TENDER NOTICE

OPEN NATIONAL INVITATION TO TENDER

**N° 04 ONIT/MINDDEVEL/NWR/MCH/BC/BCITB/2026 OF 21 JAN 2026 FOR
THE CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN
BUFI AND THE CONSTRUCTION OF 3 BOX CULVERTS (GS BUFI –
BUTUNDU – MORSENGE) IN BENAKUMA COUNCIL, MENCHUM
DIVISION OF THE NORTH WEST REGION,**

1) SUBJECT OF THE INVITATION TO TENDER:

Within the frame-work of the 2026 Public Investment Budget, the Contracting Authority (Mayor of Benakuma Council), hereby representing the State of Cameroon, launches an Open National Invitation to Tender under **NORMAL CONDITIONS** for the Construction of 15km stretches of road within Bufi and the construction of 3 box culverts (GS Bufi – Butundu – Morsenge) in Benakuma Council in Menchum Division- North West Region.

2) CONSISTENCY/NATURE OF SERVICE:

The works subject of this invitation to tender shall require for the Construction of 15km stretches of road within Bufi and the construction of 3 box culverts (GS Bufi – Butundu – Morsenge) in Benakuma Council, Menchum Division of the North West Region.

The works required are found in the detail description mentioned in the respective bills of quantities and cost estimates.

3) EXECUTION DEADLINE:

The maximum execution deadline provided for by the Project Owner for the execution of the works subject of this tender shall be **Ninety calendar days (90days)** with effect from date of notification of the Service Order to start execution.

4) ALLOTMENT:

The works subject of this invitation to tender shall be in one lot defined with specifications as in the table below:-

Lot	Works	Locality
1	The Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)in Benakuma Council, Menchum Division of the North West Region	Benakuma Council Area Menchum Valley Sub Division in Menchum Division-North West Region.

5) COST ESTIMATE:

The estimated cost of the operations (tasks) following feasibility studies stands as specified in the table below:-

Lot	Works	Locality	Estimated Cost
1	Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)in Benakuma Council, Menchum Division of the North West Region	Benakuma Council, Menchum Valley Sub Division in Menchum Division-North West Region.	65,000,000 FCFA

6) PARTICIPATION AND ORIGIN:

Participation in this invitation to tender is open to all registered and qualified companies or groups of companies based in the Republic of Cameroon with the required technical and professional expertise in the domain of **construction works** accompanied by the necessary financial capability.

7) FINANCING:

Works which form the subject of this invitation to tender shall be financed as per the programmed budget head of the 2026 Public Investment Budget (PIB 2026) of the Republic of Cameroon as specified in the table below:-

Lot	Ministry	Project Owner	Works	Provisional Amount	Expenditure authorization N°	Vote of charge N°
1	MINTP	The Mayor, Benakuma Council	Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)	65,000,000 FCFA	xxxxxxx	xxxxxxxxxxxxxxx

8) BID BONDS (PROVISIONAL GUARANTEE):

Each bidder shall enclose in his administrative documents a bid bond issued directly in the bidder's name by a first rate bank or financial body approved by the Ministry in charge of Finance and that shall respect the model in this tender file featuring on the list in document 12 of the tender file and valid for ninety (90) days beyond the original date of the validity of the offers.

Lot	Works	Locality	Estimated Cost	Bid Bond	Tender Fee
1	Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)	Menchum Valley Sub Division in Menchum Division-North West Region.	65,000,000 FCFA	1,300,000 FCFA	75,000 FCFA

9) CONSULTATION OF TENDER FILE:

The Tender documents may be consulted immediately after publication of this invitation to tender from the Services of the Contracting Authority (*Service in charge of the contracts*) during working hours at the Benakuma Council.

10) ACQUISITION OF TENDER FILE:

The Tender documents shall be obtained immediately after publication of this invitation to tender from the Services of the Contracting Authority during working hours at the Benakuma Council. The document shall be obtained upon presentation of a receipt of the Benakuma Municipal Treasury showing the payment of a non-refundable sum of **Seventy five thousand (75,000) francs CFA**.

11) SUBMISSION OF BIDS (OFFERS):

Each bid written in English or French shall be signed by the bidder or by a duly authorized Representative and presented in seven (7) copies that is **one (01) original and six (06) copies** labelled as such. These shall be submitted in one sealed external envelope containing three (3) envelopes, that is, Envelope A: Administrative Documents, Envelope B: Technical documents and Envelope C: Financial documents. It shall reach the Benakuma Council not later than **18 FEB 2026 at 10am** local time. The sealed external envelope shall be free of all identification marks, else it shall be rejected.

The sealed external envelope addressed to the Contracting Authority shall bear the following inscriptions:

OPEN NATIONAL INVITATION TO TENDER

N^o **04** / **ONIT/MINDDEVEL/NWR/MCH/BC/BCITB/2026 OF 21 JAN 2026** FOR THE
**CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE
CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE)IN BENAKUMA
COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION MENCHUM VALLEY SUB-
DIVISION IN MENCHUM DIVISION NORTH WEST REGION.**

(To be opened only during the bids opening session of the Tenders Board)

12) ADMISSIBILITY OF OFFERS:

In order not to be rejected, administrative documents must be produced in originals or true copies certified by the issuing services of the required administrative documents (*Examples: Taxation Officials, Bank Officials, etc.*) or by Administrative Authorities as the case may be (*Example: SDO, DO etc*) and must imperatively be produced in accordance with the Special Tender Regulations. They must obligatorily not be older than three (03) months or must not be produced after the submission of the tender file. Double certification shall not be accepted. Any bid that shall not be in conformity with the prescriptions of this notice and tender file shall be declared null and void, especially bids containing a bid bond not issued directly in the bidder's name by a first rate bank or financial body approved by the Ministry in charge of Finance.

The bid bond which shall only be released by the Contracting Authority shall be released for unsuccessful bidders not later than thirty (30) days after the period of bid validity. For the successful bidder to whom the contract will be awarded, the bid bond shall be returned to the contractor by the Contracting Authority once the final bond has been provided.

Bidders shall remain committed to their offers for a period of ninety (90) days from the last date for the submission of tenders, that is, the tenders shall be valid for 90 (ninety) days with effect from their submission deadline.

NB: The contractor shall, present the originals of the respective certified documents for strict verification of their authenticity during site installation.

13) OPENING OF BIDS (OFFERS):

Bids shall be opened by the Benakuma Council Internal Tenders Board in a single phase for all in that order on the **18 FEB 2026** at 11am local time in the hall at the Benakuma Council. Only bidders or their authorized representatives having a perfect knowledge of the file may attend the bid opening session. Note should be taken that in case of any ambiguities or differences during opening, only the original shall be considered authentic, that is, any bid which shall not comply with the requirements of the tender file shall be rejected.

14) EVALUATION CRITERIA:

The following points will lead to elimination:

- Offers (bids) submitted after the deadline or time limit shall be rejected;
- Bids submitted in unsealed external envelopes shall be rejected.
- External envelopes with identification marks or inscriptions which may lead to the identification of the said company shall be rejected.
- In the absence of original or properly certified administrative document or documents certified more than one time. The bidder shall be given 48 hours to replace the said document(s).
- False declaration or forged documents;
- Absence of bid bond, or Certified cheque, Bank cheque, Legal mortgage or Bank Guarantee or bid bond not issued directly in bidder's name by a first rate bank or financial body approved by the Ministry in charge of Finance the bidder shall simply be rejected.
- Proof of abandonment of any state project.

NB: Bid bond or any bid security for a group of enterprises must bear the name of mandated enterprise with the names of the other enterprises mentioned as well.

A) **Essential Criteria** They are primordial or key modalities in the judgment of the technical and financial capacity of candidates to execute the tasks forming the subject of the invitation to tender. They were determined in relation to the nature and content of the tasks to be executed. Hence in the evaluation of:-

- (i) Technical documents, evaluation shall be the binary method (YES or NO) based on the following distribution of points:

CRITERIA	POINTS
GENERAL PRESENTATION OF THE BIDS	06
EXPERIENCE OF THE COMPANY	07
QUALITY OF PERSONNEL AND MANAGEMENT OF THE COMPANY	11
TECHNICAL EQUIPMENT AND TOOLS	05
METHODOLOGY FOR THE EXECUTION OF WORKS	07
TOTAL	36

NB:

- Any Bid that shall not obtain **75%** evaluation in the technical documents shall simply be rejected.
- Details of these main qualification criteria are specified in the evaluation grid found in the Special Tender Regulations (RPAO).
- (ii) Financial Offer, it shall consist of going through the bill of quantities in reference to the unit price schedule and the sub detail of unit prices.

15) VALIDITY OF OFFERS:

Bidders shall remain committed to their offers for ninety (90) days from the deadline set for the submission of tenders (offers).

16) AWARD OF THE CONTRACT:

The contract shall be awarded to the lower or lowest bidder who must have fulfilled the administrative, technical and financial requirements.

17) COMPLEMENTARY INFORMATION:

Additional information may be obtained during working hours from the Service for the Contracts at the Benakuma Council.

18) AMENDMENT TO THE INVITATION TO TENDER:

The Contracting Authority may at any time, amend this invitation to tender. He shall publish the amendments and communicate same to companies that bought the tenders file. Delays caused by such amendments shall also be considered in the period given to bidders to submit their bids.

GENERAL REGULATIONS OF THE INVITATION TO TENDER

A-GENERALITIES

Article 01: SCOPE OF THE INVITATION TO TENDER

- (a) **CONTRACTING AUTHORITY** as defined in the Special Regulations of the invitation to tender ("RPAO") is the Mayor of Benakuma Council who shall be in charge of launching the tenders file. The name, the reference number and the number of lots contained in the invitation to tenders are found in the Special Regulations of the invitation to tender.
- (b) **SUCCESSFUL BIDDER** shall be the company to which the contract shall be awarded. This company shall have to execute and finish the tasks defined in the Special Regulations of the invitation to tender within the deadline spelled out in the service order notifying when to start execution, except modified by the Special Administrative conditions ("CCAP") of the invitation to tender.
- (c) **DAY** in this tender file shall mean **a calendar day**.

Article 02: FINANCING

The source of funding for the project shall be contained in the financial documents and shall bear specifications of funding as shall be spelled out in the Special Tender Regulations.

Article 03: FRAUD AND CORRUPTION

The Contracting Authority requires of bidders or contractors the strict respect of rules of professional ethics during the award and execution of the contract to be established. By virtue of this principle:

a) The following definitions shall be admitted:

- i) Shall be guilty of "**corruption**" whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;
- ii) Is involved in "**fraudulent manoeuvres**" whoever deforms or distorts facts in order to influence the award or execution of a contract;
- iii) "**Collusive practices**" shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition;
- iv) "**Coercive practices**" shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.

b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.

Remark: The Minister Delegate at the Presidency in charge of Public Contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him.

Article 04: CONDITIONS FOR CANDIDATES TO BE ADMITTED TO COMPETE

Participation in this invitation to tender is open to all registered and qualified enterprises, group of enterprises and Sub-Contractors of the Republic of Cameroon, with the required technical and professional expertise in construction works accompanied by the necessary legal and financial autonomy and must not have been excluded from bidding for public contracts as well as managed according to commercial laws and not under the direct supervisory authority of the Contracting Authority or Project Owner. A bidder (including all members of a group of enterprises and all sub-contractors to the bidder)

must not be in a situation of conflict of interest, subject to disqualification. A potential bidder shall be judged to be in a situation of conflict of interest and considered not eligible if he:-

- (a) is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts for this Invitation To Tender.
- (b) presents more than one bid within the context of Invitation To Tender, except authorised variants, where need be; meanwhile, this does not prevent the participation of sub-contractors in more than one bid.
- (c) and the Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts

Article 05: ORIGINS OF MATERIAL, SUPPLIES, EQUIPMENT AND AUTHORIZED SERVICES

The origin for these resources must be in countries fulfilling the criteria defined in the Special Regulations of the invitation to tender. Origin in this invitation to tender means the place from where the resource is extracted, cultivated, produced or fabricated and from where comes the services.

Article 06: QUALIFICATION OF BIDDERS

- (a) As an integral part of their bid, bidders must:
 - (i) Submit a power of attorney making the signatory of the bid bound by the bid; and
 - (ii) Provide all information (complete or update information included in their request for pre-qualification which may have changed in the case where the candidates took part in pre-qualification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- The production of certified balance sheets and recent turnovers
 - Access to a line of credit or availability of other financial resources
 - Orders acquired and contractsd
 - Pending litigations
 - Availability of indispensable equipment
- (b) Bids presented by two or more associated undertakings (joint-contracting) must satisfy the following conditions:-
 - The bid must include all the information listed in paragraph 1 above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group
 - The bid and the contract must be signed in a way that is binding on all members of the group
 - The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form
 - The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the contract
 - In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting
 - (c) Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender

Article 07: SITE VISIT

It is advisable to potential bidders to visit the project site and its environ and rate the availability of resources and get all the information about the site before preparation of their offers. The Project Owner shall authorise the bidder and his employees or agents to enter the premises and the land for the said visit but only on the express condition that the bidder, his employees and agents free the Project Owner, his

employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from the visit. The Project Owner may organise a visit of the project site during the preparatory meeting for the building of offers.

B-TENDERS FILE

Article 08: CONTENT OF THE TENDER FILE

The Tenders File describes the tasks to be accomplished in the contract, fixes the procedures of consultation of entrepreneurs and precise the conditions of the contract and conditions surrounding any modification of the Tenders File. The principal documents that must be in the Tenders File include:-

- (a) Document N° 1- Tender Notice ("AAO")
- (b) Document N° 2- General Regulations of the Invitation To Tender ("RGAO").
- (c) Document N° 3- Special regulations of the invitation to tender ("RPAO").
- (d) Document N° 4- Special Administrative Conditions (SAC="CCAP").
- (e) Document N° 5- Special technical Conditions (STC="CCTP").
- (f) Document N° 6- Schedule of Unit prices (Price Elaboration Schedule=PES).
- (g) Document N° 7- Bill of quantities and cost estimate (BQCE).
- (h) Document N° 8- Sub detail of unit prices.
- (i) Document N° 9- Model Contract.
- (j) Document N° 10- Model forms to be used by bidders.
- (k) Document N° 11- Justification of prior feasibility studies (*written by the Project Owner*).
- (l) Document N° 12- List of first rate Banks and Financial Organisations approved by the Ministry in charge of Finance to issue bid bonds(*to inserted by the Contracting Authority*).
- (m) Document N° 13- Plans, diagrams and/or pictures, *as the case may be*

Article 09: CLARIFICATIONS ON THE TENDER FILE

Request for clarifications may be addressed by letter, electronic mail (telecopier or email) or fax to the Contracting Authority at the following address:

THE MAYOR OF BENAKUMA COUNCIL

NB: *-A copy of this request must be given to the Project Owner and the Contracting Authority is bound to respond to the request at least fourteen (14) days for National Invitations and at least twenty one (21) days for International Invitations before the day of opening, copying all the companies that purchased the tenders file.*

-Any potential bidder whose find himself cheated in the award procedure can petition to the Minister of Public Contracts

-Any other preoccupation can be addressed to the Contracting Authority copying the Regulatory Organ for Public Contracts and the President of the Tenders Board. The Contracting Authority has five (05) days to react with copy of the reaction sent to the Minister incharge of Public Contracts and the Regulatory Organ of Public Contracts.

Article 10: AMENDMENT OF THE TENDERS FILE (ADDENDUM TO THE TENDER FILE)

The Contracting Authority may at any moment, prior to the deadline for the submission of bids and for any reason, be it at his initiative or in reply to a request for clarification formulated by a bidder, amend the Tender File by publishing an addendum while publishing the amendment which now constitutes the integral part of the tenders file and must be communicated to all the companies that purchased the tenders file. Hence to give room for bidders to prepare their offers the Contracting Authority may postponed the deadline of submission as long as he deems necessary

C-PREPARATION OF BIDS

Article 11: TENDER FEES

Each bidder shall be responsible for all charges related to the preparation and presentation of offers. The Contracting Authority and the Project Owner shall in no way be responsible for these charges or try to regularise a situation involved in the preparation of offers by a bidder.

Article 12: LANGUAGE OF THE BIDS

Offers and all correspondences exchanged between the Bidder and Contracting Authority shall be written in English or French. However complementary documents may be in any other language provided they are accompanied by précised translation into English or French, in which case at the end of the interpretation the translation is valid.

Article 13: PRESENTATION AND CONTENT OF BIDS

Each bid shall include three envelops, A, B and C enclosed and sealed in a large envelope labelled as follows:-

ENVELOPE«..... DOCUMENTS»

OPEN NATIONAL INVITATION TO TENDER

**N^o 04 ONIT/MINDDEVEL/NWR/MCH/BC/BCITB/2026 OF 21 JAN 2026
FOR THE CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE
CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE)IN
BENAKUMA COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION “To be
opened only during the bid opening session of the Tenders Board”**

Hence, bid presented by the bidder shall include the documents detailed in the Special Regulations of the invitation to tender, duly filled and put together in three envelopes:-

a. Envelop A: Administrative file shall include:-

- i) all documents attesting that the bidder:
 - has subscribed to all declarations provided for by the laws and regulations in force;
 - paid all taxes, duties, contributions, fees or deductions of whatever nature;
 - is not winding up or bankrupt;
 - is not the subject of an exclusion order or forfeiture provided for by the law in force;
- ii) the bid bond established in accordance with the provisions of the General Regulations of the invitation to tender;
- iii) the written confirmation empowering the signatory of the bid to commit the bidder, in accordance with the provisions of the General Regulations of invitation to tender.

b. Envelop B: Technical bid shall include:-

- (i) *Information on qualification*- The Special Regulations list the documents to be furnished by bidders to justify the qualification criteria mentioned in the Special Regulations of the invitation to tender
- (ii) *Methodology*- The Special Conditions of the invitation to tender specify the constituent elements of the technical bid of the bidders especially: a methodological statement on an analysis of the works and specifying the organisation and programme which the bidder intends to put in place or use to execute the works (installations, schedule, Quality Assurance Plan (QAP), sub-contracting, attestation of visit of the site, where necessary, etc
- (iii) *Proof of acceptance of conditions of the contract*- The bidder shall submit duly initialled copies of the Special Administrative Conditions (SAC) and Special Technical Conditions (STC) relating to the contract..
- (iv) *Commentaries (optional)*- commentary on the technical choices of the project and possible proposals

c. Envelop C: Financial bid:

The Special Regulations specify the elements that will help in justifying the cost of the works, namely:

- (i) The signed and dated original bid prepared according to the attached model, stamped at the prevailing rate.
- (ii) The duly filled Unit Price schedule
- (iii) The duly filled detailed estimates
- (iv) The sub-details of prices and/or breakdown of all-in prices
- (v) The projected schedule of payments, where need be

In this regard, the bidders will use the documents and models provided in the Tender File, subject to the provisions of the General Regulations of the invitation to tender concerning the other possible forms of guarantees.

Remark: *If in accordance with the provisions of the Special Regulations of the invitation to tender, the bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot.*

The three envelops (A, B & C) shall be sealed in a large anonymous external envelope addressed to the Contracting Authority as follows:

**THE CONTRACTING AUTHORITY
MAYOR OF BENAKUMA COUNCIL**

OPEN NATIONAL INVITATION TO TENDER

N^o 014 ONIT/MINDDEVEL/NWR/MCH/BC/BCITB/2026 OF 21 JAN 2026
FOR THE CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE
CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE)IN
BENAKUMA COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION.

“To be opened only during the bids opening session of the Tenders Board”

Note should be taken that:-

- (a) *Envelopes bearing any other inscriptions shall be simply rejected*
- (b) *The Contracting Authority bears no responsibility for any missing document and/or premature opening of offers if the external envelop is submitted not sealed by the bidder.*
- (c) **During calculation of prices:**
 - *The amount shall be calculated on the bases of variable prices. The bidder shall fill, in letters and in figures, the unit prices in the price enclosure slip and the unit prices are to be multiplied by the quantities given in order to obtain the amount of his offer for each item.*
 - *The bidder shall express the prices in the Price Elaboration Schedule (PES) and Bill of quantities and cost estimates (BQCE) in francs CFA excluding taxes before adding the taxes to the BQCE only. The prices on the PES shall have priority over those of the BQCE and PE. They shall serve as the bases of calculation of the bidding amount.*
 - *The eventual calculation errors shall be corrected by the Committee for Analysis and the amount altered if necessary without any complaints from the bidder.*
 - *A unit price which shall be the price of an element of a good or service, of a type or an item of work, the quantities of which are estimates in the contract shall be calculated in Francs CFA and furnished in figures and in words without taxes, while the total amount shall be calculated without taxes and then with taxes according to the BQCE. The currency that shall be used for payment shall be the FCFA*
 - *As this invitation to tender will consist of a contract whose duration of execution is not more than one (01) year, it shall not be subject to price revision.*
 - *It shall be forbidden to introduce a price revision clause by way of additional clause in the contract awarded on the basis of a firm price.*

Article 14: AMOUNT OF THE BID

Except otherwise stated in the Tender File, the amount of the contract shall cover all the tasks described in the General Regulations of the invitation to tender, on the basis of the price schedule and the detailed bill of quantities and estimates presented by the bidder . Hence:-

- (a) The bidder shall fill the unit prices and totals of all items on the schedule and bill of quantities and estimates.
- (b) Subject to contrary provisions provided for in the Special Regulations and in the Special Administrative Conditions, all dues, taxes and fees payable by the bidder on grounds of the contract or on any other ground, thirty (30) days prior to the submission of the bids, shall be included in the prices and in the total amount of the bid presented by the bidder.
- (c) If a price revision/updating clause is provided for in the contract, the date of establishment of the initial price, as well as the price revision/updating conditions for the said price must be specified. This is with the understanding that any contract of duration less than one (1) year shall not be subject to price revision.
- (d) All unit prices must be justified by sub-details established in accordance with the structure proposed in document 8 of the Tenders file.

Article 15: CURRENCY OF BID AND PAYMENT

Offers must be in the prevailing currency of the country where the Contracting Authority is based otherwise must be proof of conversion in an annex.

Article 16: VALIDITY OF BID

Offers shall be valid within the period specified in the Special Tender Regulation and shall be fixed by the Contracting Authority, counting from the date of submission of offers. Offers whose period of validity will be too short shall be considered not being in compliance (rejected) and prolongation of the validity period by a bidder without prior authorisation from the Contracting Authority on request from the bidder shall be rejected.

Remarks:

-Under exceptional circumstances, the Contracting Authority may seek the approval of bidders to extend the validity time-limit. The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.

-Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than sixty (60) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders.

The updating period shall run from the date of overrun of sixty (60) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

Article 17: BID BOND

The amount of the bid bond shall be as specified in these General Tender Regulations and must be of the model presented in the tender file or otherwise any other model must have been authorized by the Contracting Authority before use. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of these General Regulations. Hence:-

- (a) Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and mention each member of the associated grouping.
- (b) The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.
- (c) The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.
- (d) The bid bond may be seized:
 - (i) if the bidder withdraws his bid during the period of validity;
 - (ii) if the retained bidder:

- fails in his obligation to register the contract in application of article 38 of the General Regulations;
- fails in his obligation to furnish the required final bond in application of the General Regulations
- refuses to receive notification of the Administrative Order to commence execution.

Article 18: VARYING PROPOSALS BY BIDDERS

Where the tasks can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.

Except in the case mentioned in the paragraph below, bidders wishing to offer technical variants must first assess the basic solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed construction methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the basic solution has been evaluated as the lowest bid.

When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the tasks, these parts of the tasks must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of the General Regulations.

Article 19: PREPARATORY MEETING TO THE ESTABLISHMENT

Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations. The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.

As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting. The Contracting Authority may not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in the paragraph below.

The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of the General Regulations and not through the minutes of the preparatory meeting.

The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: FORM AND SIGNATURE OF BIDS

Each offer shall be presented in seven (7) copies, that is, **one (01) original** clearly indicated "**ORIGINAL**". and **seven (07) photocopies** bearing "**COPY**". The original must be typed or written with indelible ink and in case of any ambiguities or differences only the original shall be considered authentic. In case of a correction or a page overloaded with information added after, it must be visaed by the signatory (ies) (person or persons mandated to signed for the bidder). The bid shall be bearing no modification, suppression or alteration unless such corrections are initialled by the signatory (ies) of the bid.

D-SUBMISSION OF BIDS

Article 21: SEALING AND MARKING OF BIDS

Each bidder shall seal each original and the correspondent copies of the bid in separate envelopes (*called internal envelopes*) by marking on these documents "**ORIGINAL**" and "**COPY**", as the case may

be. The envelopes shall then be put in another envelope (*called external envelope*) which shall equally be sealed but which shall not give any indication regarding the identity of the bidder. The external and internal envelopes:

- a) should be addressed to the Contracting Authority at the address indicated in the Special Regulations;
- b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription "**TO BE OPENED ONLY DURING THE BIDS-OPENING SESSION**" as specified in the Special Regulations.

The internal envelopes on the other hand, should equally carry the name and address of the bidder to enable the Contracting Authority return the sealed bid if it is late in accordance with the General Regulations.

Remark: If the external envelope is not sealed and marked as indicated in Article 21 here above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: DATE AND TIME LIMIT FOR SUBMISSION OF BIDS

Bids bearing the specified address shall be submitted to the Contracting Authority or to the Service of Award of Contracts at the Benakuma Council against a duly signed receipt bearing the date and time specified in the Special Tender Regulations. Each bidder after submission shall before departure, ensure that the external envelope (*enclosing envelopes A, B and C*) is stamped and dated. After submission no bid (regularly submitted) shall be withdrawn, supplemented or modified. Hence, in the case where the envelope shall not be sealed or without the appropriate inscriptions on it, the administration shall decline all responsibilities for misdirection or premature opening. Any bid opened prematurely shall be rejected and returned to the bidder.

Hence all documents submitted by a bidder in any capacity, following this open national invitation to tender, must be established exclusively:

In English or French language,

- Using the metric system for quantities,
- Expressing all costs (prices) in francs FCFA.

Article 23: OUT OF TIME-LIMIT BIDS

After the specified deadline, any bid shall be declared late and rejected.

Article 24: MODIFICATION, SUBSTITUTION AND WITHDRAWAL OF BIDS

The said notification must be signed by an authorised representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription "**WITHDRAWAL**", and "**REPLACEMENT BID**" or "**MODIFICATION**". Hence:-

- (a) Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.
- (b) In application of paragraph 1, bids being requested to be withdrawn by bidders shall be returned to them unopened.
- (c) No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The notification must be signed by the person mandated to sign for the bidder. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription "**WITHDRAWAL**" and "**REPLACEMENT OFFER**" or "**MODIFICATION**". The notification of the modification.

replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids. Bids being requested to be withdrawn by bidders shall not be opened before returning to them.

NB: - Offers bearing "WITHDRAWAL" and "REPLACEMENT OFFER" or "MODIFICATION" and which shall not be handed back to the bidders shall be transmitted alongside the other offers on the day of opening.

- No bid shall be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond.

E- OPENING AND EVALUATION OF BIDS

Article 25: OPENING OF BIDS AND PETITIONS

Bids shall be opened by the Competent Tenders Board in one phase of two stages (*Stage I and Stage II*) on a date, time and at the venue specified in the Special Tenders Regulations, in the presence of Representatives of the bidders concerned and who wish to attend. Representatives present during the opening shall sign a register or a paper to attest their presence.

Firstly, envelopes marked "**WITHDRAWAL**" shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked "**REPLACEMENT BID**" are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked "**MODIFICATION**" shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. It is important to note that:-

- All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [*in case of opening of financial bids*] and any variant (*where necessary*), the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation. Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.
- Offers (and modifications received in accordance with the provisions of the article of the General Regulations) which were not opened and read to the hearing of everyone during the bid-opening session for whatever reason, shall not be submitted for evaluation.
- Bid-opening minutes are recorded on the spot mentioning the admissibility of offers, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the session.
- At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by ARMP an initialled copy of the offers presented by bidders.
- In case of petition as provided for by the Public Contracts Code, it should be addressed to the Public Contracts Authority with copies being sent to the body in charge of the regulation of public contracts and the Contracting Authority.

It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.

Article 26: CONFIDENTIAL NATURE OF THE PROCEDURE

No information relating to the examination, clarification, evaluation and comparison of offers and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders nor to any person concerned with the said procedure before the announcement of the results. Hence, any attempt by a bidder to influence the committee in charge of evaluation of bids or the Contracting Authority in his award decision may cause the rejection of his offer.

Article 27: CLARIFICATIONS ON THE BIDS AND CONTACT WITH THE CONTRACTING AUTHORITY

To ease the examination, evaluation and comparison of offers, the Chairperson of the Tenders Board may, if he desires, request any bidder to give clarifications on his offer. This request for clarification and the response given are formulated in writing but no change in the amount or content of the offer is allowed, offered or authorised, except it is necessary to confirm the correction of calculation errors discovered by the committee in charge of evaluation during the evaluation in accordance with the provisions of the General Regulations.

Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the committee in charge of evaluation for questions related to their offers, between the opening of envelopes and the award of the contract.

Article 28: DETERMINATION OF COMPLIANCE OF BIDS

An offer that conforms to the Tender File shall essentially be an offer that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:-

- i) which substantially limits the scope, quality or realisation of the works;
- ii) which substantially limits and is not in conformity with the Tender File, the rights of the Contracting Authority or the obligations of the bidder in relation to the contract; or
- iii) Whose correction would unjustly affect the competitiveness of the other bidders who presented offers that essentially conformed to the Tenders File.

If an offer is essentially not in conformity it shall be rejected by the competent Tenders Board and shall not eventually be rendered in conformity.

The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of offers

During evaluation, the committee concerned shall:-

- Carry out a detailed examination of offers to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the offers are in proper order. Hence, the committee in charge of evaluation shall:-
- Determine if the offer is essentially in conformity with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.
- Ensure that the successful bidder, because having an offer substantially in conformity with the provisions of the Tender File, fulfils the qualification criteria stipulated in Special Regulations. It is essential to avoid any arbitrariness in determining qualification.
- Verify offers considered essentially in conformity with the Tender File to correct the possible calculation errors.

Article 29: QUALIFICATION OF THE BIDDER

The committee in charge of evaluation shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: CORRECTION OF ERRORS

The committee in charge of evaluation shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. It shall correct the errors in the following manner:

- (a) Where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a **Gross Error** of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected.
- (b) If the total obtained by addition or subtraction of the totals is not exact, the sub totals shall be considered authentic and the total corrected.
- (c) Where there is a difference between the price indicated in words and in figures, the amount in words shall be considered authentic, unless the amount is linked to an arithmetical error confirmed by the sub-detail of the said price, in which case the amount in figures shall prevail subject to paragraphs (a) and (b) above.

The amount featuring in the offer shall be corrected by the committee in charge of evaluation, in accordance with the error correction procedure above and with confirmation by the bidder, the said amount shall be deemed to commit him.

If the bidder who presented the lowest bid refuses the correction thus carried out, his offer shall be rejected and the bid bond may be seized.

Article 31: CONVERSION INTO A SINGLE CURRENCY

In case of variation in currencies, the committee in charge of evaluation shall convert the prices of bids expressed in various currencies into those in which the bid is payable. The conversion shall be done using the selling rate fixed by the Bank of Central African States (BEAC) under the conditions defined by the Special Regulations.

Article 32: EVALUATION AND COMPARISON OF FINANCIAL BIDS

Only offers considered as being in conformity as per the provisions of the General Regulations, shall be evaluated and compared by the committee in charge of evaluation. During the evaluation of offers, the committee in charge of evaluation shall determine for each offer the evaluated amount of the offer by rectifying the amount as follows:

- a) By correcting any possible error in accordance with the provisions of the General Regulations;
- b) By excluding projected sums and where necessary provisions for the unforeseen occurrences featuring in the bill of quantities and estimates but by adding the amount of works done under State supervision where they are costed in a competitive manner as specified in the Special Regulations.
- c) By converting into a single currency the amount resulting from the rectifications (a) and (b) above, in accordance with the provisions of the General Regulations;
- d) By appropriately adjusting any other modification, divergence or quantifiable reservation on technical or financial basis.
- e) By taking into consideration the various execution time-limits proposed by the bidders, if they are authorised by the Special Regulations;
- f) If need be, in accordance with the provisions of the General Regulations (GAC) and the Special Regulations (SAC) by applying the rebates offered by the bidder for the award of more than one lot, if this invitation to tender is launched simultaneously for several lots.
- g) If need be, in accordance with the provisions of the Special Regulations and the Technical Specifications, the proposed technical variants, if they are permitted, shall be evaluated according to their own merit and independently of the fact that the bidder offered or not a price for the technical solution specified by the Contracting Authority in the Special Regulations.

If the offer judged the lowest bid is considered abnormally low or strongly unbalanced in relation to the estimates of the Contracting Authority, the Evaluation sub-committee may, from the sub-details of prices furnished by the bidder for any element or all the elements of the bill of quantities and estimates, verify if these prices are compatible with the tasks stipulated and proposed calendar. In the case where the justifications presented by the bidder are not satisfactory it may propose to the Contracting Authority to reject the offer.

As well, the estimated effect of price revision formulae featuring in the GAC and SAC applied during the period of execution of the contract shall not be considered during the evaluation of offers.

Hence, the Contracting Authority reserves the right to accept or reject any modification, difference or reservation. The modifications, differences, variants or other factors which exceed the requirements of the tender file are not taken into account during the evaluation of offers.

Article 33: THE RIGHT BY THE CONTRACTING AUTHORITY TO DECLARE AN INVITATION TO TENDER UNSUCCESSFUL OR CANCEL A PROCEDURE

The Contracting Authority reserves the right to cancel a procedure of invitation to tender after the authorisation of the Minister Delegate at the Presidency in charge of Public Contracts when the bids have been opened or to declare an invitation to tender unsuccessful after the advice of the competent Tenders Board, without any claims being entertained.

Article 34: AWARD OF CONTRACT

Within three (3) days maximum as from the date of reception of the award proposal, the Contracting Authority shall decide either to publish the results or request for re-examination. **If the Contracting Authority decides to publish the results, he shall award the contract to the bidder whose bid was judged essentially in compliance with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest** by including, where necessary, proposed rebates, that is, in function of the provisions of the Special Regulations of the invitation to tender, if bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot. In this case, the lowest bid shall be determined by evaluating the offers with other lots to be awarded concurrently, by taking into account the rebates offered by the bidders in the case of more than one lot. Hence, any award of contract shall be made to the bidder fulfilling the technical and financial capacities required resulting from the evaluation criteria and presenting the bid evaluated as the lowest. This is carried out by careful study on the unit prices, the bill of quantities and cost estimates and the sub detail of prices presented to make sure the bidder did study the prices and has not made an arithmetic error to arrive at his final contract amount. As concern the procedure for the award, it shall consist of:-

- * The preparation, thorough verification and awarding of the contract according to the rules and procedures defined by the legislation in force for Public contracts to enable effective execution.
- * The winner shall be notified through his official address or public media. He/she shall in two (02) days fulfil the formalities related to the awards, especially to submit at least five (05) copies of the proposed contract to the office of the Contracting Authority for transmission to the tenders Board for study and observations in order for the final version to be established, into which the winner shall enter and be signed by the Contracting Authority after the finance visa.

NB:

- In the case where the company does not fulfil these conditions, he/she shall be reminded of his/her chance which shall later on be simply annulled without further notice and the next bidder in the ranking shall be called in for replacement.

- Once the Contracting Authority has signed the contract (Jobbing Order), the contractor shall be notified. The contractor shall ensure that he contacts the Project Engineer as soon as possible for the beginning of execution of works within three (03) days to following notification of the Service Order to start work by the Project Owner. Failure to respect the duration shall be considered withdrawal and eventual cancellation of contract. The contract may be cancelled outright in the cases provided for by Decree N^o: 2018/366 of 20th June 2018 instituting the Public Contracts Code.

Article 35: PUBLICATION OF RESULTS OF AWARD AND PETITIONS

The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.

As well, the Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

Remarks:

- (a) After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.
- (b) In case of petition, it should be addressed to the Public Contracts Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned. **It must take place within a maximum deadline of five (5) working days after the publication of the results.**

Article 36: NOTIFICATION OF AN AWARD OF CONTRACT

Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.

Article 37: SIGNING OF THE CONTRACT

The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception after the endorsement of the Divisional Finance Controller. As well, the Contracting Authority must be notified the successful bidder of the signed contract within five (5) days of its date of signature.

Article 38: FINAL BOND

Within twenty (20) days from the date of notification of signed contract by the Contracting Authority, the contractor shall furnish him with a final bond, to guarantee the complete execution of the works.

REMARK:

- (a) Bid bond to be released to the Contractor upon a written request addressed to the Contracting Authority can only take place after when the contractor must have proven with attestation for having furnished the Project Owner with a final bond and/or after the start-off advance is refunded.
- (b) The final bond whose rate varies between 2 and 5 percent of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.
- (c) Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first rate financial institution approved in accordance with the instruments in force.
- (d) Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

Article 39: ADDITIONAL INFORMATION

This includes the facts that:-

- Only works and services actually earmarked and executed under the contract shall be paid to the contractor without exceeding the prescribed quantities. Payment shall be done by application of unit prices to the quantities and/or volumes of the tasks executed
- Control and follow-up operations of the project site shall be carried out by the Project Engineer (Divisional Delegate of Public Works for Menchum) in collaboration with the Project Owner and the Delegation of Public Contracts (*Staff of the Control Brigade and other*

staff as the case may be). They shall be required to give reports on the tasks executed. The Project Engineer shall prepare payments that shall be VISAED by the Divisional Finance Controller (Good for Payment) and transmitted for payment into an account opened by the contractor to this effect.

- Tasks to be executed are placed under the supervision of the Menchum Project Follow-up Committee.
- Members of the Follow-up Committee may separately visit the site at any stage of the construction works and have access to the entire document pertaining to the follow-up for proper execution of works.

THE MAYOR OF BENAKUMA COUNCIL
(CONTRACTING AUTHORITY)

Ihimbru Solomon Kudi

SPECIAL REGULATIONS OF THE INVITATION TO TENDER

The aim of this document is to help the Projected Owners or Delegated Project Owners and/or Contracting Authority to furnish specific information corresponding to the clauses of the General Tender Regulations and which must be established for in the contract(s) arising from this invitation to tender. The following provisions which are specific to the works forming the subject of the invitation to tender should complete or where necessary, specify the provisions of the General Regulations of the invitation to tender. In case of conflict, the provisions in the following articles will prevail over those of the General Regulations.

ARTICLE 01: DEFINITION OF WORKS

The works involved in the execution of the project shall consist of a number of tasks in the Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)in Benakuma Council, Menchum Division of the North West Region. With the specifications as in the Special Technical Conditions and in the Bill of quantities and cost estimates. The Contracting Authority concerned in this invitation to tender shall be the Mayor of Benakuma Council. The reference of this tenders file is N° ____/ ONIT/MINDDEVEL/NWR/MCH/BC/BCITB/2026 of _____ for the Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)in Benakuma Council, Menchum Division of the North West Region,.

ARTICLE 02: EXECUTION DEADLINE

The execution deadline for this project shall be ninety calendar days, counting in function of the date of notification of the service order to start execution. Hence, bids shall be evaluated on the basis of an execution deadline of the tasks involved between a minimum and maximum ninety calendar days. The evaluation method features in the General Regulations. The execution deadline proposed by the preferred bidder shall become the contractual execution deadline. For this reason, the provisions of this article are such that the Mayor of Benakuma Council expects net advantages of shorter execution deadline.

ARTICLE 03: SOURCE OF FINANCING

The source of funding for the project shall be the 2026 Public Investment Budget of the Republic of Cameroon imputed under the budgetary supervision of the Ministry of Public Works and assigned to the Mayor of Benakuma Council.

ARTICLE 04: ORIGIN OF RESOURCES (MATERIALS, EQUIPMENT AND SUPPLIES)

The origin of resources for this project shall be in Cameroon and other countries fulfilling the criteria having legal trade conventions with Cameroon. Origin in this invitation to tender means the place from where the resource is extracted, cultivated, produced or fabricated and from where come the services.

ARTICLE 05: PRESENTATION AND CONTENT OF BIDS

Bids will consist of three envelopes A, B and C called internal envelopes put in another envelop called external envelope. The content of the three internal envelopes are as follows:-

1. ENVELOPE A-Administrative documents

Administrative documents attest that the bidder:-

- (a) Has subscribed to the declarations laid down by the laws and regulations in force.
- (b) Contributes to the development of the national economy.
- (c) Is not in a state of collapse or judicial liquidation
- (d) Is not affected by any exclusion or situation of legislation in force
- (e) Has bid bond established in conformity with the model
- (f) Has given powers to a signatory that engages the whole company.

To this effect, the bid submitted by a bidder shall comprise the following documents that shall be separated from each other by colour separators:

- A1. The declaration of intention to tender signed and stamped by the bidder or group representative with a valid Fiscal stamp of 1500 FCFA. (see Model Form N° 01 for the format)

- A2 A Municipal Treasury Receipt showing the payment for the tender fee of **seventy five thousand (75,000) FCFA**.
- A3 An attestation of a bank account in the name of the company (enterprise).
- A4 The original copy of a bid security in bidder's name issued by CDEC of One million, three hundred thousand **(1,300,000)**
- A5. A certified copy of Tax payer's card (*must bear the current tax regime of the bidder*).
- A6. A Receipt testifying payment of the **Business Licence for the 2026 Financial Year** ("*Récépissé attestant paiement de la Patente 2026*") with a turn over up to or above the provisional cost of the Project TTC. (*with tax regime same as in Tax payer's card*)
- A7. A certified copy of 2026 Business Licence ("*Patente*" 2026) with a turn over up to or above the amount of the contract TTC (*with tax regime same as in Tax payer's card*).
- A8 An Attestation of non indebtedness [*"Attestation de non Redevance"*] testifying that the bidder owes no taxes.
- A9. An original certificate of non-bankruptcy from the court of First Instance of the Headquarters of the enterprise (*Affidavit*).
- A10 An original current certificate from the National Social Insurance Fund (CNPS) certifying that the bidder has effectively paid his social contributions.
- A11. An original Certificate of non exclusion from the public contracts by the Regulatory Organ of Public Contracts (ARMP).
- A12. An original attestation of site visit signed by the Managing Director of the company/enterprise or a Representative duly mandated *see Model form N° 13 for format*
- A13 Certified copy each of Attestation of localisation and sketch plan of localisation of the enterprise
- A14 The Special Tender Regulations initialled and signed on the last page.
- A15. The Special Administrative clauses initialled and signed on the last page
- A16. Power of attorney where necessary
- A17. Group agreement as the case may be, that is, the agreement of association must be drawn up by a notary in case the bidder is representing a group of enterprises

2. ENVELOPE B-Technical Documents

Technical offer will contain:-

- (a) Information on the qualification of the bidder.
 - (b) Methodology bearing the constituent elements of the technical proposal of the bidder such as:-
 - (i) Methodological note on the analyses of the tasks involved
 - (ii) Organization of the company towards the accomplishment of the tasks.
 - (iii) Planning on which the company depends to accomplish the tasks
 - (c) Proof of acceptance of the conditions of the contract by putting visa on the administrative and technical documents such as the Special Administrative conditions ("CCAP") and the Special Technical Conditions ("CCTP")
 - (d) Commentary on the technical choice of the project and eventual proposal (*as the case may be*)
- To this effect, it shall contain the documents cited below placed in that order:

No	DOCUMENT	SPECIFICATION	AUTHENTICATION
B1	Equipment list	It shall show clearly the means at the disposal of the enterprise to carry out the job (<i>See Model form N° 12 for format</i>)	Attach certified copies of title deeds, vehicle registration certificate(s), receipts, etc. NB- <i>The equipment and tools must be present at the site during each phase of the execution</i>
B2	Personnel list	It shall contain: ☞ Works Supervisor: At least a Senior Rural/Civil Engineering Technician with at least 3 years experience in Road works construction/ maintenance.	Attach for each person a CV (<i>signed and dated by the individual</i>) as well as a certified copy of highest diploma of each person concerned. Key Personnel shall include the Works Supervisor Works Foreman

		☞ Foreman: Rural/Civil Engineering Technician experience with at least 3 years' in Road works construction/maintenance.	and other dependent on the bids of the candidate. NB-All key personnel must present commitment of availability duly signed & certified by the National Security Service (see Model Forms N° 8 & N° 9 for formats)
B3	Methodology/ Organisation of works	Bids shall be assessed based on the technical understanding by the enterprise of the operations and the organisation intended for the execution of works, that is, it shall show clearly the organisation of the enterprise (<i>methodology of execution, work schedule, site installation, supply of materials, works to be sub-contracted, the use of local manpower, HIMO etc</i>)	Date, signature and stamp of bidder at the end of document
B4	Sub-contracting	Information on the sub-contractor (equipment, personnel, references, etc)	Date and signature of sub-contractor (only 30% of the contract can be subcontracted)

B6	References of the enterprise.	List of similar jobs executed in the last five (05) years by the enterprise and/or other civil engineering works realised.	Amount of works, copies of (1st and last pages) and minutes of reception or attestation of effective realisation. Include accessible telephone number(s) of beneficiary service(s) to enable verification when need arises. (<i>see Model form N° 11 for format</i>)
B7	Technical specifications	Provided in tender file.	Initialled on every page and signed and stamp on the last page

3. ENVELOPE C- Financial Documents

No	DOCUMENT	SPECIFICATION	AUTHENTICATION
C1	The tender letter	Format to be completed and tender amount inserted.	Signature, date and stamp of bidder. (<i>see Model Form N° 02 for format</i>)
C2	Unit price schedule	Sub-detail of prices proposed in the price list, that is, the price list in accordance with the model and stating prices exclusive of VAT in words and in figures	Initials on every page and signed on last page. All pages must be stamped with enterprise official stamp.
C3	Bill of Quantities and Cost Estimates	Detailed cost estimates of the works.	Initials on every page and signed on last page. All pages must be stamped with enterprise function stamp.
C4	Sub detail of unite prices	Format to be completed showing detail breakdown of prices.	Initials and stamped on every page
C5	Financial capability	Attestation of pre-financing delivered by a banking institution recognised by MINFI/COBAC	Date and signature of bank Manager in charge.

Note:

- Plans provided with tender file should not be submitted.

- The constituent documents of each envelope shall be numbered according to the order of the tender file.
- In accordance with Article 13 of the General Regulations of the Invitation to Tender, a Bidder may indicate a rebate (discount) on his financial offer provided the phrasing of the rebate does not go against the stipulation of any Public Contracts Regulation.

ARTICLE 06: SUBMISSION OF BIDS (OFFERS)

Each offer written in English or French shall be signed by the bidder or by a duly authorized Representative and presented in seven (7) copies that is **one (01) original and six (06) copies** labelled as such. These shall be submitted in one external sealed envelope containing three (3) envelopes, that is, Envelope A: Administrative Documents, Envelope B: Technical document and Envelope C: Financial document. It shall reach the Benakuma Council, at the Service in charge of contract award not later than **at 10am** local time. The sealed external envelope shall be free of all identification marks, failing which it shall be rejected.

The sealed external envelope addressed to the Contracting Authority shall bear the following inscriptions:

OPEN NATIONAL INVITATION TO TENDER
N° 04 / ONIT/MINDDEVEL/NWR/MCH/BC/BCITB/2026 OF 21 JAN 2026
FOR THE CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE
CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE)IN
BENAKUMA COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION.

(To be opened only during the bids opening session of the Tenders Board)

ARTICLE 07: ADMISSIBILITY OF BIDS:

In order not to be rejected, administrative documents must be produced in originals or true copies certified by the issuing services of the required administrative documents (*Examples: Taxation Officials, Bank Officials, etc.*) or by Administrative Authorities and must imperatively be produced in accordance with the Special Tender Regulations. They must obligatorily not be older than three (03) months or must not be produced after the signing of the tender file. Double certification shall not be accepted. Any bid that shall not be in conformity with the prescriptions of this notice and tender file shall be declared inadmissible (null and void), especially offers containing a bid bond not issued by a first rate bank or financial body approved by the Ministry in charge of Finance.

The bid bond which shall only be released by the Contracting Authority will be released no later than thirty (30) days after the period of bid validity for unsuccessful bidders. For the contractor (bidder to whom the contract is awarded), the bid bond shall be returned to the contractor by the Contracting Authority once the final bond has been provided and the corresponding amount refunded by the Bank upon presentation of the original bid bond.

Bidders shall remain committed to their offers for a period of ninety (90) days from the last date of for the submission of tenders, that is, the tenders shall be valid for ninety (90) days with effect from their submission deadline.

NB: The contractor shall during site installation, present the originals of the respective certified documents for strict verification of their authenticity.

ARTICLE 08: OPENING OF BIDS (OFFERS):

Bids shall be opened by the Benakuma council Internal Tenders Board in a single phase in that order on the _____ **at 11am** local time in the hall at the Benakuma Council. Only bidders or their authorized representatives having a perfect knowledge of the file may attend the bid opening session. Note should be taken that in case of any ambiguities or differences during opening, only the original shall be considered authentic. Any bid which shall not comply with the requirements of the tender file shall be rejected.

ARTICLE 09: EVALUATION CRITERIA

They include:-

Presentation of bids shall be subject to verification for compliance of administrative, technical and financial documents pertaining thereto shall be rejected. The following criteria fix the minimum conditions to fulfill to be admitted for evaluation of bids according to the essential criteria. The non respect of these criteria shall lead to the rejection of the bidder's bid.

- Offers (bids) submitted after the deadline or time limit shall be rejected;
- Bids submitted in unsealed external envelopes shall be rejected.
- External envelopes with identification marks or inscriptions which may lead to the identification of the said company shall be rejected.
- Absence of original or properly certified administrative document or documents certified more than one time shall be given 48 hours to replace it.
- False declaration or forged documents shall be given 48 hours to replace them;
- Absence of bid bond, or Certified cheque, Bank cheque, Legal mortgage or Bank Guarantee or bid bond not issued directly in bidder's name by a first rate bank or financial body approved by the Ministry in charge of Finance the bidder shall simply be rejected.

NB: Bid bond or any bid security for a group of enterprises must bear the name of mandated enterprise with the names of the other enterprises mentioned as well.

- Execution period longer than prescribed in the Tender file
- Technical evaluation mark less than **75 %** (non-respect of 75 % of the essential criteria);
- Absence of quantified unit price (omission of a unit price in the financial bid).

N.B: All documents shall be originals as requested or certified true copies legalised by competent authorities or by authorities who issued the originals.

(b) Essential criteria

They are primordial or key modalities in the judgment of the technical and financial capacity of candidates to execute the tasks forming the subject of the invitation to tender. They were determined in relation to the nature and content of the tasks to be executed. Hence in the evaluation of:-

(i) Technical documents, the evaluation shall be binary (YES or NO) on the level of fulfilment of the criteria based on the following distribution of points:

CRITERA	POINTS
GENERAL PRESENTATION OF THE BIDS	06
EXPERIENCE OF THE COMPANY	07
QUALITY OF PERSONNEL AND MANAGEMENT OF THE COMPANY	11
TECHNICAL EQUIPMENT	05
METHODOLOGY FOR THE EXECUTION OF WORKS	07
TOTAL	36

NB:

-Any Bid that shall not obtain **75%** evaluation in the technical documents shall simply be rejected.

-Details of these main qualification criteria are specified in the evaluation grid found in the Special Tender Regulations (RPAO).

-See Model form N° 15 for evaluation grid

The essential criteria are as in the table below:-

GENERAL PRESENTATION OF THE BIDS	- Table of content - Quality of the binding (<i>spiral binding with transparent fly-leaf on front cover recommended</i>) - Availability of colour separators - Presentation of all documents in same order as in the Tender File - Clarity of the documents with pages numbered - Special Technical conditions visaed and last pages signed
	- List of contracts realised successfully in similar domain within the

EXPERIENCE OF THE CONTRACTOR <i>See Model form N° 11 for format</i>	last 5years - Copies (first and last pages) of at least 1 of the contracts (<i>Jobbing Orders</i>) <i>That is, Bidder's experience with similar works.</i>
QUALITY OF PERSONNEL AND MANAGEMENT OF THE COMPANY NB-All key personnel must present commitments of availability duly signed & certified by the personnel concerned <i>See Model forms N° 8 & Form N° 9 for format</i>	- List of personnel deployed to the project with works Supervisor being at least a Senior Civil/Rural Engineering Technician with at least 3 years' experience in earth road maintenance and Foreman being at least a Civil/Rural Engineering Technician experience with at least 3 years' in earth road maintenance. - Certified copies of certificate(s) or diplomas of at least the key personnel (Supervisor and Foreman) relevant to the works concerned - Curriculum Vitae (CV) of the above personnel signed and dated by the individuals respectively (<i>see Model form N° 10 for format</i>). - Commitment forms of Supervisor and Foreman (<i>see Model form N° 09 for format</i>). - Company's organizational chart - Project's organizational chart <i>That is, Qualification, skills and professional experience of key personnel relevant to the works.</i>
TECHNICAL EQUIPMENT AND TOOLS NB- <i>These equipments and tools must be present at the site before and during each phase</i> <i>See Model form N° 12 for format</i>	- The list of equipment to be used in the execution of the project containing at least a grader, a dump truck and a pickup - List of tools to be used in the execution of the project - Proof of ownership for the equipment and tools, i.e. registration certificates or performance invoices for equipment that are to be hired and purchase receipts for tools. - Description of equipment (giving mark, registration ,etc) - Evidence of normal functioning of equipment - A statement of present location of equipment <i>That is, Compliance with technical specifications of the tender file as well as equipments and tools vital for the execution of the works.</i>
METHODOLOGY FOR THE EXECUTION OF WORKS	- The planning (schedule of the execution of works) - Description of the organization of worksite and methods of execution of works with technical details - The duration for the execution of the works - Security measures on site - Environmental protection - Site visit report (<i>see Model form N° 14 for format</i>). - Appropriate technical specifications <i>That is, Methodological approach and relevance of proposed solutions as well as work planning and schedule.</i>

(ii) Financial Offer, it shall consist of going through the bill of quantities in reference to the unit price schedule and the sub detail of unit prices.

ARTICLE 10: VALIDITY OF OFFERS:

Bidders shall remain committed to their offers for ninety (90) days from the deadline set for the submission of tenders (offers).

ARTICLE 11: AWARD OF THE CONTRACT:

The contract shall be awarded to the lower or lowest bidder who must have fulfilled the administrative, technical and financial requirements.

ARTICLE 12: COMPLEMENTARY INFORMATION:

Additional information may be obtained during working hours from the Service for Contracts at the Benakuma Council.

ARTICLE 13: AMENDMENT TO THE INVITATION TO TENDER:

The Contracting Authority may at any time, amend this invitation to tender. Delays caused by such amendments shall also be considered in the period given to bidders to submit their bids.

- Order N° 033/CAB/PM of the 13th February 2007 bearing the general administrative conditions
- Circular N° 002/CAB/PM of 31st January 2011 relative to the amelioration of the performance of Public Contracts system;
- Circular N° 003/CAB/PM of January 31, 2011 defining the conditions for the management of the changes of the economic conditions of Public Contracts;

the confirmation shall be considered approved if the Contracting Authority does not give objection to it.

- 8.2- For the execution of the present invitation to tender, the contractor "elects Residence in the Sub Divisional Headquarters of Menchum Valley Sub-Division". In case of change of domiciliation without informing the administration, all notifications destined to the contractor shall be addressed care of (c/o) the Divisional Office of Menchum Valley Sub-Division of execution of the project.

That is, within ten (10) calendar days following notification of the service order, the contractor shall be bound to ensure the foreman who shall have sufficient powers for representation and decision to lead the works is permanent on site. Information on the presence of the foreman on site shall be addressed by letter to the Project Engineer.

Article 9: CONTENT OF TASKS TO BE EXECUTED

The tasks which form the subject of this invitation to tender are spelt out in the Special Technical Conditions.

Article 10: SERVICE ORDER/NOTIFICATION AND CORRESPONDENCES

Service Order

Exception of Service Orders patterning to warnings and remedial actions during the guarantee period, other services shall be signed by the Contracting Authority in at least five (05) copies and notified to start works by the Project Owner relating to the normal execution period of works. The Project Owner shall transmit copies of the notified Service Order to the Contractor, Contracting Authority, Project Engineer and the Public Contracts Regulatory Organ.

REMARK: *The Contracting Authority shall have the right to notify service orders signed by him that are to be notified by the project owner in case this is not done within 30 days.*

Within fifteen (15) days following the notification of the administrative service order to commence works, the contractor should obligatorily designate on the approval of the Project engineer the works director, the works foreman endowed with powers of representation and decision to manage the site. Any modification of the technical bid can only take place after a written approval to the Project engineer.

Hence, Service Orders on warning notices will be signed by the Project Owner and transmitted to the contractor with copies to the Contracting Authority and the Project Engineer while those on remedial actions during the guarantee period shall be signed by the Project Engineer with copies addressed to the Contracting Authority and Project Owner. Any of such Service Order shall only take effect when the Contractor acknowledges having received.

Correspondences

All communication between the any parties (Contracting Authority, Project Owner, Contractor, Contract Engineer, Project Manager, etc) relating to the execution of the contract shall be exclusively by writing. They shall be sent by mail, telegrams, telex, fax, e-mails submitted against acknowledgement of receipt at the appropriate addresses indicated by the parties to this effect. It shall hence be prohibited any communication between the contracting authority and the contractor relating to the execution of the work which is not confirmed in writing

The contractor will address all written notifications or correspondences to the Project Engineer with copies addressed to the Contracting Authority and Project Owner/Authorizing Officer.

NB:- The contractor has ten (10) days within which to give observations on all Service Orders received.

The fact of giving out some reservations does not free the company from executing the Service Orders received.

Article 11: KNOWLEDGE OF THE SITE, GENERAL CONDITIONS OF TASKS AND RESIDENCE OF THE CONTRACTOR

The contractor (entrepreneur) in order to make concrete performance proposals shall be expected to have at his expense visited and acquainted himself with the project site, the effective tasks to be accomplished and the surroundings so as to have adequate knowledge of all its features, the nature of

tasks to be executed, the type of materials to be supplied, ways and means of access to the site, the necessary facilities, and also the following:-

- The general conditions of execution of tasks and in particular the specific needs.
- The proper physical conditions of the project site (the nature of soil, the nature and quantity of materials met on the surface or likely to be met underground, etc).
- The local, normal and exceptional meteorological and seismic conditions: their consequences (water erosion, the possibilities of flooding and the position of the water table).
- The local conditions, particularly those of supplying and storage of the materials.
- The means of communication, transportation, and the supply of water and electricity.
- The possibility of sufficiently providing the qualified manpower.
- All constraints resulting from the social legislation, the fiscal and customs regime applicable to him.
- The possible presence of nearby enterprises also executing distinct contracts.
- The obligation to conform himself to the hygienic and security plans as well as to the yard regulation and to the staff's security and discipline.

The contractor shall within fifteen (15) days from the date of notification of the service order to start execution be bound to take up residence close to the work site. Failure to comply with this obligation or to indicate his new place of residence by writing to the Project Engineer, any notification addressed to his company shall be validly done in the office of the Mayor of Benakuma Council in Menchum Valley Sub-Division where the project is being executed.

Conclusion- The contractor must obtain all information concerning the risks and the circumstances likely to influence the conditions of execution of works or their prices. To this effect, he shall not be able to take advantage of any mistake, omission or imprecision contained in the clauses of the Jobbing Order at his own cost. He will regularize if the case arises, the damages without intervention of the administration.

Field inspection of the installations of preliminary works like the information to be posted on site, fencing of the site, etc and installation of the contractor with his/her personnel shall within fifteen (15) days from the date of notification of the service order to start execution be carried out by Commission comprising of:

- The Contracting Authority (CA) or his Representative ----- Chairperson
- The Project (Contract) Engineer----- Secretary
- The DD MINEPAT ----- Observer
- The Contractor ----- Member
- The Chief of Service for Contracts (Benakuma council).....Member
- A Representative of MINMAP----- Observer
- The village Chief or RepresentativeObserver, if need be

Remark: *-An installation report shall be prepared by the Project Engineer on the site and signed by atleast 2/3 commission members on site as well.*
-If within fifteen (15) days from the date of notification of the service order to start execution site installation is not carried out, the Contractor shall pay penalties of 1/5000th the cost of the contract (ATI).
-In no circumstance shall the cost of installation be more than 10% the cost of the initial contract.
-In no circumstance shall the installation material paid for site installation be taken away by the Contractor at the end of execution. The installation material shall become the property of the Beneficiary Administration because the material has been paid for in the cost estimate contain the contract.

CHAPTER II: EXECUTION OF THE TASKS

Article 12: CONSISTENCY OF THE WORKS, TIME-LIMITS FOR EXECUTION/TIME-LIMITS FOR MOBILIZATION

The tasks that form the subject of the present invitation to tender consist of all works foreseen in the bill of quantities estimated for **CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE)IN BENAKUMA COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION.**

Time-limits for execution covers:

- Transfer of networks and traffic maintenance.
- Supply of materials;
- Realization of tasks;

Under no circumstances shall the duration for execution exceed **ninety (90) calendar** days except in the situation of Force Majeure. Since a contract whose execution duration is maximum one (01) year can not undergo price revision, price revision shall not be tolerated during the execution of this project.

Time-limits for mobilization shall run as from the date of reception of the service order to start work. Within this time, the contractor shall not modify any of his unit prices. A copy of the service order shall be forwarded to the Contracting Authority, signatory of the contract.

Article 13: OBLIGATION OF THE CONTRACTING AUTHORITY

The Contracting Authority (CA) shall take all necessary measures to facilitate the execution by ensuring that the contractor submit two (02) original copies of the registered contract and three (03) photocopies of the registered contract within a maximum duration of thirty seven (37) days as from the date of notification of the contract otherwise he/she (the contractor) will be sanctioned. The copies will be distributed as follow:-

- One original copy to the office of the Contracting Authority
- One original copy to the office of the Regulatory Organ (*copy to be given to the CA*)
- One photocopy to the office of the Control Brigade, D.D. MINMAP Menchum (*copy to be given to the CA*)
- One photocopy to the Divisional Delegation, MINEPAT Menchum (*copy to be given to the CA*) and
- One photocopy to the office of the Chief of Contracts (*copy to be given to the CA*)

Article 14: ROLE AND RESPONSIBILITY OF THE CONTRACTOR (ENTREPRENEUR)

The contractor shall provide to the Contracting Authority two (02) original copies of the registered contract and three (03) photocopies of the registered contract to be distributed as stipulated in Article 13 above and submit a copy each of an original copy to the Project Engineer and Project Owner. The contractor has as mission to assure the execution of tasks under the control of a Project Engineer and in accordance with the rules and norms in force. Hence, the contractor is responsible with regard to the administration, for the organization and the conduct of the site, the quality of the materials and supplies used by him, their perfect adaptation to the needs of the site and the good execution of tasks. Tasks will be executed in accordance with the plans and technical specifications, that is, according to the rules of the art. To this effect, the contractor shall take all measures to provide all necessary means to hire competent staff.

Hence:

*He shall within the thirty(30) days from date of notification of the service order to start work, submit to the Chief of Service of the Contract for approval an execution program otherwise he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness. These penalties shall equally be applied in case of delays after the deadline attributed for corrections to be made on the execution program. As well, these penalties shall be applied on any stakeholder who delays the process of approving the execution program submitted or who carries out abusive rejects of the execution program; In no circumstance shall the execution program be rejected more than two (02) times.

*He shall fulfil his fiscal duties to the staff deployed for the execution of the tasks and shall put in place an installation and ensure the organization of the site, thereby guaranteeing the security of supplies and people on the site;

* He shall be held responsible therefore for any damage that may occur on the material and people on the site because of his works until the end of the period of guarantee;

*The contractor shall be held fully responsible for accidents and damages of all nature that may occur to his staff, third parties, agents of the Project engineer, his material for the realization of the contract arising from this present invitation to tender, during the execution of the tasks;

*He has the obligation to put back to its original state the surrounding environment damaged during the execution of the project;

NB:

-The contractor remains responsible for the totality of the site including interventions of his accepted Sub-Contractors. It is his responsibility to assure the coordination of the activities of the suppliers, of the Sub-Contractors whose contribution is necessary to him for the different working groups on site.

-Regular site meetings shall be held at the initiative of the Project engineer. The participation of the site Foreman at site meetings shall be obligatory. To this effect, the contractor shall keep a site register that shall be available to the project engineer and contractor's representatives.

-The contractor shall put in place all human and material resources necessary for the execution of works within the prescribed time-limits.

Article 15: INSURANCE AND PROTECTION OF THE SITES

Civil liability

The contractor shall prove that he has taken out an insurance policy for damages of all sorts caused to third parties

- by his personnel,
- by the equipment used;
- Surrounding properties.

Comprehensive risks insurance

In addition, all the works under the project shall be covered by a comprehensive risks insurance issued to the contractor by a company approved by the competent authority.

Within fifteen (15) days as from the date of notification of the contract before the start of execution of works, the contractor shall present to the project owner for approval and reporting to the Contracting Authority an attestation from an insurance company attesting to the full payment of premiums and contributions relating to this invitation to tender otherwise all execution activities will be suspended without suspending the execution deadline. After two months from the date of notification of the contract the Contractor has not complied, the contract may be terminated.

Protection of the site

The contractor shall be bound to ensure protection and safe-guarding of his construction site. He shall make sure that the populations stay away from the site, notably by demarcating the site clearly. He shall be held responsible for any accident that may occur on the sites and affecting the populations.

Ten-year guarantee

It shall be managed by the Civil Code.

Article 16: PLANNING OF WORKS AND SUB-CONTRACTING

Within ten days from the date of notification of the service order to begin works, the contractor shall submit to the Project Engineer the program of works (planning) in five copies for approval. The contractor shall constantly update the planning of works, considering the advancement on site. Any important modifications to this program will only be applied after having received the project engineer's prior agreement. It shall be established every month end at the contractor's diligence and at his expenses, the state of advancement of works to be sent to the administration in seven copies.

The contractor may assign execution of part of the contract to one or several sub-contractors provided he mentioned it clearly in his bids in terms of qualifications, references of the Sub Contractor envisaged and percentage of the initial contract amount and its additional clauses to be sub contracted. All subcontracting to a third party for the execution of a part of the works foreseen in the contract arising from this invitation to tender shall be subordinated to the prior authorization of the Contracting Authority at a maximum of 30% of the initial contract amount and its additional clauses. This authorization shall not free the contractor from any of his contractual obligations. The contractor shall see to it that the sub-contractor is in order with Cameroon's Administration. Sub-contractors shall fulfil the same conditions as the main contractor. Non-compliance with the above provisions shall give rise to termination of the contract. Sub-contractors shall fulfil the same technical and financial conditions with the contractor. They shall execute the works under the sole and full responsibility of the main contractor

Whatever the case, before the Contracting Authority, the contractor shall remain solely responsible for the discharge of the contract as per the contractual obligations.

Remark: Penalties of 1/5000th the initial contract amount shall be applied on any stakeholder who delays from seven (07) days and above the process required to validate the subcontracting.

Article 17: CONSTRUCTION DRAWINGS AND DOCUMENTS

Detailed drawings and other documents necessary for the execution of works shall be drawn up by the contractor based on the documents of the tender file.

These drawings shall be submitted to the Contracting Authority at least ten (10) days before the start of any work. Designs shall be checked and completed, if necessary, by the contractor who shall then give them to the Contracting Authority at least eight (08) days before the start of works. Within seven (07) days, the Contracting Authority shall make his remarks and observations known to the contractor. After this deadline, the Contracting Authority shall be considered as having given his approval.

The approval of the Contracting Authority shall in no way reduce the responsibility of the Project Engineer for designing and executing the works.

Before the provisional acceptance, the contractor shall furnish to the Project Engineer three (03) copies of the working plans for the works actually done including a clear original copy.

That is, plans of details and other necessary documents for the execution of works will be established by the contractor on the basis of the technical file. Before the final reception, the contractor will hand to the project engineer three (03) copies of the plans of works really executed ("plan de récolement") called as-built-plan with one clear original.

Article 18: EQUIPMENT AND PERSONNEL FOR THE PROJECT

The contractor shall undertake to mobilize the human and material resources necessary for satisfactory execution of works as required by the Special Administrative and Technical Conditions.

Any amendments to this invitation to tender shall be subject to the prior written approval of the Contracting Authority. In case of any replacement of personnel, the contractor shall replace personnel with personnel of at least equal competence (qualifications and experience) or in case of equipment, with of equal performance and in good working condition.

Whatever the case and except in case of force majeure, the contractor shall not replace more than fifty percent (50%) of his personnel without being liable to the procedure for termination of the contract.

If the Project Engineer requests for the replacement of a worker for serious misconduct duly recorded by both parties, the contractor shall immediately replace the said worker at his own expense.

Article 19: REPLACEMENT OF KEY PERSONNEL

The Chief of Service of the Contract shall in collaboration with the Project Engineer verify and be sure that the key personnel (supervisory staff) on the execution site are those mentioned in the bids of the contractor and in case of replacement, the qualities of the personnel proposed shall at least be equal to that of the staff replaced in terms of qualification, experience and competence otherwise such replacement shall attract penalties of 1/5000th the cost of the contract (ATI) independently of the procedure for validation of the new personnel. The unit price of the new personnel shall be more by 25% that of the initial price. However, in case of any accident or illness, the contractor shall immediately replace the personnel in question without delay and inform the Project Engineer, Project Owner and Contracting Authority through the Chief of Service of the contract. The charges emanating from such replacement shall be born by the contractor and shall not interrupt execution. Hence, the above penalties shall not apply for situations of force majeure such as incapacitation of personnel due to accident and death of personnel or in a situation duly recognized by the procedure spelled out in Article 50 of these Administrative Conditions.

Article 20: MODIFICATION TO STRUCTURES

During execution, the Contracting Authority shall reserve the right to bring any changes, suppressions and additions to the structure as well as possible suppressions of some works without financial incidence necessary for the proper execution and successful outcome of works. However, this shall be the subject of additional clauses and shall not entitle the contractor to claim compensations or indemnity whatsoever, apart from those provided for in the Special Administrative Conditions.

Article 21: MATERIALS

The contractor shall, at his own expense, look for extraction sites of materials necessary for the execution of works if it is incumbent on him to supply materials.

The materials shall comply with the Special Technical Conditions. They shall be subject to tests and trials that the Project Engineer may prescribe in accordance with the specifications of the contract.

The contractor's means of control, put in place by him at his own expense, shall enable him to carry out the extraction, preparation or production on site, as well as on the construction site, to ensure constant, regular and permanent control.

Article 22: DEMOLITION OF FAULTY STRUCTURES AND UNAPPROVED MATERIALS

The Project Engineer shall have the right to order in writing:

- 1) Removal from the site within forty-eight (48) hours of all materials considered non-compliant with the specifications of the contract and their replacement by the right materials approved following laboratory tests.
- 2) Proper demolition and reconstruction of any structure or part of structure considered non-compliance with the requirements of the contract, with regard to the mode of execution as well as the materials used. The control engineer shall issue a compliance certificate to the contractor after complaining.

In case of non-compliance, expenses shall be charged to the contractor.

Article 23: RIGHTS AND PATENTS

applied to the matter.
against any legal proceedings in the matter.

Article 24: WORK PHASES

The contractor shall respect the breakdown of works into various phases as spelt out in his bid so as to make control easy and meet the duration stated in his work plan.

Article 25: ACCESS TO THE SITE

The Project Engineer and any other person authorized by him may, at any time, have access to works, on the site, to workshops and any work place, as well as any place where the materials, manufactured products and tools used for works come from.

Moreover, as part of the duty of checking the effectiveness of works, duly mandated representatives of bodies in charge of payment shall have access to the site and to any information necessary for the achievement of this mission.

Article 26: DUTIES OF THE PROJECT ENGINEER

The duty of the Project Engineer is to ensure that works are executed properly and in accordance with the terms and conditions of the contract. The Project Engineer shall not relieve the contractor of any of his obligations under the contract or order any task that may delay the execution of works or lead to additional payment by the Contracting Authority or order any significant modification to the structure to be constructed. The Project engineer shall have the power to prepare and sign orders for technical services.

At the request of the Contractor and Project Engineer, counter-records may be drawn up to fix quantities for some structures. Such records shall be needed in case a structure may not be measured again.

The Project Engineer shall have the following duties:

- Ensure in collaboration with the Chief of Service of the contract, the approbation of execution documents within seven (07) days otherwise Administrative Sanctions as per the regulations in force shall be applied on him;
- Controlling works on the site to ensure that they are advancing in accordance with the agreed schedule of execution;
- Controlling and approving execution plans, drawings and designs;
- Cross-checking and approving the implantation of works, as each implantation shall be subject to an approval report signed by the Contracting Authority and the contractor;
- Controlling and approving origin of materials and compliance with the terms and conditions of the contract;
- Making a daily statement on works and supplies presented by the contractor;
- Controlling the detailed accounts and provisional monthly statements on works submitted by the contractor;
- Proposing solutions or specifications about works underway to the foreman or contractor;
- Making proposals for preparation of provisional or final acceptance to the Contracting Authority at the request of the contractor;

Article 27: PROJECT SITE MEETINGS

Project site meetings shall hold on regular basis at the initiative of the Project Engineer. Since it shall be a works contract, project site meeting shall take place every week during which the report of each meeting shall be signed on the site by the participants who shall each have right to a copy. A copy of the report shall be forwarded to the Project Owner for appraisal and intervention on points not resolved, susceptible to perturbate the smooth running of the operations. The contractor shall be bound to attend

these meetings. Refusal to transmit the report shall attract penalties of 1/5000th per report, the cost of the contract of the Project Engineer as the case may be.

Article 28: SITE RECORD

A project record shall be kept by the contractor and put at the disposal of the Project Engineer or contractor's representative.

On a daily basis, entering in this record it shall include the following details:

- Administrative procedures relating to the execution and settlement of the contract (notifications, trial results, daily statements);
- Weather conditions;
- Receipts of materials and authorizations of all sorts;
- Incidents or details of all sorts having some interest with regard to the future handling of the structures or the actual duration of works;
- Works done during the day, the personnel and material used;
- Works progress;
- Required prescriptions;
- Detailed quantities of works;
- Works done by sub-contractors;
- Non-compliances;
- Official visits.

The contractor may also record incidents or remarks that are likely to give rise to complaint on his part.

This record shall be countersigned by the Project Engineer and the foreman following each visit to the site, and visaed after each project meetings. For any claim that the contractor may make, only events or documents mentioned in due time in the project record shall be taken into consideration. Any refusal to present, or any attempt to destroy all or part of this journal or to forge it, shall give rise to sanctions. Whatever the case, the contractor shall not take advantage of the impossibility to consult the project record.

Article 29: PUTTING THE SITE AT THE DISPOSAL OF THE CONTRACTOR

All the provisional structures necessary for the execution of works such as offices, garage, workshops, and accommodations for personnel, quarries, borrow pits and paths shall be constructed only on premises approved by the Project Engineer in agreement with the administrative and traditional authorities of the locality.

Within the limits of their powers, the administrative or traditional authorities of the locality shall put at the disposal of the contractor, free of charge and for the duration of works, the State private or public property necessary for the project. State property put at the disposal of the contractor shall be cleaned at the end of works.

Article 30: SECURITY MEASURES

The contractor shall have the duty to supply and maintain, at his own expense, any lighting, security, fence and guarding device necessary for a proper execution of works as demanded by the project Engineer

Article 31: ENVIRONMENTAL PROTECTION

The contractor shall be bound to comply with instruments governing environmental protection in the Republic of Cameroon and notably Framework Law No. 096/12 of 05 August 1996 on Environmental Management.

He shall particularly comply with the Special Technical Conditions relating to environmental protection.

Article 32: CLEANING OF THE SITE

Cleaning of the site includes disposal of structures, equipment, materials and debris. It shall be performed within thirty (30) days as from the date of acceptance, that is, before signing the payment documents ("décompte") or latest before approval of the general and final statement of works.

Article 33: OPERATIONS REQUIRED BEFORE ACCEPTANCE

The Contractor shall request in writing to the Project Engineer, the organization of a technical visit (*pre-technical acceptance*) before technical acceptance. The visit shall include, among others, the following operations:

- Controlling the quality and quantity of the structures constructed;
- Carrying out trials provided for by the Special technical conditions;
- Recording the possible non-execution of works provided for under the contract;
- Recording the folding up of the installations and cleaning of the project site;
- Recording the completion of works;
- Recording the quantities of works actually executed.

During this pre-technical acceptance, the Project Engineer may identify reserves and recommend tasks to be accomplished before the date of technical acceptance. The Contractor shall request for technical acceptance by writing to the Project Engineer with copy to the Contracting Authority. The agreed date shall be communicated to the other technical committee members. The commission for technical acceptance shall be composed of:-

- The Project Owner or his Representative ----- Chairperson
- The Project Engineer Secretary
- The Contractor Member

Remark: *The technical acceptance report shall be prepared by the Project Engineer on the site and signed by 2/3 commission members on site as well. Technical acceptance shall mark the end of execution of works. Hence, if the Contractor was already within the penalty zone, counts of calendar days overrun shall stop on the day of technical acceptance. In case of delay of technical acceptance caused by one or more members of the commission, the date that was agreed upon and communicated to all members shall mark the end of counts of calendar days overrun.*

Article 34: PROVISIONAL ACCEPTANCE

After technical acceptance, the Contractor shall request for acceptance by writing to the Project Owner with copies to Project Engineer and Contracting Authority. It shall be recommended to the Project Owner by the Project Engineer and the date for it shall be agreed upon based on confirmation from the Contractor. The Project Owner shall then invite members of acceptance committee made up of:

- The Project Owner or his Representative----- Chairperson
- The Project Engineer (MINTP)..... Secretary
- The DD MINDDEVEL Observer
- The Project Manager.....Member
- The Contractor..... Member
- The Chief of Service for Contracts (Benakuma Council)..... Member
- The Representative of MINMAP MenchumObserver
- The Village Chief or Representative..... Observer

During acceptance, the committee shall examine the reports of the pre-technical and technical acceptances and carry on the acceptance if appropriate. The Secretary of the committee shall draw up a report which may declare either of the following:

- Refusal of acceptance of works;
- Acceptance of works with reserve;

- Acceptance of works without reserve.

Remark: *A reception report shall be prepared by the Project Engineer on the site and signed by atleast 2/3 of the commission members on site as well.*

NB: 2/3 above mentioned committee members are present, Acceptance will take place.

Article 35: PERIOD OF GUARANTEE

This period shall last for twelve (12) months as from the date of provisional acceptance. The period of guarantee concerns works relating to the structure and exhaust equipment that may be installed.

Article 36: MAINTENANCE DURING THE PERIOD OF GUARANTEE

During the period of guarantee, the Contractor shall carry out periodic visits (*maximum every three months*) and carry out at his expense repairs in due time of any disorder that may occur as a result of defects in the structure. Hence, before the Contracting Authority, the contractor shall be responsible for any disorder that may occur to the structure, except those resulting from fair wear and tear, even those which have not been recorded by the Project Engineer. The contractor shall within twenty (20) days from date of information carry out the repairs identified by the Project Engineer and/or Project Owner. After this deadline, the Project Engineer shall have the right to have the repairs carried out at the contractor's expense.

Article 37: FINAL ACCEPTANCE

After visiting the site, the acceptance committee shall examine the report of provisional acceptance and carry on the final acceptance if appropriate. The final acceptance shall give rise to an acceptance report signed on the spot by atleast 2/3 of the members including MINMAP Representative.

The Committee shall be made up by the same personalities as in case for provisional acceptance

During final acceptance, the Secretary of the committee shall draw up a report which may declare either of the following:

- Refusal of acceptance of works because of reserves identified;
- Acceptance of works without reserve.
- In case of refusal, a time limit shall be given by the committee, during which the contractor shall accomplish the reserves and request the Project Engineer to off-lift of the reserves for a new acceptance to be carried out.

Remark: *An acceptance report shall be prepared by the Project engineer on the site and signed by 2/3 the members on site as well.*

Article 38: LAWS GOVERNING LABOUR

The contractor shall abide by the laws governing labour in the Republic of Cameroon and as well in its own organization in the implementation of the contract. As far as possible, he shall give pride of place to Cameroonians during recruitments. If in Cameroon, these laws, regulations, administrative and fiscal obligations in force are changed after the signature of the contract, the eventual costs will be borne by the contracting parties.

CHAPTER III- FINANCIAL CONDITIONS

Article 39: AMOUNT OF THE CONTRACT

The amount of the contract (.....*Francs CFA, ATI*) shall be stated in the detailed cost estimates, on the flyleaf and on the signature page. The detail cost estimate shall include total without taxes, Value Added Tax (VAT), Income tax (AIR), total taxes, total with taxes inclusive (ATI) and net payable.

Article 40: PRICE CONSISTENCY

The Contractor's prices stated on the unit price schedule shall be considered as having been set on the basis of the economic conditions prevailing in the Republic of Cameroon during the month preceding that of submission.

The contractor shall be considered as having perfect knowledge of all the constraints relating to the execution of works and all the conditions that may influence this execution, as he must have personally been to the site before submitting his bid, notably:

- the nature and quality of the land and soils;
- transport and access conditions to the site at any period of the year;
- constraints relating to the geographic situation of works;
- water regime and rainfall in the area and possible risk of flood ;
- presence or absence of a Development association in the village.

The amounts of the price list comprise all the expenses of the manpower participating directly or indirectly in the execution of works, including salaries and allowances, insurance charges, wage bill, travelling expenses.

They also comprise the following headings:

- Conveyance, assembling, maintenance, dismantling and folding up of all the structures including offices, laboratories, possible quarry material, workshops, accommodation etc;
- Conveyance, supply, storing and transport of all the materials, ingredient, fuel, lubricant, etc;
- Maintenance of existing structures used for the execution of the contract arising from this invitation to tender;
- Prospecting for sources of materials, extraction, storing , drainage of deposits;
- Measures aimed at reducing direct environmental impacts;
- Maintenance of structures during the period of guarantee;
- Insurance including civil liability;
- Insurance charges for the project;
- Financial charges and overheads for the project;
- Remuneration for profit and unknown factors.

Prices on the price list shall include all the execution charges whether or not they are provided for in the Special administrative conditions or the Special technical conditions. A modification of quantities may be brought in the volume of works, increasing or reducing it, irrespective of the volume of the works actually executed; unit prices of the unit price list shall be applied.

Article 41: SUB -DETAILED PRICES

The contractor shall have provided in his bid, the price sub-detail schedule drawn up in accordance with the rules in force and stating details on the amount of charges, allowances and manpower as well as the assembling, maintenance, dismantling, depreciation of the structures, tools and equipment as well as miscellaneous charges, overheads, incidental expenses and profits.

Article 42: ADDITIONAL WORKS - VARIATION IN THE VOLUME AND NATURE OF WORKS

In case of increase of the volume of works or structures not provided for in the contract, no extra bill shall be accepted on additional works executed by the contractor unless a Service Order issued.

Unit prices of the Price Schedule shall be applied if the additional works are accepted. The validation of these prices shall give rise to an additional clause. Shall be considered as new, any price not provided for in the unit price schedule or the detailed estimates of the contract.

Article 43: PAYMENT

Within the meaning of the security regime laid down Decree N^o. 2018/366 of 20th June 2018 to lay down the Public Contracts Code; the following definitions of duties shall apply:

- (a) The Contracting Authority shall make sure all taxes appear on the contract and are deducted in the payment documents ("decompte");
- (b) The Divisional Finance Controller shall visa the payment documents before the Final payment can be effected;
- (c) The Municipal Treasurer, Benakuma Council shall be in charge of payments;
- (d) Security shall be subject to the rules governing public contracts and
- (e) Payments shall be done by bank transfer.
- (f) The contractor may obtain periodic payments on account. This periodic payments may be spread out during the term of the contract in several periodic installments
- (g) Each payment on account shall include a part corresponding to building materials bought for the execution of the works and are on site. The amount for these materials is obtained by taking into account the prices from the sub-details. Materials having been the subject of payment on account cannot be taken away from the site without a written authorization of the Project Owner or the Project Engineer.

In respect of the above:-

*** Mode of payment of works executed**

In view of the application of the law on collateral prescribed in the Decree N^o 2004/275 of 24 September 2004, the contractor shall be paid through accounts drawn up by applying the prices on the unit price schedule for tasks actually accomplished. In order to realize this:-

- The Project Engineer and the Contractor shall periodically draw a joint statement summarizing and setting the quantities achieved and record for each heading. Works executed by the contractor and entered into the job cost sheet give entitlement to payment on account (bill) may give right to payment;
- Not later than the fifth (5th) of the month following the month when the work was carried out, the contractor shall furnish to the Project Engineer seven (07) copies of three draft (03) provisional monthly accounts;
- After completion of works and within fifteen (15) days following the date of acceptance, the contractor shall, from the joint records, draw the draft final account of works actually carried out which shall sum up the amounts that he can claim as payment for the works executed. The draft final account which shall be the summary of the periodic statements of account shall be submitted by the contractor for verification and approval by the Project Engineer and once approved by the Project Engineer the draft final account shall become the final account. It shall serve for making out the final payment to settle the contract drawn up under the same conditions as those defined below relating to drawing of monthly accounts;
- At the end of the period of guarantee, the Project Engineer shall draw up the general and final account which shall be countersigned by the contractor and the Contracting Authority. The guide on how this account shall be established shall be provided by the Contracting Authority

who shall depend on how the Contractor respected his commitments during the guarantee period;

- The signing of the general and final account without reserve by the contractor shall definitely bind the parties and put an end to the contract, except for issues concerning default interests;
- Default interests shall be paid by statement of the amounts owed;
- The currency of the tender and payment shall be the CFA Franc.
- The bill of taxes will be paid into the state coffers. Only amount without taxes will be paid to the contractor in such a way that 98.9% shall be paid in the account of the contractor and 1.1% shall be paid in the public treasury.
- Upon presentation of an account drawn up by the contractor in seven (07) copies including the stamped original copy, the Project Engineer shall after verification finalize and transmit to the Authorizing Officer (the Mayor, Benakuma Council) who in turn shall verify and sign as a means to order for payment and transmit to the Divisional Finance Controller for Menchum. The Divisional Finance Controller after verification and concluded good for payment shall affix a VISA (FINAL PAYMENT) and transmit to the Municipal Treasurer, Benakuma Council who shall commit the State of Cameroon for payment to be carried out as defined in the contract in respect to the information on the credit card;

Each request for payment shall include the following documents:

- Seven copies of the final account mentioned above;
- Seven copies of signed Statements of work done;
- Acceptance report signed by all the members of the acceptance committee;
- Report of execution of work ("attachement") signed by the Project Engineer and bearing the visa of the authorising officer ;
- A copy of the following documents making up the tax file certified by the relevant Authorities and dated less than three (03) months:
 - > An attestation of non-indebtedness;
 - > A location plan
 - > An attestation of localisation;
 - > A Taxpayer's card;
 - > A Business licence;
 - > A clearance attesting to the payment of taxes;
 - > An attestation of solvency (non-bankruptcy), also called certificates of incorporation;
 - > A Clearance Certificates issued by the National Social Insurance Fund ("CNPS").
 - > An attestation of Bank account;

REMARK: Payment on account may be spread over the duration of the execution of the jobbing order according to technical execution phases as defined in the jobbing order. The amount of payment shall not exceed the value of the technical execution phases carried out. In such a case, for payment to be effected the contractor shall before the 5th of the every month following the works executed transmit seven (7) copies of the partial invoices to the Project Engineer who shall within a time-limit of seven (7) days approve and forward for processing by the services of MINFI.

*** Venue of payment of works executed**

It shall be carried out by the Municipal Treasury, Benakuma Council.

Article 44: START-OFF ADVANCE

The Contractor may through a simple request without any justification addressed to the Project Owner with copy addressed to the Contracting Authority obtain a so-called "start-off" advance or advance "for purchase of building materials". The Start-Off Advance or payment of the start-off advance shall be at most 20% the initial contract price (*i.e. all taxes inclusive*) but the advance must be guaranteed at 100% by a Bank recognized by Cameroon Ministry in charge of Finance or a First Rate financial institution. This advance may be released after the notification of the Service order to start the work. It's reimbursed by deduction done at 50% on each payment on the account ("*décompte*") made to the contract holder during execution as from when works must have been executed more than 40% of the contract and must be totally reimbursed not later than when the execution of the contract must have reached 80%, *i.e.* when the value of the basic price of the goods & services rendered shall have reached 80% of the contract price. Following of the rate of reimbursement of the advance, the Contracting authority shall authorize the payment of the corresponding part of the contract upon written request. Whatever be the case, the reimbursement must be completed one (01) month before the date of expiration of the contractual period. As the start-off advance is refunded, the Contracting Authority shall release the corresponding bid bond if the contractor requests it.

Article 45: GUARANTEES

Any Structure having issued a guarantee to a Contractor must undertake to pay on the order of the Contracting Authority, the amount corresponding to the guarantee in case of default on the side of the Contractor.

a) Final bond

The final bond (*final surety*) of the contract referred to as security in guarantee for complete execution shall be provided within twenty (20) days as from the date of notification of the contract and in any case before the first payment and/or before the expiry of the bid bond. It shall be addressed to the Contracting Authority who shall then act as the Beneficiary, reason why he shall be one to keep it. The amount of the final bond shall be 2% of the value of the initial contract, all taxes inclusive (ATI). The bid bond shall only be returned to the contractor by the Contracting Authority once the final bond has been provided. The Bank that issued shall refund corresponding amount upon presentation of the original bid bond by the Contractor.

Remarks:

- *The final bond may be replaced by a bond (bank guarantee) issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *As concern Small and Medium Enterprises constituted of National Capital and managed by Nationals, the final bond may be replaced by a Statutory Lien bond (bank guarantee) issued by a first-rank banking institution approved by the Ministry in charge of Finance.*
- *The final bond shall be released upon written request of the contractor after completion of works proven by technical acceptance minutes duly signed by all the members of its committee.*
- *The final bond shall be addressed to the Contracting Authority who shall then act as the Beneficiary.*
- *In case where the Contractor does not provide the final bond within the twenty (20) days, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI)*

b) Retention Bond

The retention bond (*Performance bond*) of the contract referred to as security in guarantee for proper execution shall be the sum deducted (blocked up) from the amount on account during each payment made to the Contractor. After provisional acceptance, the guarantee period of this project shall be **one year** during which the Contractor shall be expected to carry out period visits every three months to carry out corrections of imperfections or defects. The amount of the retention bond shall be 10% of the value of the initial contract (all taxes inclusive), increased if need may be, by the value of the additional clauses.

Remarks:

- The retention bond may be replaced by a bank guarantee issued by a first-rank banking institution or financial body approved by the Ministry in charge of Finance.
- The retention bond shall only be refunded to the Contractor upon a Release Order issued by the Contracting Authority after fulfilment of the contractual obligations by the Contractor proven by final acceptance minutes duly signed by all the members of its committee. The Release Order must be issued within thirty (30) days from expiration of the guarantee deadline or where the contract has no such deadline, following the final acceptance of works otherwise if there is no notification from the Contracting Authority to the Contractor for having not honoured his obligations, the Competent Structure shall undertake to refund the guarantee or release the bond upon a simple request from the Contractor. In the case of notification, the end of the commitment of the bond shall only be put into effect by a Release Order issued by the Contracting Authority. After the expiry of the deadline, the bond shall cease from having any effect even in the absence of the release.
- If for any reason, the Contractor refuses to carry out corrections of imperfections or defects during the period of guarantee, the Contracting Authority, Project Owner and the Project Engineer shall have the right to carry out the corrections using any other contractor who shall be paid using the amount retained for the retention bond at the expense of the main by virtue of the contract.

Article 46: PRICE REVISION

In respect to the maximum works execution deadline of three months defined in the tender, the prices shall be concluded firm and so shall be final and unchangeable. As well the contract arising from this tender shall not be subject to price revision.

Note should be taken that the contract amount that shall arise from this tender shall be lump sum. Hence, possible differences noticed for each type of structure or each element of the structure between the quantities in the cost estimates and the quantities effectively executed shall not lead to the modification of the said contract amount. This applies to errors that the cost estimates may include. The contract shall be paid on the basis of approved plans by the contracting parties.

Article 47: STAMP DUTY AND REGISTRATION

Seven (7) original copies of each constituent document of the contract arising from this invitation to tender shall be stamped and registered by at the expense of the contractor, in accordance with the laws in force; within thirty (30) days as from the date of notification of the contract by the Contracting Authority.

Article 48: TAX AND CUSTOMS REGIME

In respect to Decree N° 2003/651/PM of 16 April 2003 that defined modalities for the implementation of the tax and customs systems to Public Contracts taxes that shall be concerned with the contract arising from this invitation to tender shall be subject to the laws in force in the Republic of Cameroon.

Article 49: PENALTIES

- (a) **Penalties for lateness:** In case of failure by the contractor to complete the work within the contractual time-limits, he shall be subject to the following penalties:
- 1/2000th of the amount of the contract per calendar day overrun, from the 1st to the 30th day;
 - 1/1000th of the amount of the contract per calendar day, beyond the 30th day;
 - Penalties for lateness shall not exceed ten percent (10%) of the amount of the contract;
- A percentage higher than 10% shall lead to termination of the contract.

(b) **Specific penalties:** Apart from penalties of overrun of the contractual time-limits, the Contractor shall be liable to the following particular penalties for the non-respect of the terms of the contract notably:-

- *The late provision of the final bond:* In case where the Contractor does not provide the final bond within the twenty (20) days from date of notification of the contract, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness;
- *The late provision of the insurance policy:* If after fifteen (15) days from the notification of the contract the contractor has not provided an insurance policy covering all risk on site, all execution activities shall be suspended without suspending the execution deadline. Hence penalties arising from failure to complete the work within the contractual time-limits shall be paid. After two months from the date of notification of the contract the Contractor has not complied, the contract may be terminated;
- *The late provision of the execution program:* In case where the Contractor does not provide the execution program within the thirty(30) days from date of notification of the service order to start work, he shall pay penalties amounting up to 1/5000th of the contract amount (ATI) for every calendar day of lateness. As well, these penalties shall be applied on any stakeholder who delays the process of approving the execution program submitted or who carries out abusive rejects of the execution program;
- *The late request for site installation:* If within fifteen (15) days from the date of notification of the service order to start execution site installation is not carried out, the Contractor shall pay penalties of 1/5000th the cost of the contract (ATI) for every calendar day of lateness.
- *The replacement of Key Personnel:* If in replacement of key personnel, the qualities of the personnel proposed are less than that of the personnel replaced in terms of qualification, experience and competence, such replacement shall attract penalties of 1/5000th the cost of the contract (ATI) independently of the procedure for validation of the new personnel. The above penalties shall not apply for situations of force majeure such as incapacitation of personnel due to accident and death of personnel or in a situation duly recognized by the procedure spelled out in Article 50 of these Administrative Conditions.
- *Absence of Project Site Log Book:* It shall attract penalties of 1/5000th the cost of the contract (ATI) of the main Contractor and that of the Chief of Service of the Contract as the case be of complicity.

Remark: *The total of penalties shall not be more than 10% the amount of the contract in concerned otherwise the contract will be terminated.*

CHAPTER IV: FINAL PROVISIONS

Article 50: RISKS, RESERVES AND FORCE MAJEURE

The Contractor may during execution be subjected to risk(s) which can give rise to reserves that need to be recognized by the Project Engineer.

Force majeure shall include the effects of natural disasters or any other external events that the contractor could not have reasonably foreseen or avoided, and which make works impossible and not only costly. In case of force majeure, the contractor shall be relieved of his responsibility only if he has notified in writing to the Project Engineer with copies forwarded to Project Owner and Contracting Authority of his intention of how the effect(s) on execution arising from the Force Majeure should be treated. This shall be done before the end of the 20th day following the event. The Project Engineer shall visit the site of the Force Majeure, carry out his own evaluation of its gravity basing as well on the evidence given by the contractor and decide on the nature of force majeure and if he considers that the Contractor's preoccupation(s) should be taken into account:-

- (a) He the Project Engineer shall forward to the Project Owner a succinct report bearing his appraisal and suggestion(s);

THE SPECIAL TECHNICAL CONDITIONS

TECHNICAL SPECIFICATIONS FOR EXECUTION

This technical description of estimates is intended to define the content of **Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge)in Benakuma Council, Menchum Division of the North West Region.**

It specifies the quality of materials and the mode of execution in keeping with the rules and in compliance with the constituent documents of the contract.

Chapter 1: GENERAL DISPOSITIONS

PURPOSE OF THIS DOCUMENT

The **Mayor of Benakuma Council**, Contracting authority, launches on behalf of the Republic of Cameroon, an Open National Invitation to tender for the **Construction of 15km stretches of road within Bufi and the construction of 3 box culverts(GS Bufi – Butundu – Morsenge) in Benakuma Council, Menchum Division of the North West Region** by Normal Procedure.

I-2. CONSISTENCY OF THE WORK

CHAPTER I - GENERAL INFORMATION

Article 1 - Location and volume of works

CHAPTER II - ORIGIN, QUALITY AND PREPARATION OF MATERIALS

Article 2 - Origin of materials

Article 3 - Quality of materials

CHAPTER III - MODE OF EXECUTION OF WORKS

Article 4 - General information

Article 5 - Preliminary works

Article 6 - Definition of work to be executed

Article 7 - Final works documents

Article 8 - Earthworks

Article 9 - Fill from borrow pit

Article 10 - Resurfacing and compaction of existing road

Article 11 - Refilling of road

Article 12 - Metallic culverts

CHAPTER IV - WORKS EVALUATION METHOD

Article 19 - Prices

Article 20 - Price definition and evaluation of works

CHAPTER V - WORK ITEMS

CHAPTER VI- ENVIRONMENTAL PROTECTION

CHAPTER I - GENERAL INFORMATION

Article 1 - LOCATION OF WORKS AND VOLUME OF WORK

Works will involve the rehabilitation and elimination of critical points on the **Construction of 15km stretches of road within Bufi and the construction of 3 box culverts (GS Bufi – Butundu – Morsenge) in Benakuma Council, Menchum Division of the North West Region**. The various works to be executed are detailed in the localisation of tasks, length sheets, bill of quantities and the execution drawings conform to the typical drawings for model plans in the consultation document.

CHAPTER II - ORIGIN, QUALITY AND PREPARATION OF MATERIALS

Article 2 - ORIGIN OF MATERIALS

The necessary borrow sites shall be indicated by the supervisor after running identification tests on the materials.

The contractor shall identify borrow sites and submit their identification tests for the approval of the supervisor whose refusal will warrant that the contractor look for new borrow sites without claiming any compensation

When a borrow site chosen by a contractor has been approved, he should carry out sufficient number of samples and run the necessary identification tests, which shall be compiled in single document and submitted to the supervisor for approval. This document shall include:

- 1) plan of localisation of the burrow pit
- 2) the thickness of top soil
- 3) the exploitable layer and volume
- 4) 5 test results on natural moisture content
- 5) 5 test results on sieve analysis
- 6) 3 test results on Atterbergs limits
- 7) 5 test results on Modified Proctor
- 8) 3 test results on CBR

The contractor may start exploiting an identified quarry only if the supervising Engineer has carried out quality control and given his authorization.

In case of contradictory test results, the supervisor may ask the contractor to run further tests at his own cost.

The Supervisor may withdraw the authorization at any time once the burrow pit no longer provides good quality material. In that case, the contractor cannot claim any compensation.

Bush clearing, top soil removal and tree felling required for the exploitation of borrow sites shall be at the expense of the contractor and shall not be paid for as of right.

Article 3 – LABORATORY

The contractor shall put in place a site laboratory equipped with the necessary equipment and personnel adequate to carry out the necessary tests and studies previewed in the present technical specification

The site laboratory shall be submitted to the supervisor for approval and shall be installed on site just before the start of works requiring laboratory tests.

In case where more than 40% of the works in the contractor's contract do not require laboratory tests, then the contractor can leave from a permanent site laboratory and negotiate with a private laboratory of his choice, on approval by the supervisor. The presence of this private laboratory whose programme of invention shall not affect work progress, does exclude the contractor of his obligations vis-à-vis the number and quality of tests proscribed by the present technical specification

Article 4- QUALITY OF MATERIALS

4.1. Fill material

The fill required for the road section generally come from excavations of satisfactory quality. In case of insufficient quantity or poor quality, they will be taken from deposits situated out of the right-of-way.

Fill materials should be free of organic debris and should be well graded in order to facilitate compaction. This material should have the following minimum characteristics:

- Maximum grain size $D_{max} = 40\text{mm}$
- Plasticity index $IP < 40$
- Percentage of fines, $f < 30$
- CBR > 15

For every 1000m³ of ordinary fill, the following reception tests shall be carried out:

- 2 Atterbergs limits
- 2 granulometric analysis
- 2 modified proctor
- 1 CBR

4.2 Material for substitution fills in swampy zones

Substitution material to be used in swampy zones should be a material insensible to water, capable of retaining its bearing at saturation and not subjected to capillary rise. Thus clean sandy laterite of granulometry of 0/6 or all-in aggregates of granulometry of 0/40 should be used. In the absence of such material, then suitable laterite having the following characteristics should be used viz:

- maximum grain size, $D_{max} = 40\text{mm}$
- Plasticity index, $IP < 20$
- % passing 10mm sieve = 65-100
- % passing 5mm sieve = 45-85
- % passing 2mm sieve = 30-38
- % fines $f < 15$

For every 1000m³ of substitution fill, the following reception tests shall be carried out:

- 2 Atterbergs limits
- 2 granulometric analysis
- 2 modified proctor
- 1 CBR

4.3 fill for block technique of structures

Material for backfilling or block technique of structures should meet the following specifications:

- maximum grain size, $D_{max} = 50\text{mm}$
- Plasticity index, $IP < 25$
- % passing 10mm sieve = 65-100
- % passing 5mm sieve = 45-85
- % passing 2mm sieve = 30-38
- % fines $f < 30$
- maximum dry density, $\gamma_{max} > 1,8 \text{ tons/m}^3$

For every 1000m³ of back fill, the following reception tests shall be carried out:

- 2 Atterbergs limits
- 2 granulometric analysis
- 2 modified proctor
- 1 CBR

4.4 Laterite and Scoria (Pouzzolana) for filling

The laterite or Pouzzolana required to (fill) recharge the road shall be of selected material. It should be free of organic material and should meet the following characteristics

- Maximum grain size, $D_{max} = 31.5\text{mm}$
- Plasticity index (PI) , = 15 - 25
- % Passing 10mm sieve = 65-100
- % Passing 5mm sieve = 45-85
- % passing 2mm sieve = 30-38
- % Fines $f < 30$
- Maximum dry density, $\gamma_{max} > 1,8 \text{ tons/m}^3$
- CBR index > 30

Qualities of the laterite or Pouzzolana shall be specified on the works site by the supervisor who may immediately accept or refuse exploitation of a deposit, a deposit area, or a heap of laterite or Pouzzolana that has bulked. If the contractor objects, the Contracting Authority may conduct control tests and/or ask an approved Laboratory to conduct the density and plasticity index tests mentioned above. And where the material does not conform to specifications, the contractor shall bear the cost. Otherwise, the project will take charge of it.

4.5 Culvert rings

Metallic culvert rings used should meet the LCPC SETRA September 1981 standards.

Sheets will be in Carbon steel, resistant to temperature changes, meet NFA - 35-556 standards on HR bolts intended for the construction of structures.

Galvanization and hot asphaltting will ensure protection against corrosion. The average layer of zinc deposited should be at least 725g/m² on both side and the general mass should be more than 640g/m². The bolts should be protected by a coating of zinc whose characteristics shall be at least equal to those of the 20-20 micron class as defined by NFA 27-016 Standards.

Before it is laid, the culvert ring shall receive a layer of bituminous coating on the 2 (two) sides in case of a deficiency in hot asphaltting.

The contractor should present to the supervisor a guarantee certificate from the factory of origin ascertaining that the culverts meet required standards.

The supervisor, however, reserves the right to request control tests and reject all the materials which do not meet the standards even if they had already been accepted by virtue of the guarantee certificate.

4.6 Materials for mortar and concrete

Sand: The nature and origin of sand remains subject to the Supervisor's approval. It shall be obtained from rivers or through crushing. The sand component should be more than 80% and the very fine constituents eliminated by settling should be less than 4%.

Aggregates: They shall be obtained from deposits or quarries chosen by the contractor, and approved by the supervisor. They should be clean (constituents eliminated through settling should be less than 2%) and their grading suited to their use.

Cement: They should be of CPA 42.5 class and be obtained from an approved factory.

4.7 Stones for masonry

They shall be obtained from a quarry or deposit approved by the supervisor and none should be smaller than 20 cm.

4.8 Timber work

The wood used should have the following characteristics:

- bulk density at 12% humidity in g/cm^3 3.8
- hardness³ (N) 6 (Chalais-Mendons to Monnin hardness)

Some of the Cameroonian wood species with these characteristics are: Doussie, Moabi, Tali, Azobe, Iroko and Bibinga.

CHAPTER III - METHOD OF EXECUTION

MODE OF EXECUTION OF THE VARIOUS TASKS

1) TM001 - Site installation

Description of works

These works consist of the mobilization of materials and personnel, the realization of geotechnical and technical studies for the project as well as the performance program and final report, the construction of a hut for site meeting, Etc...

2) Project information sign post

Description of works

This consist of fabricating information boards in wood, the supply to the sites at the extremes of the various roads and eventually at the post of works (bridge) so as to furnish the populations with all information concerning the project.

The boards will carry the following information:

Project name	CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE) IN BENAKUMA COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION AUTHORIZING letter No.....	
	Roads:	
	CONSTRUCTION OF 15KM STRETCHES OF ROAD WITHIN BUFI AND THE CONSTRUCTION OF 3 BOX CULVERTS(GS BUFI – BUTUNDU – MORSENGE)IN BENAKUMA COUNCIL, MENCHUM DIVISION OF THE NORTH WEST REGION.	
	Total = 15 km	
Owner of the project	Mayor BENAKUMA Council	
Funding body	MINTP	
Chief of service for contract award	Benakuma Council	
Project Manager		
Method execution	Direct Labour by the BENAKUMA Council	
Duration of the contract	90days	

3) TM002 - Mobilization and folding up of equipment

Description of works

This task consists of the mobilization of equipment to the site through a loader and at the end of the works the folding up of the equipment by same means and the realization of all the works necessary to re-establish the lieu to their initial state.

4) Task TR108a - EXECUTION OF THE FILL FROM BORROW PIT

This involves realization of the technical bloc and the linking to the existing carriage way (road)

These works shall be executed mechanically and manually with material extracted from a borrow pit approved by the project manager. The soil used for the fill shall present the following characteristics:

- CBR at 95% of OPM after four days of immersion ≥ 40
- Maximum dry density at 95% OPM (T/M^3) $\geq 1,8$
- Plasticity index(IP) ≤ 25
- Percentage of fine grains<0.08mm F $5 \leq F \leq 30$
- Module of plasticity F.IP < 500
- Linear inflation % < 1
- Maximum diameter of grains mm 40
- % passing through a sieve of 10mm < 10 35 – 90
- % passing through a sieve of 5mm < 5 20 – 60
- Residue at a sieve of 2mm > 2 10 – 40

The selected material from the borrow pit shall be laid on a trench and plat form previously shaped and compacted at a dry density of at least 90% OPM. The material shall be laid in horizontal layers of 20cm thick and having a water content equal to that of OPM before compaction ($\pm 2\%$).

The fill is compacted methodically up to 95% of the dry density of OPM. The rate of compaction shall be verified in -situ with a membrane densitometer at every 1000m². A sample compaction test shall be carried out to determine of passes necessary to obtain the required compaction rate.

5) TM307a &c- Putting in place of Concrete ring culvert Ø 800mm

Description of works

This consists of the supply and putting in place of metallic ring culverts

This task comprises notably the:

- supply and the transport of metallic ring culvert elements, accessories and necessary tools for their assembly to the site;
 - setting out of the culvert passage;
 - putting in place eventually of a temporary passage;
 - excavation of the trench for the culvert, upstream and downstream as long as will enable the free flow of runoff into and out of the culvert on all type of terrain and the evacuation of the products issued from the excavation to a place indicated by the project manager;
 - shaping and sloping the bed of the culvert
 - evacuation of the spoil
 - assembling of these elements in a zigzag manner according to the prescribed lengths per passage;
 - application of anti-rust to the culvert elements before assemble;
 - realization of the technical bloc (supply and putting in place of laterite of good quality) with culvert cover equal to $\text{Ø}/2 + 10 \text{ cm}$ at least, (Ø diameter of the culvert),
 - execution of all contingencies related to the putting in place of the culvert and to all measures to be taken to prevent differential settlement of the culvert passage;
 - opening of the trench upstream and downstream as long as possible for a free flow of water;
 - execution of all contingencies related to traffic flow and to the respect of environmental prescriptions;
 - linking of the technical bloc to the existing road with laterite with slopes less than 4%;
- And all other contingencies.

Mode of execution of works

The works shall be done manually for the excavation, the disposal of spoil, compaction of the base of the culvert as well as the fill around the assembled culvert will be done in layers of 20cm thick (compacted).

The unwanted material removed shall be discarded away from the road surface.

No insertion of the culvert into trenches dimensioned for the size of the assembled ring so as to avoid fill and compaction will be accepted

6) TM309a, TM310a, TM310c & drainage pipe - Culvert chamber and head for the concrete culvert Ø 800 mm & 1500mm in stone masonry

Description of works

These works consist of the construction of a culvert chamber or head in stone masonry as per the plans annexed to this performance program.

This task comprises notably the:

- supply including the transport to the site of materials (stones, cement, sand, gravel etc) and the necessary tools for the works;
- setting out of the culvert chamber;
- excavation no matter the nature of the terrain and the evacuation of the spoil issued no matter the distance of transport;
- fabrication of mortar dosed at 400 kg of cement per cubic meter and the shaping of the stones and the elevation including the 'humidification of the stones, and the bonding and pointing of the stones;
- backfilling, the compaction and all drainage into the trench of the culvert upstream and downstream;
- execution of all contingencies related to traffic flow and to the respect of environmental prescriptions;

And all other contingencies.

Mode of execution of works

The creation shall be done exclusively manually (excavation, shaping of stones, humidification, elevation, bonding, pointing, backfilling and the disposal of spoil)

Dimensions of the chamber and head. Comply with plans annexed

7) SAFETY AND ENVIRONMENTAL PROTECTION

Safety measures shall be put in place to safeguard the health of the workers. They shall be equipped with personal protective equipment like helmets, boots, gloves, goggles, rain coats etc. a first aid box shall be provided on the site to render first aid services in case of any accident. Before the start of each task, workers shall be reminded of the potential hazards associated to that task and the safety measures to be taken to avoid possible accidents. Working points shall be well signalized to road users using sign boards placed at adequate positions that can be visible to everybody.

Every area from which soil is to be extracted shall be covered with vegetative soil at the end of the job to facilitate the growth of vegetation and to avoid erosion.

8 RECOMMENDATION

1. The government should provide funds for rehabilitation works to be carried out on this road so as to ease access to and from the various villages through which this road passes.
2. The council should program the formation and training of road management committee members, so that these committees can accompany the contractor during the execution of the rehabilitation works and continue thereafter.
3. Community labour on road maintenance by the various villages along the road should be encouraged to ensure that the road is passable at all times.

I.3.3. Works-sanitation and drainage works:

- Supply and putting in place of Reinforce concrete culvert ø800mm
- Masonry culvert head (TETE DE BUSE EN MACONNERIE POUR BUSE) 800 mm
- Masonry culvert head (TETE DE BUSE EN MACONNERIE POUR BUSE) 800 mm

I.4-Technical References

If this CCTP provides that the equipment, materials or method of execution must meet certain national or international standards, it is specified that the material, materials or method of execution that complies with other standards will also be accepted if the resulting quality is equivalent to or greater than the specified standard.

Otherwise, reference will be made to the Cahiers des Clauses Généraux of the French Ministry of Equipment.

It will be done, throughout this CCTP, references to the fascicles of the French Common Prescription Book applicable in Cameroon following (this list is not exhaustive):

name Title

Preamble and Fascicle n ° 1: General Provisions to the various types of works

Issue 2: Earthworks

Paper 7: Soil Recognition

Paper n ° 23: Supply of aggregates used in the construction and maintenance of pavements supplemented by the standard NF P 18 101

Paper No. 25: Execution of roadways

Paper No. 29: Construction and maintenance of roadways

Paper n ° 30: Road transport of materials for road construction and maintenance

Paper 31: Edging and gutters in natural stone or concrete, supplemented by AFNOR standard NF T 98 302

Issue 50: Topographic Work

Paper n ° 63: Supply and implementation of unarmed mortars and concretes

Paper 64: Unreinforced masonry work of civil engineering works

Paper 70: Sewerage and related works

However, the other party is entitled to use standards other than those mentioned in this document, provided that they are generally accepted and lead to results of equal or greater quality. These standards must first be submitted for approval by the Project Manager with supporting documents. The Project Manager justifies its decision to accept or reject a standard.

V: ENVIRONMENTAL PROTECTION: carry out environmental impact notice

V.1. SITE INSTALLATION

The contracting party will propose to the Project Manager, before the start of the works, the location of its site facilities and will request by note verbal (site report) its authorization for installation.

The site must be chosen outside sensitive areas, in order to limit brushing, uprooting shrubs, felling trees. In the site installation area, the pruning and felling of trees with a diameter measured at 1m from the ground is greater than 20cm will be done after prior approval of the Prime Contractor.

The site must provide adequate drainage of water over its entire area. The maintenance and washing areas of the machines must be concreted and provide a sump for recovering oils and greases. These maintenance areas should have a slope towards a sump built for the occasion and towards the interior of the platform in order to avoid the flow of the polluting products towards the uncoated grounds.

At the end of the works, the contractor will carry out all the work necessary for the restoration of the premises. The other party will have to fold all his equipment, gear and materials. It will have to demolish any fixed installation, such as foundation, concrete or metallic support, etc. demolish concreted areas, decontaminate the soil if this has been the case, or generally restore the site to its closest possible state to its original state. He may not abandon any equipment or materials on or near the site. For the depositing of demolition materials, the contracting party must obtain the approval of the Contractor's site. The materials are to be covered with a layer of soil, and the site receives adequate drainage to prevent erosion.

After the withdrawal of the material, a report drawn up under the responsibility of the control mission will note the restoration of the site. It must be drawn up and attached to the P.V. from the reception of the work. The payment of the flat rate of withdrawal of the material will be able to be remunerated only with the sight of this P.V. noting the restoration of the site.

V.2. CAREER OPENING, LODGING OR TEMPORARY BORROWING

The contracting partner must request the authorizations provided for by the texts and regulations in force:

- Law 76/14 of July 8, amended and supplemented by Law No. 90/021 of August 10, 1990
- Decree 88/772 of 16 May 1988 amended by decree 89/674 of 13 April 1989
- Decree 90/1477 of 9 November 1990

He will be responsible for all costs, including operating taxes and any compensation to the owner.

In case of need of new borrowing sites, the contracting party must compulsorily request the prior approval of the Project Manager (note verbale recorded in the mandatory site report). The following criteria must be respected:

- distance from the site to at least 30 m from the road,
- distance from the site to at least 1,00 m from a watercourse, or a body of water,
- distance from the site to at least 1 00 m from the dwellings,
- surface to be discovered limited to the strict minimum

- quality trees (at the discretion of the Project Manager) preserved and protected.

Depot areas should be selected in a manner that does not interfere with the normal flow of water and should be protected from erosion. The contracting party must also obtain approval from the supervisor for the deposit areas (mandatory note verbale recorded in the site report).

If the proposed sites, the exploitation method and the planned development do not comply with the environmental directives, the Project Manager will not be able to give its approval and the contracting party must propose other sites, ie modify the exploitation method. , or propose the adjustments in accordance with the directives, without the contracting party being able to claim any compensation whatsoever.

The counterparty will bear all the operating expenses of the borrow pits and in particular the opening and the development of the access tracks, the clearing and the deforestation, the removal of the vegetable grounds or unwanted materials and their deposit outside the limits of the loan, as well as the development work concerning the environmental protection prescribed.

At the end of the works, the Company will perform the work necessary for the restoration of the site. These works include:

- the adjustment of overburden materials and then the adjustment of topsoil to facilitate percolation of water, sodding and planting if prescribed,
- restoration of previous natural flows and development of guard ditches,
- removing the dilapidated appearance of the site by spreading and concealing large boulders,

After restoration in accordance with the regulations, a report will be drawn up and the last settlement can only be settled at the sight of the PV observing the respect of the refurbishment instructions.

V.3. USE OF CAREER, GITE OR LOAN PERMANENT CLASS

The contracting party must request the authorizations provided for by the texts and regulations in force and will bear all the costs relating thereto, including the operating taxes and the possible costs of compensation to the owners.

The other party will ensure during the execution of the works

- the preservation and protection of trees when stacking materials,
- the drainage works necessary to protect the materials put in deposits,
- the conservation of the plantations delimiting the quarry,
- maintenance of access and service roads.

V.4. CONTROL OF VEGETATION

All plant waste will be carefully removed from shoulders, ditches or structures and removed to designated areas in a suitable location away from any dwelling. It is strictly forbidden to burn cut waste on site.

If the burning of waste is authorized in places approved by the Owner, the contracting party must have a tank of 10,000 liters and a watering pump to mitigate the eventualities of spread of fire to villages, homes, to vegetation or growing areas adjoining the site.

Tree felling and pruning operations are exceptional operations. These operations will be carried out after prior agreement of the Project Manager in the following cases:

- trees located in the brush cutter's right-of-way with a diameter measured at one meter above the ground of more than 20 cm: in the event that stump removal can not be carried out (reconstitution of the stump removal holes with the obligatory filling soil), the trees will be cut to the ground (between 5 and 10 cm).
- trees overlooking the area and threatening to fall on the road and block traffic after a tornado. All the branches overlooking the platform will be cut after approval of the Project Manager in a vertical direction passing through the clearing limit.

V.5. LOADING AND TRANSPORTING EQUIPMENT AND MATERIAL MATERIALS

For all transport of materials and equipment, whatever they may be, the contracting party must comply with the regulations in force concerning the restrictions imposed on the weights and dimensions of vehicles and convoys using the public network and in particular:

- the maximum axle load, whether simple or in tandem,
- the dimensions of the vehicles,
- exceptional convoys exceeding the standards must be the subject of a special prior request,
- measures to protect the environment (loss of materials during transport, dust),
- the contracting party must take all the necessary measures to limit the speed of vehicles on the site: installation of traffic signs and flag bearers,
- regularly humidify the traffic lanes in inhabited areas,
- provide for deviations to existing tracks and roads.

The other party must put in place adequate mobile signaling.

V.6. SANCTIONS AND PENALTIES

The contracting party is reminded that article 79 of the framework law No 96/12 of 5th August 1996 provides for a fine of two million (2,000,000) to five million (5,000,000) CFA francs and a term of imprisonment from six (6) months to one (1) year or one of these two sentences only, for any person who has prevented the accomplishment of the controls and analyzes provided for by the said law and / or its implementing regulations.

Article 83 of the No 96/12 Framework Law of 5th August 1996 provides for a fine of five hundred thousand (500,000) to two million (2,000,000) CFA francs and a term of imprisonment of six (6) months to one (1) year or both, for any person who operates a facility or uses a personal property in contravention of the provisions of that Act. In case of recidivism, the maximum amount of penalties is doubled.

Article 88 of the same framework law provides that a company that contravenes or has contravened the law during works or road maintenance works will be excluded for the one-year period from the right to bid.

Any breach of the requirements duly notified in writing (Order of Service) to the company by the inspection mission will also be recorded in the site book. This one can serve as a contractual part in case of disputes in the application of the possible sanctions.

The resumption of work or additional work resulting from non-compliance with the clauses remains the responsibility of the other party.

DOCUMENT N° 06

THE SHEDULE OF UNIT PRICES (*PRICE ENCLOSURE SLIP*)

CONTENT

CHAPTER I GENERAL PROVISIONS

Article 01- General

Article 02- Definition and consistency of prices

Document N° 6

THE SCHEDULE OF UNIT PRICES

Article 01: GENERAL

The prices in this slip include all the constraints imposed on the execution of the work as well as the local conditions that may affect their performance and cost.

The prices include in particular the labor, the supply of material and materials, the rent, the depreciation, the operation and the maintenance of the material, the transport costs of the personnel, the allowances, the agreement of the local residents for the rejection of weeding or removal products and all things necessary for the proper execution of the work.

These prices also include bonuses, insurance and social security charges due to various staff and all local taxes and fees related to good signage on the site.

The Contractor is responsible for accidents of all kinds that would occur and where the presence of the site would be questioned.

Overhead costs applied to all prices are deemed to include the installation of two information panels positioned at each end of the site, as defined by the Project Manager.
