E. Opening of envelopes and evaluation of bids

Article 26: Opening of envelopes and petitions

26.1 The competent Tenders Board shall open the envelopes in single or two phases in the presence of the representatives of bidders who wish to attend and who have a perfect mastery of the file, at the date, time and address specified in the Special Regulations. 26.2 Firstly, envelopes marked "withdrawal" shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal of a bid shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked "Replacement bid" are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened.

The replacement of a bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked "modification" shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed only if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated

26.3 All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [*in case of opening of financial bids*] and any variant, where necessary, the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. A copy of the said minutes to which is appended the attendance sheet is handed over to all the participants at the end of the session.

26.6 At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by ARMP an initialed copy of the bids presented by bidders and a copy to MINMAP for files requiring his prior endorsement.

26.7 In case of petition as provided for by the Public Contracts Code, it should be addressed to the Minister Delegate at the Presidency of the Republic in charge of Public Contracts with copies to the body in charge of the regulation of public contracts, the head of structure to which is attached the Tenders Board concerned.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

The Independent Observer must attach to his report the sheet that was handed to him, including any related commentaries or observations.

Article 27: Confidential nature of the procedure

27.1 No information relating to the examination, evaluation, comparison of bids and verification of the qualification of bidders and the contract award recommendation shall be given to bidders or to any other person concerned with the said procedure as long as the contract award has not been made public, subject to the disqualification of the bidder and the suspension of the authors from all activities related to public contracts.

27.2 Any attempt by a bidder to influence the Tenders Board or the Evaluation sub-committee of the bids or the Contracting Authority in their award decision may cause the rejection of his bid.

27.3 Notwithstanding the provisions of article 27(2), between the opening of envelopes and the award of the contract, if a bidder wishes to enter into contact with the Contracting Authority for reasons having to do with his bid, he should do so in writing.

Article 28: Clarifications on the bids and contact with the Contracting Authority

28.1 To ease the examination, evaluation and comparison of bids, the Tenders Board may, if it desires, request any bidder to give clarifications on his bid. This request for clarification and the response given are formulated in writing but no change on the amount or content of the bid is sought, offered or authorized, except it is necessary to confirm the correction of calculation errors discovered by the Evaluation sub-committee during the evaluation in accordance with the provisions of article 32 of the General Regulations.

28.2 Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the Evaluation sub-committee for questions related to their bids, between the opening of envelopes and the award of the contract.

Article 29: Conformity of bids

29.1 The committee in charge of evaluation shall carry out a detailed examination of bids to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the bids are in proper order.

29.2 The committee in charge of evaluation shall determine if the bid is essentially in conformity with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.

29.3 A bid that conforms to the Tender File shall essentially be a bid that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or omission is that:

- *which substantially limits the scope, quality or performance of the supplies and ancillary services specified in the contract;*
- which substantially limits and is not in conformity with the Tender File, the rights of the Contracting Authority or the obligations of the bidder in relation to the contract; or
- Whose acceptance would be prejudicial to other bidders who presented bids that essentially conformed with the Tender File.

29.4 If a bid is essentially not in compliance, it shall be rejected by the competent Tenders Board and shall not eventually be rendered in compliance.

29.5 The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of bids.

Article 31: Qualification of the bidder: The committee in charge of evaluation shall ensure that the bidder retained for having submitted the bid that substantially conformed to the provisions of the Tender File, meets the qualification criteria stipulated in article 6 of the Special Regulations. It is essential to avoid arbitrariness in determining qualification.

Article 32: Correction of errors

32.1 The committee in charge of evaluation shall verify the bids considered essentially in conformity with the Tender File to rectify the possible calculation errors. The committee in charge of evaluation shall rectify the errors in the following manner:

- a) If there is a contradiction between the unit price and the total obtained by multiplying the unit price by the quantities, the unit price shall be authentic and the total price shall be corrected, unless, according to the Evaluation sub-committee, the decimal point of the unit price is manifestly badly placed. In which case the total price indicated shall prevail and the unit price corrected.
 - b) If the total obtained by the addition or subtraction of sub totals is not exact, the sub totals shall be authentic and the total corrected;
- If there is a contradiction between the indicated price in letters and figures, the amount in letters shall be authentic, unless the amount is linked to an arithmetical error, in which case the amount in figures shall prevail subject to paragraphs a) and b) above.

32.2 The amount featuring in the bid shall be corrected by the Evaluation sub-committee in accordance with the error correction procedure referred to above and with the confirmation of the bidder, the said amount shall be considered to commit him.

32.3 If the bidder who presented the bid assessed as being the lowest bid does not accept the corrections, his bid shall be rejected and his bond may be seized.

Article 33: Financial evaluation of bids

33.1 The committee in charge of evaluation shall proceed to the evaluation and comparison of bids which it had determined essentially met the provisions of the Tender File within the meaning of articles 29, 30 and 31 of the General Regulations.

33.2 For this evaluation the committee in charge of evaluation shall consider the following elements:

- the bid price, indicated according to the provisions of article 13 of the General Regulations;
- adjustments made on the price to correct the arithmetical errors in application of article 32 of the General Regulations;
- adjustments made on the price as a result of rebates offered in application of paragraph 13(4) of the General Conditions;

33.3 To evaluate the bid price, the committee in charge of evaluation may equally consider factors other than the bid price indicated including the characteristics, performance of the supplies and ancillary services and purchase conditions.

The factors retained and specified in the Special Regulations, where need be, shall be expressed in monetary terms in a way as to facilitate the comparison of bids.

Article 34: Comparison of bids: The committee in charge of evaluation shall compare all the bids that substantially conform to determine the bid valued as the lowest, in application of articles 34 above.

F. Award of the contract

Article 35: Award of the contract

35.1 The Contracting Authority shall award the contract to the bidder whose bid was judged essentially in conformity with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest by including, where necessary, proposed rebates.

35.2 If the invitation to tender has several lots, the lowest bid shall be determined by evaluating this contract in relation with the other lots to be awarded concurrently, by taking into consideration the rebates offered by the bidders in case of award of more than one lot, as well as their financial situation at the time of award.

35.3 Any award of supplies contract shall be to the bidder meeting all the technical and financial capacities resulting from the required essential or eliminatory criteria and presenting the bid evaluated as the lowest.

Article 36: Right of the Contracting Authority to declare an invitation to tender unsuccessful or cancel a procedure

Article 37: Right to modify quantities during the award of the contract

During the award of the contract, the Contracting Authority reserves the right to increase or decrease by not more than fifteen per cent (15%), the quantity of the supplies and services initially specified in the Quantity Schedule, without changing the unit prices or other terms and conditions.

Article 38: Notification of the award of the contract: Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the successful bidder by telecopy confirmed by registered mail that his bid was retained. This letter shall indicate the amount the Project Owner will pay the supplier to execute the contract and the execution time-limit.

Article 39: Publication of results of award and petitions

39.1 Any award decision of a public contract by the Project Owner or the Delegated Project Owner shall be inserted with an indication of the price and deadline in the Public Contracts Journal published by the body in charge of the regulation of public contracts or any other publications authorized to do so.

39.2 The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be appended the evaluation report of the bids.

39.3 The Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

39.4 After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.

39.5 In case of petition, it should be addressed to the Minister Delegate in charge of Public Contracts with copies to the Public Contracts Regulatory Agency, the Contracting Authority and the chairperson of the said Tenders Board. It must take place within a maximum deadline of five (5) working days after the publication of the results.

Article 40: Signing of the contract

40.1 After publication of the results, the draft contract subscribed by the successful bidder shall be submitted to the Tenders Board for examination and opinion and where applicable to the prior endorsement of the Minister in charge of public contracts.

40.2 The Contracting Authority has seven (7) days to sign the contract from the date of reception of the draft contract approved by the competent Tenders Board and subscribed by the successful bidder and where applicable after the endorsement of the Minister in charge of Public Contracts.

40.3 The contract must be notified to the successful bidder within five (5) days of its date of signature.

Article 41: Final Bond

41.1 Within twenty (20) days of the notification by the Contracting Authority, the supplier shall furnish him with a final bond in the form stipulated in the Special Regulations, in accordance with the model provided in the Tender File.

41.2 The bond whose rate varies between 2 and 5% of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment in accordance with the instruments in force with the Contracting Authority as beneficiary or by a joint or several guarantee.

41.3 Small and medium-sized enterprises (SME) constituted of nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or a first rate financial institution approved in accordance with the instruments in force.

41.4 Failure to produce the final bond within the prescribed time-limit shall likely cause the termination of the contract.

DOCUMENT NO. 5: TECHNICAL SPECIFICATIONS

The TS constitute the basis of verification of the conformity of the supplies and their evaluation. Consequently, well defined TS ease the preparation of conforming bids by bidders as well as the preliminary examination, evaluation and comparison of bids by the Evaluation Sub-committee.

- The TS require that all supplies as well as the materials that make them up be new, unused, be the recent or current model and that they include all the improvements in issues of conception and materials, except the contract stipulates otherwise.
- The TS take into account practices considered as being the best by experience. The use of specifications prepared in the same country and applied to the same sector may constitute a safe base to prepare the TS.
- The use of the metric system is highly recommended.
- The standardisation of TS may have advantages and depends on the complexity of the supplies and the repetitive nature of the award of contracts under consideration. The TS must be sufficiently general to avoid creating difficulties in use by the labourers of the materials, equipment generally used in the manufacture of similar supplies.
- The standards in terms of equipment, materials and labour specified in the tender documents should not have an exclusion character. As far as possible, international standards must be used. References to trade marks, catalogue numbers or other details which circumscribe the materials or articles to a particular manufacturer must, as far as possible, be avoided. Where inevitable, such description of an article must always include the inscription "or equivalent in substance".
- The TS describe in detail the requirements concerning, among others, the following aspects:
 - Standards required concerning materials and manufacturing and production of supplies;
 - Details concerning tests (type and number);
 - Complementary ancillary services necessary to ensure delivery/execution in due form;
 - d) Detailed activities borne by the bidder, possible participation of the buyer in these activities;
 - e) List of functioning guarantees (details) covered by the Guarantee and details concerning the applicable damages in case of the non-respect of this functioning guarantees.
- TS specify the main technical and functioning characteristics required as well as the other requirements such as the guaranteed maximum or minimum values, as the case may be. If necessary, the Contracting Authority includes an ad hoc formula (document attached to the tender letter) in which the bidder furnishes the detailed information on the acceptable values or guarantees of the functioning guarantees.
When the Project Owner requires that the bidder furnish in his bid part or all the TS, technical documents or other technical information, the nature and quantity of information requested as well as their presentation in the bid must be specified.
