GENERAL REGULATION OF THE INVITATION TO TENDER

Article 1: Scope of the tender: The Contracting Authority as defined in the Special Regulations of the invitation to tender hereby launches an OPEN NATIONAL INVITATION TO TENDER BY EMERGENCY PROCEDURE FOR THE REHABILITATION OF BAINJONG WATER SUPPLY SCHEME IN FUNDONG MUNICIPALITY, BOYO DIVISION, NORTH WEST REGION.

- 1.1 The bidder retained or the preferred bidder must complete the works within the time-limit indicated in the Special Regulations and which time-limit runs from the date of notification of the Administrative Order or that indicated in the said Administrative Order.
- 1.2 In this Tender File, the term "day" means a calendar day.

Article 2: Financing: The source of financing of the works forming the subject of this invitation to tender shall be specified in the Special Regulations.

- 3.1 The Contracting Authority requires of bidders and contractors the strict respect of rules of professional ethics during the award and execution of public contracts. By virtue of this principle:
- a) The following definitions shall be admitted:
- a.1 Shall be guilty of "corruption" whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;
- a.2 Is involved in "fraudulent manoeuvres" whoever deforms or distorts facts in order to influence the award or execution of a contract:
- a.3 "Collusive practices" shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition:

- a.4 "Coercive practices" shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.
- b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.
- 3.2 The Minister Delegate at the Presidency in charge of public contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him

Article 4: Candidates allowed to compete.

- 4.1 If the invitation to tender is restricted, consultation is addressed to all candidates retained after a pre-qualification procedure.
- 4.2 Generally, the invitation to tender is addressed to all entrepreneurs, subject to the following provisions:
- a. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must be from an eligible country, in accordance with the funding agreement.
- b. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must not be in a situation of conflict of interest, subject to disqualification. A bidder shall be judged to be in a situation of conflict of interest if he:
- b.1 is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts awarded for this invitation to tender; or
- b.2 Presents more than one bid within the context of invitation to tender, except authorized variance according to article 17, where need be; meanwhile, this does not prevent the participation of sub-contractors in more than one bid.
- b.3 The Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts.
- c. The bidder must not have been excluded from bidding for public contracts.
- d. A Cameroonian public enterprise may participate in the consultation if it can demonstrate that it is (i) legally and financially autonomous. (ii) managed according to commercial laws and (iii) not under the direct supervisory authority of the Contracting Authority or Project Owner.

Article 5: Building materials, materials, supplies, equipment and authorized services:

- 5.1 Building materials, the contractor's materials, supplies, equipment and services forming the subject of this contract must originate from countries meeting the criteria of origin defined in the Special Regulations of the invitation to tender and all expenditure done within the context of the contract shall be limited to the said building materials, materials, supplies, equipment and services.
- 5.2 Within the meaning of this 5.1 above, the term "originate" shall designate the place where the goods are extracted, cultivated, produced, manufactured and from where the services originate.

Article 6: Qualification of bidder:

- 6.1 As an integral part of their bid, bidders must:
- 6.1.1 Submit a power of attorney making the signatory of the bid bound by the bid; and
- 6.1.2 Provide all information (complete or update information included in their request for pre-qualification which may have changed in the case where the candidates took part in pre-qualification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- (i) The production of certified balance sheets and recent turnovers;
- (ii) Access to a line of credit or availability of other financial resources.
- (iii) Orders acquired and contracts awarded:
- (iv) Pending litigations; and
- (v) Availability of indispensable equipment.
- 6.2 Bids presented by two or more associated undertakings (joint-contracting) must satisfy the following conditions:
- a. The bid must include all the information listed in article 6(1) above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group;
- b. The bid and the contract must be signed in a way that is binding on all members of the group:
- c. The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form;
- d. The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the Contract;
- e. In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting.
- 6.3 Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender.
- 6.4 Bidders requesting to benefit from the margin of preference must furnish all the necessary information to prove that they satisfy the eligibility criteria set in article 33 of the General Regulations of the invitation to tender.

Article 7: Visit of works site:

- 7.1 The bidder is advised to visit and inspect the site and its environs and obtain by himself and under his own responsibility, all the information which may be necessary for the preparation of the bid and the execution of the works. The related cost of the visit of the site shall be borne by the bidder.
- 7.2 The Project Owner shall authorize the bidder and his employees or agents to enter the premises and the land for the said visit but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from this visit.
- 7.3 The Project Owner may organize a visit of the site of the works during the preparatory meeting to establishing the bids mentioned in article 19 of the General Regulations of the invitation to tender.

The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in article 17 of the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.
- 16.3 Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than sixty (60) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders. The updating period shall run from the date of overrun of sixty (60) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

- 17.1 In application of article 13 of the General Regulations, the bidder shall furnish a bid bond of the amount specified in the Special Regulations and which bid bond
- 17.2 The bid bond must conform to the model presented in the Tender File; other models may be authorised subject to the prior approval of the Contracting Authority. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of article 16 (2) of the General Regulations.
- 17.3 Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and should mention each member of the associated grouping.
- 17.4 The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.
- 17.5 The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.
- 17.6 The bid bond may be seized:
- (a) if the bidder withdraws his bid during the period of validity;
- (b) if the retained bidder:
- b.1 Fails in his obligation to register the contract in application of article 38 of the General Regulations;
- b.2 Fails in his obligation to furnish the required final bond in application of article 38 of the General Regulations;
- b.3 Refuses to receive notification of the Administrative Order to commence execution.

Article 18: Varying proposals of bidders

- 18.1 Where the works can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.
- 18.2 Except in the case mentioned in article 18(3) below, bidders wishing to offer technical variants must first assess the Secondary solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed construction methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the Secondary solution has been evaluated as the lowest bid. 18.3 When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the works, these parts of the works must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of article 31(2) (g) of the General Regulations.

Article 19: Preparatory meeting to the establishment of bids

- 19.1 Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations.
- 19.2 The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.
- 19.3 As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting The Contracting Authority may not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in article
- 19.4 The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in article 8 of the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of article 10 of the General Regulations and not through the minutes of the preparatory meeting.
- 19.5 The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: Form and signature of bid

- 20.1 The bidder shall prepare an original of the constituent documents described in article 13 of the General Regulations in a volume clearly indicated "ORIGINAL". In addition, the bidder shall submit the number required in the General Regulations, bearing "COPY". In case of discrepancy, the original shall be considered as authentic.
- 20.2 The original and copies of the bid must be typed or written in indelible ink (photocopies shall be accepted in the case of copies) and shall be signed by the person(s) duly empowered to sign on behalf of the bidder, in accordance with article 6(1a) or 6(2c) of the General Regulations, as the case may be. All the pages of the bid containing alterations or changes must be initialled by the signatory (ies) of the bid.
- 20.3 The bid shall bear no modification, suppression or alteration unless such corrections are initialled by the signatory (i.e.) of the bid.

D. SUBMISSION OF BIDS

Article 21: Sealing and marking of bids

21.1 The bidder shall seal the original and each copy of the bid in separate envelopes (internal envelopes) by marking on these envelopes "ORIGINAL" and "COPY", as the case may be. The envelopes shall then be placed in another envelope which will equally be sealed but which will not give any indication regarding the identity of the

21.2 The external and internal envelopes

- a) Should be addressed to the Contracting Authority at the address indicated in the Special Regulations:
- b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription "TO BE OPENED ONLY DURING THE BID-OPENING SESSION" as specified in the Special Regulations.
- 21.3 The internal envelopes should equally carry the name and address of the bidder in a way as to enable the Contracting Authority return the sealed bid if it is late in accordance with article 23 and 24 of the General Regulations.
- 21.4 If the external envelope is not sealed and marked as indicated in paragraphs 21(1) and 21(2) above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: Date and time-limit for submission of bids

- 22.1 The bids must be received by the Contracting Authority at the address specified in article 21(2) of the Special Regulations not later than the date and time stated in the Special Regulations.
- 22.2 The Contracting Authority may, at his discretion, postpone the deadline set for the submission of the bids by publishing an addendum in accordance with the provisions of article 10 of the General Regulations. In this case, all the rights and obligations of the Contracting Authority and bidders previously governed by the initial date will henceforth be governed by the new date.
- Article 23: Late bids: Any bid received by the Contracting Authority beyond the deadline for the submission of bids in accordance with article 22 of the General Regulations shall be declared late and consequently rejected.

Article 24: Modification, substitution and withdrawal of bids

- 24.1 A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The said notification must be signed by an authorized representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription "WITHDRAWAL", and "REPLACEMENT BID" or "MODIFICATION".
- 24.2 Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.
- 24.3 In application of article 24(1), bids being requested to be withdrawn by bidders shall be returned to them unopened.
- 24.4 No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

E. OPENING AND EVALUATION OF BIDS

Article 25: Opening of the bids and petitions

- 25.1 The competent Tenders Board shall open the envelopes in single or double phases and in the presence of the representatives of bidders who wish to attend at the date, time and address specified in the Special Regulations. Representatives of bidders shall sign a register attesting to their presence.
- 25.2 Firstly, envelopes marked "withdrawal" shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked "Replacement bid" are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only envelopes marked "modification" shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.
- 25.3 All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [in case of opening of financial bids] and any variant, where necessary, the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation.

- 25.4 Bids (and modifications received in accordance with the provisions of article 24 of the General Regulations) which were not opened and read to the hearing of everyone during the bid-opening session for whatever reason, shall not be submitted for evaluation.
- 25.5 Bid-opening minutes are recorded on the spot mentioning the admissibility of bids, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the
- 25.6 At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by the body in charge of regulation of public contract an initialled copy of the bids presented by bidders.
- 25.7 In case of petition as provided for by the Public Contracts Code, it should be addressed to the Minister Delegate in charge of Public Contracts with a copies to the body in charge of the regulation of public contracts, the head of structure to which is attached the Tenders Board concerned.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

The Independent Observer attaches to his report the sheet that was handed to him, including any related commentaries or observations.

Article 26: Confidential nature of the procedure

- 26.1: No information relating to the examination, clarification, evaluation and comparison of bids and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders or to any person not concerned with the said procedure as long as the preferred bidder has not been made public, subject to the disqualification of the bid of the bidder and suspension of the authors from all activities in the domain of public contracts.
- 26.2 Any attempt by a bidder to influence the Tenders Board or the Evaluation sub-committee of bids or the Contracting Authority in its award decision may lead to the rejection of his bid.
- 26.3 Notwithstanding the provisions of paragraph 26.2 above, between the opening of bids and the award of the contract, if a bidder wishes to enter into contact with the Contracting Authority for reasons having to with his bid may do so in writing.

Article 27: Clarifications on the bids and contact with the Contracting Authority

- 27.1 To ease the examination, evaluation and comparison of bids, the Tenders Board may, if it so desires, request any bidder to give clarifications on his bid. This request for clarification and the response thereto are formulated in writing but no change on the amount or content of the bid is sought, offered or authorized, except it is necessary to confirm the correction of calculation errors discovered by the Evaluation Sub-committee during the evaluation in accordance with the provisions of article 30 of the General Regulations.
- 27.2 Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the Evaluation Sub-committee for questions related to their bids, between the opening of envelopes and the award of the contract.

Article 28: Determination of compliance of bids

- 28.1 The Evaluation sub-committee shall carry out a detailed examination of bids to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the bids are in proper order.
- 28.2 The Evaluation sub-committee shall determine if the bid is essentially in compliance with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.
- 28.3 A bid that complies with the Tender File shall essentially be a bid that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:
- Which substantially limits the scope, quality or realization of the works;
- which substantially limits, contrary to the Tender File, the rights of the Contracting Authority or his obligations in relation to the contract,
- Whose correction would unjustly affect the competitiveness of the other bidders who presented bids that essentially complied with the Tender File
- 28.4 If a bid is essentially not in compliance, it shall be rejected by the competent Tenders Board and shall not subsequently be rendered in compliance.
- 28.5 The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of bids.
- Article 29: Qualification of the bidder: The Evaluation sub-committee shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in article 6 of the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: Correction of errors

- 30.1 The Evaluation sub-committee shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. The Evaluation sub-committee shall correct the errors in the following manner:
- a. Where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a gross error of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected

- 37.1 The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.
- 37.2 The Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.
- 37.3 After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.
- 37.4 In case of petition, it should be addressed to the Public Contracts Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned. It must take place within a maximum deadline of five (5) working days after the publication of the results.

Article 38: Signing of the contract

- 38.1 After publication of the results, the draft contract subscribed by the successful bidder is submitted to the Tenders Board for examination and where applicable, to the Minister in charge of Public Contracts for prior endorsement.
- 38.2 The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception of the draft contract examined by the competent Tenders Board and subscribed by the successful bidder and where applicable, the endorsement of the Minister in charge of Public Contracts.
- 38.3 The contract must be notified to the successful bidder within five (5) days of its date of signature.

Article 39: Final Bond

- 39.1 Within twenty (20) days of the notification by the Contracting Authority, the contractor shall furnish the Project Owner with a final bond, to guarantee the complete execution of the works.
- 39.2 The bond whose rate varies between 2 and 5 per cent (%) of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.
- 39.3 Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first-rate financial institution approved in accordance with the instruments in force.
- 39.4 Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

If need be, in accordance with the provisions of article 18(3) of the Special Regulations and the Technical Specifications, the proposed technical variants, if they are permitted, shall be evaluated on their own merit and independently of the fact that the bidder offered or not a price for the technical solution specified by the Contracting Authority in the Special Regulations.
- 32.3 The estimated effect of price revision formulae featuring in the GAC and SAC applied during the period of execution of the contract shall not be considered during the evaluation of bids.
- 32.4 If the bid judged the lowest bid is considered abnormally low or strongly unbalanced in relation to the estimates of the Project Owner for the works to be executed in this contract, the Tenders Board may, from the sub-details of prices furnished by the bidder for any element or all the elements of the bill of quantities and estimates, verify if these prices are compatible with the construction methods and proposed calendar. In the case where the justifications presented by the bidder are not satisfactory, the Contracting Authority may reject the bid after the technical opinion of the Public Contracts Regulatory Agency.
- Article 33: Preference granted national bidders: National contractors shall benefit from a margin of national preference during the evaluation of bids as provided for in the Public Contracts Code.

F- AWARD OF THE CONTRACT

Article 34: Award

- 34.1 The Contracting Authority shall award the contract to the bidder whose bid was judged essentially in compliance with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest by including, where necessary, proposed rebates
- 34.2 If, according to article 13(2) of the General Regulations, the invitation to tender comprises several lots, the lowest bid shall be determined by evaluating this contract with other lots to be awarded concurrently, by taking into account the rebates offered by the bidders in the case of more than one lot.
- 34.3 Any award of contract shall be made to the bidder fulfilling the technical and financial capacities required resulting from the evaluation criteria and presenting the bid evaluated as the lowest.
- Article 35: The right by the Contracting Authority to declare an invitation to tender unsuccessful or cancel a procedure: The Contracting Authority reserves the right to cancel a procedure of invitation to tender after the authorization of the Minister Delegate at the Presidency in charge of Public Contracts where the bids have been opened or to declare an invitation to tender unsuccessful after the advice of the competent Tenders Board, without any claims being entertained.
- Article 36: Notification of award of the contract: Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.
- Article 37: Publication of results of award and petitions

b. For payments in foreign currencies (amount in figures and letters exclusive of taxes) by credit to account No.______ opened in the name of the contractor in

Article 14: Price variation:

14.1 Prices shall be firm.

- a. Payments on account made to the contractor as advances shall not be revisable.
- b. Revision shall be "frozen" upon expiry of the contractual time-limit, except in the case of price reductions.
- 14.2 Price updating modalities (not applicable)

Article 15: Price revision formulae: Not applicable

Article 16: Price updating formulae: Not applicable Article 17: Works under State supervision:

17.1 The percentage of works under State supervision shall be 2 % of the amount of the contract and its additional clauses, where applicable.

17.2 In the case where the contractor was invited to execute works under State supervision, the submitted and duly justified expenditures shall be reimbursed to him under the following conditions:

- The quantities considered shall be the hours used or the quantities of building materials and materials used that was the subject of joint job cost sheets;
- The remunerations and salaries effectively paid to local labour shall be increased by forty percent (40 %) to take account of social benefits;
- The hours put in by the heavy equipment shall be counted at the rate featuring in the sub-detail of prices;
- Building materials and materials shall be reimbursed at cost price duly justified at the place of use, marked up by ten percent for loss, stocking and handling;
- The amount for services thus calculated, including the hours put by heavy equipment shall be marked up by 25 % to take into account the overheads, profits and the contractor's unforeseen.

Article 18: Evaluation of works: This contract is evaluated at unit prices

Article 19: Evaluation of supplies: No security shall be requested for payments on account on supplies.

Article 20: Advances:

20.1 The Contracting Authority may grant a start-off advance equal to 20 % of the amount of the contract.

20.2 This advance whose value cannot exceed twenty (20) percent of the initial amount inclusive of all taxes shall be guaranteed at one hundred (100) percent by a banking establishment governed by Cameroon law or a first-rate financial institution in accordance with the instruments in force and reimbursed by deduction of the payments on accounts to be paid to the contractor during the execution of the contract according to the modalities laid down in the Special Administrative Conditions.

20.3 The total amount of the advance must be reimbursed not later than when the value in Secondary price of the works reaches eighty (80) percent of the amount of the contract.

20.4 As the reimbursement advances, the Project Owner shall issue the release of the corresponding part of the guarantee upon the express request by the contractor.

20.5 The possibility of granting start-off advance or advance for supplies must be expressly stipulated in the Tender File.

Article 21: Payment for works:

21.1 Establishment of works executed: Before the 30th of each month, the contractor and the Project Manager shall jointly establish a job cost sheet which summarises and fixes the quantities executed and established for each item on the schedule during the month and capable of giving entitlement to payment.

21.2 Monthly detailed account: Not later than the fifth (5th) of the month following the month of the services, the contractor shall hand over to the Project Manager two draft provisional monthly detailed accounts in seven copies (one detailed account exclusive of VAT and the other inclusive of taxes), according to the agreed model and establishing the total amount of the sums to which he may lay claim as a result of the execution of the contract since the start of the contract.

Only the detailed account exclusive of VAT shall be paid to the contractor. The detailed account of the amount of the taxes shall be the subject of an entry into the budgets of the Ministry in charge of Finance

Only the amount exclusive of VAT shall be paid to the contractor.

The Project Manager has a time-limit of seven (7) days to forward to the Contract Manager the detailed accounts he has approved. The Contract Engineer has a maximum time-limit of twenty-one (21) days to forward the detailed accounts he approved such that they are in his possession not later than the twelve of the month. The Contract Manager has a deadline of fourteen (14) days maximum to sign the detailed accounts.

Payments shall be done by the Project owner within a maximum deadline of three (03) calendar days from the date of submission of the approved detailed accounts.

21.3 Detailed account of start-off account: Not applicable

Article 22: Interest on overdue payments: Possible interests on overdue payments are paid by statement of sums due in accordance with article 166 of Decree No. 2018/366 of 20 June 2018 to institute the Public Contracts Code.

Article 23: Penalties:

A. Penalties for delay

- 23.1 The amount set for penalties for delays shall be set as follows:
- a) One two thousandth (1/2000th) of the initial contract amount all taxes inclusive per calendar day of delay from the first to the 30th day beyond the contractual timelimit:
- b) One thousandth (1/1000th) of the initial amount of the contract inclusive of all taxes per calendar day beyond the 30th day.
- 23.2 The cumulated amounts of penalties for delay shall be limited to ten percent (10 %) of the initial contract inclusive of all taxes.

B. Specific penalties

23.3 Independently of penalties for overrun of contractual time-limit, the contractor shall be liable for the following special penalties for the non-observation of the provisions of the contract, especially:

- Late submission of final bond;
- Late submission of insurances:
- Late submission of the draft execution schedule if the lateness is caused by the contractor.

Article 24: Payment in case of a group of enterprises:

- 1. In the case of a group of enterprises, indicate the method of payment of co- and sub-contractors, where need be.
- Indicate the method of payment of sub-contractors, where need be.

Article 25: Final detailed account:

25.1 After completion of the works and within a maximum time-limit of fourteen (14) days after the date of provisional acceptance, the contractor shall establish, based on joint reports, the draft final detailed account of works executed and which detailed account summarises the total sums to which the contractor may be entitled as a result of the execution of the whole contract.

25.2 The Contract Manager has up to thirty (30) days to notify the corrected and approved draft to the Project Manager.

25.3 The contractor has up to thirty (30) days to return the signed final detailed account.

Article 26: General and final detailed account

26.1 The Contract Manager or the Project Manager has up to thirty (30) days to establish the general detailed account and forward to the contractor after final acceptance

At the end of the guarantee period which results in the final acceptance of the works, the Contract Manager draws up the general and final detailed accounts of the contract which he had signed jointly by the contractor and the Contracting Authority. This detailed account includes

- the final detailed account,
- the balance
- the summary of monthly payments on account.

The signing of the general and final detailed account without reservation by the contractor definitely binds the two parties, puts an end to the contract, except with regard to interest on overdue payments.

26.2 The contractor has up to thirty (30) days to return the signed final detailed account.

Article 27: Tax and customs regulations: Decree No. 2003/651/PM of 16 April 2003 lays down the terms and conditions for implementing the tax regulations and customs procedures applicable to public contracts. The taxes applicable to this contract include notably:

- Taxes and dues relating to industrial and commercial profits, including the AIR which is a deduction on company taxes;
- Registration dues in accordance with the Tax Code;
- Dues and taxes attached to the execution of services provided for in the contract;
- Duties and taxes of entry into Cameroonian territory (customs duties, VAT, computer tax);
- Council dues and taxes;
- Dues and taxes relating to the extraction of buildings materials and water.

These elements must be included in the costs which the undertaking imputes on its running costs and constitute one of the elements of the sub-details of prices exclusive of taxes. All taxes inclusive prices means VAT included.

Article 28: Stamp duty and registration of contracts: Seven (7) original copies of the contract shall be stamped by taxation service and at the cost of the contractor, in accordance with the applicable regulations

Chapter III: Execution of works

Article 29: Nature of the works: The works shall include especially: (position or volume of works), See Special Technical Conditions.

Article 30: Role and responsibilities of the Project Owner

- 30.1 The Project Owner shall be bound to furnish the contractor with information necessary for the execution of his mission and to guarantee, at the cost of the contractor, access to sites of projects.
- 30.2 The Project Owner shall ensure the contractor of protection against threats, insults, violence, assault and battery, slander or defamation of which he could be victim by reason of or during the exercise of his mission.

Article 31: Execution time-limit of the contract:

- 31.1 The time-limit for the execution of the works forming the subject of this contract shall be Three (03) months (90) days.
- 31.2 This time-limit shall run from the date of notification of the Administrative Order to commence execution of the works.
- Article 32: Role and responsibilities of the contractor: The detailed and general plan of progress of the works shall be communicated to the Project Manager in five (05) copies at the beginning of each month.
- Article 33: Provision of documents and site: A reproducible copy of the plans featuring in the Tender File shall be submitted by the Contract Manager. The Project Owner shall make available the site and access ways to the contractor at the appropriate time as the works progress.
- Article 34: Insurance of structures and civil liabilities: The following insurance policies are required within the scope of this contract in the minimum amounts indicated hereafter within fifteen (15) days of the notification of the contract (to be adapted):
 - Liability insurance, business manager;
 - Comprehensive insurance of the site:
 - Insurance covering its ten-year obligation, where applicable.

Article 35: Documents to be furnished by the contractor:

35.1 Programme of works, Quality Assurance Plan and others.

a) Within a minimum deadline of fifteen (15) days from the date of notification of the Administrative Order to commence execution, the contractor shall submit in six (6) copies for the approval of Contract Manager after the endorsement of the Contract Engineer the execution programme of the works, his work calendar, his draft Quality Assurance Plan and the Environment Impact Notice, where applicable.

This programme shall be exclusively presented according to the furnished models.

Two (2) copies of these documents will be returned to him within a deadline of fifteen (15) days from the date of receipt with:

- Either the indication "GOOD FOR EXECUTION";
- Or the indication of their rejection including the reasons for the said rejection.

The contractor has eight (8) days to present a new draft. The Project Engineer and the Contract Manager then have a deadline of five (5) days each to give his approval or possibly make comments. Delay in approving the draft execution schedule shall stay the execution deadline.

The approval given by the Contract Manager or Project Manager does not in any way release the contractor of his responsibilities. Meanwhile, works executed before the approval of the programme shall neither be ascertained nor paid for. The updated and approved schedule will become the contractual schedule.

The contractor shall constantly update on site, a schedule that will take account of real progress of the site. Significant modifications may only be made on the contractual programme upon receiving the approval of the Project Manager. After approval of the execution schedule by the Contract Manager, the latter shall transmit it within five (5) days to the Contracting Authority without staying its execution. However, if important modifications alter the objective of the contract or the nature of the works, the Contracting Authority shall return the execution schedule accompanied by reservations to be lifted within fifteen (15) days of the date of reception.

- b) The Environment Impact Notice should bring out notably the choice of technical conditions of the site and Secondary life, conditions of the backfill of the extraction sites and conditions for reinstating the works and installation sites.
- c) The contractor shall indicate in this schedule the equipment and methods which he intends to use as well as the personnel he intends to employ.
- d) The approval granted by the Contract Manager or Project Manager shall in no way diminish the responsibility of the contractor with regard to the harmful consequences which their implementation may cause both towards third parties and the respect of clauses of the contract.

35.2 Execution draft

- a) The execution plan documents (calculations and drawings) necessary for the realisation of all the parts of the structure must be submitted for the endorsement of the Contract engineer or Project Manager at most lifteen (15) days prior to the date provided for the commencement of execution of the corresponding part of the structure.
- b) The Contract engineer has a deadline of five (05) days to examine and make known his observations. The contractor then has a deadline of [04) four days to present a new file including the said observations.
- 35.3 In case of the non-observance of the approval deadlines of the above documents by the Administration, these documents shall be deemed to have been approved.

Article 36: Organisation and safety on site: Signboards at the beginning and end of each section must be placed within a maximum deadline of fifteen days after the notification of the Administrative Order to commence work. The services to inform in case of interruption of traffic or along the deviated itinerary are the Delegated Contracting Authority, Project Owner, contract Engineer

ARTICLE 37: Commencement of work: Before the commencement of work, the contractor shall be installed on the site by a commission that is made up of the following:

*	The Project Owner or his representative	(Chairperson)
	The Contract Manager	
	The Contract Engineer or his representative	(Secretary)
	The Project Manager	(Member)
*	The Regional Coordinator PPRD North West	(Member)
*	The Divisional Delegate of MINEPAT or his representative	(observer)
*	The Divisional Delegate of MINMAP or his representative	(observer)
*	The Divisional Delegate of MINDDEVEL or his representative	(observer)
*	The Contractor or his Representative	(Member)

The Project Owner (Chairperson) shall schedule for the site installation and invite the members of the commission by a letter of invitation - not more than five (5) working days.

Article 38: Setting out of the structures: The Project engineer, upon receipt of the contract documents transmitted by the Contracting Authority shall indicate to the contractor - within five (5) days the building line and all other Secondary points and levels of the project, for proper setting out

Article 39: Sub-contracting: The part of the works that can be sub-contracted shall be 30 % of the initial amount of the contract and its additional clauses.

Article 40: Site laboratory and trials: The project engineer has a deadline of three days to approve the contractor's personnel and laboratory as soon as the request is made.

Article 41: Site logbook:

40.1 The Site logbook must be systematically jointly signed by the Project Manager or Engineer, where need be and the contractor's representative each day.

40.2 It is a joint document in a single copy. Its pages must be numbered and initialled. No page should be removed. The erased or cancelled parts must be mentioned on the margin for validation.

NB: The Site logbook most be such that two carbon copies of each page are left behind.

Article 42: Use of explosives: The contractor shall not use any explosives without prior authorization.

Chapter IV: ACCEPTANCE OF WORKS

Article 43: Pre- Acceptance: Before the provisional acceptance of the works, the contractor shall make a written request to the Contract Engineer, who shall then organize a technical visit for pre-acceptance. This visit shall include the following operations.

- Qualitative and quantitative evaluations of the different works that have been executed.
- > Findings and statement of the unexecuted task envisaged in the present jobbing order.
- > Findings relative to the completion of the work

These operations shall be subject to a site report drawn up and signed on the field, by the following

-The Contract Engineer or his representative	(Secretary)
-The Project Manager	(Member)
-The Contractor or his Representative	(Member)

During this pre-acceptance, the commission shall eventually specify the reserves to be up-lifted and the corresponding works to be effected before the provisional acceptance.

Article 44: Provisional Acceptance: The contractor shall request the Authorizing officer in writing, to schedule and call for the provisional acceptance of the works. The report (minutes) of the Pre- Acceptance shall be attached to the said request. The Authorizing officer shall then fix the date of acceptance in collaboration with the Contract Engineer and call for the task by a letter of invitation. The acceptance commission shall comprise the following:

The Project Owner (Mayor) or his representative	(Chairman)
The Contract Manager	(Mamhar)
The Contract Engineer or his representative	(Secretary)
The Project Manager	(Member)
The Regional Coordinator PPRD North West	(Member)
The Stores Accountant	(Member)
The Divisional Delegate MINMAP or his representative	(Observer)
The Divisional Delegate MINDDEVEL or his representative	(Observer)
The Contractor or his Representative	(Member)

The commission shall examine the report of the Pre-acceptance and shall proceed to the Provisional Acceptance if satisfied with the works executed. An acceptance report (process - verbal) of the works shall be prepared by the Contract Engineer and signed by all the commission members on the site.

Article 45: Final acceptance: Final acceptance shall take place within a maximum deadline of fifteen (15) days from the date of expiry of the guarantee. The commission and procedure for final acceptance shall be the same as for Provisional Acceptance

Article 46: Guarantee Period: The guarantee period shall last for one (01) year from the date of the provisional acceptance.

Chapter V: SUNDRY PROVISIONS

Article 47: Termination of the contract (article 74 of the GAC)

The contract may be terminated as provided for in Section II Paragraph 1 and 2 of Decree No. 2018/366 of 20 June 2018 and equally under the conditions laid down in articles 74, 75 and 76 of the GAC especially in one of the following cases:

- Death of the allotee.
- Bankruptcy of the allotee
- Judicial liquidations
- In case of sub-contracting, co-contracting or subsidiary orders with the prior authorisation of the project owner
- Failure to comply with labour laws and regulations
- Significant price variation under the conditions laid down by the General Administrative Clauses due to changes in economic conditions or in the initial quantities of the contract.
- Duly established fraudulent and corrupt practices
- Delay of more than fifteen (15) calendar days in the execution of an Administrative Order or unjustified stoppage of more than seven (7) calendar days;
- Delay in work resulting in penalties of more than 10 % of the amount of the works;
- Refusal to repeat poorly executed works;
- Default by the contractor;
- Persistent non-payment for services.

Article 48: Case of force majeure (article 183 of the GAC): If the contractor were to raise the issue of force majeure, the thresholds below which claims shall not be admitted are:

- Rainfall: 200 millimetres in 24 hours:
- Wind: 40 metres per second;
- Flood: decennial flood frequency.
- War and insecurity
- Road blockage
- Terror
- Outbreak of pandemic

Article 49: Disagreements and disputes (article 187 of the GAC): Disagreements and disputes resulting from the execution of this contract may be settled amicably. Where no amicable solution can be found for a disagreement, it is brought before the competent Cameroonian jurisdiction.

Article 50: Production and dissemination of this contract: Fifteen (15) copies of this contract shall be produced at the cost of the contractor and furnished to the Contract Manager.

Article 51: Entry into force of this contract: This contract shall be final only upon its signature by the Contracting Authority. It shall enter into force as soon as it is notified to the contractor by the Contracting Authority.

Article 52 and last: INFORMATION TO BE POSTED: The Contractor shall put up a visible sign board (total height=2.80m, width=1.20m, board thickness=2.5cm at 1,20m above the ground level with poles embedded in concrete) at the entrance to the site on a place approved by the Contract Engineer, bearing the following text written on one side of the board.

Article 22: Calculation of the Level of Realization.

The technical specifications presented herein below define the waterworks that shall be executed for the Rehabilitation of Bainjong Water Supply Scheme and the manner in which these works shall be carried out. So the Contractor is expected to read these specifications critically and identify all the articles that are applicable to his job.

TECHNICAL SPECIFICATIONS

The present water condition is so deplorable since the inhabitants fetch water from surface running water or streams that flow through areas where staying domestic animals do contaminates the water used for drinking and other usages. It may be subjected to environmental hazards which might consequently lead to water borne diseases in this project area especially the hospital.

2.3 Objective of this study:-

To contribute to poverty alleviation or reduction, improve the health and dwelling conditions of the people of Bainjong by providing them with access to safe regular drinking water, good in quality and quantity.

2.3.1 Specific objectives:-

- -To carry out a detailed feasibility studies of the situation that prevails in Bainjong as per the water supply
 - To propose the various works needs to solve the water problem in the community
 - To carry out a socio-economic study of the area, so as to identify the social infrastructures, institutions and defectors that may affect the project positively or negatively as well as to determine the economic potentials of the community of Bainjong.

- Finally to seek ways of acquiring financial and material assistance in order to successfully realize this felt need project since these communities cannot be able to realize this project through their own self-reliant efforts.
- These communities are quite prepared to carry out any expected communal preparations instructed by the technical service concerned as they are on their knees in great anticipation for the project.

For the complete project, the following components are required:

- The construction of 02 spring catchments.
- 2) The construction of 02 collection chambers:
- The construction of a low and high point along the pipeline 3)
- 4) The rehabilitation of one 10m3capacity round storage tank;
- 5) 5.830 kilometers piping network:
- 6) 10 single stand pipes, and 4 old stand taps to be rehabilitated:
- 7) Two(02)valve chambers:
- 8) Directional pillars for river crossing:
- 9) Environmental mitigation measures:
- 10) The catchment protection;
- 11) The supply of a tool kit to the care takers after training the management committee.

3-WATER BUDGET

The population of Bainjong, men, women, and children is about 4860 inhabitants.

3.1 Available water quantity

Water source	Dry Season	Wet Season
Spring (1)	1litre/Sec.	3litres/Sec.
Spring(2)	1litre/sec	3litres/sec
Total	172.8m³/day	1036.2m³/day

3.2 water consumption

Population=4860x30 L/ Head=145800L or 14.58m3

Maximum consumption=145,800x1.2=174960L or 174,96m3

Yield from each source=1Ltx60secx60minx24hrs=86.4m3/day=3.6m3/hr.

3.3 Water Supply and Demand

Time	Demand	Supply	Balance	Sum of balance
6:am-9:am	30%x72m³=21.6m³	3.6m ³ x3hrs=10.8m ³	-10.8m³	-10.8m³
9:am-14:pm	25%x72m³=18m³	3.6m ³ x5hrs=18m ³	0m ³	-10.8m³
14:pm-19pm	35%x72m³=25.2m³	3.6m ³ x5hrs=18m ³	-7.2m³	-18.0m³
19:am-6:am	10%x72m³=7.2m³	3.6m ³ x11hrs=39.6m ³	+32.4m³	+14.40m³

At this stage, a storage tank of 10m3 capacity is needed for the present and future, for technical and economic reasons.

4. TECHNICAL DESCRIPTION OF THE VARIOUS STRUCTURES OR COMPONENTS

4.1 The spring catchment:-

One spring catchment had already been constructed by the community having a flow of 1liter/second on a high hill having a height of 100 meters higher than the village. This can enable water to flow by gravity. It was constructed in reinforced concrete but the front part needs to be with a retaining wall in order not to permit erosion to go directly on to the catchment slab etc. The spring catchment links the collection chamber with a canal and pipe.

4.2 The collection chamber:-

Two collection chambers of 1.00m3 capacity had been constructed but a strainer will be attached to the pipe that takes water from it into the storage tank. An attached valve control chamber shall be constructed during the rehabilitation of the collection chamber. The structure too is in reinforced concrete.

The storage tank:

A storage tank of capacity 10m3 shall be rehabilitated with reinforced concrete and gladded with stone masonry. The foundation shall be of reinforced concrete, same with the slab. Other details shall be known during the execution period.

4.4 Distribution points:-

Public stand pipes will be provided and spaced at every 200 meters to 300 meters to satisfy the population concentration and some technical requirements accordingly. If it becomes absolutely necessary, some will be provided with soak away pits. This project is designed for 10 single stand pipes and 4 old stand pipes (to be rehabilitated) are deemed necessary and are located at points indicated on the situation plan.

4.5 Hydraulic installation:-

From the spring catchment points, the different collection chambers to link the storage tank shall be of pressure pipes of 75mm NP10. Then from the storage tank going through the main line shall be of 63mm NP10 other distribution networks shall be of pipes ø32mm respectively.

Even though the whole pipe line shall be of PVC pressure pipes, it should be noted that, rocky areas road crossing and at consumer points the line shall be adopted from PVC to galvanized steel pipes. The whole piping network covers a distance of about 3.760 kilometers

Since the pipeline passes through bushes deep valleys and along the road that needs to be worked upon from time to time, the need to identify the line at given points cannot be over emphasized. In case of break down installation of new consumer points etc.

These pillars play a very important role. They are made in pre-cast concrete units and installed along the pipe line to determined distances and sight distances.

4.7 Construction methods:-

The construction work will be carried out by well qualified builders and plumbers as paid labor. More so, all the structures will be constructed with some modifications better than what used to be done in the past. The skilled builders and plumbers will be closely and strictly supervised by a competent hydraulic engineer. Meanwhile, the general labor works such as digging of stones, excavation of the pipe line trenches, backfilling, head load transportation, a forestation etc. shall be carried out by the powerful villages that need to earn something.

5. PROPOSED SOURCE OF FUNDING

The cost of this project being = 56,500,000 FCFA (FIFTY SIX MILLION FIVE HUNDRED THOUSAND FRANCS CFA being presented to the Ministry of Water Resources and Energy for funding.

ORGANIZATION OF THE PROJECT:-

- 5.1 The role of the community
- -Initiation of the project according to necessity;
- -Formation of the project/ management committee;
- -Taking care of the caretaker's compensation;
- -They see that the workers in the village are quite safe during execution;
- -Maintenance of the project after completion up to sustainability

5.2 The Management Committee:-

The management committee members of water supply were being democratically elected from the various sub quarter's beneficiary sectors by the inhabitants themselves as they best know those who could represent them successfully.

Hence, the management committee members are:-

S/N	NAME	FUNCTION	CONTACT No
1		CHAIRMAN	
2		SECRETARY	AND THE RESIDENCE OF THE PARTY
3		FINANCIAL SECRETARY	
4		TREASURER	
5		TOWN CRIER	
6		ADVISER	
7		WOMEN REPRESENTATIVE	
8	CAN DECEMBER OF THE PARTY OF TH	MEMBER	
9		MEMBER	

The above management committee members will be strongly advised by the Divisional Delegate of Water Resources and Energy for Boyo to show proof of collective responsibility, honesty, sacrifice and to carry out their work with assiduity.

Hence they are responsible for the following:

- Follow up successfully the feasibility studies at all stages;
- -Drawing up working programmers with the concerned technical services in charge e.g. communal activities;
- -Presentation of the progress reports to the technical services concerned
- -To contact the appropriate technical services to give solutions for their developmental programs
- 8) Operation, maintenance and sustainability.

The operation and maintenance of a water supply scheme is fairly difficult. This can only be possible if a well-organized water management committee is put in place and the two caretakers who are also members of the management committee shall join the execution team from the start to the end of the project, so as to know the working principles of the various components of the project. This will enable the sustainability of the project.

Budget for maintenance

The following annual budget is foreseen to operate the scheme

The caretaker compensation =240,000 FRS

The replacement of damaged parts =60,000 FRS

Transport/fuel for supervision

=40,000 FRS

Total

=340.000 FRS However, training of the management committee on specific management skills like record keeping planning, monitoring for effectiveness, budgeting, hygiene and sanitation principles etc. is all important to ensure the sustainability of the project.

Concluding Remarks

In fact, it is very essential for the Bainjong community to realize this very important project because the contribution of clean water to human health cannot be over emphasized

This project has proved feasible both technically and institutionally. More so, the many struggles for portable water by this community has kept them kneeling down and praying to God for this project to be realized.

The improvement of health and living standards will go a long way to alleviate poverty and more developmental projects will spring up.

This dynamic and hardworking community is anxiously waiting happily, to receive the assistance from the Ministry of Water Resources and Energy.
