GENERAL RULES OF THE INVITATION TO TENDER

A. General

Article 1: Scope of the tender

- 1.1 The Contracting Authority as defined in the Special Regulations of the invitation to tender hereby launches an invitation to tender for the construction of the works described in the Tender File and briefly described in the Special Regulations.
- 1.2 The bidder retained or the preferred bidder must complete the works within the time- limit indicated in the Special Regulations and which time-limit runs from the date of notification of the Administrative Order.
- 1.2 In this Tender File, the term “day” means a calendar day.

Article 2: Financing

The source of financing of the works forming the subject of this invitation to tender shall be specified in the Special Regulations.

Article 3: Fraud and corruption

3.1 The Contracting Authority requires of bidders and contractors the strict respect of rules of professional ethics during the award and execution of public contracts. By virtue of this principle:

- a) The following definitions shall be admitted:
- i) Shall be guilty of “corruption” whoever offers, gives, requests or accepts any advantage in view of influencing the action of a public official during the award or execution of a contract;
 - ii) Is involved in “fraudulent manoeuvres” whoever deforms or distorts facts in order to influence the award or execution of a contract;
 - iii) “Collusive practices” shall mean any form of agreement between two or among several bidders (whether the Contracting Authority is aware or not) aimed at artificially maintaining the prices of bids at levels not corresponding to those resulting from competition;
 - iv) “Coercive practices” shall mean any form of harm against persons or their property or threats against them in order to influence their action during the award or execution of a contract.
- b) Any proposed award shall be rejected if it is proved that the proposed preferred bidder is directly or through an intermediary, guilty of corruption or is involved in fraudulent manoeuvres, collusive or coercive practices for the award of this contract.

3.2 The Minister Delegate at the Presidency in charge of public contracts may, as a precaution, take a decision of exclusion from bidding for a period not exceeding two (2) years against any bidder found guilty of influence peddling, of conflicts of interest, insider trading, fraud, corruption or production of non-genuine documents in the bid, without prejudice to criminal proceedings that may be brought against him

Article 4: Candidates allowed to compete

4.1 If the invitation to tender is restricted, consultation is addressed to all candidates retained after a pre-qualification procedure.

4.2 Generally, the invitation to tender is addressed to all entrepreneurs, subject to the following provisions:

- (a) A bidder (including all members of a group of enterprises and all sub-contractors to the bidder), in accordance with the funding agreement.
- (b) A bidder (including all members of a group of enterprises and all sub-contractors to the bidder) must not be in a situation of conflict of interest, subject to disqualification. A bidder shall be judged to be in a situation of conflict of interest if he:
 - i) is or was associated in the past with an enterprise (or a subsidiary of this enterprise) which provided consultancy services for the conception, preparation of specifications and other documents used within the scope of contracts awarded for this invitation to tender; or
 - ii) Presents more than one bid within the context of invitation to tender, except authorised variants according to article 17, where need be; meanwhile, this does not prevent the participation of sub-contractors in more than one bid.
 - iii) The Contracting Authority or Project Owner has financial interests in the capital in a way as to compromise the transparency of the procedures of award of public contracts.
- (c) The bidder must not have been excluded from bidding for public contracts.
- (d) A Cameroonian public enterprise may participate in the consultation if it can demonstrate that it is (i) legally and financially autonomous, (ii) managed according to commercial laws and (iii) not under the direct supervisory authority of the Contracting Authority or Project Owner.

Article 5: Building materials, materials, supplies, equipment and authorised services

5.1 Building materials, the contractor's materials, supplies, equipment and services forming the subject of this contract must originate from countries meeting the criteria of origin defined in the Special Regulations of the invitation to tender and all expenditure done within the context of the contract shall be limited to the said building materials, materials, supplies, equipment and services.

5.2 Within the meaning of this 5.1 above, the term "originate" shall designate the place where the goods are extracted, cultivated, produced, manufactured and from where the services originate.

Article 6: Qualification of bidder

6.1 As an integral part of their bid, bidders must:

- (a) submit a power of attorney making the signatory of the bid bound by the bid; and
- (b) Provide all information (complete or update information included in their request for pre-qualification which may have changed in the case where the candidates took part in pre-qualification) requested of bidders in the Special Regulations of the invitation to tender, in order to establish their qualification to execute the contract.

Where necessary, bidders should provide information relating to the following points:

- (i) The production of certified balance sheets and recent turnovers;
- (ii) Access to a line of credit or availability of other financial resources;
- (iii) Orders acquired and contracts awarded;
- (iv) Pending litigations;
- (v) Availability of indispensable equipment.

6.2 Bids presented by two or more associated undertakings (joint-contracting) must satisfy the following conditions:

- (a) The bid must include all the information listed in article 6(1) above. The Special Regulations must indicate the information to be furnished by the group and that to be furnished by each member of the group;
- (b) The bid and the contract must be signed in a way that is binding on all members of the group;
- (c) The nature of the group (joint or several) must be specified in the Special Regulations and justified with the production of a joint venture agreement in due form;
- (d) The member of the group designated as the representative will represent all the undertakings vis à vis the Project Owner and Contracting Authority with regard to the execution of the Contract;
- (e) In case of joint co-contracting, the co-contractors shall share the sums which are paid by the Project Owner into a single account. On the other hand, each undertaking is paid into its own account by the Project Owner where it is joint co-contracting.

6.3 Bidders must equally present sufficiently detailed proposals to demonstrate that they comply with the technical specifications and execution time-limits set in the Special Regulations of the invitation to tender.

6.4 Bidders requesting to benefit from the margin of preference must furnish all the necessary information to prove that they satisfy the eligibility criteria set in article 33 of the General Regulations of the invitation to tender.

Article 7: Visit of works site

7.1 The bidder is advised to visit and inspect the site and its environs and obtain by himself and under his own responsibility, all the information which may be necessary for the preparation of the bid and the execution of the works. The related cost of the visit of the site shall be borne by the bidder.

7.2 The Delegated Project Owner shall authorise the bidder and his employees or agents to enter the premises and the land for the said visit but only on the express condition that the bidder, his employees and agents free the Project Owner, his employees and agents of any responsibility that may ensue and indemnify them if necessary and that they shall remain responsible for any deadly or corporal accident, loss or material damages, costs and fees incurred from this visit.

7.3 The Delegated Project Owner may organise a visit of the site of the works during the preparatory meeting to establishing the bids mentioned in article 19 of the General Regulations of the invitation to tender.

B. Tender File

Article 8: Content of Tender File

8.1 The Tender File describes the works forming the subject of the contract, sets the consultation procedure of contractors and specifies the terms of the contract. Besides the addendum (addenda) published in accordance with article 10 of the General Regulations of the invitation to tender, it includes the following documents:

- Document No. 1. The tender notice;
- Document No. 2. The General Regulations of the invitation to tender;
- Document No. 3. The Special Regulations of the invitation to tender;
- Document No. 4. The Special Administrative Conditions;
- Document No. 5. The Special Technical Conditions;
- Document No. 6. The schedule of unit prices;
- Document No. 7. The bill of quantities and estimates;
- Document No. 8. The sub details of unit prices;
- Document No. 9. Model documents of the contract:
 - a. The execution schedule;
 - b. Model of forms presenting the equipment, personnel and references;
 - c. Model bidding letter;
 - d. Model bid bond;
 - e. Model final bond;
 - f. Model of bond of start-off advance;
 - g. Model of guarantee in replacement of the retention fund;
 - h. Model contract;

Document No. 10. Models to be used by bidders;

- a. Model contract;

Document No. 11. Justifications of preliminary studies; to be filled by the Project Owner or Delegated Project Owner;

Document No. 12. List of first grade banking establishments or financial institutions approved by the Minister in charge of Finance authorised to issue bonds for public contracts to be inserted by the Contracting Authority.

8.2 The bidder must examine all the regulations, forms, conditions and specifications contained in the Tender File. It is up to him to furnish all the information requested and prepare a bid in compliance with all aspects of the said file.

Article 9: Clarifications on the Tender File and complaints

9.1 Any bidder who wants to obtain clarifications on the Tender File may request them from the Contracting Authority in writing or by electronic mail (fax or e-mail) at the Contracting Authority's address indicated in the Special Regulations of the invitation to tender and send a copy to the Project Owner. The Contracting Authority replies in writing to any request for clarification received at least fourteen (14) days prior to the deadline for the submission of bids.

A copy of the Contracting Authority's response, indicating the question posed but not mentioning the author, is addressed to all bidders who bought the Tender File.

9.2 Between the publication of the tender notice including the pre-qualification phase of candidates and the opening of bids, any bidder who feels aggrieved in the public contracts award procedure may lodge a complaint to the Minister in charge of Public Contracts.

9.3 A copy of the complaint should be addressed to the Contracting Authority and to the body in charge of the regulation of public contracts and the chairperson of the Tenders Board.

9.4 The Contracting Authority has five (5) days to react. A copy of the reaction shall be forwarded to MINMAP and the body in charge of the regulation of public contracts.

Article 10: Amendment of the Tender File

10.1 The Contracting Authority may at any moment, prior to the deadline for the submission of bids and for any reason, be it at his initiative or in reply to a request for clarification formulated by a bidder, amend the Tender File by publishing an addendum.

10.2 Any published addendum shall be an integral part of the Tender File, in accordance with article 8.1 of the General Regulations of the invitation to tender and must be communicated in writing or made known by a traceable means to all bidders who bought the Tender File.

10.3 In order to give bidders sufficient time to take account of the addendum in the preparation of their bids, the Contracting Authority may postpone as is necessary, the deadline for the submission of bids, in accordance with provisions of article 22 of the General Regulations of the invitation to tender.

C Preparation of bids

Article 11: Tender costs

The candidate shall bear the costs related to the preparation and presentation of his bid and the Contracting Authority and the Project Owner shall in no case be responsible for these costs nor pay for them whatever the evolution or outcome of the invitation to tender procedure.

Article 12: Language of bid

The bid as well as any correspondence and any document exchanged between the bidder and the Contracting Authority shall be written in English or French. Complementary documents and the forms provided by the bidder may be written in another language on condition that a precise translation into either English or French of the passages concerning the bid is included; in which case for reasons of interpretation, the translation shall be considered to be authentic.

Article 13: Constituent documents of the bid

13.1 The bid presented by the bidder shall include the documents detailed in the Special Regulations of the invitation to tender, duly filled and put together in three volumes:

a. Volume 1: Administrative file

It includes:

- i) all documents attesting that the bidder:
 - has subscribed to all declarations provided for by the laws and regulations in force;
 - paid all taxes, duties, contributions, fees or deductions of whatever nature;
 - is not winding up or bankrupt;
 - is not the subject of an exclusion order or forfeiture provided for by the law in force;
- ii) The bid bond established in accordance with the provisions of article 17 of the General Regulations of the invitation to tender;
- iii) the written confirmation empowering the signatory of the bid to commit the bidder, in accordance with the provisions of article 6(1) the General Regulations of invitation to tender.

b. Volume 2: Technical bid

b.1 Information on qualifications

The Special Regulations list the documents to be furnished by bidders to justify the qualification criteria mentioned in article 6(1) of the Special Regulations of the invitation to tender.

b.2 Methodology

The Special Conditions of the invitation to tender specifies the constituent elements of the technical bid of the bidders especially: a methodological statement on an analysis of the works and specifying the organisation and programme which the bidder intends to put in place or use to execute the works (installations, schedule, Quality Assurance Plan (QAP), sub-contracting, attestation of visit of the site, where necessary, etc).

b.3 Proof of acceptance of conditions of the contract

The bidder shall submit duly initialled copies of the administrative and technical documents relating to the contract, namely:

1. The Special Administrative Conditions (SAC);
2. The Special Technical Conditions (STC).

b.4 Commentaries (optional)

A commentary on the technical choices of the project and possible proposals.

c. Volume 3: Financial bid

The Special Regulations specify the elements that will help in justifying the cost of the works, namely:

1. The signed and dated original bid prepared according to the attached model, stamped at the prevailing rate;
2. The duly filled Unit Price Schedule;
3. The duly filled detailed estimates;
4. The sub-details of prices and/or breakdown of all-in prices;

In this regard, the bidders will use the documents and models provided in the Tender File, subject to the provisions of article 17(2) of the General Regulations of the invitation to tender concerning the other possible forms of guarantees.

- 13.2 If in accordance with the provisions of the Special Regulations of the invitation to tender, the bidders present bids for several lots of the same invitation to tender, they could indicate rebates offered in case of award of more than one lot.

Article 14: Bid price

- 14.1 Except otherwise stated in the Tender File, the amount of the contract shall cover all the works described in article 1.1 of the General Regulations of the invitation to tender, on the basis of the price schedule and the detailed bill of quantities and estimates presented by the bidder .
- 14.2 The bidder shall fill the unit prices and totals of all items on the schedule and bill of quantities and estimates.
- 14.3 Subject to contrary provisions provided for in the Special Regulations and in the Special Administrative Conditions, all dues, taxes and fees payable by the bidder on grounds of the contract or on any other ground, thirty (30) days prior to the submission of the bids, shall be included in the prices and in the total amount of the bid presented by the bidder.
- 14.4 If a price revision/updating clause is provided for in the contract, the date of establishment of the initial price, as well as the price revision/updating conditions for the said price must be specified. This is with the understanding that any contract of duration less than one (1) year shall not be subject to price revision.
- 14.5 All unit prices must be justified by sub-details established in accordance with the structure proposed in document 8 of the Tender File.

Article 15: Currency of bid and payment

15.1 In case of international invitations to tender, the currencies of the bid shall follow the provisions of either Option A or Option B below, the applicable option being that retained in the Special Regulations of the invitation to tender.

15.2 Option A: The amount of the bid shall be entirely made in the national currency.

The amount of the bid, unit prices of the price schedule and the prices of the bill of quantities and estimates are completely made in CFA francs in the following manner:

- a) Prices shall be entirely drawn in the national currency. The bidder who intends to commit expenditures in other currencies for the execution of the works shall indicate in the annex to the bid the percentage(s) of the amount of the bid necessary to cover the needs in foreign currencies, without exceeding the maximum of the three currencies of member countries of the funding institution of the contract.
- b) The exchange rates used by the bidder to convert his bid into the national currency shall be specified by the bidder in an annex to the bid in compliance with the specifications of the Special Regulations. These rates shall be applied for any payment within the framework of the contract so that the retained bidder does not bear any change in the exchange rate.

15.3 Option B: The amount of the bid shall be directly made in the national and foreign currency at the rates fixed in the Special Regulations.

The bidder shall draw the unit prices of the price schedule and the prices of the bill of quantities and estimates in the following manner:

- (a) The prices of inputs necessary for the works which the bidder intends to procure in the Contracting Authority's country shall be in currency of the Contracting Authority's country specified in the Special Regulations and called "national currency";
- (a) The prices of inputs necessary for works which bidder intends to procure out of the Contracting Authority's country shall be in the currency of the country of origin of the bidder or of the currency of an eligible member country widely used in international trade.

15.4 The Contracting Authority may request the bidders to explain the needs in national and foreign currencies and to justify that the amounts included in the unit and total prices and indicated in annex to the bids are reasonable; to this end, a detailed statement of their needs in foreign currencies shall be furnished by the bidder.

15.5 During the execution of the works, most of the foreign currency to be paid as part of contract may be revised by mutual agreement between the Contracting Authority and the entrepreneur in a way as take account of any modification in the foreign currency needs within the context of the contract.

Article 16: Validity of bids

16.1 Bids must remain valid during the period stated in the Special Regulations from the date of submission of the bids fixed by the Contracting Authority, in application of article 22 of the Special Regulations. A bid valid for a shorter period shall be rejected by the Contracting Authority as not being in compliance.

16.2 Under exceptional circumstances, the Contracting Authority may seek the approval of bidders to extend the validity time-limit. The request and the responses that will be given shall be in writing (or by fax). The validity of the bid bond provided for in article 17 of the General Regulations shall equally be extended for a corresponding duration. A bidder may refuse to extend the validity of his bid without losing his bid bond. A bidder who consents to an extension shall not be asked to modify his bid nor shall he be authorised to do so.

16.3 Where the contract does not include a price revision clause and that the period of validity of bids is extended by more than One Hundred and Twenty (120) days, the amounts payable to the bidder retained shall be updated by application of the related formula featuring in the request for extension that the Contracting Authority addressed to bidders.

The updating period shall run from the date of overrun of One Hundred and Twenty (120) days to the date of notification of the contract or the Administrative Order for start of execution of works by the retained bidder, as specified in the Special Administrative Conditions. The effect of updating shall not be taken into account for purposes of evaluation of bids.

Article 17: Bid bond

17.1 In application of article 13 of the General Regulations, the bidder shall furnish a bid bond of the amount specified in the Special Regulations and which bid bond shall be a full part of his bid.

17.2 The bid bond must conform to the model presented in the Tender File; other models may be authorised subject to the prior approval of the Contracting Authority. The bid bond will remain valid for thirty (30) days beyond the original date set for the validity of bids or any other validity time-limit requested by the Contracting Authority and accepted by the bidder, in accordance with the provisions of article 16 (2) of the General Regulations.

17.3 Any bid without an acceptable bid bond shall be rejected by the Tenders Board as not in conformity. The bid bond of associated enterprises must be established in the name of the group submitting the bid and mention each member of the associated grouping.

17.4 The bid bonds of bidders who are not retained shall be returned within fifteen (15) days after publication of the award result.

17.5 The bid bond of the successful bidder shall be released as soon as the latter would have signed the contract and furnished the required final bond.

17.6 The bid bond may be seized:

(a) if the bidder withdraws his bid during the period of validity;

(b) If the retained bidder:

i) fails in his obligation to register the contract in application of article 38 of the General Regulations;

ii) fails in his obligation to furnish the required final bond in application of article 38 of the General Regulations;

iii) Refuses to receive notification of the Administrative Order to commence execution.

Article 18: Varying proposals of bidders

18.1 Where the works can be executed within variable deadlines, the Special Regulations shall specify these deadlines and shall indicate the method retained for the evaluation of the completion deadline proposed by the bidder within the specified deadlines. Bids that propose deadlines beyond those specified shall be considered as not being in conformity.

18.2 Except in the case mentioned in article 18(3) below, bidders wishing to offer technical variants must first assess the basic solution of the Contracting Authority as described in the Tender File and furnish in addition all the information which the Contracting Authority needs for a complete evaluation of the proposed variant, including the plans, calculations, technical specifications, sub-details of prices and proposed construction methods and all other useful information. If necessary, the Contracting Authority will examine only the technical variants of the bidder whose bid is in compliance with the basic solution has been evaluated as the lowest bid.

18.3 When according to the Special Regulations the bidders are authorised to directly submit the technical variants for certain parts of the works, these parts of the works must be described in the technical specifications. Such variants shall be evaluated on their own merit in accordance with the provisions of article 31(2) (g) of the General Regulations.

Article 19: Preparatory meeting to the establishment of bids

- 19.1 Except otherwise stipulated in the Special Regulations, a bidder may be invited to take part in a preparatory meeting which will hold at the date and place indicated in the Special Regulations.
- 19.2 The subject of the preparatory meeting shall be to furnish clarifications and answer any questions which may be raised at this stage.
- 19.3 As much as possible, the bidder is requested to submit any question in a way as to reach the Contracting Authority at least one week before the meeting. The Contracting Authority may not reply to questions received too late. In this case, the questions and answers shall be transmitted according to the methods set in article 19(4) below.
- 19.4 The minutes of the meeting, including the text of the questions asked and the replies given, including questions prepared after the meeting, shall be forwarded immediately to everyone who bought the Tender File. Any modification of documents of the Tender File listed in article 8 of the General Regulations which may prove to be necessary at the end of the preparatory meeting shall be done by the Contracting Authority by publishing an addendum in accordance with the provisions of article 10 of the General Regulations and not through the minutes of the preparatory meeting.
- 19.5 The fact that a bidder does not attend a preparatory meeting for the establishment of bids shall not be a reason for disqualification.

Article 20: Form and signature of bid

- 20.1 The bidder shall prepare an original of the constituent documents described in article 13 of the General Regulations in a volume clearly indicated “**ORIGINAL**”. In addition, the bidder shall submit the number required in the General Regulations, bearing “**COPY**”. In case of discrepancy, the original shall be considered as authentic.
- 20.2 The original and copies of the bid must be typed or written in indelible ink (photocopies shall be accepted in the case of copies) and shall be signed by the person(s) duly empowered to sign on behalf of the bidder, in accordance with article 6(1a) or 6(2c) of the General Regulations, as the case may be. All the pages of the bid containing alterations or changes must be initialled by the signatory (ies) of the bid.
- 20.3 The bid shall be bearing no modification, suppression or alteration unless such corrections are initialled by the signatory (ies) of the bid.

D. SUBMISSION OF BIDS

Article 21: Sealing and marking of bids

- 21.1 The bidder shall seal the original and each copy of the bid in separate envelopes (internal envelopes) by marking on these envelopes “**ORIGINAL**” and “**COPY**”, as the case may be. The envelopes shall then be placed in another envelope which will equally be sealed but which will not give any indication regarding the identity of the bidder.
- 21.2 The external and internal envelopes:
- a) Should be addressed to the Contracting Authority at the address indicated in the Special Regulations;

b) should bear the name and identification number of the project as indicated in the Special Regulations and bear the inscription “**TO BE OPENED ONLY DURING THE BID-OPENING SESSION**” as specified in the Special Regulations.

21.3 The internal envelopes should equally carry the name and address of the bidder in a way as to enable the Contracting Authority return the sealed bid if it is late in accordance with article 23 and 24 of the General Regulations.

21.4 If the external envelope is not sealed and marked as indicated in paragraphs 21(1) and 21(2) above, the Contracting Authority shall not be responsible if the bid is misplaced or opened prematurely.

Article 22: Date and time-limit for submission of bids

22.1 The bids must be received by the Contracting Authority at the address specified in article 21(2) of the Special Regulations not later than the date and time stated in the Special Regulations.

22.2 The Contracting Authority may, at his discretion, postpone the deadline set for the submission of the bids by publishing an addendum in accordance with the provisions of article 10 of the General Regulations. In this case, all the rights and obligations of the Contracting Authority and bidders previously governed by the initial date will henceforth be governed by the new date.

Article 23: Late bids

Any bid received by the Contracting Authority beyond the deadline for the submission of bids in accordance with article 22 of the General Regulations shall be declared late and consequently rejected.

Article 24: Modification, substitution and withdrawal of bids

24.1 A bidder may modify or withdraw his bid after submitting it, on condition that the written notification of the modification or withdrawal is received by the Contracting Authority prior to the end of the time-limit prescribed for the submission of the bids. The said notification must be signed by an authorised representative in application of article 20(2) of the General Regulations. The modification or the corresponding replacement bid must be attached to the written notification. As the case may be, the envelopes must bear the inscription “**WITHDRAWAL**”, and “**REPLACEMENT BID**” or “**MODIFICATION**”.

24.2 Notification of modification, replacement or withdrawal of the bid by the bidder should be prepared, sealed, marked and forwarded in accordance with the provisions of article 21 of the General Regulations. Withdrawal may equally be notified by telex but should in this case be confirmed by a duly signed written notification whose date, post mark being authentic, shall not be posterior to the time-limit set for the submission of bids.

24.3 In application of article 24(1), bids being requested to be withdrawn by bidders shall be returned to them unopened.

24.4 No bid may be withdrawn during the interval between the submission of bids and the expiry of the validity of bids specified by the model tender. The withdrawal of a bid by a bidder during this interval may lead to the confiscation of the bid bond in accordance with the provisions of article 17(6) of the General Regulations.

E. Opening of envelopes and evaluation of bids

Article 25: Opening of envelopes and petitions

- 25.1 The BOYO Internal Tenders Board shall open the envelopes in single phase and in the presence of the representatives of bidders who wish to attend at the date, time and address specified in the Special Regulations. Representatives of bidders shall sign a register attesting to their presence.
- 25.2 Firstly, envelopes marked “**withdrawal**” shall be opened and the contents announced to the hearing of everyone, while the envelope containing the corresponding bid shall be returned to the bidder unopened. Withdrawal shall be allowed only if the corresponding notification contains a valid empowerment of the signatory to request this withdrawal and if this notification is read to the hearing of everyone. Then the envelopes marked “**Replacement bid**” are opened and announced to the hearing of everyone and the new corresponding bid substituted for the preceding one which will be sent to the bidder concerned unopened. The replacement of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the replacement and read to the hearing of everyone. Lastly, the envelopes marked “**modification**” shall be opened and their contents read to the hearing of everyone with the corresponding bid. The modification of the bid shall only be allowed if the corresponding notification contains a valid empowerment of the signatory requesting the modification and read to the hearing of everyone. Only bids which were opened and announced to the hearing of everyone during the opening of bids shall then be evaluated.
- 25.3 All envelopes shall be opened successively and the name of the bidder announced aloud as well as the possible modification mentioned, the price offered, including any rebates [*in case of opening of financial bids*] and any variant, where necessary, the existence of a guarantee of the bid if it is required and any other details which the Contracting Authority deems useful to be mentioned. Only rebates and variants of bids announced to the hearing of everyone during the opening of bids shall be submitted for evaluation.
- 25.4 Bids (and modifications received in accordance with the provisions of article 24 of the General Regulations) which were not opened and read to the hearing of everyone during the bid-opening session for whatever reason, shall not be submitted for evaluation.
- 25.5 Bid-opening minutes are recorded on the spot mentioning the admissibility of bids, their administrative regularity, prices, rebates and time-limits as well as the composition of the Evaluation sub-committee. A copy of the said minutes to which is attached the attendance sheet is handed over to all the participants at the end of the session.
- 25.6 At the end of each bid-opening session, the chairperson of the Tenders Board immediately hands over to the focal point designated by the body in charge of regulation of public contract an initialled copy of the bids presented by bidders.
- 25.7 In case of petition as provided for by the Public Contracts Code, it should be addressed to the Minister Delegate in charge of Public Contracts with copies to the body in charge of the regulation of public contracts, the head of structure to which is attached the Tenders Board concerned.
It must reach within a maximum deadline of three (3) working days after the opening of bids in the form of a letter to which is obligatorily attached a sheet of the petition form duly signed by the petitioner and possibly by the chairperson of the Tenders Board.
The Independent Observer attaches to his report the sheet that was handed to him, including any related commentaries or observations.

Article 26: Confidential nature of the procedure

- 26.1 No information relating to the examination, clarification, evaluation and comparison of bids and verification of the qualification of the bidders and the recommendation for the award shall be given to bidders or to any person not concerned with the said procedure as long as the preferred bidder has not been made public, subject to the disqualification of the bid of the bidder and suspension of the authors from all activities in the domain of public contracts.
- 26.2 Any attempt by a bidder to influence the Tenders Board or the Evaluation sub-committee of bids or the Contracting Authority in its award decision may lead to the rejection of his bid.

26.3 Notwithstanding the provisions of paragraph 26.2 above, between the opening of bids and the award of the contract, if a bidder wishes to enter into contact with the Contracting Authority for reasons having to do with his bid may do so in writing.

Article 27: Clarifications on the bids and contact with the Contracting Authority

27.1 To ease the examination, evaluation and comparison of bids, the Tenders Board may, if it so desires, request any bidder to give clarifications on his bid. This request for clarification and the response thereto are formulated in writing but no change on the amount or content of the bid is sought, offered or authorised, except it is necessary to confirm the correction of calculation errors discovered by the Evaluation Sub-committee during the evaluation in accordance with the provisions of article 30 of the General Regulations.

27.2 Subject to the provisions of paragraph 1 above, bidders shall not contact members of the Tenders Board and the Evaluation Sub-committee for questions related to their bids, between the opening of envelopes and the award of the contract.

Article 28: Determination of compliance of bids

28.1 The Evaluation sub-committee shall carry out a detailed examination of bids to determine if they are complete, if the required guarantees are furnished, if the documents were correctly signed and if generally the bids are in proper order.

28.2 The Evaluation sub-committee shall determine if the bid is essentially in compliance with the conditions fixed in the Tender File based on the content without recourse to external elements of proof.

28.3 A bid that complies with the Tender File shall essentially be a bid that respects all the terms, conditions and specifications of the Tender File, without substantial divergence or reservation. A substantial divergence or reservation is that:

- i) which substantially limits the scope, quality or realisation of the works;
- ii) which substantially limits, contrary to the Tender File, the rights of the Contracting Authority or his obligations in relation to the contract;
- iii) Whose correction would unjustly affect the competitiveness of the other bidders who presented bids that essentially complied with the Tender File.

28.4 If a bid is essentially not in compliance, it shall be rejected by the competent Tenders Board and shall not subsequently be rendered in compliance.

28.5 The Contracting Authority reserves the right to accept or reject any modification, divergence or reservation. Modifications, divergences, variants and other factors which are beyond the requirements of the Tender File shall not be considered during the evaluation of bids.

Article 29: Qualification of the bidder

The Evaluation sub-committee shall ensure that the successful bidder retained for having submitted a bid substantially in compliance with the provisions of the Tender File, fulfils the qualification criteria stipulated in article 6 of the Special Regulations. It is essential to avoid any arbitrariness in determining qualification.

Article 30: Correction of errors

30.1 The Evaluation sub-committee shall verify bids considered essentially in compliance with the Tender File to correct the possible calculation errors. The Evaluation sub-committee shall correct the errors in the following manner:

- (a) where there is an incoherence between the unit price and the total obtained by multiplying the unit price by the quantity, the unit price being authentic, the total price shall be corrected, unless the Evaluation sub-committee judges that it is a gross error of decimal point in the unit price in which case the total price as presented shall be authentic and the unit price corrected.
- (b) If the total obtained by addition or subtraction of the totals is not exact, the sub totals shall be considered authentic and the total corrected.
- (c) Where there is a difference between the price indicated in letters and in figures, the amount in letters shall be considered authentic, unless the amount is linked to an arithmetical error confirmed by the sub-detail of the said price, in which case the amount in figures shall prevail subject to paragraphs (a) and (b) above.

30.2 The amount featuring in the bid shall be corrected by the Evaluation sub-committee, in accordance with the error correction procedure above and with confirmation by the bidder, the said amount shall be deemed to commit him.

30.3 If the bidder who presented the bid evaluated as the lowest refuses the correction thus carried out, his bid shall be rejected and the bid bond may be seized.

Article 31: Conversion into a single currency

31.1 To facilitate the evaluation and comparison of bids, the Evaluation sub-committee shall convert the prices of bids expressed in various currencies into those in which the bid is payable in CFA francs.

31.2 The conversion shall be done using the selling rate fixed by the Bank of Central African States (BEAC) under the conditions defined by the Special Regulations.

Article 32: Evaluation and comparison of financial bids

32.1 Only bids considered as being in compliance, as per the provisions of article 28 of the General Regulations, shall be evaluated and compared by the Evaluation sub-committee.

32.2 By evaluating the bids, the Evaluation Sub-committee shall determine for each bid the evaluated amount of the bid by rectifying the amount as follows:

- a) By correcting any possible error in accordance with the provisions of article 30.2 of the General Regulations;
- b) By excluding projected sums and where necessary provisions for unforeseen occurrences featuring in the bill of quantities and estimates but by adding the amount of works done under State supervision where they are costed in a competitive manner as specified in the Special Regulations.
- c) By converting into a single currency, the amount resulting from the rectifications (a) and (b) above, in accordance with the provisions of article 31(2) of the General Regulations;
- d) By appropriately adjusting any other modification, divergence or quantifiable reservation on technical or financial basis.
- e) By taking into consideration the various execution time-limits proposed by the bidders, if they are authorised by the Special Regulations;
- f) If need be, in accordance with the provisions of article 13(2) of the General Regulations and the Special Regulations by applying the rebates offered by the bidder for the award of more than one lot, if this invitation to tender is launched simultaneously for several lots.
- g) If need be, in accordance with the provisions of article 18(3) of the Special Regulations and the Technical Specifications, the proposed technical variants, if they are permitted, shall be evaluated on their own merit and independently of the fact that the bidder offered or not a price for the technical solution specified by the Contracting Authority in the Special Regulations.

32.3 The estimated effect of price revision formulae featuring in the GAC and SAC applied during the period of execution of the contract shall not be considered during the evaluation of bids.

32.4 If the bid judged the lowest bid is considered abnormally low or strongly unbalanced in relation to the estimates of the Project Owner for the works to be executed in this contract, the Tenders Board may, from the sub-details of prices furnished by the bidder for any element or all the elements of the bill of quantities and estimates, verify if these prices are compatible with the construction methods and proposed calendar. In the case where the justifications presented by the bidder are not satisfactory, the Contracting Authority may reject the bid after the technical opinion of the Public Contracts Regulatory Agency.

Article 33: Preference granted national bidders

National contractors shall benefit from a margin of national preference during the evaluation of bids as provided for in the Public Contracts Code.

Article 34: Award

34.1 The Contracting Authority shall award the contract to the bidder whose bid was judged essentially in compliance with the Tender File and who has the required technical and financial capacities to execute the contract satisfactorily and whose bid was evaluated as the lowest by including, where necessary, proposed rebates

34.2 If, according to article 13(2) of the General Regulations, the invitation to tender comprises several lots, the lowest bid shall be determined by evaluating this contract with other lots to be awarded concurrently, by taking into account the rebates offered by the bidders in the case of more than one lot.

34.3 Any award of contract shall be made to the bidder fulfilling the technical and financial capacities required resulting from the evaluation criteria and presenting the bid evaluated as the lowest.

Article 35: The right by the Contracting Authority to declare an invitation to tender unsuccessful or cancel a procedure

The Contracting Authority reserves the right to cancel a procedure of invitation to tender after the authorisation of the Minister Delegate at the Presidency in charge of Public Contracts where the bids have been opened or to declare an invitation to tender unsuccessful after the advice of the competent Tenders Board, without any claims being entertained.

Article 36: Notification of award of the contract

Before the expiry of the validity of the bids set in the Special Regulations, the Contracting Authority shall notify the preferred bidder by telecopy confirmed by registered mail or by any other means that his bid was retained. This letter will indicate the amount the Project Owner will pay the contractor to execute the works and the execution time-limit.

Article 37: Publication of results of award and petitions

37.1 The Contracting Authority shall communicate to any bidder or administration concerned, upon request addressed to it within a maximum deadline of five (5) days after publication of the award results, the Independent Observer's report as well as the minutes of the award session of the related contract to which shall be attached the evaluation report of the bids.

37.2 The Contracting Authority is bound to communicate the reasons for the rejection of bids of the bidders concerned who so request.

37.3 After publication of the award results, bids that are not withdrawn within fifteen (15) days shall be destroyed, without any claims for compensation being entertained. Only the copy destined for the body in charge of regulation shall be kept.

37.4 In case of petition, it should be addressed to the Public Contracts Authority, with copies to the body in charge of the regulation of public contracts, the Contracting Authority and the chairperson of the Tenders Board concerned.

It must take place within a maximum deadline of five (5) working days after the publication of the results.

Article 38: Signing of the contract

38.1 After publication of the results, the draft contract subscribed by the successful bidder is submitted to the Tenders Board for examination and where applicable, to the Minister in charge of Public Contracts for prior endorsement.

38.2 The Contracting Authority has a deadline of seven (7) days to sign the contract from the date of reception of the draft contract examined by the competent Tenders Board and subscribed by the successful bidder and where applicable, the endorsement of the Minister in charge of Public Contracts.

38.3 The contract must be notified to the successful bidder within five (5) days of its date of signature.

Article 39: Final Bond

39.1 Within twenty (20) days of the notification by the Contracting Authority, the contractor shall furnish the Project Owner with a final bond, to guarantee the complete execution of the works.

39.2 The bond whose rate varies between 2 and 5 percent of the amount of the contract inclusive of all taxes, may be replaced by a guarantee from a banking establishment approved according to the instruments in force with the Project Owner as beneficiary or by a joint or several guarantee.

39.3 Small and medium-sized enterprises (SME) constituted of national capital and managed by nationals may, in lieu of the guarantee, provide a statutory lien or a bond issued by a banking establishment or first rate financial institution approved in accordance with the instruments in force.

39.4 Failure to produce the final bond within the prescribed time limit shall likely cause the termination of the contract under the terms laid down in the General Administrative Conditions.

The corresponding amount will be calculated inclusive of all taxes and the prices will be obligatorily expressed in francs CFA.

The unit Schedule price expressed out in figures and letters and in six (07) copies will be joined to the offer. In the event of error between the prices in figures and letters, the latter will precede and be used as a basis of calculation of the amount of the offer.

The establishment of the prices will be done on the basis of economic condition into force in Republic of Cameroon at the handover date of the offers.

ARTICLE 9: Transport and delivery

The materials for work must be protected during transportation through packaging whether by air, railway or road according as the case may be. The conditions of storage must be of tropical type.

ARTICLE 10: Guarantee and retention guarantee

10.1 Provisional guarantee

The amount of the provisional guarantee or guarantee of tender is fixed at **1 600 000 FCFA (One Million Six Hundred Thousand FCFA)**. As per article 90 (9) of the Public contract Code (Decree No. 2018/366 OF 20 June 2018), certified cheques or bank cheques are acceptable in the place of bid bond.

The time of validity of this guarantee is **Ninety (90) days** as from the date of depositing of the offers.

10.2 Final Bond

The final Bond is fixed at Two percent (2%) of the initial amount of the services envisaged in the country.

It could be replaced by a guarantee personal and interdependent of a banking house approved by the Ministry of Finances following COBAC conditions.

It will have to be made up in the twenty (20) days following the notification of the signature of the contract in a bank approved by the Minister in charge of Finances.

10.3 Guarantee Retention

Guarantee Retention of ten percent (10%) will be operated on amount including all taxes of the contract. The corresponding sum will be paid or the released guarantee, one year after provisional reception of works.

ARTICLE 11: Period of validity of the offers

The bidder will remain committed to his offer for ninety (90) days as from the handover date of the offers.

<< OPEN NATIONAL INVITATION TO TENDER'S NOTICE

N° ___/ONIT/MINAT/SDO/FUNDONG/DTB/PIB/2026 OF **18/03/2026** FOR THE
CONSTRUCTION OF THE DIVISIONAL DELEGATION OF DECENTRALIZATION
AND LOCAL DEVELOPMENT (MINDDEVEL) BOYO

“To be opened only during the bid-opening session”

N.B: The external envelope should not carry any mark or sign that can lead to the identification of the bidder.

ARTICLE 13: Date and latest time of deposit of offers

The offers will have to arrive under closed fold and seal latest **23/034/2026** at 11 AM, by mail registered with acknowledgement of delivery or by deposit against receipt to the following address:
Divisional Delegation of Public Contracts for BOYO situated in Fundong, beyond this time no offer will be received nor accepted.

ARTICLE 14: Opening of the tenders

The opening of the folds will be carried out in the conference room of the SDO office for BOYO situated at FUNDONG on **23/04/2026** as from 12 AM, by the BOYO Tenders Board sitting in the presence of the duly elected bidders or their representatives and having a good knowledge of the file.

AWARD OF THE CONTRACT

ARTICLE 15: Award of the contract

The Tenders Board will propose to the Contracting Authority to award the contract to the bidder who will have presented the offer with the lowest offer, essentially conforming to the regulations of the Tender File and having satisfied to **100% of all the eliminatory criteria and at least 75% of the essential criteria** taken into account.

The decision carrying attribution of the contract will be published by way of press release or any other means of publication in force in the Administration.

If the contract passed on the basis of technical alternative suggested by the bidder, the contracting authority reserves the right to introduce all the provisions there allowing him to guarantee itself against the real overrun costs of the alternative compared to his estimate of origin. In the absence of these last precise details, any additional charge due to an alternative will be inadmissible.

To this end, it is specified that a bidder cannot claim to be compensated, if his offer is not accepted.

The contracting authority reserves the right not to take action on an Invitation to tender, if it did not obtain a proposal which appears acceptable to him.

Pursuant to justification by bidder, bids with unconvincing abnormally low costing will be rejected by the Delegated Project Owner as proposed by the Tenders Board.

Prior to this reject, the bidder must have been requested to produce written justification(s) and that these justifications have been appreciated to be unconvincing.

These justifications will concern amongst others

- The production of detailed pricing, its content and the coherency between the unit price, its mode of realisation and its timing.
- The purchase prices of materials
- The cost of exploitation of equipment
- The wages of technicians and labourers

- comparative advantages or favourable exceptional conditions that the bidder has for the realisation of the works
- measures relative to the condition of works

In the case where these justification(s) is or are not convincing, the Contracting Authority decides but before the reject, he can only decide when the Public Contracts Regulatory Agency (ARMP) must have examined the unconvincing justification(s) and given his opinion in seven (07) working days from the date of receipt of these justifications from the Contracting Authority. *(The Tenders Board requests for justifications, bidder replies by writing, board examines and if not convincing, proposes reject to contracting Authority who decides after consulting ARMP)*

ARTICLE 16: COMMENCEMENT OF WORK:

Before the commencement of works, the contractor must make sure that she respects the elements of maturity of the project especially the location of the structure shown to him during the site visit.

- *Wind: 40 metres per second;*
- *Flood: decennial flood frequency.*

Article 47: Disagreements and disputes (article 79 of the GAC)

Disagreements and disputes resulting from the execution of this contract may be settled amicably.

Where no amicable solution can be found for a disagreement, it is brought before the competent Cameroonian jurisdiction, subject to the following provisions: *[to be filled, where need be]*.

Article 48: Production and dissemination of this contract

In accordance with the provisions of article 125 of Decree No. 2018/366 OF 20 June 2018 of the Public contract Code, *[Ten (10)]* copies of this contract shall be produced by the Delegated Project Owner. Seven of which shall be notified to the contractor for registration.

Article 49 and last: Entry into force of the contract

This contract shall be final only upon its signature by the Contracting Authority. It shall enter into force as soon as it is notified to the contractor by the Contracting Authority.

- XII - ELECTRICITY
- XIII - PLUMBING AND SANITARY WORKS
- XIV - PAINTING AND VANISHING WORKS
- XV - VRD

21. 1 – GENERALITIES/ Scope of Works:

The present Special Technical Specifications define the technical requirements and execution modalities for the construction of a single-storey administrative building in Fundong, the headquarters of Boyo Division, intended to house the Divisional Delegation of the Ministry of Decentralization and Local Development (MINDDEVEL).

The building comprises ten (10) offices, an archives room, two-compartment sanitary facilities, and a meeting room with a seating capacity of twenty-five (25) persons, in accordance with the approved architectural drawings attached to this document.

The works to be executed under this project include, but are not limited to, the following:

- Preliminary works
- Earthworks
- Foundations
- Superstructure (elevation works)
- Roofing works and ceiling installation
- Plastering and rendering works
- Tiling works
- Sealed floor finishes
- Carpentry works and roof covering
- Joinery works (wooden, aluminum and glazed elements), and metal works
- Painting and glazing works
- Electrical installations
- Plumbing and sanitary installations
- Painting and varnishing works
- External development works (VRD)

It is the duty of the contractor to realize the structure as per the execution plans that shall be approved by the competent authority and sample models of equipments and furniture provided by the project owner. Through the Project Engineer, the contractor shall furnish the owner of the project and other project team members within the shortest possible time with an execution plan showing clearly how he intends to run the work site. A fence in local materials shall enclose the whole work site to avoid trespassing.

SIGN-POSTS: The contractor shall put in place at his expense sign-posts indicating work in conformity with the plans put at his disposal by the authority that signed the contract.

Hygiene and safety: The contractor shall ensure total hygiene and security of the site by constructing a temporal pit latrine and putting up a temporal fence around the project site if that be the case.

The contractor shall be responsible for the protection of the structures before final reception. He shall be equally responsible for all tools and materials present at the work site. He shall seek an insurance policy to cover theft and fire incidence.

The contractor shall take all preventive measures against accidents. The owner of the project reserves the right to intervene in case of any emergency without necessary interfering with the responsibilities of the contractor.

The contractor shall verify all dimensions on the plans. For execution no dimension shall be measured with a scale rule from the plans. The contractor shall check in-situ the possibility of translating the dimensions on plans to the structure before work begins. He shall refer to the Project Engineer in case of any doubt. He shall not on his own modify anything on the structure and shall inform the Project Engineer of any changes that he considers necessary.

All modifications accepted by the contractor shall be accomplished in a specified duration and at his cost without modification of the contract amount. The owner of the project shall have the right to the final choice in case of any modification.

2 - **PREPARATORY WORKS – SETTING OUT:** These works concern the clearing of the site and evacuation of the rubbles to the public discharge, the clearing and leveling of the site where necessary. The setting out will be in respect to the technical plans.

The setting out profile boards will be at least 1, 20 m from the outside axes, this to facilitate trenching and other earthworks and good circulation. The commencement of excavation will be accepted by the Project Engineer without checking the conformity of the setting.

The minimal depth of the excavation trenches shall be of 80cm, and depending on the soil bearing capacity. Where there is black cotton soil or soil with low bearing capacity at the bottom of the trench, the contractor shall continue excavation up to a depth as will be approved by the Project Engineer. The excavations will be done manually and no concrete or mortar shall be laid on the bottom of the trench without the acceptance of the trench bottom of excavation by the Project Engineer.

The descriptive notice completes or confirms the indications on the execution plans. In the case of contradictions between the plans and the descriptive notice, the project team shall be contacted for examination, elaboration and conclusion.

These technical specifications have as objective the definition of the consistence of works to be executed in accordance with the plans and according to technical norms for the construction of classroom buildings.

3 – FOUNDATION: Blinding concrete: The base of the foundation trenches shall be stabilized with 5cm of concrete dosed at 150kg/m³

➤ **Separate footing plus foundation walls:**

- The separate footing shall be in reinforced concrete of section 20x30 (or as per indication on the plans) dosed at 350kg/m³.
- The reinforcement shall be stirrups T6 every 20cm +4HA10 main rods
- The foundation walls shall be realized with frog filled sand Crete blocks of section 20x20x40 dosed at 200kg/m³ OR masonry foundation of 25cm thickness

➤ **FLOORING:** The floor shall be of mass concrete of thickness 8cm dosed at 350kg/m³. The floor shall be finished with a cement screed of 4cm thick, dosed at 400kg/m³

The foundation will be filled with earth of good quality in successive compacted layers of 20cm where the fill depth exceeds 30cm. An over-site concrete of thickness 12cm will be laid to cover the whole foundation area at a dosage of 350 kg/m³ over the entire compacted surface.

The floor shall be in cement grout, smoothly trowel finished on a sand screed of 3mm thick.

4 – ELEVATION WORKS: The elevation walls will be in agglomerated hollow blocks of 15 x 20 x 40cm with a good crushing resistance. The mixing for block molding should give at most 32 blocks per bag of cement for blocks of 15x20x40 cm. They should be kept dry for at least 21days before lying on the elevation walls. The reinforced concrete pillars of section 15x15 and 15x30 at 350 kg/m³ will be cast as one raises the agglomerated hollow blocks walls and this is to permit a good adhesion. The characteristic strength of concrete at 28 days should not be less than 16Mpa. For the maximal spacing of the pillars see building plans. The lintels 15 x 20 in reinforced concrete at 350 kg/m³ will be levelled to + 2,20m above the level of the finished foundation. The average height under the ceiling shall be 3,00m.

A binding course of 15 x 20 cm in reinforced concrete at 350 kg/m³ will be laid above the finished level of the agglomerated hollow blocks walls with fixing wires so as to receive the wooden roof truss.

ROOF TRUSS AND THE COVERING:

- **Trusses:** shall be of locally sawn and treated eucalyptus, shall compose of single frame rafters of 5cmx15cmx4m and spaced at 1.50m interval with a king-post of 2m high. These rafters will

be solidly attached to the wall plate with the help of standby beam iron rods also spaced at 1.50m spacing;

- **Purlins and noggins:** shall consist of 5x8cmx4m locally sawn timber from eucalyptus. All structural timber shall be treated with carbonyl. The timber for the *roof work will be of good quality, with the straight grain and free of any defect.*

-**Roofing sheets:** shall be in high rib aluminum sheets (Tôle Bac) of type 6/10mm. The sheets shall be fixed onto the purlins using twisted zinc nails equipped with bituminous rubbers caps.

-**Fascia;** it shall be 40cm wide and 3cm thick and shall be of hard wood. It shall be coated with aluminum sheets.

-**Ceiling-** shall be in cream-white 4mm plywood (Ayous), fastened to noggins of 4cm thick or 5x8 and treated with carbonyl. The noggins shall be spaced 60cm center to center and braced appropriately. Eaves shall be equipped with ventilated pre-cast blocks. An access shall be provided into the loft (ceiling of each classroom). The external ceiling shall be in smooth aluminum sheets (Tôle lisse) nailed to noggins and fastened with wooden ceiling battens.

6 – JOINERY

Doors and Windows:

- Door shutters shall be made of metallic panels fitted with protection bars (vertical Strips), anchored to the wall with appropriate screws, (90X2,20)m hard wooden raise panels fixed on wooden frames and securely anchored to the walls, (90X2,20)m double metallic panels fixed on metallic angle bars securely anchored to the walls. All door shutters shall open to the outside.

-All window openings cm shall be fitted with fixed window protectors cm of vertical striped (metallic)

7 – ELECTRICAL INSTALLATION: The interior facilities (sheaths VGV cables, TH etc...) will be executed according to the norms and the rules concerning electrical installations at the time of the over-site concrete or as the agglomerated hollow blocks walls are being raised. Accessories and luminous elements (sockets, switches etc...) will be of good model. The set of facilities will be joined to a general earth hold.

8 – RENDERING (PLASTERING) AND COATINGS: The wall rendering (thickness at least 2cm cm on both sides of the walls) will be of cement mortar at 400 kg/m^3 . There will be an under-coat layer and a finish layer floated and foamed to finish. They must be well cut horizontally and vertically using a **straight edge**. All walls shall receive a base coat of spatadash before plastering is done.

9 – PAINTING: A layer of impression in ordinary paint will be applied previously on all the walls as priming layer. The interior walls will be painted in water paint (pantex 800). The external walls will be painted in water resistant paint (pantex 1300 type). Colour tinted tubes will be chosen to achieve the desired **magnoliacolour**.

All metal and wood works shall be painted with oil paint - Glyptalresien lacquer, in two coats. A primary coat of antirust before final painting is done. Skirting shall be carried out oil paint at 90cm from the floor, externally and internally with coffee brown colours

10 - OUTSIDE AMENITIES AND LAYOUT PLANNING: Gutters: To be excavated 40cm wide and 30cm deep at the rain drops. The walls of gutters are to be constructed in concrete and the floor well rolled and smoothen out with ordinary cement concrete providing a slope of 10% for the flow of water with an offshoot of at least 3m to the environment.

Prefabricated slabs of one meter twenty (1.20m) wide each shall be provided at the main entrance of the classrooms at right angles.

Steps shall be constructed out of shaped stones at the main entrance to the building at 1,20m wide as the case may be.

Equally, **ramps** of 1,20m cast in-situ of one twenty (1,20m) wide each with edges protected with angle bar of 25mm shall be provided at the entrance of the building for handicaps on wheel chairs or otherwise.

11 -PROTECTION OF THE ENVIRONMENT: The entrepreneur will propose to the Project Engineer, before the beginning of works, the place of his yard facilities and will request his authorization of installation.

The site must be chosen outside of the sensitive zones, in order to limit the site clearing, the extraction of bushes, the setting out of the building and general circulation.

The site must foresee an adequate drainage of waters on the whole surface. The maintenance areas and of washing should be concreted. These maintenance areas should have a slope toward a cesspool provided for the purpose and toward the inside of the platform in order to avoid the out-flow of the polluting products toward the site and the neighborhood.

At the end the works, the entrepreneur will do all necessary works to the restoration of the various places of the site. The entrepreneur should fold all his material, and equipment. He should demolish all stationary installation, as foundation, support made of concrete or metallic, etc. in order to put back the site in its nearest initial state. No equipment nor materials should be abandoned on the site, nor in the vicinity after the execution of all the works. Left-over materials are to be covered with a layer of earth, and the site has to receive an adequate drainage in order to avoid all erosion as the case may be.

12 - ORIGIN, QUALITY AND PREPARATION OF MATERIALS: The fine and coarse aggregates may either be from the river or quarry crushed and must be approved by the Project Engineer before any use on the site. The sand (0/5) shall have very fine elements settlement of less than 4%. The gravels (5/15 or 15/25) shall be clean and well graded with very fine elements settlement of less than 2%. The cement shall be CPA 325 class from CEMENCAM or from an approved factory.

The reinforcement steel for reinforced concrete shall be of type HA FeE400 for the main reinforcement steel rods and round-smooth RL E235 for the stirrup rings. Any fill material for the foundation and the surroundings structures shall have no particle dimension above 50mm and with plasticity index of less than 35. Fill materials shall also be free from organic elements and shall have a good granularity grading. No black vegetable soil shall be accepted for backfilling.

Stones for masonry works shall be of basalt, gneiss or granite type, be esthetical and should be gotten from the quarry or deposits approved by the Project Engineer with dimension sizes of not less than 20cm.

1) CONCRETE:

-**Ordinary concrete:** specifically lean concrete shall be 5cm thick and laid all round the excavated foundation trenches before the stone/block work is carried out and dosed at 150kg/m³.

- **Over-site concrete:** shall be 12cm thick laid on the entire floors and paved area between walls and gutters dosed at 350kg/m³ over the entire surface.

NB: The external veranda shall be 5cm below the level of the internal floor with 2% slope, slopping to the outside.

-**Reinforced concrete:** shall be specifically for pillars, beams damp proof course (DPC), lintels and tie-beams and their mixture shall be in a proportion of 350kg/m³.

NB: All concrete works should be properly cured (i.e. water three times a day for seven days)

NOTE: Reinforcement Schedule.

6	Beams 20x20 and 15x20	4	10mm	6mm	20cm	350kg/m ³	Fe-E-500

NB: All rods should preferably be imported

- **Sand:** Will be free from oxide, organic material of animals or plant origin. Sieving shall vary from 0.08 – 2.5mm for mortar and other resisting surfaces like concrete structure shall vary from 0.16 – 5mm. It shall be river sand and nothing else.

- **Aggregate:** shall consist of natural and homogeneous materials or crushed stones. Tiny layer of grave (dust) shall be removed by sieving, blowing or washing.

- **Water:** To be used for the mixture mortar, concrete and washing of aggregates. Shall be clean and free from impurities; meaning potable water.

- **Cement:** To be used mostly for cement mortar, all concrete mixtures shall satisfy the general conditions laid down by regulation in force. It will be type CPA325 Portland cement and shall not show any trace of uneven mixture. Storage on the building site shall be done on a dry and ventilated floor. Any stock presenting an unsatisfactory pulverulent condition will be discarded and cleared away within four (04) days.

- **Rods:** shall be mild steel reinforcement, Tor or Steel in accordance with the R/C & 3 rules. The steel shall be perfectly clean without any trace of rust, non-adhesive to paint or grease.

- **Shuttering:** hard wood, to bear without any noticeable distortion, the load and pressure of concrete, the effect of vibration and weight of workers involved in setting it up.

- **MASONRY:**

-**Blocks-** Load bearing wall shall be mounted in compressed cement blocks of (15x20x40) cm for load bearing walls of PC300 Kg/m³ (at most 32 blocks per bag of cement). Blocks should show an appreciable degree of resistance to violent pressure.

All blocks shall be cured for at least 21 days before being used.

-**Plastering:** All plastering shall be applied using a trowel, float, straights edges and sponge. Cement mortar mix in a proportion of 400kg/m³ will be used to plaster all previously rejoined areas on all masonry and concrete works, and then thinly floated. The final thickness of the plastering shall not be less (02cm on both sides of the walls). The external walls shall receive a coat of spatadash before plastering is done on it.

-**Screed:** a smooth layer of ordinary cement screed 400kg/m³ (1:2) finish shall be spread on the 8cm concrete floor and the screed shall be 3cm thick.

13 GUTTERS:

To be excavated 40cm wide and 30cm deep at the rain drops and to be provided particularly at the frontage and the two ends of the building as the topography of the terrain is relatively flat. The walls of gutters are to be constructed in concrete and the floor will be rolled and smoothen out with ordinary cement concrete providing a slope of 10% for the flow of water for level surfaces.

15- Wood – Material: The wood must be pure and should not have nodes, foreign bodies or fractures due to sawing. This shall be locally sawn eucalyptus.

Document No. 6:
Schedule of unit prices

Article 1: General Provisions

This preamble forms an integral part of the method for evaluating the works and is deemed to supplement the definition of each unit price in the Bill of Quantities.

1. Scope of Unit Prices and Obligation of Results

The description of each unit price generally identifies the portion of the building works concerned and not the detailed operations to be carried out by the Contractor. The Contractor is subject to an obligation of results.

To this end, the Contractor shall provide all human, material, and technical resources deemed necessary for the proper execution of the works, without entitlement to any additional payment. Consequently, the Contractor may not submit any claim based on execution difficulties or unforeseen constraints, except in cases of force majeure duly recognized.

The unit prices include all activities necessary for the complete execution of the works concerned, including all adjustments, corrections, and finishing works required to achieve full compliance with the specifications.

2. Content of Unit Prices

Each unit price remunerates all constraints required for the execution of the works in accordance with the quality and technical requirements defined in:

- the General Conditions of Contract (GCC);
- the Special Administrative Conditions (SAC);
- the Special Technical Specifications (STS / CCTP);
- the approved drawings and execution documents.

3. Knowledge of Site Conditions

The Contractor is deemed to have full knowledge, before submitting its bid, of all conditions and constraints relating to the proper execution of the building works, including but not limited to:

- the nature, bearing capacity, and quality of soils and terrain;
- access conditions to the site and internal circulation constraints;
- climatic conditions of the project area;
- availability and operating conditions of quarries, suppliers, and material deposits;
- laws and regulations relating to environmental protection;
- laws and regulations relating to hygiene, health, and safety on construction sites.

Any work or service necessary for the proper completion of the building that is not covered by a specific unit price or not explicitly mentioned in the description of a price is deemed to be included in the other prices of the contract, either as a direct cost or under site overheads.

4. Costs Deemed Included in Unit Prices

Unless remunerated by a specific item, unit prices include in particular:

- all taxes, duties, fees, and levies borne by the Contractor under the applicable tax regime;

- labor costs, including wages, social charges, insurance, and all obligations arising from labor laws and safety regulations;
- supply, transport to site, handling, storage, and use of all materials required for the works (cement, aggregates, steel, timber, formwork, paints, fixtures, fittings, fuels, lubricants, consumables, etc.), regardless of their origin;
- transport costs not covered by a specific unit price;
- costs of surveys, setting-out, shop drawings, execution studies, calculation notes, material take-offs, and as-built drawings;
- costs of tests and controls, including soil tests, concrete tests, material tests, laboratory analyses, trial mixes, and quality control required by the specifications;
- costs related to site installation, temporary facilities, access arrangements, water and electricity supply for works, site security and guarding;
- costs of mobilization and demobilization of personnel, equipment, and materials;
- costs related to protection of existing structures, utility networks, and neighboring properties, including any required relocation or safeguarding measures;
- costs of removal of temporary installations, evacuation of surplus materials, and reinstatement of the site and its surroundings upon completion of the works;
- costs related to compliance with environmental, safety, and social requirements defined in the contract documents;
- costs related to warranty and maintenance obligations during the defects liability period;
- all incidental expenses necessary to ensure proper execution and conformity of the works;
- general overheads, including site overheads, head-office expenses, insurance, guarantees, financial charges, contingencies, and contractor's profit.

5. Quantities and Measurements

The quantities indicated in the Bill of Quantities are provided for bid comparison purposes. Only quantities actually executed and approved by the Project Manager, based on jointly established measurement records, shall be eligible for payment. Payment of works subject to quality or performance tests is conditional upon full compliance with the contractual specifications.

Any increase in quantities resulting from unapproved modifications initiated by the Contractor shall remain entirely at the Contractor's expense.

6. Basis of Payment

Quantities to be paid shall be those defined in the approved execution drawings prepared by the Contractor or, where applicable, those ordered by the Project Manager through written instructions.

Payment shall be made only after validation of jointly agreed measurement records confirming the proper execution of the works.

7. Measurement Rules

No allowance shall be made for shrinkage, swelling, settlement, or construction tolerances when determining quantities. Measurements shall be based on theoretical dimensions as defined in the approved drawings.

8. Tolerances

Excess quantities within permissible tolerances shall not be paid. Deficient quantities within tolerances shall be deducted from payment.

9. Non-Conforming Works

Works executed outside acceptable tolerances are, as a rule, rejected. However, the Project Manager may exceptionally accept such works with a reduction in the applicable unit price, which shall not be less than thirty percent (30%).

10. Applicability of Unit Prices

Unit prices apply to all building works regardless of their location within the site, execution conditions, or quantities carried out.

They include all constraints related to confined areas, working at height, works adjacent to existing buildings, utility connections, and similar conditions.

Schedule of unit prices

N°	DESIGNATION	UNITE	UNITE PRICE IN FIGURE	UNITE PRICE IN WORDS
I	PRELIMINARY WORKS			
101	Land demarcation			
	This price enumerates the process of Demarcation of the project site by a qualified surveyor from MINCAF including boundary identification, placement of beacons/pegs, measurements, reports, and all related expenses.	ENS		
102	Site installation including mobilization and demobilization			
	This price enumerates the Mobilization and demobilization of personnel, equipment and materials; installation of site facilities (temporary office, storage, security, signage), utilities, and final site clearance at completion. Connection to AES-SONEL (electricity) and CDE (water supply), including all administrative fees, subscriptions, meters, external and internal connection works, materials, labor, testing, commissioning, and any related expenses required for full service availability, and all constraints included.	ENS		
103	Geotechnical studies			
	This price enumerates the Execution of geotechnical investigations including soil tests, concrete mix design, crushing and laboratory tests, analysis, reports, and recommendations required for structural design and all constraints included.	ENS		
104	Setting out of the structure and execution design			
	This price enumerates the Setting out of the building using topographic surveys, control points, axes, levels, preparation of execution drawings,			

	and continuous verification during construction and all constraints included.			
II	EARTHWORKS			
200	Levelling of the platform			
	This price takes care of Clearing, cutting, filling, levelling and compaction of the platform to required dimensions and levels, including disposal of surplus material and all constraints included.	m2		
201	Excavation in pits and trenches for foundations			
	This price enumerates the Excavation in all types of soil for foundation pits and trenches, including trimming, shoring if necessary, dewatering, and disposal of excavated material.	m2		
A	STRUCTURAL WORKS (GROSS WORK)			
III	FOUNDATIONS			
300	Blinding concrete (5 cm thick, 200 kg/m³)			
	This price enumerates the Supply, mixing, placing and curing of blinding concrete 5 cm thick, including surface preparation and all incidental works and all constraints included.	m3		
301	Reinforced concrete (350 kg/m³)			
	This price enumerates the Supply, cutting, bending and placing of reinforcement; formwork; pouring, vibrating and curing of reinforced concrete for footings, column starters, ground beams and stair base and all constraints included.	m3		
302	Masonry in 20×20×40 cm hollow blocks (filled)/Cave stones			
	This price enumerates the Supply and laying of hollow concrete blocks with mortar and filling of cores with concrete and all constraints included.	m2		
303	Backfilling with compacted soil or sand			
	This price enumerates the Backfilling around foundations with selected	m3		

	material in layers, watering and mechanical compaction to required density and all constraints included.			
304	Floor slab (7 cm thick, lightly reinforced)			
	This price enumerates the Construction of reinforced concrete floor slab 7 cm thick, including reinforcement (6 RL), formwork, concrete placing, finishing and curing and all constraints included.	m3		
IV	SUPERSTRUCTURE (ELEVATION)			
400	Masonry in 15×20×40 cm hollow blocks (filled)			
	This price enumerates the Supply and laying of 15 cm thick hollow blocks with mortar, reinforcement and filling as specified and all constraints included.	m2		
401	Masonry in 10×20×40 cm hollow blocks (filled)			
	This price enumerates the Supply and laying of 10 cm thick hollow blocks with mortar, reinforcement and filling as specified and all constraints included.	m2		
402	Reinforced concrete (columns, lintels and beams)			
	This price enumerates the Construction of reinforced concrete columns, lintels and beams including formwork, reinforcement, concrete placement, vibration and curing and all constraints included.	m3		
V	ROOF FRAME – ROOFING – CEILING			
500	Roof trusses in 3×15 cm treated timber			
	This price enumerates the Supply, treatment and installation of timber roof trusses, including fixing accessories and bracing and all constraints included.	m3		
501	Purlins and rafters in 4×8 cm treated timber			
	This price enumerates the Supply, treatment and installation of purlins and rafters including cutting, fixing and alignment.	m3		

502	Pre-painted aluminium roofing sheets (0.6 mm)			
	This price enumerates the Supply and installation of aluminium roofing sheets including overlaps, fasteners, cutting and waterproofing and all constraints included.	m2		
503	Ridge sheets (40 cm wide)			
	This price enumerates the Supply and installation of aluminium ridge sheets including fixing and sealing and all constraints included.	ml		
504	8 mm plywood ceiling			
	Supply and installation of 8 mm plywood ceiling including timber joists (4×8 cm), battens, cover strips and all finishing works and all constraints included.	m3		
B	FINISHING WORKS (SECOND FIX)			
VI	PLASTERING			
600	External plastering (2 cm thick)			
	This price enumerates the Execution of double-layer external plaster in CPJ 35 cement mortar dosed at 350 kg/m ³ , including surface preparation and curing, and all constraints included.	m2		
601	Internal plastering (2 cm thick)			
	This price enumerates the Execution of double-layer internal plaster in CPJ 35 cement mortar dosed at 350 kg/m ³ , including finishing and curing and all constraints included.	m2		
VII	TILLING			
	FLOOR FINISHES			
700	50×50 cm vitrified ceramic floor tiles			
	This price enumerates the Supply and installation of vitrified ceramic tiles including adhesive, alignment, joints and cleaning and all constraints included.	m2		
701	5×5 cm ceramic tiles for toilet floors			

	This price enumerates the Supply and installation of ceramic tiles for sanitary floors including waterproofing and jointing and all constraints included.	m2		
	WALL FINISHES			
702	15×15 cm wall tiles for toilets			
	This price enumerates the Supply and installation of ceramic wall tiles including adhesive, joints and finishing and all constraints included.	m2		
703	Granito skirting			
	This price enumerates the Supply and installation of granito skirting including polishing and finishing and all constraints included.	ml		
705	French ceramic floor tiles			
	This price enumerates the Supply and installation of French ceramic tiles including adhesive and finishing , and all constraints included.	m2		
VIII	MIXED JOINERY (WOOD, METAL AND ALUMINIUM)			
800	Hardwood panel doors on metal frames			
	This price enumerates the Supply and installation of hardwood doors on metal frames including locks, hinges and accessories (P1, P2 sizes) and all constraints included.	U		
801	Semi-glazed metal doors			
	This price enumerates the Supply and installation of semi-glazed metal doors including locks, aluminium frames and security grilles (P1, P2 sizes) and all constraints included.	U		
802	Padded isoplane doors			
	This price enumerates the Supply and installation of padded isoplane doors on metal frames including locks and accessories, and all constraints included.	U		
803	Aluminium-frame windows			
	This price enumerates the Supply and installation of glazed aluminium windows including fittings and sealing (F1, F2, F3 sizes), and all constraints included.	m2		

804	Security grilles			
	This price enumerates the Supply and installation of anti-burglary metal grilles including fixing accessories ,and all constraints included.	m2		
IX	ELECTRICAL INSTALLATION			
900	Conduits and electrical provisions			
	This price enumerates the Supply and installation of conduits, sleeves, junction boxes, switch boxes, distribution boards and accessories, and all constraints included.	ENS		
901	Electrical wiring			
	This price enumerates the Supply and installation of electrical cables (TH, VGV) for lighting, sockets and appliances including accessories and connections, and all constraints included.	ENS		
902	Electrical equipment			
	This price enumerates the Supply and installation of sockets, switches, light fittings, distribution board, breakers, fire detectors, sanitary wall lights and all accessories, and all constraints included.	U		
903	Earthing system			
	This price enumerates the Supply and installation of complete earthing system including earth rod, copper bars, grounding cable and connections, and all constraints included.	U		
X	PLUMBING – SANITARY INSTALLATIONS			
1000	Septic tanks and soakaway pits			
	This price enumerates the Construction of septic tanks and soakaway pits for 20 users including chambers, piping and all associated works, and all constraints included.	ENS		
1001	Sanitary fittings
