNCIL

NB: -A copy of this request must be given to the Project Owner and the Contracting Authority is bound to respond to the request at least fourteen (14) days for National Invitations and at least twenty one (21) days for International Invitations before the day of opening, copying all the companies that purchased the tenders file.

-Any potential bidder whose find himself cheated in the award procedure can petition to the Minister of Public Contracts

-Any other preoccupation can be addressed to the Contracting Authority copying the Regulatory Organ for Public Contracts and the President of the Tenders Board. The Contracting Authority has five (05) days to react with copy of the reaction sent to the Minister incharge of Public Contracts and the Regulatory Organ of Public Contracts.

Article 10: AMENDMENT OF THE TENDERS FILE (ADDENDUM TO THE TENDER FILE)

The Contracting Authority may at any moment, prior to the deadline for the submission of bids and for any reason, be it at his initiative or in reply to a request for clarification formulated by a bidder, amend the Tender File by publishing an addendum while publishing the amendment which now constitutes the integral part of the tenders file and must be communicated to all the companies that

purchased the tenders file. Hence to give room for bidders to prepare their offers the Contracting Authority may postpone the deadline of submission as long as he deems necessary

C-PREPARATION OF BIDS

Article 11: TENDER FEES

Each bidder shall be responsible for all charges related to the preparation and presentation of offers. The Contracting Authority and the Project Owner shall in no way be responsible for these charges or try to regularise a situation involved in the preparation of offers by a bidder.

Article 12: LANGUAGE OF THE BIDS

Offers and all correspondences exchanged between the Bidder and Contracting Authority shall be written in English and French. However complementary documents may be in any other language provided they are accompanied by précised translation into English or French, in which case at the end of the interpretation the translation is valid.

Article 13: PRESENTATION AND CONTENT OF BIDS

Each bid shall include three envelopes, A, B and C labelled as follows:-

ENVELOPE«..... DOCUMENTS»

OPEN NATIONAL INVITATION TO TENDER

**N^o 03/ONIT/MINDDEVEL/ZC/MAYOR/ZCITB/MCH/2025 OF 29/01/ 2025 FOR THE
REHABILITATION OF EXISTING DISTRIBUTION NETWORK OF ZHOA WATER,
FUNGOM SUB-DIVISION IN MENCHUM DIVISION NORTH WEST REGION.**

“To be opened only during the bid opening session of the Tenders Board”

Hence, bid presented by the bidder shall include the documents detailed in the Special Regulations of the invitation to tender, duly filled and put together in three envelopes:-

a. Envelop A: Administrative file shall include:-

- i) all documents attesting that the bidder:
 - has subscribed to all declarations provided for by the laws and regulations in force;
 - paid all taxes, duties, contributions, fees or deductions of whatever nature;
 - is not winding up or bankrupt;
 - is not the subject of an exclusion order or forfeiture provided for by the law in force;
- ii) the bid bond established in accordance with the provisions of the General Regulations of the invitation to tender;
- iii) the written confirmation empowering the signatory of the bid to commit the bidder, in accordance with the provisions of the General Regulations of invitation to tender.

b. Envelop B: Technical bid shall include:-

- (i) *Information on qualification-* The Special Regulations list the documents to be furnished by bidders to justify the qualification criteria mentioned in the Special Regulations of the invitation to tender
- (ii) *Methodology-* The Special Conditions of the invitation to tender specify the constituent elements of the technical bid of the bidders especially: a methodological statement on an analysis of the works and specifying the organisation and programme which the bidder intends to put in place or use to execute the works (installations, schedule, Quality Assurance Plan (QAP), sub-contracting, attestation of visit of the site, where necessary, etc
- (iii) *Proof of acceptance of conditions of the contract-* The bidder shall submit duly initialled copies of the Special Administrative Conditions (SAC) and Special Technical Conditions (STC) relating to the contract..

- (iv) *Commentaries (optional)*- commentary on the technical choices of the project and possible proposals

c. Envelop C: Financial bid:

The Special Regulations specify the elements that will help in justifying the cost of the works, namely:

- (i) The signed and dated original bid prepared according to the attached model, stamped at the prevailing rate.
- (ii) The duly filled Unit Price schedule
- (iii) The duly filled detailed estimates
- (iv) The sub-details of prices and/or breakdown of all-in prices
- (v) The projected schedule of payments, where need be

In this regard, the bidders will use the documents and models provided in the Tender File, subject to the provisions of the General Regulations of the invitation to tender concerning the other possible forms of guarantees.

Remark: If in accordance with the provisions of the Special Regulations of the invitation to tender, the bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot.

The three envelopes (A, B & C) shall be sealed in a large anonymous external envelope addressed to the Contracting Authority as follows:

**THE CONTRACTING AUTHORITY
MAYOR OF ZHOA**

OPEN NATIONAL INVITATION TO TENDER

N^o 03/ONIT/MINDDEVEL/ZC/MAYOR/ZCITB/MCH/2025 OF 29/01/ 2025 FOR THE
REHABILITATION OF EXISTING DISTRIBUTION NETWORK OF ZHOA WATER,
FUNGOM SUB-DIVISION IN MENCHUM DIVISION NORTH WEST REGION.

"To be opened only during the bids opening session of the Tenders Board"

Note should be taken that:-

- (a) *Envelopes bearing any other inscriptions shall be simply rejected*
- (b) *The Contracting Authority bears no responsibility for any missing document and/or premature opening of offers if the external envelop is submitted not sealed by the bidder.*
- (c) *During calculation of prices:*
 - *The amount shall be calculated on the bases of variable prices. The bidder shall fill, in letters and in figures, the unit prices in the price enclosure slip and the unit prices are to be multiplied by the quantities given in order to obtain the amount of his offer for each item.*
 - *The bidder shall express the prices in the Price Elaboration Schedule (PES) and Bill of quantities and cost estimates (BQCE) in francs CFA excluding taxes before adding the taxes to the BQCE only. The prices on the PES shall have priority over those of the BQCE and PE. They shall serve as the bases of calculation of the bidding amount.*
 - *The eventual calculation errors shall be corrected by the Committee for Analysis and the amount altered if necessary without any complaints from the bidder.*
 - *A unit price which shall be the price of an element of a good or service, of a type or an item of work, the quantities of which are estimates in the contract shall be calculated in Francs CFA and furnished in figures and in words without taxes, while the total amount shall be calculated without taxes and then with taxes according to the BQCE. The currency that shall be used for payment shall be the FCFA*
 - *As this invitation to tender will consist of a contract whose duration of execution is not more than one (01) year, it shall not be subject to price revision.*
 - *It shall be forbidden to introduce a price revision clause by way of additional clause in the contract awarded on the basis of a firm price.*

Article 14: AMOUNT OF THE BID

Except otherwise stated in the Tender File, the amount of the contract shall cover all the tasks described in the General Regulations of the invitation to tender, on the basis of the price schedule and the detailed bill of quantities and estimates presented by the bidder. Hence:-

- (a) The bidder shall fill the unit prices and totals of all items on the schedule and bill of quantities and estimates.
- (b) Subject to contrary provisions provided for in the Special Regulations and in the Special Administrative Conditions, all dues, taxes and fees payable by the bidder on grounds of the contract or on any other ground, thirty (30) days prior to the submission of the bids, shall be included in the prices and in the total amount of the bid presented by the bidder.
- (c) If a price revision/updating clause is provided for in the contract, the date of establishment of the initial price, as well as the price revision/updating conditions for the said price must be specified. This is with the understanding that any contract of duration less than one (1) year shall not be subject to price revision.
- (d) All unit prices must be justified by sub-details established in accordance with the structure proposed in document 8 of the Tenders file.

Article 15: CURRENCY OF BID AND PAYMENT

Offers must be in the prevailing currency of the country where the Contracting Authority is based otherwise must be prove of conversion in an annex.

Article 16: VALIDITY OF BID

Offers shall be valid within the period specified in the Special Tender Regulation and shall be fixed by the Contracting Authority, counting from the date of submission of offers. Offers whose period of validity will be too short shall be considered not being in compliance (rejected) and prolongation of the validity period by a bidder without prior authorisation from the Contracting Authority on request from the bidder shall be rejected.

Remarks:

-Under exceptional circumstances, the Contracting Authority may seek the approval of bidders to extend the validity time-limit. The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.

-Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than sixty (60) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders.

The updating period shall run from the date of overrun of sixty (60) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

Article 17: BID BOND

The amount of the bid bond shall be as specified in these General Tender Regulations and must be of the model presented in the tender file or otherwise any other model must have been authorized by the Contracting Authority before use. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of these General Regulations. Hence:-

- (a) Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and mention each member of the associated grouping.
- (b) The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.
- (c) The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.
- (d) The bid bond may be seized:
 - (i) if the bidder withdraws his bid during the period of validity;
 - (ii) if the retained bidder:
 - fails in his obligation to register the contract in application of article 38 of the General Regulations;
 - fails in his obligation to furnish the required final bond in application of the General Regulations
 - refuses to receive notification of the Administrative Order to commence execution.

Article 18: VARYING PROPOSALS BY BIDDERS

Where the tasks can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.

Except in the case mentioned in the paragraph below, bidders wishing to offer technical variants must first assess the basic solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed construction methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the basic solution has been evaluated as the lowest bid.

When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the tasks, these parts of the tasks must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of the General Regulations.

Article 19: PREPARATORY MEETING TO THE ESTABLISHMENT

Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations. The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.

As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting. The Contracting Authority may not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in the paragraph below.

The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of the General Regulations and not through the minutes of the preparatory meeting.

The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: FORM AND SIGNATURE OF BIDS

Each offer shall be presented in seven (7) copies, that is, **one (01) original** clearly indicated "ORIGINAL". and **six (07) photocopies** bearing "COPY". The original must be typed or written with

indelible ink and in case of any ambiguities or differences only the original shall be considered authentic. In case of a correction or a page overloaded with information added after, it must be visaed by the signatory (ies) (person or persons mandated to signed for the bidder). The bid shall be bearing no modification, suppression or alteration unless such corrections are initialled by the signatory (ies) of the bid.

D-SUBMISSION OF BIDS

Article 21: SEALING AND MARKING OF BIDS

Each bidder shall seal each original and the correspondent copies of the bid in separate envelopes (*called internal envelopes*) by marking on these documents "**ORIGINAL**" and "**COPY**", as the case may be. The envelopes shall then be put in another envelope (*called external envelope*) which shall equally be sealed but which shall not give any indication regarding the identity of the bidder. The external and internal envelopes:

- a) should be addressed to the Contracting Authority at the address indicated in the Special Regulations;
- b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription "**TO BE OPENED ONLY DURING THE BIDS-OPENING SESSION**" as specified in the Special Regulations.

The internal envelopes on the other hand, should equally carry the name and address of the bidder to enable the Contracting Authority return the sealed bid if it is late in accordance with the General Regulations.

Remark: If the external envelope is not sealed and marked as indicated in Article 21 here above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: DATE AND TIME LIMIT FOR SUBMISSION OF BIDS

Bids bearing the specified address shall be submitted to the Contracting Authority or to the Service of Award of Contracts at the Zhoa Council against a duly signed receipt bearing the date and time specified in the Special Tender Regulations. Each bidder after submission shall before departure, ensure that the external envelope (*enclosing envelopes A, B and C*) is stamped and dated. After submission no bid (regularly submitted) shall be withdrawn, supplemented or modified. Hence, in the case where the envelope shall not be sealed or without the appropriate inscriptions on it, the administration shall decline all responsibilities for misdirection or premature opening. Any bid opened prematurely shall be rejected and returned to the bidder.

Hence all documents submitted by a bidder in any capacity, following this open national invitation to tender, must be established exclusively:

In English or French language,

- Using the metric system for quantities,
- Expressing all costs (prices) in francs FCFA.

Article 23: OUT OF TIME-LIMIT BIDS

After the specified deadline, any bid shall be declare late and rejected.

Article 24: MODIFICATION, SUBSTITUTION AND WITHDRAWAL OF BIDS

The said notification must be signed by an authorised representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription "**WITHDRAWAL**", and "**REPLACEMENT BID**" or "**MODIFICATION**". Hence:-

- (a) Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.

- (b) In application of paragraph 1, bids being requested to be withdrawn by bidders shall be returned to them unopened.
- (c) No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The notification must be signed by the person mandated to sign for the bidder. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription **"WITHDRAWAL"** and **"REPLACEMENT OFFER"** or **"MODIFICATION"**. The notification of the modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date and post mark being authentic, shall not be posterior to the time-limit set for the submission of bids. Bids being requested to be withdrawn by bidders shall not be opened before returning to them.

NB: - *Offers bearing **"WITHDRAWAL"** and **"REPLACEMENT OFFER"** or **"MODIFICATION"** and which shall not be handed back to the bidders shall be transmitted alongside the other offers on the day of opening.*

- No bid shall be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond.

E- OPENING AND EVALUATION OF BIDS

Article 25: OPENING OF BIDS AND PETITIONS

Bids shall be opened by the Competent Tenders Board in one phase of two stages (*Stage I and Stage II*) on a date, time and at the venue specified in the Special Tenders Regulations, in the presence of Representatives of the bidders concerned and who wish to attend. Representatives present during the opening shall sign a register or a paper to attest their presence.

Firstly, envelopes marked **"WITHDRAWAL"** shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked **"REPLACEMENT BID"** are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked **"MODIFICATION"** shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. It is important to note that:-

→ All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [*in case of opening of financial bids*] and any variant (*where necessary*), the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation. **Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.**

- Offers (and modifications received in accordance with the provisions of the article of the General Regulations) which were not opened and read to the hearing of everyone during the bid-opening session for whatever reason, shall not be submitted for evaluation.
- Bid-opening minutes are recorded on the spot mentioning the admissibility of offers, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the session.
- At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by ARMP an initialled copy of the offers presented by bidders.
- In case of petition as provided for by the Public Contracts Code, it should be addressed to the Public Contracts Authority with copies being sent to the body in charge of the regulation of public contracts and the Contracting Authority.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

Article 26: CONFIDENTIAL NATURE OF THE PROCEDURE

No information relating to the examination, clarification, evaluation and comparison of offers and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders nor to any person concerned with the said procedure before the announcement of the results. Hence, any attempt by a bidder to influence the committee in charge of evaluation of bids or the Contracting Authority in his award decision may cause the rejection of his offer.

Article 27: CLARIFICATIONS ON THE BIDS AND CONTACT WITH THE CONTRACTING AUTHORITY

To ease the examination, evaluation and comparison of offers, the Chairperson of the Tenders Board may, if he desires, request any bidder to give clarifications on his offer. This request for clarification and the response given are formulated in writing but no change in the amount or content of the offer is allowed, offered or authorised, except it is necessary to confirm the correction of calculation errors discovered by the committee in charge of evaluation during the evaluation in accordance with the provisions of the General Regulations.

Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the committee in charge of evaluation for questions related to their offers, between the opening of envelopes and the award of the contract.

Article 28: DETERMINATION OF COMPLIANCE OF BIDS

An offer that conforms to the Tender File shall essentially be an offer that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:-

- i) which substantially limits the scope, quality or realisation of the works;
- ii) which substantially limits and is not in conformity with the Tender File, the rights of the Contracting Authority or the obligations of the bidder in relation to the contract; or
- iii) Whose correction would unjustly affect the competitiveness of the other bidders who presented offers that essentially conformed to the Tenders File.

If an offer is essentially not in conformity it shall be rejected by the competent Tenders Board and shall not eventually be rendered in conformity.

The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of offers

During evaluation, the committee concerned shall:-

- Carry out a detailed examination of offers to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the offers are in proper order. Hence, the committee in charge of evaluation shall:-
- Determine if the offer is essentially in conformity with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.
- Ensure that the successful bidder, because having an offer substantially in conformity with the provisions of the Tender File, fulfils the qualification criteria stipulated in Special Regulations. It is essential to avoid any arbitrariness in determining qualification.
- Verify offers considered essentially in conformity with the Tender File to correct the possible calculation errors.

Article 29: QUALIFICATION OF THE BIDDER

The committee in charge of evaluation shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: CORRECTION OF ERRORS

The committee in charge of evaluation shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. It shall correct the errors in the following manner:

- (a) Where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a **Gross Error** of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected.
- (b) If the total obtained by addition or subtraction of the totals is not exact, the sub totals shall be considered authentic and the total corrected.
- (c) Where there is a difference between the price indicated in letters and in figures, the amount in letters shall be considered authentic, unless the amount is linked to an arithmetical error confirmed by the sub-detail of the said price, in which case the amount in figures shall prevail subject to paragraphs (a) and (b) above.

The amount featuring in the offer shall be corrected by the committee in charge of evaluation, in accordance with the error correction procedure above and with confirmation by the bidder, the said amount shall be deemed to commit him.

If the bidder who presented the lowest bid refuses the correction thus carried out, his offer shall be rejected and the bid bond may be seized.

Article 31: CONVERSION INTO A SINGLE CURRENCY

In case of variation in currencies, the committee in charge of evaluation shall convert the prices of bids expressed in various currencies into those in which the bid is payable. The conversion shall be done using the selling rate fixed by the Bank of Central African States (BEAC) under the conditions defined by the Special Regulations.

Article 32: EVALUATION AND COMPARISON OF FINANCIAL BIDS

Only offers considered as being in conformity as per the provisions of the General Regulations, shall be evaluated and compared by the committee in charge of evaluation. During the evaluation of offers, the committee in charge of evaluation shall determine for each offer the evaluated amount of the offer by rectifying the amount as follows:

- a) By correcting any possible error in accordance with the provisions of the General Regulations;
- b) By excluding projected sums and where necessary provisions for the unforeseen occurrences featuring in the bill of quantities and estimates but by adding the amount of works done under State supervision where they are costed in a competitive manner as specified in the Special Regulations.
- c) By converting into a single currency the amount resulting from the rectifications (a) and (b) above, in accordance with the provisions of the General Regulations;

- d) By appropriately adjusting any other modification, divergence or quantifiable reservation on technical or financial basis.
- e) By taking into consideration the various execution time-limits proposed by the bidders, if they are authorised by the Special Regulations;
- f) If need be, in accordance with the provisions of the General Regulations (GAC) and the Special Regulations (SAC) by applying the rebates offered by the bidder for the award of more than one lot, if this invitation to tender is launched simultaneously for several lots.
- g) If need be, in accordance with the provisions of the Special Regulations and the Technical Specifications, the proposed technical variants, if they are permitted, shall be evaluated according to their own merit and independently of the fact that the bidder offered or not a price for the technical solution specified by the Contracting Authority in the Special Regulations.

If the offer judged the lowest bid is considered abnormally low or strongly unbalanced in relation to the estimates of the Contracting Authority, the Evaluation sub-committee may, from the sub-details of prices furnished by the bidder for any element or all the elements of the bill of quantities and estimates, verify if these prices are compatible with the tasks stipulated and proposed calendar. In the case where the justifications presented by the bidder are not satisfactory it may propose to the Contracting Authority to reject the offer.

As well, the estimated effect of price revision formulae featuring in the GAC and SAC applied during the period of execution of the contract shall not be considered during the evaluation of offers. Hence, the Contracting Authority reserves the right to accept or reject any modification, difference or reservation. The modifications, differences, variants or other factors which exceed the requirements of the tender file are not taken into account during the evaluation of offers.

Article 33: THE RIGHT BY THE CONTRACTING AUTHORITY TO DECLARE AN INVITATION TO TENDER UNSUCCESSFUL OR CANCEL A PROCEDURE

The Contracting Authority reserves the right to cancel a procedure of invitation to tender after the authorisation of the Minister Delegate at the Presidency in charge of Public Contracts when the bids have been opened or to declare an invitation to tender unsuccessful after the advice of the competent Tenders Board, without any claims being entertained.

Article 34: AWARD OF CONTRACT

Within three (3) days maximum as from the date of reception of the award proposal, the Contracting Authority shall decide either to publish the results or request for re-examination. **If the Contracting Authority decides to publish the results, he shall award the contract to the bidder whose bid was judged essentially in compliance with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest** by including, where necessary, proposed rebates, that is, in function of the provisions of the Special Regulations of the invitation to tender, if bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot. In this case, the lowest bid shall be determined by evaluating the offers with other lots to be awarded concurrently, by taking into account the rebates offered by the bidders in the case of more than one lot. Hence, any award of contract shall be made to the bidder fulfilling the technical and financial capacities required resulting from the evaluation criteria and presenting the bid evaluated as the lowest. This is carried out by careful study on the unit prices, the bill of quantities and cost estimates and the sub detail of prices presented to make sure the bidder did study the prices and has not made an arithmetic error to arrive at his final contract amount. As concern the procedure for the award, it shall consist of:-

- * The preparation, thorough verification and awarding of the contract according to the rules and procedures defined by the legislation in force for Public contracts to enable effective execution.
- * The winner shall be notified through his official address or public media. He/she shall in two (02) days fulfil the formalities related to the awards, especially to submit at least five (05) copies of the proposed contract to the office of the Contracting Authority for transmission to the tenders Board for

study and observations in order for the final version to be established, into which the winner shall enter and be signed by the Contracting Authority after the finance visa.

NB:

- In the case where the company does not fulfil these conditions, he/she shall be reminded of his/her chance which shall later on be simply annulled without further notice and the next bidder in the ranking shall be called in for replacement.
- Once the Contracting Authority has signed the contract (Jobbing Order), the contractor shall be notified. The contractor shall ensure that he contacts the Project Engineer as soon as possible for the beginning of execution of works within three (03) days to following notification of the Service Order to start work by the Project Owner. Failure to respect the duration shall be considered withdrawal and eventual cancellation of contract. The contract may be cancelled outright in the cases provided for by Decree N^o: 2018/366 of 20th June 2018 instituting the Public Contracts Code.

Article 35: PUBLICATION OF RESULTS OF AWARD AND PETITIONS

The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.

As well, the Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

Remarks:

- (a) After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.
- (b) After publication of the results, the draft contract subscribed by the successful bidder is submitted to the Tenders Board for examination and where applicable, to the Minister in charge of Public Contracts for prior endorsement.
- (c) In case of petition, it should be addressed to the Public Contracts Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned. **It must take place within a maximum deadline of five (5) working days after the publication of the results.**

Article 36: NOTIFICATION OF AN AWARD OF CONTRACT

Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.

Article 37: SIGNING OF THE CONTRACT

The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception of the draft contract examined by the competent Tenders Board and subscribed by the successful bidder and where applicable, the endorsement of the Minister in charge of Public Contracts. As well, the Contracting Authority must be notified the successful bidder of the signed contract within five (5) days of its date of signature.

Article 38: FINAL BOND

Within twenty (20) days from the date of notification of signed contract by the Contracting Authority, the contractor shall furnish him with a final bond, to guarantee the complete execution of the works.

REMARK:

- (a) Bid bond to be released to the Contractor upon a written request addressed to the Contracting Authority can only take place after when the contractor must have proven with attestation for having furnished the Project Owner with a final bond and/or after the start-off advance is refunded.
- (b) The final bond whose rate varies between 2 and 5 percent of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.
- (c) Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first rate financial institution approved in accordance with the instruments in force.
- (d) Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

Article 39: ADDITIONAL INFORMATION

This includes the facts that:-

- Only works and services actually earmarked and executed under the contract shall be paid to the contractor without exceeding the prescribed quantities. Payment shall be done by application of unit prices to the quantities and/or volumes of the tasks executed
- Control and follow-up operations of the project site shall be carried out by the Project Engineer (Divisional Delegate of Energy and Water Resources for Menchum) in collaboration with the Project Owner and the Delegation of Public Contracts (*Staff of the Control Brigade and other staff as the case may be*). They shall be required to give reports on the tasks executed. The Project Engineer shall prepare payments that shall be VISAED by the Divisional Delegate of Public Contracts Menchum (Final Payment) and transmitted for payment into an account opened by the contractor to this effect.
- Tasks to be executed are placed under the supervision of the Menchum Project Follow-up Committee.
- Members of the Follow-up Committee may separately visit the site at any stage of the construction works and have access to the entire document pertaining to the follow-up for proper execution of works.

THE MAYOR OF ZHOA COUNCIL

MAYOR OF ZHOA COUNCIL
(CONTRACTING AUTHORITY)
Titus Ndongkeh

DOCUMENT N° 03

SPECIAL REGULATIONS OF THE INVITATION TO TENDER

The aim of this document is to help the Projected Owners or Delegated Project Owners and/or Contracting Authority to furnish specific information corresponding to the clauses of the General Tender Regulations and which must be established for in the contract(s) arising from this invitation to tender. The following provisions which are specific to the works forming the subject of the invitation to tender should complete or where necessary, specify the provisions of the General Regulations of the invitation to tender. In case of conflict, the provisions in the following articles will prevail over those of the General Regulations.

ARTICLE 01: DEFINITION OF WORKS

The works involved in the execution of the project shall consist of a number of tasks in the **rehabilitation of existing distribution network of Zhoa, Fungom Sub Division in Menchum Division-North West Region.**

With the specifications as in the Special Technical Conditions and in the Bill of quantities and cost estimates. The Contracting Authority concerned in this invitation to tender shall be the Mayor of Zhoa Council. The reference of this tenders file is N° /ONIT/MINDDEVEL/ZC/MAYOR/ZCITB/MCH/2025 of **2025** for the **rehabilitation of existing distribution network of Zhoa, Fungom Sub Division in Menchum Division-North West Region.**

ARTICLE 02: EXECUTION DEADLINE

The execution deadline for this project shall be three months (ninety calendar days), counting in function of the date of notification of the service order to start execution. Hence, bids shall be evaluated on the basis of an execution deadline of the tasks involved between a minimum and maximum ninety calendar days. The evaluation method features in the General Regulations. The execution deadline proposed by the preferred bidder shall become the contractual execution deadline. For this reason, the provisions of this article are such that the Mayor of Zhoa Council expects net advantages of shorter execution deadline.

ARTICLE 03: SOURCE OF FINANCING

The source of funding for the project shall be the 2025 Public Investment Budget of the Republic of Cameroon imputed under the budgetary supervision of the Ministry of Energy and water resources and assigned to the Mayor of Zhoa Council.

ARTICLE 04: ORIGIN OF RESOURCES (MATERIALS, EQUIPMENT AND SUPPLIES)

The origin of resources for this project shall be in Cameroon and other countries fulfilling the criteria having legal trade conventions with Cameroon. Origin in this invitation to tender means the place from where the resource is extracted, cultivated, produced or fabricated and from where come the services.

ARTICLE 05: PRESENTATION AND CONTENT OF BIDS

Bids will consist of three envelopes A, B and C called internal envelopes put in another envelop called external envelope. The content of the three internal envelopes are as follows:-

1. ENVELOPE A-Administrative documents

Administrative documents attest that the bidder:-

- (a) Has subscribed to the declarations laid down by the laws and regulations in force.
- (b) Contributes to the development of the national economy.
- (c) Is not in a state of collapse or judicial liquidation
- (d) Is not affected by any exclusion or situation of legislation in force
- (e) Has bid bond established in conformity with the model
- (f) Has given powers to a signatory that engages the whole company.

To this effect, the bid submitted by a bidder shall comprise the following documents that shall be separated from each other by colour separators:

- A1. The declaration of intention to tender signed and stamped by the bidder or group representative with a valid Fiscal stamp of 1500 FCFA. (*see Model Form N° 01 for the format*)
- A2. A Treasury Receipt showing the payment for the tender fee of **Twenty five (25,000) FCFA**.
- A3. An attestation of a bank account in the name of the company (enterprise).
- A4. The original copy of a bid security in bidder's name (Bid bond, or Certified Bank cheque, Legal mortgage or Bank Guarantee) of Two hundred and fifty thousand **(250,000) FCFA** from a bank accredited by the Ministry of Finance and recognised by COBAC ("Commission Bancaire pour l'Afrique Central") (*see Model Form N° 04 for format*).
- A5. A certified copy of Tax payer's card (**must bear the current tax regime of the bidder**).
Project TTC. (**with tax regime same as in Tax payer's card**)
- A6. An Attestation of non indebtedness [*"Attestation de non Redevance"*] testifying that the bidder owes no taxes.
- A7. An original certificate of non-bankruptcy from the court of First Instance of the Headquarters of the enterprise (*Affidavit*).
- A8. An original current certificate from the National Social Insurance Fund (CNPS) certifying that the bidder has effectively paid his social contributions.
- A9. An original Certificate of non exclusion from the public contracts by the Regulatory Organ of Public Contracts (ARMP).
- A10. An original attestation of site visit signed by the Managing Director of the company/enterprise or a Representative duly mandated *see Model form N° 13 for format*
- A11. Certified copy each of Attestation of localisation and sketch plan of localisation of the enterprise
- A12. The Special Tender Regulations initialled and signed on the last page.
- A13. The Special Administrative clauses initialled and signed on the last page
- A14. Power of attorney where necessary
- A15. Group agreement as the case may be, that is, the agreement of association must be drawn up by a notary in case the bidder is representing a group of enterprises

2. ENVELOPE B-Technical Documents

Technical offer will contain:-

- (a) Information on the qualification of the bidder.
- (b) Methodology bearing the constituent elements of the technical proposal of the bidder such as:-
 - (i) Methodological note on the analyses of the tasks involved
 - (ii) Organization of the company towards the accomplishment of the tasks.
 - (iii) Planning on which the company depends to accomplish the tasks
- (c) Prove of acceptance of the conditions of the contract by putting visa on the administrative and technical documents such as the Special Administrative conditions ("CCAP") and the Special Technical Conditions ("CCTP")
- (d) Commentary on the technical choice of the project and eventual proposal (*as the case may be*)

To this effect, it shall contain the documents cited below placed in that order:

No	DOCUMENT	SPECIFICATION	AUTHENTICATION
B1	Equipment list	It shall show clearly the means at the disposal of the enterprise to carry out the job (<i>See Model form N° 12 for format</i>)	Attach certified copies of title deeds, vehicle registration certificate(s), receipts, etc. NB- <i>The equipments and tools must be present at the site during each phase of the execution</i>
B2	Personnel list	It shall contain: Works Supervisor: At least a Senior Rural/Civil Engineering Technician with at least 3 years' experience in Hydraulic water points construction/ maintenance.	Attach for each person a CV (<i>signed and dated by the individual</i>) as well as a certified copy of highest diploma of each person concerned. Key Personnel shall include the Works Supervisor Works Foreman.

		Foreman: Rural/Civil Engineering Technician experience with at least 5 years in Hydraulic water points construction/ maintenance.	NB-All key personnel must present commitment of availability duly signed & certified by the National Security Service (see Model Form N° 8 & N° 9 for formats)
B3	Methodology/ Organisation of works	Bids shall be assessed based on the technical understanding by the enterprise of the operations and the organisation intended for the execution of works, that is, it shall show clearly the organisation of the enterprise (methodology of execution, work schedule, site installation, supply of materials, works to be sub-contracted, the use of local manpower, HIMO etc)	Date, signature and stamp of bidder at the end of document

Amount of works, copies of (1 st and last pages) and minutes of reception or attestation of effective realisation. Include accessible telephone number(s) of beneficiary service(s) to enable verification when need arises. (see Model form N° 11 for format)
B7	Technical specifications	Provided in tender file.	Initialled on every page and signed and stamp on the last page

3. ENVELOPE C- Financial Documents

No	DOCUMENT	SPECIFICATION	AUTHENTICATION
C1	The tender letter	Format to be completed and tender amount inserted.	Signature, date and stamp of bidder. (see Model Form N° 02 for format)
C2	Unit price schedule	Sub-detail of prices proposed in the price list, that is, the price list in accordance with the model and stating prices exclusive of VAT in words and in figures	Initials on every page and signed on last page. All pages must be stamped with enterprise official stamp.
C3	Bill of Quantities and Cost Estimates	Detailed cost estimates of the works.	Initials on every page and signed on last page. All pages must be stamped with enterprise function stamp.
C4	Sub detail of unite prices	Format to be completed showing detail breakdown of prices.	Initials and stamped on every page
C5	Financial capability	Attestation of pre-financing delivered by a banking institution recognised by MINFI/COBAC	Date and signature of bank Manager in charge.

Note:

- Plans provided with tender file should not be submitted.

- The constituent documents of each envelope shall be numbered according to the order of the tender file.
- In accordance with Article 13 of the General Regulations of the Invitation to Tender, a Bidder may indicate a rebate (discount) on his financial offer provided the phrasing of the rebate does not go against the stipulation of any Public Contracts Regulation.

ARTICLE 06: SUBMISSION OF BIDS (OFFERS)

Each offer written in English or French shall be signed by the bidder or by a duly authorized Representative and presented in seven (7) copies that is **one (01) original and six (06) copies** labelled as such. These shall be submitted in one external sealed envelope containing three (3) envelopes, that is, Envelope A: Administrative Documents, Envelope B: Technical document and Envelope C: Financial document. It shall reach the Zhoa Council, Service in charge of contracts award *in the Zhoa Council* not later than ----- 2025 at 12amm local time. The sealed external envelope shall be free of all identification marks, failing which it shall be rejected.

The sealed external envelope addressed to the Contracting Authority shall bear the following inscriptions:

OPEN NATIONAL INVITATION TO TENDER
N° 03/ONIT/MINDDEVEL/ZC/MAYOR/ZCITB/MCH/2025 OF 29/01 2025 FOR THE
REHABILITATION OF EXISTING DISTRIBUTION NETWORK OF ZHOA WATER,
FUNGOM SUB-DIVISION IN MENCHUM DIVISION NORTH WEST.

(To be opened only during the bids opening session of the Tenders Board)

ARTICLE 07: ADMISSIBILITY OF BIDS:

Under pain of rejection, administrative documents must be produced in originals or true copies certified by the issuing services of the required administrative documents (*Examples: Taxation Officials, Bank Officials, etc.*) or by Administrative Authorities and must imperatively be produced in accordance with the Special Tender Regulations. They must obligatorily not be older than three (03) months or must not be produced after the signing of the tender file. Double certification shall not be accepted. Any bid that shall not be in conformity with the prescriptions of this notice and tender file shall be declared inadmissible (null and void), especially offers containing a bid bond not issued by a first rate bank approved by the Ministry in charge of Finance.

The bid bond which shall only be released by the Contracting Authority will be released no later than thirty (30) days after the period of bid validity for unsuccessful bidders. For the contractor (bidder to whom the contract is awarded), the bid bond shall be returned to the contractor by the Contracting Authority once the final bond has been provided and the corresponding amount refunded by the Bank upon presentation of the original bid bond.

Bidders shall remain committed to their offers for a period of ninety (90) days from the last date of for the submission of tenders, that is, the tenders shall be valid for ninety (90) days with effect from their submission deadline.

NB: The contractor shall during site installation, present the originals of the respective certified documents for strict verification of their authenticity.

ARTICLE 08: OPENING OF BIDS(OFFERS):

Bids shall be opened by the Zhoa council Internal Tenders Board in a single phase in that order on the ----- 2025 at 1pm local time in the hall at the Zhoa Council. Only bidders or their authorized representatives having a perfect knowledge of the file may attend the bid opening session. Note should be taken that in case of any ambiguities or differences during opening, only the original shall be considered authentic, that is, any bid which shall not comply with the requirements of the tender file shall be rejected.

ARTICLE 09: EVALUATION CRITERIA

They include:-

Presentation of bids shall be subject to verification for compliance of administrative, technical and financial documents pertaining thereto shall be rejected. The following criteria fix the minimum conditions to fulfill to be admitted for evaluation of bids according to the essential criteria. The non respect of these criteria shall lead to the rejection of the bidder's bid.

- Offers (bids) submitted after the deadline or time limit shall be rejected;
- Bids submitted in unsealed external envelopes shall be rejected.
- External envelopes with identification marks or inscriptions which may lead to the identification of the said company shall be rejected.
- Absence of original or properly certified administrative document or documents certified more than one time shall be given 48 hours to replace it.
- False declaration or forged documents shall be given 48 hours to replace them;
- Absence of bid bond, or Certified cheque, Bank cheque, Legal mortgage or Bank Guarantee or bid bond not issued directly in bidder's name by a first rate bank approved by the Ministry in charge of Finance the bidder shall simply be rejected.

NB: Bid bond or any bid security for a group of enterprises must bear the name of mandated enterprise with the names of the other enterprises mentioned as well.

- Execution period longer than prescribed in the Tender file
- Technical evaluation mark less than 75 % (*non-respect of 75 % of the essential criteria*);
- Absence of quantified unit price (*omission of a unit price in the financial bid*).

N.B: All documents shall be originals as requested or certified true copies legalised by competent authorities or by authorities who issued the originals.

(b) Essential criteria

They are primordial or key modalities in the judgment of the technical and financial capacity of candidates to execute the tasks forming the subject of the invitation to tender. They were determined in relation to the nature and content of the tasks to be executed. Hence in the evaluation of:-

- (i) Technical documents, the evaluation shall be binary (YES or NO) on the level of fulfilment of the criteria based on the following distribution of points:

CRITERIA	POINTS
GENERAL PRESENTATION OF THE BIDS	06
EXPERIENCE OF THE COMPANY	07
QUALITY OF PERSONNEL AND MANAGEMENT OF THE COMPANY	11
TECHNICAL EQUIPMENT	05
METHODOLOGY FOR THE EXECUTION OF WORKS	07
TOTAL	36

NB:

- Any Bid that shall not obtain 75% evaluation in the technical documents shall simply be rejected.
- Details of these main qualification criteria are specified in the evaluation grid found in the Special Tender Regulations (RPAO).

-See Model form N° 15 for evaluation grid

The essential criteria are as in the table below:-

GENERAL PRESENTATION OF THE BIDS	<ul style="list-style-type: none"> - Table of content - Quality of the binding (<i>spiral binding with transparent fly-leaf on front cover recommended</i>) - Availability of colour separators - Presentation of all documents in same order as in the Tender File - Clarity of the documents with pages numbered - Special Technical conditions visaed and last pages signed
	<ul style="list-style-type: none"> - List of contracts realised successfully in similar domain within the last 5years

<p>EXPERIENCE OF THE CONTRACTOR</p> <p><i>See Model form N° 11 for format</i></p>	<ul style="list-style-type: none"> - Copies (first and last pages) of at least 1 of the contracts (<i>Jobbing Orders</i>) <i>That is, Bidder's experience with similar works.</i>
<p>QUALITY OF PERSONNEL AND MANAGEMENT OF THE COMPANY</p> <p>NB- All key personnel must present commitments of availability duly signed & certified by the personnel concerned <i>See Model forms N° 8 & Form N° 9 for format</i></p>	<ul style="list-style-type: none"> - List of personnel deployed to the project with works Supervisor being at least a Senior Civil/Rural Engineering Technician with at least 3 years' experience in construction and Foreman being at least a Civil/Rural Engineering Technician experience with at least 5 years' in construction. - Certified copies of certificate(s) or diplomas of at least the key personnel (Supervisor and Foreman) relevant to the works concerned - Curriculum Vitae (CV) of the above personnel signed and dated by the individuals respectively (<i>see Model form N° 10 for format</i>). - Commitment forms of Supervisor and Foreman (<i>see Model form N° 09 for format</i>). - Company's organizational chart - Project's organizational chart <p><i>That is, Qualification, skills and professional experience of key personnel relevant to the works.</i></p>
<p>TECHNICAL EQUIPMENT AND TOOLS</p> <p>NB- <i>These equipments and tools must be present at the site before and during each phase</i> <i>See Model form N° 12 for format</i></p>	<ul style="list-style-type: none"> - The list of equipment to be used in the execution of the project containing least a dump truck and a pickup - List of tools to be used in the execution of the project - Proof of ownership for the equipment and tools, i.e. registration certificates or performance invoices for equipment that are to be hired and purchase receipts for tools. - Description of equipment (giving mark, registration ,etc) - Evidence of normal functioning of equipment - A statement of present location of equipment <p><i>That is, Compliance with technical specifications of the tender file as well as equipments and tools vital for the execution of the works.</i></p>
<p>METHODOLOGY FOR THE EXECUTION OF WORKS</p>	<ul style="list-style-type: none"> - The planning (schedule of the execution of works) - Description of the organization of worksite and methods of execution of works with technical details - The duration for the execution of the works - Security measures on site - Environmental protection - Site visit report (<i>see Model form N° 14 for format</i>). - Appropriate technical specifications <p><i>That is, Methodological approach and relevance of proposed solutions as well as work planning and schedule.</i></p>

(ii) Financial Offer, it shall consist of going through the bill of quantities in reference to the unit price schedule and the sub detail of unit prices.

ARTICLE 10: VALIDITY OF OFFERS:

Bidders shall remain committed to their offers for ninety (90) days from the deadline set for the submission of tenders (offers).

ARTICLE 11: AWARD OF THE CONTRACT:

The contract shall be awarded to the lowest bidder who must have fulfilled the administrative, technical and financial requirements.

ARTICLE 12: COMPLEMENTARY INFORMATION:

Additional information may be obtained during working hours from the service for the Contracts Award at the Zhao Awa Council.

ARTICLE 13: AMENDMENT TO THE INVITATION TO TENDER:

The Contracting Authority may at any time, amend this invitation to tender. Delays caused by such amendments shall also be considered in the period given to bidders to submit their bids.

- Order N° 038 CAB/PM of 15th May 2014 putting in force model tender files for the award of public contracts.
- Circular letter N° 00004077/LC/MINMAP/CAB of 23rd July 2014 bearing modalities for the constitution of certain files submitted for signature and certain directives and instructing that Contracting Authorities get copies of bids as soon as opening takes place.
- Circular No. 00013995/C/MINFI of 31st December 2024 bearing instructions relating to the execution of Finance Laws, the Monitoring and Control of the execution of the Budget of the State, Administrative Public Establishments, Regional and Local Authorities for the 2022 financial year.
- Norms in force in the Republic of Cameroon;
- Other texts specific to contracting fields.

Article 7: DEFINITIONS OF DUTIES

For the implementation of the provisions of this invitation to tender:

1. **The Contracting Authority** is the Mayor of Zhoa Council who shall be the Signatory Authority of the contract arising from this invitation to tender. He shall be responsible for the conservation of the originals of the Jobbing Order and the transmission of copies to ARMP through the focal point designated to that effect.
2. **The Project Owner**, that is, the Mayor of Zhoa Council who shall take part in the award and follow-up of the execution of the project in collaboration with the Project Engineer and the Control Service at the Divisional Delegation of Public Contracts for Menchum.
3. **The Authorizing Officer**, that is, the Mayor of Zhoa Council who shall address to the Divisional Delegate of Public Contracts for Menchum, periodic reports on the partial payments made, if any. These reports shall present the state of the advancement of works, the financial situation (payment of the deductions) as well as the difficulties met during the execution of works.
4. **The Contract Manager**, that is, the Council Development Officer, Zhoa Council who shall in collaboration with the Project Engineer approve the execution program submitted by the Contractor and ensure the technical specifications are respected during the execution and submit in maximum every two weeks, reports to the Contracting Authority through the Project Engineer.
5. **The Project Engineer** is the Divisional Delegate of Energy and Water Resources for Menchum who shall be in charge of approbation of execution documents, supervising and controlling the technical execution of the works. He shall as well ensure he plays his roles spelled out in Article 26 of these Administrative Conditions and prepare documents for payments.
6. **The Control Brigade** shall be that of the Divisional Delegation of Public Contracts for Menchum. It shall carry out routine control of the execution of the specifications of the contract(s) as per its attributions and channel technical advices to the contractor through the Project Engineer and Project Owner. It shall within a maximum of seventy two (72) hours forward to the Contracting Authority a report of each control mission carried out.

Article 8: REPRESENTATIVE OF THE CONTRACTOR

- 8.1-Within fifteen (15) days that follow the date of notification of the service order to begin work, the contractor shall confirm the site foreman who shall have the right of representation and

sufficient authority to direct the site. Signed by the contractor, this confirmation shall be addressed by letter to the Project Engineer copying the Contracting Authority. Within 8 days, the confirmation shall be considered approved if the Contracting Authority does not give objection to it.

- 8.2- For the execution of the present invitation to tender, the contractor "elects Residence in the Sub Divisional Headquarters of Zhoa Sub-Division". In case of change of domiciliation without informing the administration, all notifications destined to the contractor shall be addressed care of (c/o) the Divisional Office of Zhoa Sub-Division of execution of the project.

That is, within ten (10) calendar days following notification of the service order, the contractor shall be bound to ensure the foreman who shall have sufficient powers for representation and decision to lead the works is permanent on site. Information on the presence of the foreman on site shall be addressed by letter to the Project Engineer.

Article 9: CONTENT OF TASKS TO BE EXECUTED

The tasks which form the subject of this invitation to tender are spelt out in the Special Technical Conditions.

Article 10: SERVICE ORDER/NOTIFICATION AND CORRESPONDENCES

Service Order

Exception of Service Orders patterning to warnings and remedial actions during the guarantee period, other services shall be signed by the Contracting Authority in at least five (05) copies and notified to start works by the Project Owner relating to the normal execution period of works. The Project Owner shall transmit copies of the notified Service Order to the Contractor, Contracting Authority, Project Engineer and the Public Contracts Regulatory Organ.

REMARK: The Contracting Authority shall have the right to notify service orders signed by him that are to be notified by the project owner in case this is not done within 30days.

Within fifteen (15) days following the notification of the administrative service order to commence works, the contractor should obligatorily designate on the approval of the Project engineer the works director, the works foreman endowed with powers of representation and decision to manage the site. Any modification of the technical bid can only take place after a written approval to the Project engineer.

Hence, Service Orders on warning notices will be signed by the Project Owner and transmitted to the contractor with copies to the Contracting Authority and the Project Engineer while those on remedial actions during the guarantee period shall be signed by the Project Engineer with copies addressed to the Contracting Authority and Project Owner. Any of such Service Order shall only take effect when the Contractor acknowledges having received.

Correspondences

All communication between the any parties (Contracting Authority, Project Owner, Contractor, Contract Engineer, Project Manager, etc) relating to the execution of the contract shall be exclusively by writing. They shall be sent by mail, telegrams, telex, fax, e-mails submitted against acknowledgement of receipt at the appropriate addresses indicated by the parties to this effect. It shall hence be prohibited any communication between the contracting authority and the contractor relating to the execution of the work which is not confirmed in writing

The contractor will address all written notifications or correspondences to the Project Engineer with copies addressed to the Contracting Authority and Project Owner/Authorizing Officer.

NB:-The contractor has ten (10) days within which to give observations on all Service Orders received.

The fact of giving out some reservations does not free the company from executing the Service Orders received.

Article 11: KNOWLEDGE OF THE SITE, GENERAL CONDITIONS OF TASKS AND RESIDENCE OF THE CONTRACTOR

The contractor (entrepreneur) in order to make concrete performance proposals shall be expected to have at his expense visited and acquainted himself with the project site, the effective tasks to be accomplished and the surroundings so as to have adequate knowledge of all its features, the nature of tasks to be executed, the type of materials to be supplied, ways and means of access to the site, the necessary facilities, and also the following:-

- The general conditions of execution of tasks and in particular the specific needs.
- The proper physical conditions of the project site (the nature of soil, the nature and quantity of materials met on the surface or likely to be met underground, etc).
- The local, normal and exceptional meteorological and seismic conditions: their consequences (water erosion, the possibilities of flooding and the position of the water table).
- The local conditions, particularly those of supplying and storage of the materials.
- The means of communication, transportation, and the supply of water and electricity.
- The possibility of sufficiently providing the qualified manpower.
- All constraints resulting from the social legislation, the fiscal and customs regime applicable to him.
- The possible presence of nearby enterprises also executing distinct contracts.
- The obligation to conform himself to the hygienic and security plans as well as to the yard regulation and to the staff's security and discipline.

The contractor shall within fifteen (15) days from the date of notification of the service order to start execution be bound to take up residence close to the work site. Failure to comply with this obligation or to indicate his new place of residence by writing to the Project Engineer, any notification addressed to his company shall be validly done in the office of the Mayor of Zhao Council in Zhao Sub-Division where the project is being executed.

Conclusion-The contractor must obtain all information concerning the risks and the circumstances likely to influence the conditions of execution of works or their prices. To this effect, he shall not be able to take advantage of any mistake, omission or imprecision contained in the clauses of the Jobbing Order at his own cost. He will regularize if the case arises, the damages without intervention of the administration.

Field inspection of the installations of preliminary works like the information to be posted on site, fencing of the site, etc and installation of the contractor with his/her personnel shall within fifteen (15) days from the date of notification of the service order to start execution be carried out by Commission comprising of:

- The Project Owner----- Chairperson
- The Project (Contract) Engineer----- Secretary
- The Contracting Authority (CA) or his Representative----- Member
- The Contractor ----- Member
- The CDO of the CouncilMember
- The stores accountantMember
- A Representative of MINEPAT----- Member
- A Representative of MINMAP----- Observer
- The village Chief or RepresentativeObserver, if need be

Remark: *-An installation report shall be prepared by the Project Engineer on the site and signed by at least 2/3 commission members on site as well.*

-If within fifteen (15) days from the date of notification of the service order to start execution site installation is not carried out, the Contractor shall pay penalties of 1/5000th the cost of the contract (ATI).

-In no circumstance shall the cost of installation be more than 10% the cost of the initial contract.

-In no circumstance shall the installation material paid for site installation be taken away by the Contractor at the end of execution. The installation material shall become the property of the Beneficiary Administration because the material has been paid for in the cost estimate contain the contract.

CHAPTER II: EXECUTION OF THE TASKS

Article 12: CONSISTENCY OF THE WORKS, TIME-LIMITS FOR EXECUTION/TIME-LIMITS FOR MOBILIZATION

The tasks that form the subject of the present invitation to tender consist of all works foreseen in the bill of quantities estimated for the **rehabilitation of existing distribution network of Zhao, Fungom Sub Division in Menchum Division-North West Region.**

Time-limits for execution covers:

- Transfer of networks and traffic maintenance.
- Supply of materials;
- Realization of tasks;

Under no circumstances shall the duration for execution exceed **ninety (90) calendar days** except in the situation of Force Majeure. Since a contract whose execution duration is maximum one (01) year can not undergo price revision, price revision shall not be tolerated during the execution of this project.

Time-limits for mobilization shall run as from the date of reception of the service order to start work. Within this time, the contractor shall not modify any of his unit prices. A copy of the service order shall be forwarded to the Contracting Authority, signatory of the contract.

Article 13: OBLIGATION OF THE CONTRACTING AUTHORITY

The Contracting Authority (CA) shall take all necessary measures to facilitate the execution by ensuring that the contractor submit two (02) original copies of the registered contract and three (03) photocopies of the registered contract within a maximum duration of thirty seven (37) days as from the date of notification of the contract otherwise he/she (the contractor) will be sanctioned. The copies will be distributed as follow:-

- One original copy to the office of the Contracting Authority
- One original copy to the office of the Regulatory Organ (*copy to be given to the CA*)
- One photocopy to the office of the Control Brigade, D.D. MINMAP Menchum (*copy to be given to the CA*)
- One photocopy to the Divisional Delegation, MINEPAT Menchum (*copy to be given to the CA and*
- One photocopy to the office of the Chief of Contracts Award (*copy to be given to the CA*)

Article 14: ROLE AND RESPONSIBILITY OF THE CONTRACTOR(ENTREPRENEUR)

The contractor shall provide to the Contracting Authority two (02) original copies of the registered contract and three (03) photocopies of the registered contract to be distributed as stipulated in Article 13 above and submit a copy each of an original copy to the Project Engineer and Project Owner. The contractor has as mission to assure the execution of tasks under the control of a Project Engineer and in accordance with the rules and norms in force. Hence, the contractor is responsible with regard to the administration, for the organization and the conduct of the site, the quality of the materials and supplies used by him, their perfect adaptation to the needs of the site and the good execution of tasks. Tasks will be executed in accordance with the plans and technical specifications, that is, according to the rules of the art. To this effect, the contractor shall take all measures to provide all necessary means to hire competent staff.

Hence:

*He shall within the thirty(30) days from date of notification of the service order to start work, submit to the Chief of Service of the Contract for approval an execution program otherwise he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness. These penalties shall equally be applied in case of delays after the deadline attributed for corrections to be made on the execution program. As well, these penalties shall be applied on any stakeholder who delays the process of approving the execution program submitted or who carries out abusive rejects of the execution program; In no circumstance shall the execution program be rejected more than two (02) times.

*He shall fulfil his fiscal duties to the staff deployed for the execution of the tasks and shall put in place an installation and ensure the organization of the site, thereby guaranteeing the security of supplies and people on the site;

* He shall be held responsible therefore for any damage that may occur on the material and people on the site because of his works until the end of the period of guarantee;

*The contractor shall be held fully responsible for accidents and damages of all nature that may occur to his staff, third parties, agents of the Project engineer, his material for the realization of the contract arising from this present invitation to tender, during the execution of the tasks;

*He has the obligation to put back to its original state the surrounding environment damaged during the execution of the project;

NB:

-The contractor remains responsible for the totality of the site including interventions of his accepted Sub-Contractors. It is his responsibility to assure the coordination of the activities of the suppliers, of the Sub-Contractors whose contribution is necessary to him for the different working groups on site.

-Regular site meetings shall be held at the initiative of the Project engineer. The participation of the site Foreman at site meetings shall be obligatory. To this effect, the contractor shall keep a site register that shall be available to the project engineer and contractor's representatives.

-The contractor shall put in place all human and material resources necessary for the execution of works within the prescribed time-limits.

Article 15: INSURANCE AND PROTECTION OF THE SITES

Civil liability

The contractor shall prove that he has taken out an insurance policy for damages of all sorts caused to third parties

- by his personnel,
- by the equipment used;
- Surrounding properties.

Comprehensive risks insurance

In addition, all the works under the project shall be covered by a comprehensive risks insurance issued to the contractor by a company approved by the competent authority.

Within fifteen (15) days as from the date of notification of the contract before the start of execution of works, the contractor shall present to the project owner for approval and reporting to the Contracting Authority an attestation from an insurance company attesting to the full payment of premiums and contributions relating to this invitation to tender otherwise all execution activities will be suspended without suspending the execution deadline. After two months from the date of notification of the contract the Contractor has not complied, the contract may be terminated.

Protection of the site

The contractor shall be bound to ensure protection and safe-guarding of his construction site. He shall make sure that the populations stay away from the site, notably by demarcating the site clearly. He shall be held responsible for any accident that may occur on the sites and affecting the populations.

Ten-year guarantee

It shall be managed by the Civil Code.

Article 16: PLANNING OF WORKS AND SUB-CONTRACTING

Within ten days from the date of notification of the service order to begin works, the contractor shall submit to the Project Engineer the program of works (planning) in five copies for approval. The contractor shall constantly update the planning of works, considering the advancement on site. Any important modifications to this program will only be applied after having received the project engineer's prior agreement. It shall be established every month end at the contractor's diligence and at his expenses, the state of advancement of works to be sent to the administration in seven copies.

The contractor may assign execution of part of the contract to one or several sub-contractors provided he mentioned it clearly in his bids in terms of qualifications, references of the Sub Contractor envisaged and percentage of the initial contract amount and its additional clauses to be sub contracted. All subcontracting to a third party for the execution of a part of the works foreseen in the contract arising from this invitation to tender shall be subordinated to the prior authorization of the Contracting Authority at a maximum of 30% of the initial contract amount and its additional clauses. This authorization shall not free the contractor from any of his contractual obligations. The contractor shall see to it that the sub-contractor is in order with Cameroon's Administration. Sub-contractors shall fulfil the same conditions as the main contractor. Non-compliance with the above provisions shall give rise to termination of the contract. Sub-contractors shall fulfil the same technical and financial conditions with the contractor. They shall execute the works under the sole and full responsibility of the main contractor

Whatever the case, before the Contracting Authority, the contractor shall remain solely responsible for the discharge of the contract as per the contractual obligations.

Remark: Penalties of 1/5000th the initial contract amount shall be applied on any stakeholder who delays from seven (07) days and above the process required to validate the subcontracting.

Article 17: CONSTRUCTION DRAWINGS AND DOCUMENTS

Detailed drawings and other documents necessary for the execution of works shall be down up by the contractor based on the documents of the tender file.

These drawings shall be submitted to the Contracting Authority at least ten (10) days before the start of any work. Designs shall be checked and completed, if necessary, by the contractor who shall then give them to the Contracting Authority at least eight (08) days before the start of works. Within seven (07) days, the Contracting Authority shall make his remarks and observations known to the contractor. After this deadline, the Contracting Authority shall be considered as having given his approval.

The approval of the Contracting Authority shall in no way reduce the responsibility of the Project Engineer for designing and executing the works.

Before the provisional acceptance, the contractor shall furnish to the Project Engineer three (03) copies of the working plans for the works actually done including a clear original copy.

That is, plans of details and other necessary documents for the execution of works will be established by the contractor on the basis of the technical file. Before the final reception, the contractor will hand to the project engineer three (03) copies of the plans of works really executed ("plan de récolement") called as-built-plan with one clear original.

Article 18: EQUIPMENT AND PERSONNEL FOR THE PROJECT

The contractor shall undertake to mobilize the human and material resources necessary for satisfactory execution of works as required by the Special Administrative and Technical Conditions.

Any amendments to this invitation to tender shall be subject to the prior written approval of the Contracting Authority. In case of any replacement of personnel, the contractor shall replace personnel with personnel of at least equal competence (qualifications and experience) or in case of equipment, with of equal performance and in good working condition.

Whatever the case and except in case of force majeure, the contractor shall not replace more than fifty percent (50%) of his personnel without being liable to the procedure for termination of the contract.

If the Project Engineer requests for the replacement of a worker for serious misconduct duly recorded by both parties, the contractor shall immediately replace the said worker at his own expense.

Article 19: REPLACEMENT OF KEY PERSONNEL

The Chief of Service of the Contract shall in collaboration with the Project Engineer verify and be sure that the key personnel (supervisory staff) on the execution site are those mentioned in the bids of the contractor and in case of replacement, the qualities of the personnel proposed shall at least be equal to that of the staff replaced in terms of qualification, experience and competence otherwise such replacement shall attract penalties of 1/5000th the cost of the contract (ATI) independently of the procedure for validation of the new personnel. The unit price of the new personnel shall be more by 25% that of the initial price. However, in case of any accident or illness, the contractor shall immediately replace the personnel in question without delay and inform the Project Engineer, Project Owner and Contracting Authority through the Chief of Service of the contract. The charges emanating from such replacement shall be born by the contractor and shall not interrupt execution. Hence, the above penalties shall not apply for situations of force majeure such as incapacitation of personnel due to accident and death of personnel or in a situation duly recognized by the procedure spelled out in Article 50 of these Administrative Conditions.

Article 20: MODIFICATION TO STRUCTURES

During execution, the Contracting Authority shall reserve the right to bring any changes, suppressions and additions to the structure as well as possible suppressions of some works without financial incidence necessary for the proper execution and successful outcome of works. However, this shall be the subject of additional clauses and shall not entitle the contractor to claim compensations or indemnity whatsoever, apart from those provided for in the Special Administrative Conditions.

Article 21: MATERIALS

The contractor shall, at his own expense, look for extraction sites of materials necessary for the execution of works if it is incumbent on him to supply materials.

The materials shall comply with the Special Technical Conditions. They shall be subject to tests and trials that the Project Engineer may prescribe in accordance with the specifications of the contract.

The contractor's means of control, put in place by him at his own expense, shall enable him to carry out the extraction, preparation or production on site, as well as on the construction site, to ensure constant, regular and permanent control.

Article 22: DEMOLITION OF FAULTY STRUCTURES AND UNAPPROVED MATERIALS

The Project Engineer shall have the right to order in writing:

- 1) Removal from the site within forty-eight (48) hours of all materials considered non-compliant with the specifications of the contract and their replacement by the right materials approved following laboratory tests.
- 2) Proper demolition and reconstruction of any structure or part of structure considered non-compliance with the requirements of the contract, with regard to the mode of execution as well as

the materials used. The control engineer shall issue a compliance certificate to the contractor after complaining.

In case of non-compliance, expenses shall be charged to the contractor.

Article 23: RIGHTS AND PATENTS

The contractor shall, if necessary, agree with owners or holders of patents whose processes he has applied or intend to apply. He shall pay the required royalties and protect the Contracting Authority against any legal proceedings in the matter.

Article 24: WORK PHASES

The contractor shall respect the breakdown of works into various phases as spelt out in his bid so as to make control easy and meet the duration stated in his work plan.

Article 25: ACCESS TO THE SITE

The Project Engineer and any other person authorized by him may, at any time, have access to works, on the site, to workshops and any work place, as well as any place where the materials, manufactured products and tools used for works come from.

Moreover, as part of the duty of checking the effectiveness of works, duly mandated representatives of bodies in charge of payment shall have access to the site and to any information necessary for the achievement of this mission.

Article 26: DUTIES OF THE PROJECT ENGINEER

The duty of the Project Engineer is to ensure that works are executed properly and in accordance with the terms and conditions of the contract. The Project Engineer shall not relieve the contractor of any of his obligations under the contract or order any task that may delay the execution of works or lead to additional payment by the Contracting Authority or order any significant modification to the structure to be constructed. The Project engineer shall have the power to prepare and sign orders for technical services.

At the request of the Contractor and Project Engineer, counter-records may be drawn up to fix quantities for some structures. Such records shall be needed in case a structure may not be measured again.

The Project Engineer shall have the following duties:

- Ensure in collaboration with the Chief of Service of the contract, the approbation of execution documents within seven (07) days otherwise Administrative Sanctions as per the regulations in force shall be applied on him;
- Controlling works on the site to ensure that they are advancing in accordance with the agreed schedule of execution;
- Controlling and approving execution plans, drawings and designs;
- Cross-checking and approving the implantation of works, as each implantation shall be subject to an approval report signed by the Contracting Authority and the contractor;
- Controlling and approving origin of materials and compliance with the terms and conditions of the contract;
- Making a daily statement on works and supplies presented by the contractor;
- Controlling the detailed accounts and provisional monthly statements on works submitted by the contractor;
- Proposing solutions or specifications about works underway to the foreman or contractor;
- Making proposals for preparation of provisional or final acceptance to the Contracting Authority at the request of the contractor;

Article 27: PROJECT SITE MEETINGS

Project site meetings shall hold on regular basis at the initiative of the Project Engineer. Since it shall be a works contract, project site meeting shall take place every week during which the report of each meeting shall be signed on the site by the participants who shall each have right to a copy. A copy of the report shall be forwarded to the Project Owner for appraisal and intervention on points not resolved, susceptible to perturbate the smooth running of the operations. The contractor shall be bound to attend these meetings. Refusal to transmit the report shall attract penalties of 1/5000th per report, the cost of the contract of the Project Engineer as the case may be.

Article 28: SITE RECORD

A project record shall be kept by the contractor and put at the disposal of the Project Engineer or contractor's representative.

On a daily basis, entering in this record it shall include the following details:

- Administrative procedures relating to the execution and settlement of the contract (notifications, trial results, daily statements);
- Weather conditions;
- Receipts of materials and authorizations of all sorts;
- Incidents or details of all sorts having some interest with regard to the future handling of the structures or the actual duration of works;
- Works done during the day, the personnel and material used;
- Works progress;
- Required prescriptions;
- Detailed quantities of works;
- Works done by sub-contractors;
- Non-compliances;
- Official visits.

The contractor may also record incidents or remarks that are likely to give rise to complaint on his part.

This record shall be countersigned by the Project Engineer and the foreman following each visit to the site, and visaed after each project meetings. For any claim that the contractor may make, only events or documents mentioned in due time in the project record shall be taken into consideration. Any refusal to present, or any attempt to destroy all or part of this journal or to forge it, shall give rise to sanctions. Whatever the case, the contractor shall not take advantage of the impossibility to consult the project record.

Article 29: PUTTING THE SITE AT THE DISPOSAL OF THE CONTRACTOR

All the provisional structures necessary for the execution of works such as offices, garage, workshops, and accommodations for personnel, quarries, borrow pits and paths shall be constructed only on premises approved by the Project Engineer in agreement with the administrative and traditional authorities of the locality.

Within the limits of their powers, the administrative or traditional authorities of the locality shall put at the disposal of the contractor, free of charge and for the duration of works, the State private or public property necessary for the project. State property put at the disposal of the contractor shall be cleaned at the end of works.

Article 30: SECURITY MEASURES

The contractor shall have the duty to supply and maintain, at his own expense, any lighting, security, fence and guarding device necessary for a proper execution of works as demanded by the project Engineer

Article 31: ENVIRONMENTAL PROTECTION

The contractor shall be bound to comply with instruments governing environmental protection in the Republic of Cameroon and notably Framework Law No. 096/12 of 05 August 1996 on Environmental Management.

He shall particularly comply with the Special Technical Conditions relating to environmental protection.

Article 32: CLEANING OF THE SITE

Cleaning of the site includes disposal of structures, equipment, materials and debris. It shall be performed within thirty (30) days as from the date of acceptance, that is, before signing the payment documents ("décompte") or latest before approval of the general and final statement of works.

Article 33: OPERATIONS REQUIRED BEFORE ACCEPTANCE

The Contractor shall request in writing to the Project Engineer, the organization of a technical visit (*pre-technical acceptance*) before technical acceptance. The visit shall include, among others, the following operations:

- Controlling the quality and quantity of the structures constructed;
- Carrying out trials provided for by the Special technical conditions;
- Recording the possible non-execution of works provided for under the contract;
- Recording the folding up of the installations and cleaning of the project site;
- Recording the completion of works;
- Recording the quantities of works actually executed.

During this pre-technical acceptance, the Project Engineer may identify reserves and recommend tasks to be accomplished before the date of technical acceptance. The Contractor shall request for technical acceptance by writing to the Project Engineer with copy to the Contracting Authority. The agreed date shall be communicated to the other technical committee members. The commission for technical acceptance shall be composed of:-

- A Representative of the Project Owner ----- Chairperson
- The Project Engineer Secretary
- A Representative of the Contracting Authority Member
- The Contractor Member
- The Representative of MINMAP Menchum Observer

Remark: *The technical acceptance report shall be prepared by the Project Engineer on the site and signed by 2/3 commission members on site as well. Technical acceptance shall mark the end of execution of works. Hence, if the Contractor was already within the penalty zone, counts of calendar days overrun shall stop on the day of technical acceptance. In case of delay of technical acceptance caused by one or more members of the commission, the date that was agreed upon and communicated to all members shall mark the end of counts of calendar days overrun.*

Article 34: PROVISIONAL ACCEPTANCE

After technical acceptance, the Contractor shall request for acceptance by writing to the Project Owner with copies to Project Engineer and Contracting Authority. It shall be recommended to the Project Owner by the Project Engineer and the date for it shall be agreed upon based on confirmation from the Contractor. The Project Owner shall then invite members of acceptance committee made up of:

- The Project Owner or Representative----- Chairperson

- The Project Engineer..... Secretary
- The Contracting Authority or his Representative Member
- The Chief of Service for the Contract..... Member
- The Contract Manager Member
- The stores accountant Member
- The Contractor..... Member
- The Representative of MINMAP Menchum Observer

- The Village Chief or Representative Observer, *if need be*

During acceptance, the committee shall examine the reports of the pre-technical and technical acceptances and carry on the acceptance if appropriate. The Secretary of the committee shall draw up a report which may declare either of the following:

- Refusal of acceptance of works;
- Acceptance of works with reserve;
- Acceptance of works without reserve.

Remark: *A reception report shall be prepared by the Project Engineer on the site and signed by 2/3 commission members on site as well.*

NB: 2/3 above mentioned committee members are present, Acceptance will take place.

Article 35: PERIOD OF GUARANTEE

This period shall last for twelve (12) months as from the date of provisional acceptance. The period of guarantee concerns works relating to the structure and exhaust equipment that may be installed.

Article 36: MAINTENANCE DURING THE PERIOD OF GUARANTEE

During the period of guarantee, the Contractor shall carry out periodic visits (*maximum every three months*) and carry out at his expense repairs in due time of any disorder that may occur as a result of defects in the structure. Hence, before the Contracting Authority, the contractor shall be responsible for any disorder that may occur to the structure, except those resulting from fair wear and tear, even those which have not been recorded by the Project Engineer. The contractor shall within twenty (20) days from date of information carry out the repairs identified by the Project Engineer and/or Project Owner. After this deadline, the Project Engineer shall have the right to have the repairs carried out at the contractor's expense.

Article 37: FINAL ACCEPTANCE

After visiting the site, the acceptance committee shall examine the report of provisional acceptance and carry on the final acceptance if appropriate. The final acceptance shall give rise to an acceptance report signed on the spot by all the parties.

The Committee shall be made up the same personalities as in case for provisional acceptance

During final acceptance, the Secretary of the committee shall draw up a report which may declare either of the following:

- Refusal of acceptance of works because of reserves identified;
- Acceptance of works without reserve.
- In case of refusal, a time limit shall be given by the committee, during which the contractor shall accomplish the reserves and request the Project Engineer to off-lift of the reserves for a new acceptance to be carried out.

Remark: *An acceptance report shall be prepared by the Project engineer on the site and signed by at least 2/3 the members on site as well.*

Article 38: LAWS GOVERNING LABOUR

The contractor shall abide by the laws governing labour in the Republic of Cameroon and as well in its own organization in the implementation of the contract. As far as possible, he shall give pride of place to Cameroonians during recruitments. If in Cameroon, these laws, regulations, administrative and fiscal obligations in force are changed after the signature of the contract, the eventual costs will be borne by the contracting parties.

CHAPTER III- FINANCIAL CONDITIONS

Article 39: AMOUNT OF THE CONTRACT

The amount of the contract (.....*Francs CFA, ATI*) shall be stated in the detailed cost estimates, on the flyleaf and on the signature page. The detail cost estimate shall include total without taxes, Value Added Tax (VAT), Income tax (AIR), total taxes, total with taxes inclusive (ATI) and net payable.

Article 40: PRICE CONSISTENCY

The Contractor's prices stated on the unit price schedule shall be considered as having been set on the basis of the economic conditions prevailing in the Republic of Cameroon during the month preceding that of submission.

The contractor shall be considered as having perfect knowledge of all the constraints relating to the execution of works and all the conditions that may influence this execution, as he must have personally been to the site before submitting his bid, notably:

- the nature and quality of the land and soils;
- transport and access conditions to the site at any period of the year;
- constraints relating to the geographic situation of works;
- water regime and rainfall in the area and possible risk of flood ;
- Presence or absence of a Development association in the village.

The amounts of the price list comprise all the expenses of the manpower participating directly or indirectly in the execution of works, including salaries and allowances, insurance charges, wage bill, travelling expenses.

They also comprise the following headings:

- Conveyance, assembling, maintenance, dismantling and folding up of all the structures including offices, laboratories, possible quarry material, workshops, accommodation etc;
- Conveyance, supply, storing and transport of all the materials, ingredient, fuel, lubricant, etc;
- Maintenance of existing structures used for the execution of the contract arising from this invitation to tender;
- Prospecting for sources of materials, extraction, storing , drainage of deposits;
- Measures aimed at reducing direct environmental impacts;
- Maintenance of structures during the period of guarantee;
- Insurance including civil liability;
- Insurance charges for the project;
- Financial charges and overheads for the project;
- Remuneration for profit and unknown factors.

Prices on the price list shall include all the execution charges whether or not they are provided for in the Special administrative conditions or the Special technical conditions. A modification of quantities may be brought in the volume of works, increasing or reducing it, irrespective of the volume of the works actually executed; unit prices of the unit price list shall be applied.

Article 41: SUB - DETAILED PRICES

The contractor shall have provided in his bid, the price sub-detail schedule drawn up in accordance with the rules in force and stating details on the amount of charges, allowances and manpower as well as the assembling, maintenance, dismantling, depreciation of the structures, tools and equipment as well as miscellaneous charges, overheads, incidental expenses and profits.

Article 42: ADDITIONAL WORKS - VARIATION IN THE VOLUME AND NATURE OF WORKS

In case of increase of the volume of works or structures not provided for in the contract, no extra bill shall be accepted on additional works executed by the contractor unless a Service Order issued.

Unit prices of the Price Schedule shall be applied if the additional works are accepted. The validation of these prices shall give rise to an additional clause. Shall be considered as new, any price not provided for in the unit price schedule or the detailed estimates of the contract.

Article 43: PAYMENT

Within the meaning of the security regime laid down Decree N^o. 2018/366 of 20th June 2018 to lay down the Public Contracts Code; the following definitions of duties shall apply:

- (a) The Contracting Authority shall make sure all taxes appear on the contract and are deducted in the payment documents ("decompte");
- (b) The Divisional Delegate of Public Contracts shall visa the payment documents before the Final payment can be effected;
- (c) The Municipal Treasurer, Zhoa Council shall be in charge of payments;
- (d) Security shall be subject to the rules governing public contracts and
- (e) Payments shall be done by bank transfer.
- (f) The contractor may obtain periodic payments on account. This periodic payments may be spread out during the term of the contract in several periodic installments
- (g) Each payment on account shall include a part corresponding to building materials bought for the execution of the works and are on site. The amount for these materials is obtained by taking into account the prices from the sub-details. Materials having been the subject of payment on account cannot be taken away from the site without a written authorization of the Project Owner or the Project Engineer.

In respect of the above:-

*** Mode of payment of works executed**

In view of the application of the law on collateral prescribed in the Decree N^o 2004/275 of 24 September 2004, the contractor shall be paid through accounts drawn up by applying the prices on the unit price schedule for tasks actually accomplished. In order to realize this:-

- The Project Engineer and the Contractor shall periodically draw a joint statement summarizing and setting the quantities achieved and record for each heading. Works executed by the contractor and entered into the job cost sheet give entitlement to payment on account (bill) may give right to payment;
- Not later than the fifth (5th) of the month following the month when the work was carried out, the contractor shall furnish to the Project Engineer seven (07) copies of three draft (03) provisional monthly accounts;
- After completion of works and within fifteen (15) days following the date of acceptance, the contractor shall, from the joint records, draw the draft final account of works actually carried

out which shall sum up the amounts that he can claim as payment for the works executed. The draft final account which shall be the summary of the periodic statements of account shall be submitted by the contractor for verification and approval by the Project Engineer and once approved by the Project Engineer the draft final account shall become the final account. It shall serve for making out the final payment to settle the contract drawn up under the same conditions as those defined below relating to drawing of monthly accounts;

- At the end of the period of guarantee, the Project Engineer shall draw up the general and final account which shall be countersigned by the contractor and the Contracting Authority. The guide on how this account shall be established shall be provided by the Contracting Authority who shall depend on how the Contractor respected his commitments during the guarantee period;
- The signing of the general and final account without reserve by the contractor shall definitely bind the parties and put an end to the contract, except for issues concerning default interests;
- Default interests shall be paid by statement of the amounts owed;
- The currency of the tender and payment shall be the CFA Franc.
- The bill of taxes will be paid into the state coffers. Only amount without taxes will be paid to the contractor in such a way that 98.9% shall be paid in the account of the contractor and 1.1% shall be paid in the public treasury.
- Upon presentation of an account drawn up by the contractor in seven (07) copies including the stamped original copy, the Project Engineer shall after verification finalize and transmit to the Authorizing Officer (the Mayor, Zhoa Council) who in turn shall verify and sign as a means to order for payment and transmit to the Divisional Delegate of Public Contracts for Menchum. The Divisional Delegate after verification and concluded good for payment shall affix a VISA (FINAL PAYMENT) and transmit to the Municipal Treasurer, Benakuma Council who shall commit the State of Cameroon for payment to be carried out as defined in the contract in respect to the information on the credit card;

Each request for payment shall include the following documents:

- Seven copies of the final account mentioned above;
- Seven copies of signed Statements of work done;
- Acceptance report signed by all the members of the acceptance committee;
- Report of execution of work ("attachement") signed by the Project Engineer and bearing the visa of the authorising officer ;
- A copy of the following documents making up the tax file certified by the relevant Authorities and dated less than three (03) months:
 - > An attestation of non-indebtedness;
 - > A location plan
 - > An attestation of localisation;
 - > A Taxpayer's card;
 - > A Business licence;
 - > A clearance attesting to the payment of taxes;
 - > An attestation of solvency (non-bankruptcy), also called certificates of incorporation;
 - > A Clearance Certificates issued by the National Social Insurance Fund ("CNPS").
 - > An attestation of Bank account;

REMARK: Payment on account may be spread over the duration of the execution of the jobbing order according to technical execution phases as defined in the jobbing order. The amount of payment shall not exceed the value of the technical execution phases carried out. In such a case, for payment to be effected the contractor shall before the 5th of the every month following the works executed transmit seven (7) copies of the partial invoices to the Project Engineer who shall within a time-limit of seven (7) days approve and forward for processing by the services of MINMAP and MINFI.

*** Venue of payment of works executed**

It shall be carried out by the Municipal Treasury, Zhoa Council.

Article 44: START-OFF ADVANCE

The Contractor may through a simple request without any justification addressed to the Project Owner with copy addressed to the Contracting Authority obtain a so-called "start-off" advance or advance "for purchase of building materials". The Start-Off Advance or payment of the start-off advance shall be at most 20% the initial contract price (*i.e. all taxes inclusive*) but the advance must be guaranteed at 100% by a Bank recognized by Cameroon Ministry in charge of Finance or a First Rate financial institution. This advance may be released after the notification of the Service order to start the work. It's reimbursed by deduction done at 50% on each payment on the account ("décompte") made to the contract holder during execution as from when works must have been executed more than 40% of the contract and must be totally reimbursed not later than when the execution of the contract must have reached 80%, i.e. when the value of the basic price of the goods & services rendered shall have reached 80% of the contract price. Following of the rate of reimbursement of the advance, the Contracting authority shall authorize the payment of the corresponding part of the contract upon written request. Whatever be the case, the reimbursement must be completed one (01) month before the date of expiration of the contractual period. As the start-off advance is refunded, the Contracting Authority shall release the corresponding bid bond if the contractor requests it.

Article 45: GUARANTEES

Any Structure having issued a guarantee to a Contractor must undertake to pay on the order of the Contracting Authority, the amount corresponding to the guarantee in case of default on the side of the Contractor.

a) Final bond

The final bond (*final surety*) of the contract referred to as security in guarantee for complete execution shall be provided within twenty (20) days as from the date of notification of the contract and in any case before the first payment and/or before the expiry of the bid bond. It shall be addressed to the Contracting Authority who shall then act as the Beneficiary, reason why he shall be one to keep it. The amount of the final bond shall be 2% of the value of the initial contract, all taxes inclusive (ATI). The bid bond shall only be returned to the contractor by the Contracting Authority once the final bond has been provided. The Bank that issued shall refund corresponding amount upon presentation of the original bid bond by the Contractor.

Remarks:

- *The final bond may be replaced by a bond (bank guarantee) issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *As concern Small and Medium Enterprises constituted of National Capital and managed by Nationals, the final bond may be replaced by a Statutory Lien bond (bank guarantee) issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *The final bond shall be released upon written request of the contractor after completion of works proven by technical acceptance minutes duly signed by all the members of its committee.*

- *The final bond shall be addressed to the Contracting Authority who shall then act as the Beneficiary.*
- *In case where the Contractor does not provide the final bond within the twenty (20) days, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI)*

b) Retention Bond

The retention bond (*Performance bond*) of the contract referred to as security in guarantee for proper execution shall be the sum deducted (blocked up) from the amount on account during each payment made to the Contractor. After provisional acceptance, the guarantee period of this project shall be **one year** during which the Contractor shall be expected to carry out period visits every three months to carry out corrections of imperfections or defects. The amount of the retention bond shall be 10% of the value of the initial contract (all taxes inclusive), increased if need may be, by the value of the additional clauses.

Remarks:

- *The retention bond may be replaced by a bank guarantee issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *The retention bond shall only be refunded to the Contractor upon a Release Order issued by the Contracting Authority after fulfilment of the contractual obligations by the Contractor proven by final acceptance minutes duly signed by all the members of its committee. The Release Order must be issued within thirty (30) days from expiration of the guarantee deadline or where the contract has no such deadline, following the final acceptance of works otherwise if there is no notification from the Contracting Authority to the Contractor for having not honoured his obligations, the Competent Structure shall undertake to refund the guarantee or release the bond upon a simple request from the Contractor. In the case of notification, the end of the commitment of the bond shall only be put into effect by a Release Order issued by the Contracting Authority. After the expiry of the deadline, the bond shall cease from having any effect even in the absence of the release.*
- *If for any reason, the Contractor refuses to carry out corrections of imperfections or defects during the period of guarantee, the Contracting Authority, Project Owner and the Project Engineer shall have the right to carry out the corrections using any other contractor who shall be paid using the amount retained for the retention bond at the expense of the main by virtue of the contract.*

Article 46: PRICE REVISION

In respect to the maximum works execution deadline of three months defined in the tender, the prices shall be concluded firm and so shall be final and unchangeable. As well the contract arising from this tender shall not be subject to price revision.

Note should be taken that the contract amount that shall arise from this tender shall be lump sum. Hence, possible differences noticed for each type of structure or each element of the structure between the quantities in the cost estimates and the quantities effectively executed shall not lead to the modification of the said contract amount. This applies to errors that the cost estimates may include. The contract shall be paid on the basis of approved plans by the contracting parties.

Article 47: STAMP DUTY AND REGISTRATION

Seven (7) original copies of each constituent document of the contract arising from this invitation to tender shall be stamped and registered by at the expense of the contractor, in accordance with the laws in force; within thirty (30) days as from the date of notification of the contract by the Contracting Authority.

Article 48: TAX AND CUSTOMS REGIME

In respect to Decree N° 2003/651/PM of 16 April 2003 that defined modalities for the implementation of the tax and customs systems to Public Contracts taxes that shall be concerned with the contract arising from this invitation to tender shall be subject to the laws in force in the Republic of Cameroon.

Article 49: PENALTIES

- (a) **Penalties for lateness:** In case of failure by the contractor to complete the work within the contractual time-limits, he shall be subject to the following penalties:
- 1/2000th of the amount of the contract per calendar day overrun, from the 1st to the 30th day;
 - 1/1000th of the amount of the contract per calendar day, beyond the 30th day;
 - Penalties for lateness shall not exceed ten percent (10%) of the amount of the contract; A percentage higher than 10% shall lead to termination of the contract.
- (b) **Specific penalties:** Apart from penalties of overrun of the contractual time-limits, the Contractor shall be liable to the following particular penalties for the non-respect of the terms of the contract notably:-
- *The late provision of the final bond:* In case where the Contractor does not provide the final bond within the twenty (20) days from date of notification of the contract, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness;
 - *The late provision of the insurance policy:* If after fifteen (15) days from the notification of the contract the contractor has not provided an insurance policy covering all risk on site, all execution activities shall be suspended without suspending the execution deadline. Hence penalties arising from failure to complete the work within the contractual time-limits shall be paid. After two months from the date of notification of the contract the Contractor has not complied, the contract may be terminated;
 - *The late provision of the execution program:* In case where the Contractor does not provide the execution program within the thirty(30) days from date of notification of the service order to start work, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness. As well, these penalties shall be applied on any stakeholder who delays the process of approving the execution program submitted or who carries out abusive rejects of the execution program;
 - *The late request for site installation:* If within fifteen (15) days from the date of notification of the service order to start execution site installation is not carried out, the Contractor shall pay penalties of 1/5000th the cost of the contract (ATI) for every calendar day of lateness.
 - *The replacement of Key Personnel:* If in replacement of key personnel, the qualities of the personnel proposed are less than that of the personnel replaced in terms of qualification, experience and competence, such replacement shall attract penalties of 1/5000th the cost of the contract (ATI) independently of the procedure for validation of the new personnel. The above penalties shall not apply for situations of force majeure such as incapacitation of personnel due to accident and death of personnel or in a situation duly recognized by the procedure spelled out in Article 50 of these Administrative Conditions.
 - *Absence of Project Site Log Book:* It shall attract penalties of 1/5000th the cost of the contract (ATI) of the main Contractor and that of the Chief of Service of the Contract as the case be of complicity.

Remark: *The total of penalties shall not be more than 10% the amount of the contract in concerned otherwise the contract will be terminated*

CHAPTER IV: FINAL PROVISIONS

Article 50: RISKS, RESERVES AND FORCE MAJEURE

The Contractor may during execution be subjected to risk(s) which can give rise to reserves that need to be recognized by the Project Engineer.

Force majeure shall include the effects of natural disasters or any other external events that the contractor could not have reasonably foreseen or avoided, and which make works impossible and not only costly. In case of force majeure, the contractor shall be relieved of his responsibility only if he has notified in writing to the Project Engineer with copies forwarded to Project Owner and Contracting Authority of his intention of how the effect(s) on execution arising from the Force Majeure should be treated. This shall be done before the end of the 20th day following the event. The Project Engineer shall visit the site of the Force Majeure, carry out his own evaluation of its gravity basing as well on the evidence given by the contractor and decide on the nature of force majeure and if he considers that the Contractor's preoccupation(s) should be taken into account:-

- (a) He the Project Engineer shall forward to the Project Owner a succinct report bearing his appraisal and suggestion(s);
- (b) The Project Owner shall cross examine the report of the Project Engineer through discrete investigations and decide on the way forward. In case where the Contractor solicited for suspension of execution or prolongation of the execution duration and that the Project Owner validates the suggestion(s) of the Project Engineer, he shall forward his suggestion(s) in a report to the Contracting Authority.
- (c) The Contracting Authority shall equally carry out an appraisal of the report through discrete investigations and take a final decision on the final way forward.

Article 51: SETTLEMENT OF DISPUTES

Any dispute arising between the parties shall first of all be subject to an attempt through direct amicable settlement. In the absence of an amicable settlement, any dispute relating to this invitation to tender shall be carried before the Cameroonian court of competent jurisdiction.

Article 52: TERMINATION OF CONTRACT

The contract may be terminated as per article 180-183 of Decree N^o. 2018/366 of 20th June 2018 to lay down the Public Contracts Code; and the following special conditions:

- non-registration of the contract within the required time-limits;
- non-compliance of technical documents;
- a delay exceeding fifteen calendar days in the execution of a service order or an unjustified halt of works exceeding seven (07) calendar days;
- a delay giving rise to penalties beyond 10% of the amount of the contract;
- refusal to carry over works declared not properly done;
- refusal to carry out works notified by service order;
- unilateral modification to provisions of the tender file relating to materials and supervisory staff;
- replacement of more than 50% of personnel ;
- Non-payment of insurance charges.

Article 53: SPECIAL COMMERCIAL CHARGES

The contractor shall declare that the contract agreement has not given and shall not give rise to the collection of special commercial charges.

In case special commercial charges are provided for under the contract agreement, the contractor shall reserve the amount of these charges for the Project Engineer on behalf of the Contracting Authority.

Moreover, if it is established that the contractor has received special commercial charges, he shall be subject to the sanctions provided for by the laws.

Article 54:INTERNATIONAL TRANSPORTS

In case where the execution of the contract requires transport of materials and equipment from abroad to Cameroon and vice versa, this transport shall be carried out in compliance with the provisions of international covenants and agreements at the expense of the contractor.

Article 55: VALIDITY AND ENTRY INTO FORCE OF THE CONTRACT

The contract arising from this invitation to tender shall become valid only after it must have been read and approved by the Contractor, visaed by the Municipal Treasurer, Zhoa Council and signed by the Contracting Authority. Its execution shall enter into force upon notification of the Contractor by the Contracting Authority.

Article 56: INFORMATION TO BE POSTED

The Contractor shall put up a visible sign board (*total height=2,80meters, width=1,20meters, board thickness=2,5centimeters at 1,20meters above the ground level with poles embedded in concrete*) at the entrance of the site on a place approved by the Project Engineer, bearing the following text

<p style="text-align: center;">REPUBLIC OF CAMEROON</p> <p style="text-align: center;">Peace - Work – Fatherland</p> <p style="text-align: center;">FOR THE REHABILITATION OF EXISTING DISTRIBUTION NETWORK OF ZHOA WATER, FUNGOM SUB-DIVISION IN MENCHUM DIVISION NORTH WEST REGION.</p> <p>CONTRACTING AUTHORITY: THE MAYOR OF ZHOA</p> <p>PROJECT OWNER: THE MAYOR, ZHOA COUNCIL</p> <p>AUTHORISING OFFICER: THE MAYOR, ZHOA COUNCIL</p> <p>CHIEF OF SERVICE OF THE CONTRACT: THE COUNCIL DEVELOPMENT OFFICER, ZHOA COUNCIL</p> <p>PROJECT ENGINEER: THE DIVISIONAL DELEGATE OF ENERGY AND WATER RESUORCES MENCHUM</p> <p>CONTRACTOR:.....</p> <p>FINANCING: 2025 PUBLIC INVESTMENT BUDGET (MINSANTE)</p> <p>DURATION OF CONTRACT: THREE MONTHS (NINETY CALENDAR DAYS)</p>
--

DOCUMENT N° 05

THE SPECIAL TECHNICAL CONDITIONS

TECHNICAL SPECIFICATIONS FOR EXECUTION

This technical description of estimates is intended to define the content for the the **rehabilitation of existing distribution network of Zhoa, Fungom Sub Division in Menchum Division-North West Region.**

It specifies the quality of equipment, tools, materials and the mode of execution in keeping with the rules and in compliance with the constituent documents of the Tender file. Hence, this descriptive has as objective the definition of the consistence of works to be executed in accordance with the specifications and technical norms for the rehabilitation of structures.

INTRODUCTION

The technical specifications presented herein below define the water works that shall be executed in the Menchum Division, North West Region and the manner in which these works shall be carried out. So the Contractor is expected to read these specifications critically and identify all the articles that are applicable to his job

CHAPTER 1: GENERAL INFORMATION

ARTICLE 1: VOLUME OF WORK TO BE EXECUTED.

In each case, the volume of work to be executed is indicated by the bill of quantities, network maps and/or plans provided for each project. The various works to be executed shall conform to the relevant terms of the technical specifications given herein below.

ARTICLE 2: GENERAL INSTRUCTIONS

It should be understood that the provision of a bill of quantities for any project does not absolve the potential Contractor of the necessity to affect a well-planned site visit, at his own expense, to gain complete knowledge of the conditions prevailing on the terrain. This knowledge shall come in handy when preparing the List of Tasks and the Unit Price Schedule. Potential Contractors (or Bidders) shall provide a detailed and sequenced List of Tasks to be effected on each component of the project. Within fifteen (15) days from the date of notification to start work, the contractor shall provide the Supervising Engineer with:

- A detailed plan of the work, showing the scheduling of the various works to be executed in time
- Detailed technical drawing of the works to be realized
- A manpower deployment plan

- A schedule of the delivery of materials to the project site, showing possible delays
- Failure to forward the foregoing documents shall engender the postponement of the reception of project materials, which could result in a punishable overall delay in the execution of the project.

No material shall be used that has not been checked for conformity with the technical specifications by the Supervising Engineer.

The Supervising Engineer reserves the right to modify the plans and Work schedule provided by the Contractor, which modification shall first be submitted to the Delegated Contracting Authority for approval. Under exceptional circumstances, the Supervising Engineer may suggest modifications to the technical specifications for any component of a project to the Delegated Contracting Authority, while making sure that the overall cost of the project stays within the limits of the financial bid of the Contractor.

Any modification must be done in writing, with sufficient justification. For this purpose, a numbered page book (the project log book) shall be kept on site in which the Supervising Engineer shall write his approved instructions. Both the Contractor, or his representative, and the Supervising Engineer shall initial every page of the project logbook

It is therefore obligatory for the contractor to execute the works in conformity with:

- The Bills of Quantities and Estimates,
- The Special Administrative Clauses
- The Special Technical Clauses stated herein,
- Any other special rules and regulations that may be applicable to his job,
- The work schedule,
- The detailed technical drawings,

Subject to any approved modifications indicated in the project log book by the Supervising Engineer.

The Contractor shall take note of any omission or discrepancies that may exist in the three documents mentioned in the preceding paragraph, which omission or discrepancies could fundamentally affect the technical or aesthetic quality of the works executed to his detriment, and call the attention of the Supervisory Engineer who shall remain at the disposal of the Contractor for necessary information and inquiries throughout the duration of the project.

In this regard, the Contractor shall not absolve himself of the responsibility for poor quality work by citing imprecision, omissions or discrepancies in the technical specifications or modifications thereof indicated in the project log book by the Supervising Engineer.

Any work effected without regard for the foregoing instructions or provisions shall be demolished at the expense of the Contractor

CHAPTER 11: ORIGIN AND QUALITY OF GEOMATERIALS AND CEMENT

ARTICLE 3: QUALITY AND QUANTITY OF GEOMATERIALS

The Contractor shall supply all the sand, stones and gravel that may be required for the execution of any component of the project. He shall also be responsible for the excavation and backfilling of the pipeline under the supervision of the Engineer. In that regard, it is obligatory for the potential Contractor (or bidder) to visit the project site, at his own expense, before preparing his bids, in order to verify whether available geo-material is of good quality and of sufficient quantity. He shall make any reservations concerning geo-materials in his bid.

ARTICLE 4: ORIGIN AND QUALITY OF SAND

The nature and origin of sand remain subject to the approval of the Supervising Engineer. Sand shall be obtained either from rivers or through crushing of rocks. The sand shall be of high quality. It shall be crunchy, stable, and clean and shall be free of dust particles, schistose, gypseous or clayey debris and organic matter. It shall contain neither sulphur compounds nor substances that can react with cement or metallic reinforcements. The sand component shall be more than 80% and the very fine constituents, with a dimension not exceeding eighty (80) microns that can be eliminated by settling, should be less than four percent (4%). No grain of sand should have a dimension greater than four (4) millimetres. If deemed by the Supervising Engineer, the sand shall be sieved and washed thoroughly before use. Moreover, filter grade sand shall have a grain size ranging from 0.8mm to 1.2mm inclusive.

ARTICLE 5: ORIGIN AND QUALITY OF GRAVEL.

Gravel shall be obtained from deposits or quarries chosen by the contractor and approved by the Supervising Engineer. It shall be clean, without an excess of flat elongated pieces, dust or impurities. Constituents that can be eliminated through settling should be less than 2%. Its grading should be suited to its use. If deemed necessary by the Supervising Engineer, it shall be washed before use.

ARTICLE 6: ORIGIN AND QUALITY OF STONES

Stones shall be obtained from deposits or quarries chosen by the Contractor and approved by the Supervising Engineer. No stone shall have a dimension less than twenty (20) centimetres. Basalts stones, commonly called black stones, are highly recommended, or else stones of other quality, such as un-weathered granites, rhyolites, ignimbrites, etc, duly tested and approved by the Supervising Engineer may also be used.

ARTICLE 7: ORIGIN AND QUALITY OF CEMENT

Cement shall be of the CPA 325 class and shall be obtained from an approved factory.

CHAPTER III: CONCRETE WORKS

ARTICLE 8: PREPARATION OF CONCRETE

Concrete works shall be of three (3) kinds:

- Mass concrete for foundations works; it shall be dosed at 250kg/m³ and of appropriate thickness.
- Re-enforced concrete for floor and roof slabs and slab covers for storage tanks, valve chambers and interruption chambers; it shall be dosed 350kg/m³ and shall be of appropriate thickness.

-Mass concrete for catchment's works; it shall be dosed at 400kg/ m3.

CHAPTER IV: METHOD OF EXECUTION

ARTICLE 9: GENERAL INFORMATION

9.1 SECURITY AT THE WORK SITE

The contractor shall place at the entrance to work site signboards in bold letters indicating that work is underway and prohibiting the public and unauthorized persons from entering the work site. He shall be responsible for any accident that may occur on the work site or may be suffered by a third party, his staff and employees or officials of the Administration as a result of their presence on the work site.

Organization of work and security on the work site shall therefore be the sole responsibility of the Contractor. Furthermore, the Contractor shall be bound by the labour legislation in Cameroon Vis-a Vis his workers and the Administration. Moreover, his insurance policy shall cover any damages he could cause to any one during the execution of the job.

9.2 TRAFFIC

The Contractor shall be responsible for ensuring that traffic is not obstructed on the entire stretch of his work site throughout the period of work, right up till provisional reception. No obstruction of traffic shall be allowed for more than two hours. Maintenance of traffic flow shall be the responsibility of the Contractor. In case of any breach of contract in this matter, the Supervising Engineer may bring in a third party to correct any shortcomings that may be impeding the traffic flow, and related expenses shall be borne by the Contractor.

Where interference of the traffic flow for a given period is inevitable, the Supervising Engineer shall be informed of the situation at least 7 days in advance, so that he can seek the opinion of local administrative authorities and get everything arranged beforehand.

In case a deviation has to be used, the contractor shall submit to the Supervising Engineer for approval after consultation with local administrative authorities, the deviation route and his plan for maintaining the deviation throughout the duration of the works that have necessitated the deviation.

ARTICLE 10: STONE MASONRY

Stone masonry shall be aesthetical and in accordance with structure type and civil engineering rules. Binding mortar shall be dosed 250kg/m³, no grain of which shall have a dimension exceeding 4mm. Mortar dosed at 450kg/m³ shall be used for the finishing of the external joints of nonvisible walls of stone masonry

Mortar dosed at 500kg/m³ to which shall be added a quantity of SIKALINE N^o I recommended by the manufacturer and approved by the Supervising Engineer, shall be used for waterproofing the interior surfaces of water-retaining structures (storage tanks, interruption chambers, sedimentation basin, filters, etc).

ARTICLE 11: POINTING AND PLASTERING 11.1 POINTING

The joints of all external walls of stone masonry that are visible shall be carefully pointed to give them an aesthetic look. Mortar dosed at 600kg/m³ shall be used for pointing with a cement paste (1:0) finish

11.2 PLASTERING

Plastering of surfaces in contact with water shall comprise pointing of the mortar joints followed by a 1cm thick layer of spatter dash 1 (m625). This shall then be followed by the application of a rendering coat of 2cm thick 1:4 (m300) mixtures and a setting coat 2cm thick 1:2 (m625). The walls shall then be finished with cement paste. Plastering of surfaces not in contact with water, such as chambers for air valves, control valves and washouts shall consist of 1 coat of plaster 1cm thick and a mixture of 1 :3 (m400)

ARTICLE 12: PLUMBING WORKS

By plumbing works include:

- i) Laying of pipes in the trenches
- ii) Construction and installation of chambers for air valves, washouts and control valves
- iii) Installation of branch lines right up to the last plastic before the standpipes.

12.1 PIPE SPECIFICATIONS

Pipes should meet the physical characteristics presented in table 1 below:

Table 1: Physical Characteristics of pipes (DIN 8061)

Internal Ø & external Ø (mm)	Thickness (mm)			Socket length (mm)	Nominal service pressure (bars)	Length of pipe (m)
	Minimum	Nominal	Maximum			
22x25	1.1	1.5	1.8	28	10	6
28x32	1.1	1.5	1.8	32	6	6
28.8x32	1.6	1.8	2.1	32	10	6
36.4x40	1.6	1.8	2.1	40	6	6
36.2x40	1.7	1.9	2.2	40	10	6
43.6x50	1.6	1.8	2.1	50	6	6

TOLERANCES

OVALIZATION: \pm Imm

Length of pipe: $\pm 1\% \Rightarrow \pm 6\text{cm}$

Socket length: $\pm 0.6\text{mm}$

12.1.1 CONTROL TESTS FOR PIPES

i) Length

The tolerance for pipe lengths shall be $\pm 1\%$ ($\pm 6\text{cm}$). For every 100 pipes, if the number of pipes not respecting this tolerance is less than 3 i.e. 3%, then the whole lot shall be considered okay, otherwise the Supervising Engineer shall request that as many pipes as possible be tested in the lot.

ii) External Diameter

The tolerance shall be $\pm 0.3\text{mm}$ for pipes of external diameters between 25mm and 50mm, and $\pm 0.4\text{mm}$ for pipes between 63mm and 75mm in external diameter. Before reception, the Supervising Engineer shall verify the external diameters of 15 pipes for every 300 pipes. If 6 or more pipes fail to meet the tolerances prescribed above, he shall reserve the right to reject the whole lot. If 5 pipes fail to meet the tolerance stipulated above, 15 other pipes shall be selected at random from the same lot and verified. If the same results are obtained for 5 pipes, the whole lot shall be rejected.

iii) Thickness

Thickness verification should adhere to the specifications presented in table II below.

Table II: Thickness Verification.

No. of pipes in the lot	No. of pipes randomly selected for verification	No of bad Pipesx	
		Lot accepted if $X_{\max} =$	Lot rejected if $X_{\min} =$
100-199	10	2	3
200-299	15	3	4
300-499	20	3	4
500-899	25	5	6
899-1300	30	6	7
1300-3200		8	9

The Supervising Engineer shall carry out thickness verification in accordance with table II above

iv) Socket length

The socket length shall be verified according to agreed norms. The value obtained should have the theoretical value of the diameter of the tube plus 1.3mm. The tolerance shall be 0.6mm

v) Shrinkage cracks

Shrinkage cracks tests should be carried out according to agreed methods by the Supervising Engineer on a 15-30cm long sample. No shrinkage cracks should occur if the pipe is at 90° to its horizontal axis. If this occurs for 15 samples representing a lot of 100 pipes, the lot shall be rejected.

vi) Internal Pressure

Pipe samples shall be subjected to 1.5 times the service pressure for duration of one hour. If one out of every five samples ruptures, another set of five shall be selected for retest. If the second set respects the specified relation with the service pressure, the set shall be considered satisfactory. Otherwise, either necessary adjustments shall be carried out to meet the required specifications, or the lot shall be rejected.

vii) Impact

This test shall be carried out on three samples, one from each extremity and the third, from the centre, all three, one meter long. Perpendicular masses shall be dropped from a height of one meter onto the samples as shown in table III

Pi e diameter	Mass k
25	1
32	1
40	1
50	3.5
63	5
75	7.5
90	7.5

Table 111: Impact Test Schedule

The pipes shall be accepted if, and only if, the percentage of broken pipes in the tested samples does not exceed 40%

viii) Labels

The Contractor shall ensure that all pipes for this project are labelled<H>. The Supervising Engineer shall reject any pipe not labelled as such

The Contractor shall furnish the Supervising Engineer with information (name, address, phone, etc) of the factory being used to procure pipes for any project.

The Contractor shall present to the Supervising Engineer a guarantee certificate from the factory of origin ascertaining that the pipes meet the required standards as described in the forgoing sections. The Contractor shall arrange for free access to the factory for the Supervising Engineer to enable him request, as required, for all factory tests described in the aforementioned sections to be carried out by the manufacturer.

The performance guarantee of works shall cover all defects in pipes, their handling and workmanship.

FITTINGS SPECIFICATIONS

The fittings required for these works, are presented in Table IV below. Contractors are required to strictly respect these specifications.

All fittings shall be approved by the Supervising Engineer before use. All fittings not conforming to those specified in Table IV shall be rejected. The performance guarantee of work shall cover all defects in fittings, their handling and workmanship.

ARTICLE 13: PIPING

13.1 DESCRIPTION

This item shall consist of the supply and laying of all pipes, including the installation of accessories like couplings, tees, reducers, etc. To entirely complete this item as per these specifications and plans provided.

13.2 CARE/LAYING OF PIPES

The soil in the bottom of the trench shall be lightly scarified before laying the pipes or other hydraulic elements.

During transport, storage, and assembling of piping element care shall be taken to avoid soil and other contamination from entering the system.

Laying of pipes, assembling of pipes and all other works directly related to piping works, shall only be executed during dry weather conditions.

Pipe elements and connecting accessories shall be assembled in such a way that no tension can occur in the separate elements.

Only skilled plumbers shall be employed on any plumbing work.

Pipe joints, reducers, tees, etc shall be connected in conformity with the manufacturer's prescriptions

13.3 METHOD OF DETERMINING QUANTITY OF G.I AND PVC PIPING LAID

The quantity of PVC and G.I piping laid shall be measured per linear meter of laid pipe. Measurements shall be made for each class of pipe and each diameter of pipe separately.

CHAPTER V: CONSTRUCTION METHODS

ARTICLE 14: SETTING OUT OF WORKS

The contractor shall be responsible for the setting out of all pertinent lines, works, grades, reference points and levels that may be required for the proper and accurate positioning of all the structures on the work site. The works so set out shall be received by the Supervising Engineer before construction work actually begins

ARTICLE 15: EXCAVATION OF TRENCHES

Pipe trenches shall be excavated to a depth of at 60cm and at most 100cm and width of 40cm. The bottom of each trench shall be free of any stones or other materials which could damage the pipes.

ARTICLE 16: BACKFILL

The Contractor shall be responsible for all backfill operations. However, such operations shall only be carried out after the dimensions of the trenches have been approved by the Supervising Engineer.

After the pipes have been laid in the trenches by qualified plumbers, and the successful hydraulic tests conducted, they shall be carefully covered with soil and rammed in, in soil layers of 20cm thick.

The backfilling of pipes crossing motor able roads shall be done in conformity with laid down norms. The compaction requirement for backfill shall be at least 90% of the dry modified optimum proctor density.

ARTICLE: 17. MAINTENANCE OF EXCAVATIONS

The Contractor shall bear the risk associated with the collapse of any surface exposed as a result of excavation effected anywhere on the work site, whether or not he takes any precautions against such accidents. The nature of the precautions he may take shall be entirely at his discretion. No water shall be allowed to accumulate in any part of an excavation. For that reason, every excavation shall be protected against flooding, seepage, run-off, etc. should water accidentally enter any excavation; it shall be immediately removed by pumping or bailing at the expense of the Contractor.

18. Working Hours.

The general conditions fixed for workers by the Cameroon Legislation also applies to the Contractor's workers in the worksite. There shall be no work at night.

19. Equipment and Materials for execution

19.1 General conception of equipments and materials

The Contractor shall be responsible for the choice of the equipment's and materials. The general conception of the materials to be used for the execution of the project should take into consideration the local milieu : the state of roads and accessibility, as well as the rate of execution stated above.

20. The Conformity Visit.

A conformity visit of all the equipment's and materials shall be done at the beginning of the work execution in order to verify:

- their conformity with those proposed in the Contractor's bid,
- the relationship between the capacities of these equipments and materials, the prescriptions in the Technical Specifications Journal and the execution deadline.

The pronouncement of this visit shall be expressed in a Report which shall not in any way set free the Contractor from his engagements.

21. Control of the Works.

The supervision and control of the works shall be done by a Controller or a Consulting Firm under the coordination of the Contract Engineer.

22. Worksite logbook.

In order to carry out an effective follow-up of the execution of the project, the Contractor shall make available in the worksite a logbook on which shall be recorded everything concerning work progression. This log book will help the Controller, on arrival in the worksite, to exactly know the state of evolution of the project.

The book will be held by the "Recorder", an employee of the Enterprise, and that will be his sole task in the worksite. The Recorder shall always put in writing all the daily activities in this book, as operations evolve.

In this book shall be recorded the following informations:

- Name of worksite (name of village),
- Serial number of borehole in the village,
- Dates and time of arrival and of departure of the drilling rig,
- Distance covered by the drilling rig from the previous site to get to the present site,
- Time used to run the compressor to execute the borehole,
 - Time used in installing the drilling rig and time that drilling started,
 - Drilling time for every pipe,
- Diameter and method used in sinking every pipe,
 - Depth attained by every pipe,
- Nature of rock formations cut through "driller's cross-section",
 - Depth of temporal casing, time used in placing and removing the temporal casing,
- Composition of the borehole design : length of casing, screen, volume of gravel pack, level of the emplacement of the clayey seal, thickness of the Concrete, etc.
- Duration and yields of pumping test, water quality and levels following the instructions given by the Engineer during the Development and Pumping test operations,
 - In short, all the technical details, incidents, breakdowns, difficulties specific to the evolution of the project, indicating the time these occurred.

The book shall be signed by the Representatives of the Administration and that of the Contractor, and shall serve as the basis for the establishment of vouchers.

Remarks and reserve made by the Contractor and/or the Administration shall be recorded in this book.

23. Control and supervision

The control and supervision of works shall be carried out by the Representative of the Administration and shall be based on the following items:

- Definition of the work plan and its execution calendar in agreement with the Contractor.
- Site implantation.
- Supervision of the analyses related to water quality.
 - Control the effectiveness of the activities concerning the training and sensitization of the Water Management Committee.
- Preparatory works.
- Construction works
 - Piping network.

concerning work progression. This log book will help the Controller, on arrival in the worksite, to exactly know the state of evolution of the project.

The book will be held by the "Recorder", an employee of the Enterprise, and that will be his sole task in the worksite. The Recorder shall always put in writing all the daily activities in this book, as operations evolve.

In this book shall be recorded the following informations:

- Name of worksite (name of village),
- Serial number of borehole in the village,
- Dates and time of arrival and of departure of the drilling rig,
- Distance covered by the drilling rig from the previous site to get to the present site,
- Time used to run the compressor to execute the borehole,
 - Time used in installing the drilling rig and time that drilling started,
 - Drilling time for every pipe,
- Diameter and method used in sinking every pipe,
- Depth attained by every pipe,
- Nature of rock formations cut through "driller's cross-section",
- Depth of temporal casing, time used in placing and removing the temporal casing,
- Composition of the borehole design : length of casing, screen, volume of gravel pack, level of the emplacement of the clayey seal, thickness of the concrete, etc.
- Duration and yields of pumping test, water quality and levels following the instructions given by the Engineer during the Development and Pumping test operations,
- In short, all the technical details, incidents, breakdowns, difficulties specific to the evolution of the project, indicating the time these occurred.

The book shall be signed by the Representatives of the Administration and that of the Contractor, and shall serve as the basis for the establishment of vouchers.

Remarks and reserves made by the Contractor and/or the Administration shall be recorded in this book.

23. Control and supervision

The control and supervision of works shall be carried out by the Representative of the Administration and shall be based on the following items•

- Definition of the work plan and its execution calendar in agreement with the Contractor.
- Site implantation.
- Supervision of the analyses related to water quality.
 - Control the effectiveness of the activities concerning the training and sensitization of the Water Management Committee.
 - Preparatory works.
 - Construction works.
 - Piping network.

- Environmental mitigation measures.
- Project sustainability.

ARTICLE 24: GUARANTEE OF WORKS

The Contractor shall take an engagement to execute the project with the materials he proposes and to respect all the technical norms in force.

In case of an accident leading to the abandonment of the project, the Contractor may be compelled to another project near the previous site, except the geologic conditions are abnormally unfavorable. The Contractor shall not be entitled to any remuneration for the abandoned project.

The obligations of the Contractor during the guarantee period consist of changing, or repairing the worn out parts or those that have been damaged due to an error by the manufacturer.

ARTICLE 25: PROVISIONAL RECEPTION

The materials to be used ought to undergo a qualitative provisional reception, which shall be based on the administrative and technical documents justifying the quality of the materials used are in conformity with the technical objectives. The decision taken during this reception does not liberate the Contractor from his engagements with respect to the deadline as well as the technical specifications.

Any change of material that was proposed in the bid (type, characteristics, origin, etc.) before or after the conformity visit and during the execution of the project, is forbidden except authorized in writing by the Contracting Authority, following the application forwarded by the Contractor.

If the works are not in conformity with the specifications, the Contracting Authority can reject them and ask for their replacement or necessary modifications, without any extra charge for this.

ARTICLE 26: CONDITIONS FOR THE FINAL RECEPTION

The final reception shall be pronounced after the expiration of the guarantee date which comes one year after the provisional reception. A survey among the population to confirm the good working order of the project during the one year guarantee period.
